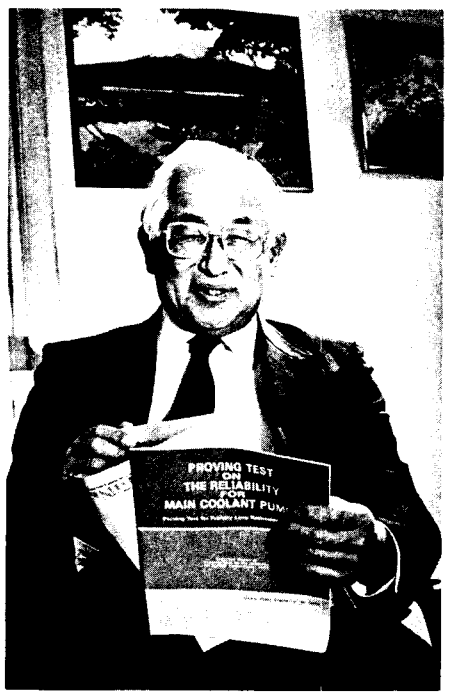
BROOKHAVEN BULLETIN
Vol. 47 - No. 11 March 12, 1993
BROOKHAVEN NATIONAL LABORATORY

Walter Kato to Be Honored by Japan

In just four days, Walter Kato, a BNL Senior Scientist and former Chairman of the Department of Nuclear Energy (DNE), will be awarded a medal from the Japanese government for his contributions to nuclear safety and nuclear engineering education in Japan. The medal, Kun-Santou Zuiho-sho, is translated as the Order of the Sacred Treasure, Gold Rays with Neck Ribbon.

Kato and his wife, Anna will attend an awards ceremony in Japan on March 16 courtesy of the Japanese research institutes that he has worked with over the past 35 years. He is one of 44 foreigners from 15 countries who will be receiving awards for distinguished service from the Japanese government and one of two foreign scientists to be honored within the top three ranks of eight classes of awards.

Commenting on his award, Kato said, "I am a strong proponent of international collaboration in nuclear safety. While at Brookhaven, I've worked with European, Russian and Chinese, as well as Japanese scientists, on this issue. All of us in the nuclear field realize that a serious accident anywhere would have profound effects throughout the world, so it is necessary to work together and to give top priority to nuclear safety issues."



Walter Kato

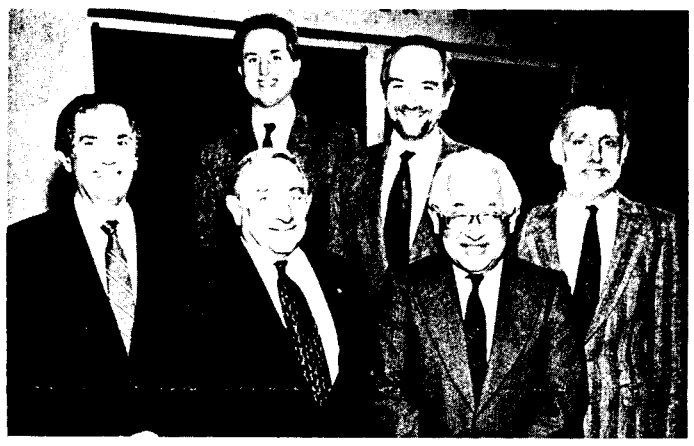
Kato first came to the Lab in 1952 as a student from Pennsylvania State University, to work on his graduate thesis. He received his Ph.D. in physics in 1954. From 1953 to 1975, Kato worked in reactor physics and safety at Argonne National Laboratory. He returned to BNL in 1975 as Associate Chairman of the Department of Applied Science, and he advanced steadily in his career, eventually becoming DNE Chairman.

Kato's work with Japan began in 1958-59, when, as a Fulbright Fellowship scholar, he was a research professor at the Japan Atomic Energy Research Institute (JAERI) and a lecturer in the Department of Nuclear Engineering at the University of Tokyo. During this period, he contributed to the design of reactor physics critical experiments at JAERI and the Hitachi Central Research Laboratory. While at Argonne, Kato collaborated with Japanese researchers on reactor physics experiments over several years.

Kato also developed a cooperative program between the Nuclear Power Engineering Center of Japan and BNL to do high-level vibrational testing of large diameter piping in pressurized water reactors. This program, which was jointly sponsored by Japan's Ministry of International Trade and Industry, the U.S. Nuclear Regulatory Commission, and the Electric Power Research Institute, studied the seismic effects on reactor piping.

Kato is now a member of the Independent Review Panel of the Long Island Power Authority on the decommissioning of the Shoreham Nuclear Power Station. He is a fellow of the American Nuclear Society and currently serves on its board of directors. Previously, he was a consultant to the U.S. Nuclear Regulatory Commission's Office of Nuclear Regulatory Research.

— Diane Greenberg



Walter Kato (front right) was one of the members of the Department of Nuclear Energy who met recently with American Nuclear Society (ANS) President David Rossin (front, second from left), a former Assistant Secretary of the U.S. Department of Energy, for informal talks on issues facing nuclear energy. Also on hand were (from left) Robert Bari, DNE Deputy Chairman; Robert McNair, Reactor; John Lehner, DNE; and Paul Tichler, Reactor.

Coming Up

Nobel laureate Arno Penzias, Vice President of Research at AT&T Bell Laboratories, will present the next AUI Distinguished Lecture. Entitled "Computer Paradigms and Information Transparency," his talk will begin at 4:30 p.m., on Wednesday, March 24, in Berkner Hall.

When You Want to Get Away From It All, Make Your First Stop Omega, in Berkner Hall!

From Aruba to Zanzibar — no matter where in the world you want to go, first come to the newly established branch of Omega World Travel (OWT) in Berkner Hall to book your travel.

Between 10 a.m. and 2 p.m. each work day, in a new office partitioned with the BERA Sales Office, leisure-travel representative Kerry Fitzgerald will be happy to help plan your personal trip or vacation — be it by plane, boat, bus, train or rented car.

Though the leisure-travel office doesn't officially open for business until Monday, March 22, Fitzgerald is on site and invites employees to stop by in the meantime, or give her a call at Ext. 5918 or 5958.

"There are always new destinations, places you have never been where you can go sightseeing, enjoy the cultural offerings or just lie back and relax in the sun," explains Fitzgerald, who has been professionally arranging travel for eight years.

"Once you know where you are going, you have to consider that there may be different ways of getting there," she continues. "You may want to fly directly to your destination and rent a car once you're there, or cruise from island to island, or take the train across a country or a continent — it's all up to you."

Besides arranging individual personal travel, Fitzgerald is willing to coordinate group tours, whether the group is bound for the boardwalk in Atlantic City or the slopes of Switzerland. Whether for individuals or groups, Fitzgerald will be offering regular discounts and special promotions on cruises, tours, vacation packages and the like.

In addition, what Omega will be offering BNL employees is "service — good service," says Susan Johnson, the Northeast Regional Director for OWT, who oversees Omega's established corporate account and the new leisure account with BNL.

Established in 1972, Omega is one of the largest woman-owned, full-service travel agencies in the U.S., with 170 offices coast-to-coast and at least one in every major city. OWT specializes in making travel arrangements for corporations and government, offering leisure travel services to employees of their corporate and government accounts as a bonus. Since 1987, BNL's Travel Office for official trips has been operating under contract with Omega.

Before joining OWT, Fitzgerald was the manager of the branch of the Lawyers Travel Service within Cadwalader, Wickersham and Taft, a New York City law firm. She holds a certificate in travel and tourism from the Alice B. Skinner Business School and an associate's degree in business and communications from Nassau Community College.

Fitzgerald's favorite destination is the British Virgin Islands because "the water is beautiful, the people are friendly, the terrain is varied, and the scenery is picturesque."

In addition, some of the most popular places for R&R include Bermuda and the Cayman Islands. If you have done the European grand tour, Fitzgerald can recommend places to go in Africa, Asia and the South Pacific, for a change of pace.

"So, when you have some vacation time or just want to get away for a weekend, please come by and consult with me — I'd be happy to arrange whatever you'd like or make suggestions if you need help in deciding where to go," concludes Fitzgerald.

The new travel office was established as a service to employees by the Staff Services Division, which reminds employees that official travel on Lab business must still be arranged through BNL's Travel Office, Ext. 2531. — Marsha Belford

Flipping through some of the brochures available at the new branch of Omega World Travel in Berkner Hall are (left) leisure-travel representative Kerry Fitzgerald and OWT regional director Susan Johnson.

Reminder — Register Your Vehicle

Employees are reminded that those who have not already done so should register their vehicles for on-site use. All vehicles should have current registration stickers.

For more information, call Susan Rackett, Ext. 5149, or Hank Raimondo, Ext. 7258.

Reports Available

The following reports are available to Laboratory staff and affiliates of DOE, AUI and NRC. Others may purchase the reports from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161. Staff members should call the designated contact.

In Memoriam

Retiree **Robert A. Mitchell,** who left the Lab on May 31, 1984, as a technical associate I in the Department of Applied Science, died on October 20 at the age of 70. He had begun his 27-year BNL career on June 18, 1956, as a technician B in the then Nuclear Engineering Department. Having retired to Georgia, Mitchell is survived by his wife Priscilla, mother Alice Smolsky Mitchell, son Gary, brother Douglas, and two sisters: Helen Kerr and Gertrude Perry.

•

Charles L. Gerle, who retired on February 29, 1980, as a plumber A and group leader in the Plant Engineering Division, died on November 30, one week after his 75th birthday. He began his 33-year association with Brookhaven during the Lab's first year, on February 27, 1947, as a laborer with the then Architectural Planning & Plant Maintenance Division. He had lived in Mastic, and is survived by his daughters, Gladys Fremgen and Margaret Goldbach; his son Donald; nine grandchildren and six great-grandchildren.

•

Orrington E. Dwyer, who retired after 24 years at BNL as a senior chemical engineer in the Department of Applied Science, died on December 1. He was 80 years old. He first came to BNL in June 1950 for one year, as a visiting associate chemical engineer, then was hired July 1, 1951, as a chemical engineer in the Reactor Division. After retiring on September 30, 1975, Dwyer moved to Maine. He is survived by his wife, Norval; two sons William and Robert; a daughter, Constance Burck; a brother, Arthur; a sister, Margaret Mason; and six grandchildren.

•

Retired Technical Associate **John T. McCafferty,** who left the Alternating Gradient Synchrotron (AGS) Department on May 21, 1982, after 34 years at the Lab, died on December 5. He was 71 years old. On October 20, 1947, during the Lab's first year, McCafferty was hired as a machinist in the Heavy Machine Shop. He had resided in Patchogue and is survived by his wife Edith; four sons: John Jr., Michael, Barry, and Daniel, who works at the AGS; four daughters: Mary Jane Gschwind, Elizabeth Nalewajk, Mary Catherine Millar, and Martha Ringin; 13 grandchildren; and two great-grandchildren. Contributions may be made to the Art Flick Chapter of Trout Unlimited, to send needy children to conservation camp. Send donations in care of Ivan Frank, 85 Jennings Avenue, Patchogue NY 11772.

•

John W. Quinn, who completed 22 years of service in the Physics Department on June 29, 1973, as a technical associate III, died on January 24. He was 80 years old. He started at the Lab as a technician A on May 21, 1951. He had resided in Blue Point and is survived by his wife Doris, son John, three grandchildren, and 17 nieces and nephews.

Meet the Candidates for BERA Board

During the week of March 29 to April 2, employees may cast their votes in the 1993 BERA Board election. Two of the four candidates whose pictures accompany this story will be elected to serve on the Executive Board of the Brookhaven Employees Recreation Association (BERA) for four years, starting May 1.

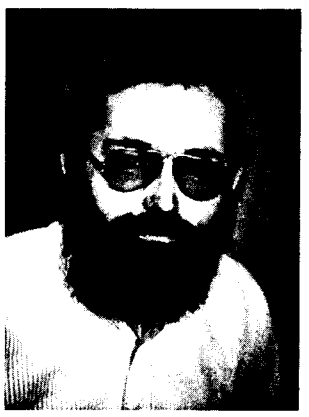
Eligible voters include employees of BNL, AUI and DOE, as well as all other permanent on-site employers. Absentee votes for those who will not be on site during voting week will be accepted in person at the Recreation Office, Bldg. 185, prior to Monday, March 29, when elections begin.

Ballots may be cast as follows:

Date	Time	Place
Mon., Mar. 29	11:30 a.m.-1:30 p.m.	Berkner Hall
Tue., Mar. 30	11:30 a.m.-1:30 p.m.	Berkner Hall
Wed., Mar. 31	11:30 a.m.-1:30 p.m.	Berkner Hall
Thu., Apr. 1	10:00 a.m.-2:00 p.m.	Credit Union
Fri., Apr. 2	10:00 a.m.-2:00 p.m.	Credit Union

— Photos by Roger Stoutenburgh

Augie Hoffmann



Augie Hoffmann, a senior technical specialist in the Physics Department, joined the Lab in 1979. Within a few years, he was immersed in BERA activities after hours — playing softball and racquetball, practicing public speaking as a member of the Toastmasters Club, and going on outings with the Mountain Club and the White Water Rafting Club.

In addition to BERA's current activities, "I think there should be a few more clubs, too, like a bicycle club, which would encourage people to commute to work by bike," says Hoffmann. A ski club is also on his list, given that he has organized popular ski trips for Lab employees for the past five years.

Hoffmann says his organizational skills and experience with BERA activities would be valuable as a Board member. "I want to see more employees involved in BERA. As an enthusiastic BERA user and supporter, I'd like to be on the Board to help it serve employees even better."

One area he would look into is entertainment. Says Hoffmann, "I'd like to see BERA offer more diverse entertainment, such as having Jerry Garcia and the Grateful Dead at Berkner Hall."

Denise Monteleone

Denise Monteleone, a programmer analyst in the Biology Department, has participated in BERA's athletic activities since she began working at the Lab as a student in 1983. She has played softball for ten years, having served as a team captain for three years and now a league representative since 1991.

A BERA Bowling League member, Monteleone has been in both women's and mixed leagues for eight years. She has also played volleyball since 1990 and is a former racquetball player.

"If elected to the Board," Monteleone says, "I'd like to implement a change in the BERA Concert Series. I'd like different types of music featured besides classical — for instance, jazz, folk, blues, vocals, and possibly some dance groups. I went to C.W. Post College on a music scholarship, and I played violin for 16 years, so I think I'm well-qualified to help select musical groups to perform at the Lab.

"Also, I'd want the Lab's athletic fields to be restored — reseeded and leveled, and new bases installed for safety. I would like safety improved in all BERA sports. Also, a better-stocked BERA store would be on my agenda."

Bridgit Ramos

Bridgit Ramos, an assistant staff specialist in the Department of Nuclear Energy, has been at BNL since 1987 — and for much of that time she has enjoyed being a member of the Aerobic Dance Club. This year, she'll also be playing on the mixed league softball team, Park Avenue.

Indirectly, Ramos has also participated in bowling. "I cheer the teams on all the time," she said. And while taking water aerobics, a non-BERA activity, she also enjoys the benefits of the BERA-run pool. "I use the activities BERA offers," says Ramos, explaining why she would like to join the BERA Board, "and now I want to do my share by giving something back. In addition to the activities and facilities it provides, BERA helps me meet people on site. It's a friendship link that gives me a well-rounded view of the people I deal with every day on the job and on the phone. I'd like to make more people aware of BERA and all the things it does.

"I'm the person to do this," Ramos says. "Most people who know me know I like to stir things up a bit — I'm a catalyst. If people show a genuine interest in something, I'll do my best to be a good voice for them."

Barbara Simpson

Barbara Simpson, a senior contracts & procurement assistant in the Division of Contracts & Procurement, has participated in several BERA activities during her 15 years at BNL.

For ten years, she has played mixed league softball, primarily with the Snakebites. Before that, she played in the Volleyball League and with the Racquetball Club.

Also since 1983, Simpson has been active in the Afro-American Culture Club, serving "anywhere help is needed." Now vice president, she has worked on its events committee, helping organize parties, picnics and the annual Gospel Extravaganza.

Simpson states, "I am interested in becoming a part of this policy-making body. I am willing to participate, capable of organizing and will see things through from beginning to end. To help BERA continue to be a positive influence at BNL, I would work toward addressing both the concerns of the Board and the various clubs to arrive at workable solutions for the entire BERA community. If elected, I will work with the BERA Board and ask to invite representatives of concerned clubs to meet with the Board to discuss their points of view."

Healthline Lecture

Making the Change More Comfortable

Menopause is the time in a woman's life when her monthly ovulatory cycle gears down until she no longer menstruates. While this is the most obvious sign, there are other changes — physiological, emotional and sociological — that take place during this transition.

From the turn of the century until the early '70s only five studies of the most common menopausal sympton, hot flashes, were reported in the medical literature. In the past, many physicians chalked up all climacteric women's symptoms to estrogen deficiency or dismissed women with severe menopausal problems as neurotic.

To present the latest findings in the medical understanding of menopause, physiologist Fredi Kronenberg will offer an "Update on Menopause," as the next Healthline lecture. Sponsored by the Health Promotion Program of the Occupational Medicine Clinic, Kronenberg's talk will take place on Tuesday, March 16, from noon to 1 p.m. in Room B, Berkner Hall. All are invited. Afterwards, an audiotape of the lecture will be available at the Research Library.

Fredi Kronenberg

As Kronenberg will discuss, the goal of her last 12 years of research has been to understand the physiological causes of hot flashes, to find more effective ways to make women more comfortable during menopause. She will explain how the body's thermoregulatory, nervous and hormonal systems interact to initiate changes that hallmark menopause, and outline trends in alternative approaches to treatment.

An assistant professor at Columbia University Medical Center, Kronenberg is founder and member of the board of the North American Menopause Society. She is on the editorial board of *Menopause Management,* and is involved in establishing a new research journal called *Menopause.*

She has also established the Women's Association for Research in Menopause.

To sign up for this lecture, return the bottom part of the Healthline flyer sent to all employees to Health Promotion Specialist Mary Wood, Bldg. 490, by Monday, March 15.

Microcomputer Club

Slide-Making Demo

Representatives of the Polaroid Corporation and NUMAC Inc. will demonstrate the award-winning C15000 digital slide-making system at the next meeting of the BNL Microcomputer Club, on Thursday, March 18, at noon, in the CCD conference room, Bldg. 515.

They will use the new WordPerfect Presentation 2.0 applications software to create full-color, high-resolution slides on desktop slide makers that support the IBM, Macintosh and UNIX-based platforms. Polaroid's new full-color LCD projection systems will also be introduced.

All are welcome; bring your lunch. For more information, call Irving Montanez, Ext. 2540.

Nuclide Chart

The BNL Microcomputer Club is offering free copies of the program CHARNUC, which provides the information that is on the wall chart of the nuclides. In this DOS, Turbo Pascal program, isotopes are presented in a 5x5 array (25) centered upon your selection. You can see your position in the whole chart, move around with cursor keys to look at metastable and alternative decay schemes, and obtain some data on the atoms.

To receive your free copy, send a formatted 3.5″ or 5.25″ high-density disk to club librarian Ralph Fullwood, Bldg. 130.

Atlantic City Trip

The next BERA-sponsored, one-day trip to Atlantic City will be to Trump Castle Hotel and Casino on the Marina on Saturday, May 1. The initial cost will be $20, but the casino will give a $7.50 coin return, and a royal choice of either $5 towards food or an additional $2.50 in coin, and a $5 deferred-return voucher.

Buy tickets now at the BERA Sales Office in Berkner Hall weekdays from 9 a.m. to 1:30 p.m. The bus will leave the Brookhaven Center promptly at 9 a.m. with an extra pickup at LIE Exit 63, if requested. Return will be about 11:45 p.m.

For more information, call Carolann Zebrowski, Ext. 3347; Rosalie Piccione, Ext. 3160; or Kay Dellimore, Ext. 2873.

Note to Diners

The Cafeteria will be closed tomorrow, Saturday, March 13, so that new lighting can be installed in the main dining room.

Meanwhile, the Tap Room at the Brookhaven Center will provide normal Saturday menu items from 9 a.m. to 2 p.m., and the vended food service in Bldg. 912 will be in normal operation.

Arrivals & Departures

BERA Concert: Pianist Yin Cheng-Zong

China's most renowned pianist, Yin Cheng-Zong, will give the next BERA concert on Tuesday, March 16, at 8 p.m. in the Snyder Seminar Room, Bldg 911. (Please note change from usual location.)

Winner of the silver medal in the Tchaikovsky Piano Competition in 1962, Yin Cheng-Zong has been featured with major orchestras from all over the world, including the Philadelphia Orchestra, the Vienna Philharmonic and the Moscow Philharmonic.

Since making his North American debut in 1983 with a critically acclaimed recital at Carnegie Hall, Yin Cheng-Zong has performed in a number of major cities in the U.S. He has also returned to the Far East for tours, performing solos with several orchestras in the region, including the Hong Kong Philharmonic.

The program for the Brookhaven concert consists of Haydn's Variations in F minor, Hob. XVII.6; Debussy's 'Douze Preludes' Volume II; two ancient Chinese pieces, *Moonlight Over Spring Water* arranged by Li Yinghai and Yin Cheng-Zong, and *Ambush on Ten Sides* arranged by Yin Cheng-Zong, Liu Zhuang and Chu Wanghua; and two Chopin pieces, Nocturne in C minor, Opus 48, No. 1, and "Andante Spianato" and Grand Polonaise, Opus 22.

Yin Cheng-Zong

Tickets for the concert can be purchased at the door. Tickets are $12 for general admission, $9 for students and people over age 65, and $5 for youths under 18.

Hospitality News

The next meeting of the Women's Forum, led by Marion Davis-Parzen, will be Tuesday, March 16, in the Recreation Building lounge. The meeting will start promptly at 10 a.m.

The group meets on the third Tuesday of every month to discuss women's issues and to share experiences and concerns. Wives of Lab employees and guests are welcome. Bring the children and a toy or two.

©1989 by Sidney Harris — *Einstein Simplified*, Rutgers University Press

Software Courses

The Computing & Communications Division (CCD) has scheduled a week-long Solaris 2.1 System Administration course to start April 26, at a cost of $200 per person. Additionally, CCD would like to schedule the following courses, if there is enough interest:

- **AIX Version 3 Application Programming** — for FORTRAN programmers, five days, $600.
- **UNIX Shell Programming** — 2.5 days, $300.
- **Introduction to UNIX** — 2.5 days, $300.

Those interested should contact Ron Wittlock, Ext. 4112, or Email, wittlock@bnl.gov.

Software Demo

SunPro's software development tools will be introduced by Sun sales representative Dwayne Shirakura, in an hour-long presentation on Tuesday, March 16, beginning at 10 a.m. in the CCD seminar room, Bldg. 515. He will demonstrate SPARCworks and TeamWare and present SunPro's future product plans.

Road Closing

The section of Bell Avenue adjacent to the tennis courts will be subject to closing March 15-19, to allow underground utilities to be installed.

Bowling

Grumman Industrial Tournament
Week #3 (four games)

R. Larsen bowled a 226, R. Mulderig 225/216, R. Wiseman 217, H. Arnesen 214/213.

BNL is still in second place, going into the final round this Saturday night.

Red/Green League - 2/23 & 3/2

R. Eggert bowled a 268/236/232/736 scratch series, K. Koebel 227, H. Arnesen 226, S. DiMaiuta 225/207/611 scratch, F. Hohmann 223/203, M. Guacci 222/218/637 scratch, A. Warkentien 221, B. Erickson 215/202/610 scratch, R. Eggert 215, K. Keobel 212, H. Dawson 211, J. Muller 211, A. Sauerwald 211/200, A. Warkentien 211, R. Sick 210, K. Asselta 208, R. Larsen 207/204/606 scratch, E. Sperry IV 205, C. Scarlett 204, S. Thompson 204, R. Jansson 203, C. Bohnenblusch 202, R. Priest 200.

Purple League

Pat Manzella bowled a 213/558 scratch series, Bob Geib 204/200/594 scratch, Lorraine Roecklein 200, Jeanne Penoyar 188/182/522 scratch, Denise Monteleone 191, Elaine Zukowski 191/542 scratch, Linda Di Pierro 175, Nancy Erickson 178, Denise Monteleone converted the 8-10 split, Skelly Frei converted the 4-7-8-10.

White League

Mike Meier bowled a 236/211/618 scratch series, Norman Besemer 218/534 scratch, Jim Petro 214/542 scratch, Joe Mayeski 215/589 scratch, George Munoz 212, Maryann Reynolds 211, Mike Meier 211, Phil Radusewicz 207/575 scratch, Pete Wynkoop 202, Tory Goldsborough 181, Mary Grace Meier 181/176, Ann Wynkoop 179/178, Lynette Finlay 175, Diane Lombardi 171, Pat Bounauito 171, Diane Romano 170. Renée Flack converted the 5-7 split, Phyllis Fewell the 5-10, and Ron Dobert the 4-7-10.

Money Management Plan at TFCU

Teachers Federal Credit Union (TFCU) announces the availability of PLAN AMERICA, a financial management program that helps in organizing financial affairs and planning for the future.

The PLAN AMERICA center is located at TFCU's main office in Farmingville, but a representative will be on site, at the Upton Branch, on Tuesday and Wednesday, March 16 & 17. To set up an appointment, call Cathy Mahan, Ext. 2790.

PLAN AMERICA is a service of CUNA Brokerage Services, Inc., 5910 Mineral Point Road, Madison, WI 53705, a member of NASD, SIPC. PLAN AMERICA representatives are also licensed insurance representatives of the CUNA Mutual Insurance Group.

Equipment Demos

Giddings & Lewis will exhibit its programmable industrial computers on Wednesday, March 17, from 10 a.m. to 2 p.m., in Berkner Hall. Demonstrations will include the PiC900 Turbo² processor for industrial control applications. Formal, 1/2-hour presentations will be held at 11 a.m. and 1 p.m. Topics will include IEC programming language, desktop motion simulator, applications and control demonstration. Demos will be provided by representatives of Giddings & Lewis and Associated Controls, Inc.

•

Colonial Hardware Corp. will feature Ensley electrical benders and threaders in a tool demonstration in Berkner Hall, on Thursday, March 18, starting at 11:30 a.m.

Cafeteria Menu

Monday, March 15

Soup: Chunky spring tomato		.80/1.10
Entree: Fisherman's platter w/fries		3.95
Lite Choice: Baked tomato & broccoli		3.35
Carvery: Hot pastrami sandwich		2.95
Grill: New England-style steak hoagie		3.25
Taster's Bar: Chicken wings	(oz)	.25

Tuesday, March 16

Soup: French onion		.80/1.10
Entree: Chicken breast New Hampshire		3.85
Lite Choice: Spinach/artichoke casserole		3.45
Carvery: Hot roast beef sandwich		2.95
Grill: Sauteed fish w/new potatoes		3.85
Taster's Bar: Baked clams w/lemon	(oz)	.25

Wednesday, March 17
St. Patrick's Day Special

Soup: Cream of broccoli or split pea		.80/1.10
Entree: Corned beef & cabbage		3.35
Entree: Stuffed flounder w/broccoli		3.85
Entree: Irish stew on bistro bread		3.65
Grill: Tuna melt platter w/fries		2.95
Taster's Bar: Corn fritters	(oz)	.25

Thursday, March 18

Soup: Minnesota wild rice		.80/1.10
Entree: Pork cutlet Bostonian		3.85
Lite Choice: Chicken Szechuan		3.65
Carvery: Hot corned beef sandwich		2.95
Grill: 3-cheese melt w/fries		2.95
Taster's Bar: Breaded vegetables	(oz)	.25

Friday, March 19

Soup: Maine-style crab chowder		.80/1.10
Entree: Sauteed turkey cutlet California		3.85
Lite Choice: Baked halibut Veronique		3.85
Carvery: Hot turkey sandwich		2.95
Grill: Breast of chicken Provencale		3.85
Taster's Bar: Baked potato w/toppings	(ea)	1.50

Placement Notices

The Laboratory's placement policy is to select the best-qualified candidate for an available position. Consideration is given to candidates in the following order: (1) present employees within the department/division and/or appropriate bargaining unit, with preference for those within the immediate work group; (2) present employees within the Laboratory; and (3) outside applicants. In keeping with the Affirmative Action plan, selections are made without regard to age, race, color, religion, national origin, sex, handicap or veteran status.

Each week, the Personnel Division lists new placement notices. The purpose of these listings is, first, to give employees an opportunity to request consideration for themselves through Personnel, and, second, for general recruiting under open recruitment. Because of the priority policy stated above, each listing does not necessarily represent an opportunity for all people.

Except when operational needs require otherwise, positions will be open for one week after publication.

For more information, contact the Employment Manager, Ext. 2882, or call the JOBLINE, Ext. 7744 (282-7744), for a complete listing of all openings.

SCIENTIFIC RECRUITMENT - Candidates may apply directly to the department representative named.

SENIOR PROJECT MANAGER, PROTEIN DATA BANK (PDB) - Requires strong background in structural biology/biochemistry, with broad knowledge of database technologies and of the use of databases for the storage of complex 3-D molecular structure data. Will have broad responsibilities, including supervision of the acquisition, storage and dissemination of information between PDB, a unique international database resource for 3-D structures of biological macromolecules, and its diverse scientific and technical user communities. Will also serve as a spokesperson to the scientific community for the PDB. Contact: Thomas Koetzle, Chemistry Department.

ASSISTANT SCIENTIST - Trained in accelerator physics, with experience in accelerator operations. Expertise in accelerator instrumentation, especially in beam position and profile monitors, is desirable. Contact: Derek Lowenstein, Alternating Gradient Synchrotron Department.

LABORATORY RECRUITMENT - Opportunities for Laboratory employees.

DD 8168. OFFICE SERVICES POSITION - Requires an AAS in secretarial science or equivalent experience, excellent oral and written communication skills and a knowledge of Laboratory policies and procedures. Demonstrated organizational skills also required; WordPerfect 5.1 desired. Duties will include providing general clerical support within Division. Safety and Environmental Protection Division.

DD 0414. OFFICE SERVICES POSITION - Requires AAS or equivalent experience, excellent oral and written communication skills, demonstrated organizational skills and experience with WordPerfect 5.1. Will provide clerical support to Departmental Office including telephones, scheduling meetings, typing and filing. Other duties will include assisting administrative staff with various projects. Medical Department.

OPEN RECRUITMENT - Opportunities for Laboratory employees and outside candidates.

DD 0490. TECHNICAL POSITION (term appointment) - Requires AAS in mechanical technology or equivalent experience and demonstrated mechanical fabrication and assembly skills. Previous machine shop experience and the ability to work from rough sketches and verbal instruction is required. Experience with epoxy resins and a knowledge of electronics are highly desirable. Duties will include assembly of various components to build spectrometers for the HFBR. Physics Department.
