Grandparents' Day 1992

'Please Let Nothing Interfere With A Natural Grandparent-Child Relationship'

In 1978, President Jimmy Carter, himself a grandpa, signed a Congressional resolution establishing the first Sunday after Labor Day as Grandparents' Day. First celebrated in 1979, Grandparents' Day this year is this Sunday, September 13.

Though one of the least celebrated and commercialized holidays in America, Grandparents' Day is a day not only for grandchildren to express their appreciation for their grandma and grandpa. But it is also a time for grandparents to reflect on their involvement with their grandchildren — especially in times when grandparents' rights to visit with their grandchildren are often battled over in the courts.

Ruth Ann Lutz, Director's Office, experienced such a battle with a former daughter-in-law over her first grandchild, Brittany, who is now age 6½ and who last visited with Lutz and her husband John on December 3, 1989.

Though they petitioned the court for visitation rights following the divorce of Brittany's father and mother, the elder Lutzs have withdrawn their case, since they did not wish to see their innocent granddaughter drawn further into a litigious conflict.

Explains Lutz, "After seeking our rights through the courts but getting nothing but more grief, I started GRID — and began reaching out to other grandparents in similar situations, in hopes that some good may come out of the bad."

Called GRID for Grandparents Rights in Divorce, the advocacy and support group for grandparents who have become lost to their grandchildren met at the Shoreham-Wading River Library at a time when there were no local chapters of such recently formed national organizations for grandparents as Grandparents United for Children's Rights or Grandparents Rights Organization.

With the growth in membership and resources of these national grandparents'-rights groups, GRID ceased to meet. However, Lutz continues to field phone calls from grandparents looking for information about grandparents' rights.

Says Lutz, "I at least have my husband John, my 80-year-old mother, my three children, another granddaughter Kristie, and my health and my job. Some of the grandparents with whom I have spoken have no one else and nothing — and many have had to end retirement to go back to work to pay for the legal fees to fight for their rights. Having to spend your retirement years in court so you can see your grandchildren is not right.

"In being deprived of their grandparents, grandchildren are also losing much of their cultural heritage and family traditions — and that is also wrong," continues Lutz.

"I had a wonderful relationship with my grandparents — and that's what I wanted for Brittany. I wanted to make memories with her, of family holidays and rituals that come from seeing each other often and regularly. It makes me very sad that Brittany will not know anything about the Scandinavian side of her family and that she is being deprived of my mother, her great-grandmother. Very few little girls are so lucky as to have their great-grandmothers still alive and well.

"Grandparents can share what we may not have had the time or knowledge to share with our children," explains Lutz.

"We are not busy raising the children as are their parents, so our time with our grandchildren is 100 percent quality time. We are there for them and they are the center of our world while they are with us. We can share with them the patience, experience and wisdom that we acquired over the years and that we might not have had when their parents were our children.

"So, on this Grandparents' Day," says Lutz, "if there is anything we can teach our children, it is that they must please let nothing interfere with a natural grandparent-grandchild relationship.

"Not the lack of a marriage certificate, not separation or divorce, not sibling rivalry, not unresolved conflicts with their parents, not immaturity, selfishness or pettiness — not anything. Life is too short for such luxuries. All the hate must be set aside so that the love between a grandparent and grandchild may flow back and forth across the generations," concludes Lutz.

Coming Up

Three BNL women who attended the 23rd National Training Program sponsored by the organization Federally Employed Women will report on the conference at a joint meeting of Brookhaven Women in Science and the Upton Chapter of Professional Secretaries International, on Monday, September 14, at 6 p.m., in the south room of the Brookhaven Center.

•

Senior Microbiologist John Dunn, Biology Department, will deliver the first Brookhaven Lecture of the 1992-93 season. His talk on "Lyme Disease — A Macro Look at a Micro Cause" will begin at 4 p.m. on Wednesday, September 16, in Berkner Hall.

•

Nobel laureate T.D. Lee, Columbia University, will continue his appointment as a Haworth Distinguished Scientist in the Physics Department during the week of September 21. His office will be in Room 2-48, Bldg. 510. To contact Lee, call him at Ext. 5853, or call Isabell Harrity, Ext. 2524.

•

Isabella Karle, an eminent crystallographer with the U.S. Naval Research Laboratory, will present a talk on "Folding, Aggregation and Activity of Peptides," in a joint Brookhaven Women in Science-Biology Department Seminar on Thursday, September 24, at 3:45 p.m., in the Biology seminar room, Bldg. 463.

Stockroom Closings

All Supply & Materiel Division stockrooms will be closed for inventory next Thursday and Friday, September 17 and 18. Please make all necessary stock withdrawals before 3 p.m., Wednesday, September 16, to give the division sufficient time to prepare.

During the inventory, emergency requirements will be processed through John Scharpeger, Ext. 2974.

On Site

Road Work at Main Gate

This weekend, September 12 and 13, West Princeton Avenue will be repaved. West Princeton is the stretch of road at the Main Gate, between William Floyd Parkway and the blinking light.

For the weekend, then, the Main Gate will be closed, and the North Gate will be opened to accommodate both incoming and outgoing traffic.

Therefore, remember: To go south on the William Floyd when leaving the Lab via the North Gate, **do *NOT* cross the median**. Instead, first go north to Rt. 25 on the William Floyd, exit heading west, and then take the ramp to William Floyd Parkway heading south.

The Main Gate will reopen on Monday, but, during the week, the stripes on the roadway will be repainted, causing minor delays to traffic.

Employees should take extra care when driving in the area.

Sidewalk Repair at Berkner Hall

Some sidewalks in front of Berkner Hall will be replaced during the week of September 14-18. As a result, vehicle access to the driveway and sidewalks in front of the building, from Brookhaven Avenue to Johns Hopkins Street, will be restricted or denied.

Access will be provided, however, for those who require handicapped parking, and the parking lots to the east of Berkner Hall will remain open to all. Visitors to Berkner should use the entrance on the east side of the building, which is nearest the parking lot. The Cafeteria and BERA Sales Office will operate normally.

Softball Dinner

The annual Softball Awards Dinner will be held on Friday, October 2, from 6 to 11 p.m., at the Brookhaven Center. The cost of $16 per person includes dinner served at 6:30 p.m., an open bar until 10:30 p.m. and music by E.T.

Tickets will not be sold at the door, so buy them from league representatives before September 25: League I, John Benante, Ext. 4498; League 2, Chris Neuberger, Ext. 4160; League 3, John Heinrichs, Ext. 3675; League 4, Denise Monteleone, Ext. 3406; and League 5, Ricky Backofen, Ext. 2973.

Volunteers Needed

Male volunteers, ages 25 to 45 and in good health, are needed to participate in brain and heart-imaging studies being conducted by BNL. A fee will be paid. For more information, call Naomi Pappas, Ext. 2694.

Volleyball

The first Volleyball League captains' meeting will be held on Wednesday, September 16, at noon, in the Biology conference room, Room 151, on the lower level of Bldg. 463.

Captains or a team representative must attend. Rosters will be sent to last year's captains. Rosters will not be accepted after this meeting.

Anyone interested in playing who is not already on a roster may contact either Terry Sullivan, Ext. 2840, or Nancy Sherlock, Ext. 4440.

Call for Bowlers

Regular, full-time bowlers are needed for the Thursday night mixed league in Shirley at 6:30 p.m.

Also, substitute bowlers are needed for the pool in case a regular bowler cannot attend.

To bowl full-time or as a substitute, contact Debbie Keating, Ext. 7673, or Maryann Reynolds, Ext. 5241.

Cooking Exchange

The first fall Cooking Exchange meeting will be a luncheon on Wednesday, September 16, in the Recreation Building, starting at 11:30 a.m. All newcomers living on site are cordially invited to come to get acquainted.

A donation of $2 per adult and $1 per child is requested. Subsequent luncheons will be held on the second Wednesday of each month. For further information call Megume Akiba, Ext. 1061, or Jan Rohrer, Ext. 1239.

Water Aerobics

Swimmers and non-swimmers alike are invited to work out in the water by joining BNL's water aerobics classes, sponsored by the Health Promotion Program of the Occupational Medicine Clinic.

To begin again this fall on Tuesday, September 15, the classes will meet twice a week, Tuesdays and Thursdays, from 5:15 p.m. to 6 p.m., in the BNL pool, Bldg. 478. While there is no fee, those who want to join the water workout must register with Health Promotion Specialist Mary Wood, Ext. 5923.

Placement Notices

The Laboratory's placement policy is to select the best-qualified candidate for an available position. Consideration is given to candidates in the following order: (1) present employees within the department/division and/or appropriate bargaining unit, with preference for those within the immediate work group; (2) present employees within the Laboratory; and (3) outside applicants. In keeping with the Affirmative Action plan, selections are made without regard to age, race, color, religion, national origin, sex, handicap or veteran status.

Each week, the Personnel Division lists new placement notices. The purpose of these listings is, first, to give employees an opportunity to request consideration for themselves through Personnel, and, second, for general recruiting under open recruitment. Because of the priority policy stated above, each listing does not necessarily represent an opportunity for all people.

Except when operational needs require otherwise, positions will be open for one week after publication.

For more information, contact the Employment Manager, Ext. 2882, or call the JOBLINE, Ext. 7744 (282-7744), for a complete listing of all openings.

SCIENTIFIC RECRUITMENT - Candidates may apply directly to the department representative named.

POSTDOCTORAL RESEARCH ASSOCIATE - position available immediately for recent Ph.D. in physics or physical chemistry, with a background in crystallography or x-ray/neutron scattering, to participate in studies to determine the structure and dynamics of systems such as monolayer and multilayer adsorption on surfaces, liquids entrained in porous media, and the imaging of Rayleigh-Benard convective flows in helium mixtures. John Larese, Chemistry Department.

OPEN RECRUITMENT - Opportunities for Laboratory employees and outside candidates.

DD 0173. REFRIGERATION AND A/C ENGINEER - Requires substantial experience troubleshooting, repairing, installing and operating commercial/industrial air-conditioning and refrigeration equipment including steam absorption, centrifugal and helical screw refrigeration machines. Successful completion of refrigeration and A/C apprenticeship program or related course work is highly desirable. Must be able to work shifts as required. Plant Engineering Division.
