Employment Opportunities and Procedures Discussed

Janet Whitehead talks to students.

Lab Team Advises June HS Graduates

Even though "Dress Down" was the order for the day at Bellport HS last Friday, the seniors were told to "Dress Up" when applying for a job.

Lawrence Paisley, guidance director, told the team of BNL staff members who came to the School to instruct the seniors in the proper way to apply for a job, that "Dress Down" was a school tradition on one day of each year.

Janet Whitehead, employment supervisor, who headed the team was assisted by Rick Villacara, personnel representative, and Mrs. Ella MacLean of Photography, a resident of the school district.

The purpose of the team was to instruct the students in the proper way to apply for a job. Areas covered included availability of jobs for those who were not going to college; what an employer looks for in an applicant; and how to fill out an application.

Rick Villacara addresses HS group.

After a short formal presentation, the 50 students formed small groups and discussed very practical matters such as how to dress, what to do when arriving at an employment office, and what attitudes should be expressed.

"It is very important" said Villacara," to stress all of the activities participated in while at school. The average student has little credential for an application, and should concentrate on telling what clubs he was in, or what awards he won. All

Mrs. Ella MacLean discusses job openings.

these things show an attitude to the prospective employer."

Janet Whitehead said that the program would include visits to Center Moriches HS, Longwood HS and William Floyd HS as well as Bellport. The aim of the team is to reach minority groups that might be economically disadvantaged.

TIAA-CREF Changes Permitted This Month

Each May, participants in the AUI Retirement Plan are allowed to change the apportionment of their premiums applied to TIAA and CREF. Each change, which affects the retirement contributions made by AUI as well as those by the employee, must be requested prior to June 1, and will be effective July 1. Change forms are available at Personnel Services.

Those who have previously applied all premiums to TIAA, the fixed annuity, may have up to 75 percent of future premiums applied to CREF, the variable annuity. Participants may also reduce or terminate premiums being applied to CREF and increase their TIAA premiums accordingly.

Current CREF participants will be interested to know that the value of the CREF accumulation unit rose to an all-time high of $43.12 last month. This is an increase of some 18% over the December unit value which was reported on the annual statements received last March.

Film Festival Shows Brookhaven Spectrum

On Friday, May 12, the American Film Festival held its 9th Annual Awards Dinner at which trophies were presented to winners in various categories of Educational Films.

BNL's *Brookhaven Spectrum* was one of twelve finalists in the judging for first place in the General Science category. The award went to a film made by Sterling Educational Films titled *The Noisy Underwater World of the Weddell Seal.*

Over 800 films were entered in the festival, and more than 500 were eliminated before the final judgment.

The *Brookhaven Spectrum,* has been distributed all over the world by the U.S. Information Agency, and is available for local showings through the BNL Motion Picture Film Library. Arrangements for showing the film may be made by calling Mrs. Maria Tasso, Extension 2327.

Submarine Officers Train At BNL Medical Center

The current class of the U.S. Navy's Submarine Medical School at New London, Connecticut are in session at BNL for the week of May 15, 1967. Twelve active-duty Navy Medical officers are attending a five-day course in "Radiobiology for Submarine Medical Officers." Tours of radiation facilities, as well as practical exercises in radiation measurement and calculation, are scheduled.

The training course will be conducted by Naval Reserve officers who, as civilians, are members of the BNL staff. Capt. Victor P. Bond, Associate Director, will be in charge of the course and will be assisted by Cdr. Leonard A. Baker, Jr., Manager of Safety Services. These reserve officers will be on temporary active duty during this period. Other members of the Laboratory staff will be utilized as instructors.

Camp Upton Ghost Still Haunts BNL

"Brookhaven is a city – a complete urban organism – a specialized one, but none-the-less a city," said Tician Papachristou, architect from the firm of Marcel Breuer and Associates.

"It also has the common characteristic of having aspects of urban blight. We found a strong physical legacy from the past. Camp Upton is still very much alive."

The final report of a site plan for future growth and modernization, resulting from a study completed during the past year, by the Breuer firm was presented to the principal staff last Thursday in the Lecture Hall. Papachristou, who made the presentation, was introduced by Clarke Williams, Deputy Director.

Williams noted that the architects were commissioned to make impartial recommendations for a harmonious, esthetically pleasing arrangement of facilities to take advantage of the natural beauties of the site rather than to design buildings.

Williams said, "I think everybody has to understand that any plan for site use is not a rigid thing. On the other hand, if you try to develop a site without a plan, you will end up with something pretty gruesome."

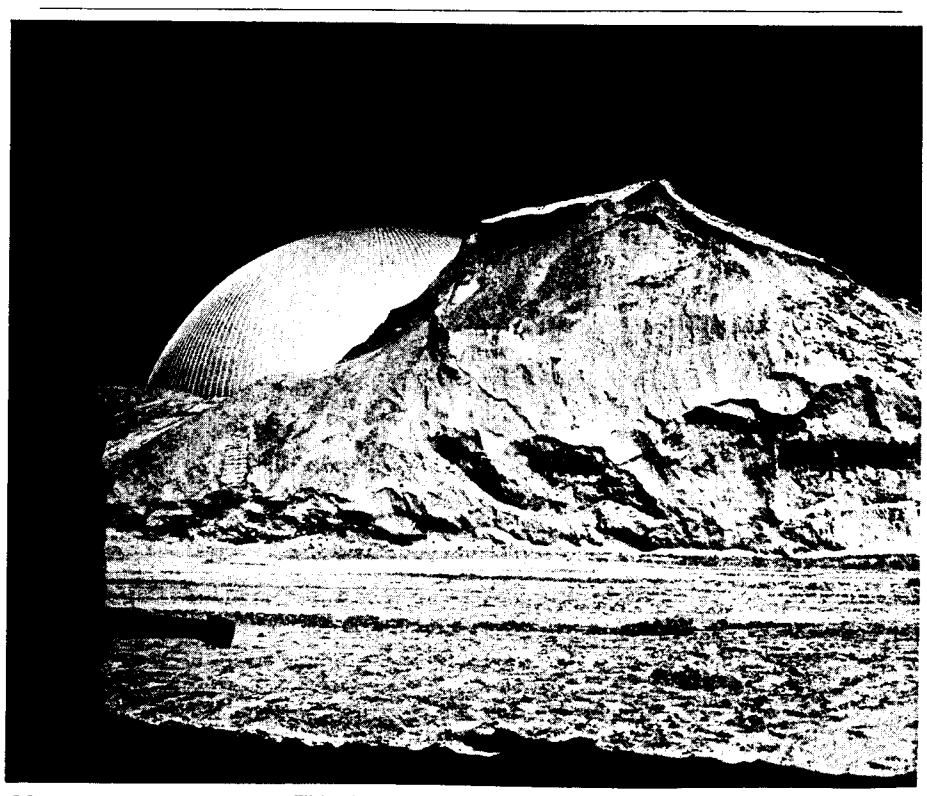
The proposed plan would take advantage of the natural surroundings as well as the arrangement of the present major buldings. Papachristou pointed out that existing patterns of streets must be respected to a great extent because of utility lines. The green belt that surrounds the Lab is an asset most cities do not have. Another asset is the large amount of parking space.

Entrance to the Lab does not pose a serious problem, but exit roads must be improved. It is proposed that Upton Road be widened and re-surfaced, Railroad Avenue be made a four-lane arterial road, and a new access be made from Long Island Expressway to join up with Upton Road.

Feeder roads to these main roads would be developed as changes were made to the "downtown" area along Brookhaven Avenue from the Cafeteria east to Personnel.

The over-all plan as proposed by Papachristou calls for changes to be made on a continuing basis for the next fifteen years. Eventually, he envisions a central mall in the "downtown" area surrounded by the major permanent buildings.

(Continued on Page 2)



Moonscape? Lunar Probe? . . . This photograph taken by Mort Rosen of Photography and Graphic Arts, was made during the course of a regular assignment. Can you spot the location of this scene?

Camp Upton ...

(Continued from Page 1)

Some of the work of implementing this plan has already been done. Old buildings at 60 Brookhaven Avenue have been demolished, and the recently renovated Personnel Building has had new plantings and paved parking areas.

Max Small, head of Plant Engineering and Planning will match this proposed architect's conception to an engineering study.

"All aspects will be considered," he said, "besides the utilities we must do some 'people planning' and allow for such things as mail delivery, traffic flow, and all the other things that make such a plan practical."

Before the end of this calendar year, the Master Plan will be revised to incorporate these studies for future implementation.

THE NEW 1967 NATIONAL DRIVERS TEST

TUESDAY, MAY 23RD, 10-11 P. M., EDT
ON THE CBS TELEVISION NETWORK

Nearly 80 million viewers have watched the National Drivers Test the past two years – making it the most popular public service program ever carried on a single TV network.

Now an all-new National Drivers Test for 1967, timed for the week before Memorial Day, will provide one more hour in your life to check your ability at the defensive driving we face today.

Compare your answers with those of a studio audience of motorists, with friends' and family scores, and with correct answers provided by expert drivers.

Note the date on your calendar **now**; check the local time and channel number in your newspaper or TV guide.

Fill in blanks with T or F (True or False), Y or N (Yes or No), A, B, C or D (multiple choice), or appropriate word. Opinion questions are not scored.

21st AEC Metallography Group Meeting at BNL

Metallographers from the various AEC sites and prime contractors throughout the country were brought together at Brookhaven for the 21st AEC Metallography Group Meeting on May 10-12, under the chairmanship of Jerome Sadoffsky, Metallurgy.

Talks during the session dealt with new techniques and equipment and covered both optical and electron microscopy of radioactive and non-radioactive metals.

The entire group has undertaken a thorough evaluation of mettalographic mounting materials. This treatise will be published later this year and will be available to both AEC and industrial laboratories.

A tour of Brookhaven facilities was included in the group's itinerary. Under rather wet Thursday afternoon skies they visited the Hot Laboratory, the Metallurgy Hot Cells, the HFBR and the Metallurgy and Materials Science Department.

To Talk at Univ. of Chicago

On May 25, Cavid Erginsoy will give a colloquium talk in the Physics Department of the University of Chicago entitled "Passage of Energetic Charged Particles in Crystal Lattices." Dr. Erginsoy is a member of the BNL Physics Department.

Cooking Exchange Club

The Cooking Exchange Group will hold a meeting on Thursday, May 25, from 3 to 5 p.m. at the Recreation Building in the Apartment Area. There will be a charge of 50 cents per person.

Brookhaven Lecture Series

Wednesday, May 24, 8 p.m., Lecture Hall

Looking at Matter With Particles

Harry Palevsky

Physicists have been concerned from the beginning with the nature of matter. We can observe some macroscopic properties of matter by our ability to see, but when we ask about the nature of matter on a submicroscopic-building block scale, we have to rely on other means than our own senses.

At Brookhaven we have devised methods to use neutrons to study the structure and motions of the individual building blocks (atoms and molecules) that make up bulk matter, i.e. solids, liquids, and gases. By a generalization of the same approach, we have recently been able to study the building blocks (nucleons) that make up the atomic nucleus.

A buffet supper will be served at the Brookhaven Center before the lecture from 6 to 8 p.m. Reservations should be made in advance by calling Extension 2453 before 5:00 p.m. on May 24. Refreshments will be available in the Exhibit Hall after the lecture.

The above picture was taken at a party of the Instrumentation and Health Physics Department on May 4th, at which 20-year awards were presented to (Left to right, rear) Robert Dvorak, G.R. Perry, Lee Gemmell, and Budd Pollock. In front (Left to right) Douglas Clareus, Dr. Horner Kuper, who made the awards; and Fred Cowan.

Letters To The Editor

Dear Sir:

Eight years ago BERA sold a number of Kidde 2½-pound dry chemical fire extinguishers. I bought one and installed it near our kitchen in a special closet having a glass window that permits viewing the pressure gauge on the extinguisher without having to open the closet door. I check the pressure whenever I go by, which is several times a day. Because the pressure has always remained high, I assumed that the extinguisher was always ready for instant use.

However, our neighbor's house across the street recently caught fire, and in attempting to help him put it out I found that the chemical in this extinguisher had apparently become caked so that only less than about 5% of it could be released. Moreover, I wasted what seemed like about 20 seconds in trying to figure out whether to pull the "safety" pin out or push it in and then in trying to free it, pull it out, and force the discherge lever down after I realized that this was what was required.

As a result of this experience, after this extinguisher has been recharged I plan to discharge it at least once a year in a drill in which my family will take turns using it. I hope by this means to promote familiarity with the device and insure that the chemical will not have caked in the meantime.

Many employees also bought similar extinguishers when I did. If they have never had occasion to use them, I suggest that they try them out now. While it is doubtful that this house could have been saved by the time I got there (which was still before the fire department arrived), it is nevertheless frustrating to be so ineffective at an early stage in a fire when every second is important. L.G. Stang, Jr.

BNL Bowlers at Awards Evening

Approximately 300 bowlers and their guests enjoyed their final get-together of the current season. It was a night that found Doug Humphrey a busy boy with a camera. Guest presenters were R.C. Anderson, J. Washburne and R. Fuchs. Managers of the local bowling establishments were pressed into duty to present table awards.

Our friend, Emory Egler, introduced the members of the Executive Board that served with him during his term as President. They included Vice-President Lew Jacobson, Treasurer Fred Hohmann and Secretary Pat Towey. Awards presentations were handled ably by Emory and Fred, ably assisted by Messrs. Anderson, Washburne and Fuchs and, of course, George Sabine, who always handles these affairs so capably.

We did have one unexpected event during the evening. Newlyweds appeared to share their happiness with their friends. Mr. and Mrs. Louis Caisey were showered with good wishes. You don't know the Caisey's? Remember her as Helen Jefferson of the Budget Office in Administration? I thought so.

There were a good number of table awards and door prizes followed by a buffet and I would like to believe that everyone had a good night. If you would like to join us in an evening of dancing and a lot of etc's next year, why not plan now to become one of our ranks as a bowler next year. We would love to have you.

Listed below are the winners in all categories. —Pat Towey

Blue League

First Place - E.A.O. Floorwalkers - Captain: Eugene Tirpak, Frank Abbatiello, Ken Robins, George Speidell, Steve Schutter, Bernie Stepnoski

Second Place - Sleepers - Captain: Joe Lypecky, Ron Dobert, Bob Meier, Ed Meier, Hank Ferrantello

High Average - Jim Lee (Rat Finks)

High Scratch Series-High Gross Series - Ed Meier (Sleepers)

High Gross Series - Ted Erickson (Bubble Boys)

High Scratch Game - Bernie Stepnoski (Floorwalkers)

High Gross Game - Charles Kibby (Team "A")

Most Improved Bowler - Lee Hjarne (Under Dogs)

High Team Gross Series - Bubble Boys - 3103 - Captain Nils Anderson

Red League

First Place and Men's All League Champions - Five Excuses - Captain: Gerald Warner, Andrew Quattrochi, Fred Ligon, Frank Campbell, John Richter, W. Tuthill, Kenneth Riker

Second Place - Ah So - Captain: Ed Rutan, Emergy Egler, Joseph Allinger, Robert Loper, William Walker, Robert DeGregorio

High Average - Joseph Allinger (Ah So)

High Scratch Series-High Gross Series - Arthur Beckwith (Fabricators)

High Gross Series - Julius Milau (Bar Flies)

High Scratch Game-High Gross Game - B. Fox (Chug-A-Mugs)

High Gross Game - Bill Kristiansen (Dimwits)

Most Improved Bowler - Fred Ligon (Five Excuses)

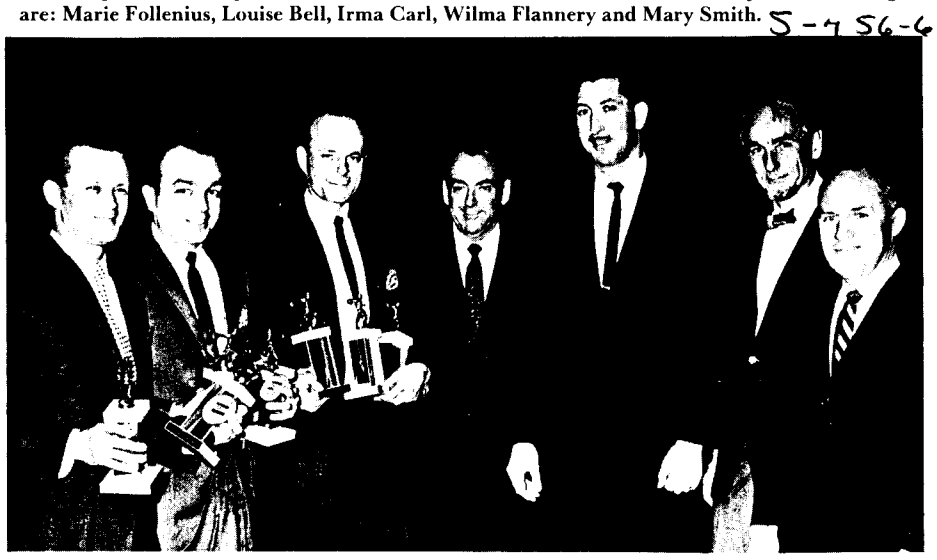
High Team Gross Series - Bar Flies - 3134 - Captain Jerry Weiss

Black and Blue League

First Place - Kingpins - Captain: John Van Norman, Nancy Van Norman, Terry Wessel, Robert Wessel

S-753-67

The Pinsplitters, Champions of the Women's Division, are shown with their trophies. Left to right are: Marie Follenius, Louise Bell, Irma Carl, Wilma Flannery and Mary Smith. S-756-67



Men's Division Bowling Champs, the Five Excuses, had two bowlers excused when this picture was taken. Left to right, John Richter, W. Tuthill, J. Warner of the winning team, and Joseph Washburne, Personnel Director; Lew Jacobson, Bowling Board; R.C. Anderson, Director of Scientific Personnel; and Robert Fuchs, president of BERA.

High Average - Frank Walsh (Humpty-Dumpties), Jane Persson (Playmates)

High Scratch Series - Lew Jacobson (Playmates), Christine Ulreich (Choppers)

High Gross Series - John Van Norman (Kingpins), Nancy Van Norman (Kingpins)

High Scratch Game - Patricia Walsh (Humpty-Dumpties)

Most Improved Bowler - George Barton (Strike-Breakers), Honor Dexter (Strike-Breakers)

High Team Gross Series - Playmates - 2449 - Captain Ralph Persson

Pink League

First Place - Diamonds - Captain: Arden Neber, Pat Mitlehner, Dottie Donlon, Joan Weigand

High Average-High Scratch Series - Dorothy Dioguardo (Medigals)

High Scratch Series-High Gross Series - Pat Oster (Fizzles)

High Gross Series - Brita McGonigle (Medigals)

High Scratch Game-High Gross Game - Anna Kirkpatrick (Medigals)

High Gross Game - Joan Weigand (Diamonds)

Most Improved Bowler - Brita McGonigle (Medigals)

High Team Gross Series - Fizzles - 2408 - Captain Josephine Gazzola

Rose League

First Place and Ladies All Champions - Pinsplitters - Captain: Wilma Flannery, Marie Follenius, Mary Smith, Irma Carl, Louise Bell

High Average-High Game - Lois Bartos (Piffledusters)

High Scratch Series - Martha Heine

High Gross Series-High Gross Game - June Odwazny (Bloopers)

High Scratch Game - Martha Hill (Nightingales), Mariann Hillen (The Group)

Most Improved Bowler - Lily Lambeck (The Group)

High Team Gross Series - Unpredictables - 2400 - Captain Roberta Klimaski

Purple League

First Place - Fiscal - Captain: Kenneth Rose, Vincent Bilms, Fred Hohmann, Albert Saletros, Robert Welt, Edward Walsh, Bernard McAlary, Edward McGill

Second Place - Woodbutchers - Captain: Arnold Benson, Joseph Seitz, Leroy Christiansen, Joseph Nocar, Joseph Scesny, Walter Milian

High Average - Joseph Scesny (Woodbutchers)

High Scratch Series-High Gross Series - Fred Hohmann (Fiscal)

High Gross Series-High Gross Game-High Scratch Game - Richard Frasca (S&M)

Most Improved Bowler - Michael Iarrocci (Hopefuls)

High Team Gross Series - S&M's - 3089- Captain Phillip Borzi

Green League

First Place - Gnats - Captain: Robert Wilson, Jere Austin, James DiCarlo, Charles Bachsmith, Worth Austin

High Average - Arthur White (Old Timers)

High Scratch Series-High Gross Series - Ray Marlowe (Reefers)

High Gross Series - James DiCarlo (Gnats)

High Scratch Games-High Gross Game - Robert Wilson (Gnats)

High Gross Game - Charles Bachsmith (Gnats)

Most Improved Bowler - Charles Bachsmith (Gnats)

High Team Gross Series - Reefers - 3094 - Captain John Kampe

Around the Base Pads

by Bob Carciello

Once again, rain and inclement weather hampered some of BNL's softball enthusiasts. Last week it was the Laboratory League players who fell prey to "a change of showers."

Brookhaven League play got underway on Tuesday, May 9th. Metallurgy romped over Medical, 22-11. The new team in this league, Six Packs, got off to an impressive start by edging the Batmen, 7-6. The Old Timers continued their championship style of last season by downing the Blue Jays, 8-5.

The National League is the only group to get two games played this season. The Dirty Sox broke into the winning column by defeating the Floorwalkers, 15-6. The Bubble Boys, paced by two home runs by Phil Connolly, notched their second victory of the season by downing the Phoubars, 16-11. This victory gives the Bubblers sole possession of first place. The Deadwoods, still looking for their first victory of the season, dropped a 9-8 decision to the Make Ups.

Fish Tales

by John Tagliavia

If you are having trouble taking big bass during the day, call Rudy Hodor. Rudy subscribes to an old established method of "swimming an eel' at dusk and after dark.

Speaking of after dark fishing, if you can get Bill Kiselyak to issue more than a few grunts about the piscatorial mayhem that occurs at sundown in "the cove" at Sag Harbor, you may be doing yourself a favor. Don't be daunted by first impressions when talking to Bill. After you get to know him, he's downright secretive, with fishing information that is.

For instance, I remember fishing alongside him one evening at "Cow Neck" in North Sea. It was at just this time of the year and we were fishing for weakfish. Bill had taken a fish and was almost ready to show me what he was using, when I spotted a large school of baby alewives moving along the beach close to the shoreline. I kicked a few out of the water and impaled one on a #2 hook at the end of a 3 ft, 8 lb test mono leader. Well, to make a long story short, I caught 3 fish to Bill's one, and it wasn't until six months later that he told me was using a "little cleo" spoon.

See you on the beach, and don't forget - "watch the birds."

South Fork Artists To Exhibit at BNL

The Spring Art Show arranged by the BERA Art Committee will feature South Fork artists. The works to be exhibited will be primarily drawn from the collection of Guild Hall in Easthampton.

The exhibit, titled "South Fork Artists - From Childe Hassam to Jackson Pollock," will demonstrate that many of America's greatest artists have lived and worked in eastern Long Island.

The paintings, graphics and sculpture that will make up the exhibition span the period from the end of the nineteenth century to the present day with emphasis on the last twenty years. Besides work by Hassam and Pollock, the show will include pieces by Willem DeKooning, Balcomb Greene, Fairfield Porter and Wilfrid Zogbaum.

The exhibition will open on the evening of June 13, and run for two weeks. Details of hours and dates will be announced later.

Autos & Auto Supplies

65 VOLKSWAGEN - Sunroof, good cond, new tires. About $1000. C. Stewart, Ext. 2846, SH4-6427.

66 SAAB - Complete dealer service record, driving lamps, deluxe radio, new snows. Good price. Ext. 2888.

64 VOLKSWAGEN BUS - Extras. P. Ettari, Ext. 2407, 7395, 273-6436.

59 FORD FAIRLANE - V8, auto trans, r/h, 60,000 mi. Good price. R. Smol, Ext. 572.

1911 FORD TOURING - ¾ scale reproduction built in 1964, runs well, simple to drive. $695. Ext. 379, 2103, LT9-3269 after 6.

66 PLYMOUTH FURY III - 2 dr hard top, V8, auto trans, ps, r/h, vinyl int. W. Anderson, Ext. 2410, 288-2674.

61 VALIANT V200 - Torqueflite auto, ps, new tires & 2 snows w/rims. $300. Ext. 464.

65 HONDA - 160cc, black, good cond, 6,000 mi. $250 or best offer. Mike, Ext. 7236.

57 VOLVO - 2 dr sedan, runs well, body fair, excel tires. $75. W. Soehl, JU8-4475.

63 VOLKSWAGEN SEDAN - New battery, good tires, recent engine work, good cond. $675. John, Ext. 7181.

14" WIRE WHEEL COVERS - $75 for 4; 12 volt Chev push-button radio, $10. J. Walker, Ext. 2154.

62 CHEVROLET IMPALA - Lt green, V8, ps, auto trans, new brakes, w/w tires, windshield & rear wheel bearings, many other extras. $850. Steve, Ext. 2177.

62 FALCON - 2 dr, std trans, white, r/h, 45,000 mi. $1300. D. Keating, Ext. 407.

65 VALIANT - 4 dr sedan, 29,500 mi, excel cond inside & out, std trans. First offer over $975. Ext. 2934, AT9-1780.

59 GMC - Custom deluxe cab, ¾ ton, many extras, must sell, new truck coming in 4 wks. $450. R. Say, Ext. 382, 727-7364 after 6.

53 BSA CHOPPER - 650 cc, new tires, brakes, trans, head valves, chrome front end, custom seat. Mike, Ext. 439.

"BUG" ENGINEERING GO-CART - Clinton A-490, disc brake, live axle. all clicks, roller bearings. $95. Ext. 597, AT6-0436.

TWO 8.00x14 SNOW TIRES - Mounted on Chevrolet wheels, very good cond. $20. F. Rumph, Ext. 2221.

1959-60 CHEVROLET CARBURETOR - New, not rebuilt, for shift car, in orig box. $12. Boruch, Ext. 7216.

65 YAMAHA MOTOCYCLE - 125 cc, loads of extras. $375. W. Powell, Ext. 567, 732-5216 after 5:30.

66 HONDA - 65 cc, black, excel cond, 4000 mi, 200 mpg, bought last May. 289-3190.

57 DODGE - 4 dr hard top, auto trans, power steering. $150. Lou, Ext. 2713.

Boats & Marine Supplies

22' SEA SKIFF - Cedar lapstreak, cabin, lg cockpit, 100 hp inboard, trailer. Best offer over $450. 286-1024.

22' CHRIS-CRAFT - 1959 H.T. skiff, double plank, hull completely rebuilt last yr, many extras. $1200. AT6-8476.

23' CHRIS CRAFT CABIN CRUISER - 95 hp inboard, galley, 2 bunks, navy top, etc. AT6-1258 after 6 pm week days.

40' MATTHEWS SPORT FISHERMAN - Sleeps 6. 878-0993 after 6 pm.

20' CLAM BOAT - Ideal for tonging or raking, some equipment. Priced to sell. Ext. 2547, 289-5510 after 5:30.

14' BLUE JAY - Dacron main & jib, nylon spinnaker, ideal for learning or racing, w/trailer. Must sell! Ext. 379, 2103, LT9-3269 after 6.

3 HP JOHNSON OUTBOARD - Dependable, little used, ideal for auxiliary for sail boat, needs new starting cord. $45. Ext. 379, 2103, LT9-3269 after 6.

14' CONVERTED ROWBOAT - Lightweight, plywood bottom, oars. $35. Ext. 379, 2103, LT9-3269 after 6.

FOLDING MOTOR SCOOTER - 1963 Centaur, carries 2 people, doubles as bench, ideal for boat. $175. G. Morgan, Ext. 2976, 589-4562.

16' AMESBURY LAPSTRAKE SEA SKIFF - 10 hp Johnson outboard motor. John, Ext. 2376.

16' DAY SAILER - By O'Day, molded fiberglass, 1964, used 2 seasons, showroom cond, Dacron sails. $1595. Ext. 379, 2103, LT9-3269.

BOAT PROPELLER - Columbian, 12"x12", right hand, good cond. $10. AT9-1748.

18' OFF SHORE THOMPSON LAPSTRAKE - Navy top, 1962, 40 hp Evinrude, electric starter, generator, accessories, ready to launch. $725. F. Bay, Ext. 445.

OUTBOARD MOTOR - 2 hp, 1962 Elgin, air-cooled, 29 lbs, lightweight, not pretty, but runs well. Make offer. I. Winters, LT9-5741.

19½' PENBO - Cabin sleeps 2, head, navy top, 50 hp Johnson electric, extras, ready to go. $950 or best offer. D. Kazmark, Ext. 2459, AT9-0265.

18' HARD TOP CABIN OUTBOARD - Hull fiberglassed, 40 hp Evinrude, remote controls. $375. George, Ext. 7756.

1 SET CONTROLS - Levers & cable for 18' boat. $7. G. Spira, Ext. 2406.

Miscellaneous

POWER LAWN MOWER - Reel type, 21" self-propelled, good cond. Asking $35. Dale, Ext. 2407.

MATTRESS - Very firm, used only few times. $30. Bill, Ext. 2543, 286-8733.

BABY CARRIAGE - Lg size, good, $10; infant swing, good, $5. Bill Ext. 2543, 286-8733.

PHILCO 21" TV - Console, good cond. $25. George, Ext. 7208.

GE WINDOW FAN - 20", 2 speed, reversible, excel cond. $20. A. Friedman, Ext. 7142.

5 STRING BANJO - $30. N. Schinn, Ext. 2706.

OLD TELEVISION - Philco, give away, good for parts, might even be made to work. E. de Rafael, Ext. 7624.

GIBSON GUITAR - Model J-50ADJ, flat top, steel string, adjustable bridge, excel cond, 10 mos old. $140. M. Fleming, Ext. 2180.

TA32 JR BEAM ANTENNA - Mosley, $25; Ameco TX 86, 80 through 6 meters transmitter, less power supply, $35; boy's 26" bicycle, $20. J. Moeser, Ext. 7642 after 4:30.
