Arthur J. Beckwith retires from his position as inspection and quality control supervisor in the Central Shops. He came to the Lab in 1948. Beckwith's retirement plans begin with a "a five-month trip around the country, starting in Florida."

Ethel B. Cox has been with the Lab from 1953 to 1954 and from 1956. She retires from her position as an administrative services assistant with the Medical Department. "I'm going to do the things that I haven't had time to do," she said, "the things I can't do while I'm working."

Walter R. Jacobs, a technical supervisor with the Accelerator Department, retires after 27 years at the Lab. While he intends to do "a lot of traveling," he also plans" to stay around here for a while" because he likes the change of seasons.

Una K. Randall, retiring after 26 years with the Lab, is leaving her position as senior secretary in the Central Shops. But she's not leaving Long Island. "I intend to stay right here," she said, "to catch up on a lot of things and enjoy my grandchildren."

Edward G. Reilly has been with the Lab since 1949. He retires from his position as a senior technical associate in the Physics Department. Reilly said he is "just going to enjoy life."

Eunice R. Reilly has been with the Lab from 1959 to 1960 and from 1969. She retires from her position as senior secretary in the Medical Department. While agreeing with her husband's plans for their joint retirement, she added that they will be doing a little traveling, "eventually."

Edgar O. Reynolds, an electrician with Plant Engineering, has been with the Lab since 1962. He plans to stay on Long Island for at least another year and will devote his time to his "main interest" —his hobby, woodworking.

Charles N. Sponheimer, retiring after 32 years with the Lab, leaves his position as technical supervisor in the Accelerator Department. He said he will "probably go to New Mexico in the near future," where he will spend his time with "silversmithing, rockhounding and lapidary work."

Concert Reminder

Quartets by Mendelssohn and Bartok are on the program for Tuesday, January 6, when the Cleveland Quartet will present the second concert in BERA's 1980-1981 Series. The Quartet, which has been acclaimed as one of the great string quartets of our time, will begin its performance at 8:30 p.m.

Tickets are $6 for adults, $4 for students and senior citizens, and $3 for those under 18. For tickets and/or information, call Ext. 4643 or 2873.

Gym Schedule

The gymnasium and all its connecting facilities (exercise rooms, locker rooms and shower rooms) will be closed from Wednesday, December 31, at 2:00 p.m. through Sunday, January 4, 1981. Normal schedule will resume on Monday, January 5 at 11:00 a.m.

In Memoriam

Lawrence E. Fuller, Senior Staff Assistant in the Department of Nuclear Energy, died on December 20 after a long illness. Sixty-six years old, he joined the BNL staff in 1948 as an administrator in the Engineering Department.

Fuller, who lived in Bellport, is survived by his wife Florence and two children, Martha Young and Lawrence Fuller, Jr.

Group Insurance

The Internal Revenue Act of 1964 provides that employees' group term life insurance, in excess of $50,000 results in income reportable to the IRS.

Beginning with the first pay period in January, that information will be included on pay statements of employees having such income in a box which will read "Ins. Earn." In the past, that type of income was determined only at the end of each calendar year and was included on an employee's W-2 Form as "Cost of Group Term Life Insurance."

Taxability of group term life insurance in excess of $50,000 is based on premiums (according to age) prescribed by the IRS, less amounts contributed by the employee during the year towards the purchase of the coverage.

Employees with questions regarding pay statements or W-2 Forms for 1980 should contact Maurice DuBois, Ext. 2487.

6 Rms Riv Vu

Doug Humphrey

Marital Bliss is certainly evident with these two couples appearing in Bob Randall's comedy, "6 Rms Riv Vu," the BERA Theatre Group's next presentation. The way Connie Fuchel and Joe Skelly, as Janet and Paul Friedman, are gazing into each other's eyes; the tender manner in which Tony Fainberg and Angela Castellano, as Richard and Ann Miller, are holding hands — surely these couples are very much in love. Or are they? To find out, why not see the play? Performances will take place on Friday and Saturday, January 16 & 17 and 23 & 24, at 8:30 p.m. in Berkner Hall. Tickets are $2 for persons under 18 or over 65 years of age, $3 for other adults. For reservations, call Ext. 3940 or 286-9584.

Placement Notices

The Laboratory's placement policy is to select the best-qualified candidate for an available position, with consideration given to candidates in the following order of priority: (1) present employees within the department, with preference to those within the immediate work group; (2) present employees within the Laboratory as a whole; and (3) outside applicants.

The determination of the best-qualified candidate for available positions will be based upon education, experience and other job-related criteria. Such factors will be evaluated and measured against the demonstrable requirements of the available vacancy, as well as the Laboratory's Affirmative Action objectives.

The Laboratory is committed to a policy of Equal Opportunity in its selection and placement of personnel. Its objective is equality of opportunity in employment, training, and promotion without regard to race, color, religion, national origin, sex or handicap.

Each week, the Personnel Office lists new personnel placement requisitions. The purpose of these listings is, first, to provide open placement information on all non-scientific staff positions; second, to give employees an opportunity to request consideration for themselves through Personnel; and, finally, for general recruiting purposes. Because of the priority preference policy stated above, each listing does not necessarily represent an opportunity for all candidates. As a guide to readers, the listings are grouped according to the anticipated area of recruitment, as indicated below. Except when operational needs require otherwise, positions will remain open for one week following publication date.

For further information regarding a placement listing, contact the Personnel Placement Supervisor, Ext. 2882.
