Retirees Return to Give the Gift of Life

Bernard Brehm

When BNL employees arrive at the Brookhaven Center to donate blood on June 15-17, they may see some familiar faces. This year, Lab retirees have been invited to return to their former workplace to give the gift of life alongside current BNLers, visitors, guests, and their friends and family.

In fact, some retirees have already beaten employees in the friendly race to get their pledge cards back to Blood Drive Chair Susan Foster, Bldg. 185, before today's deadline for a raffle of five $50 gift certificates to area restaurants.

One such retiree, former computer analyst Marilyn McKeown, who retired from the Physics Department in August 1989 and lives in Brookhaven Hamlet, says she tries to maintain her record of giving blood twice a year since completing her more than 40 years of service at the Lab.

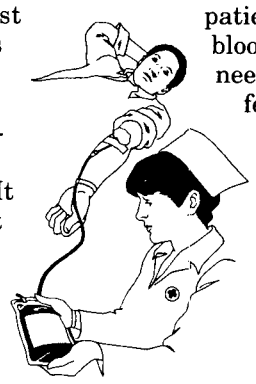
"I'm a firm believer in giving blood," she said. "It was convenient when I worked at the Lab, and it still seems convenient today — you know the setup and the people, and you can see friends you haven't seen."

Bernard Brehm, a Shoreham resident who retired from the Plant Engineering Division as a tower lineperson in July 1990, also plans to give blood in the June drive and has already sent in his pledge card.

"I always like to come to the Lab, so usually I wait for the Lab blood drive," said Brehm, who worked at BNL for 25 years. "Giving blood has become a habit."

But retirees are only one part of the BNL community who can give blood, Foster emphasized. Every pint is needed to help victims of violent crime, automobile accidents and other injuries recuperate from their wounds, and to provide for patients in need of organ or marrow transplants, or blood-component transfusions. Despite this increased need, blood donation rates have dropped, and a false fear of being infected with HIV, the AIDS virus, is keeping potential donors away.

Marilyn McKeown



BNL employees, their family and friends and, of course, retirees have a chance to fight that trend June 15-17 from 10 a.m. to 3 p.m. in the convenient setting of the Brookhaven Center. For more information, contact your department or division's Blood Captain (published in last week's Bulletin) or Foster, Ext. 2888.

Coming Up

Robert Serber, emeritus Professor of Physics at Columbia University, will deliver a Pegram Lecture Series collectively entitled "Peace and War," in three 8 p.m. talks, on Tuesday, Wednesday and Thursday, June 7, 8 and 9.

Serber, a protégé of J. Robert Oppenheimer, played a key role in developing the first atomic bombs at Los Alamos National Laboratory and has remained involved in peacetime physics since World War II ended in 1945. He will give his eyewitness account in lectures entitled, respectively, "War: Berkeley and Los Alamos," "War: Tinian and Japan," and "Peace: Early Days at Berkeley, Cal Tech and Brookhaven."

•

Scientist Douglas Wallace, Department of Applied Science, will deliver the next Brookhaven Lecture on Wednesday, June 15. His talk about "Detecting the Oceans' Uptake of Fossil Fuel CO_2" will begin at 4 p.m. in Berkner Hall.

Cooking Exchange

The BNL Cooking Exchange will hold its monthly luncheon at 12:30 p.m. on Thursday, June 9. The pot-luck-style meal will be held in the Recreation Building in the apartment area. All are invited to bring a favorite dish of their native country.

Rifle & Pistol Club

The Rifle & Pistol Club meets on the second Wednesday of each month, so the next meeting is June 8, in Bldg. 911B, Room 202, at noon. For information, call Otto Jacobi, Ext. 3471.

Let's Dance!

Sign up now for beginners' rhumba lessons, which will begin on Wednesday, June 15, in the Recreation Building in the apartment area. Offered by the BNL Ballroom, Latin & Swing Dance Club, the class will run from 6:30 to 7:30 p.m. for four Wednesdays.

BNL employees, retirees and those employed by on-site contractors, plus their spouses, dance partners, family and friends are welcome. Since even numbers of men and women will be enrolled, you don't need a partner. The cost is $15 per person. To register, call Marsha Belford, Ext. 5053.

ANS Meeting

Ann Bisconti, Vice President for Research & Program Evaluation of the Nuclear Energy Institute, will speak on "How the Public Views Nuclear Energy and You" at a dinner meeting of the Long Island Section of the American Nuclear Society (ANS) on Wednesday, June 8, at the Radisson Hotel, Islandia.

Following cocktails at 6 p.m. and dinner at 7 p.m., the speaker will be introduced at 8 p.m. by Robert McNair of BNL's Reactor Division. Make reservations by calling Jeanne D'Ascoli, Ext. 2277, before Monday, June 6.

L.I. United Way Honors Manning

BNL's United Way campaign may have ended in December, but in April its manager, Ron Manning, also the Manager of the Staff Services Division (SSD), was named Outstanding Employee Campaign Manager by Long Island's United Way (LIUW). On behalf of BNL campaign captains and contributors, Manning (right) accepted the award from LIUW Assistant Vice President of Campaign Jaime Suarez, for leading a drive that raised $103,441 for the organization's affiliated health and human services organizations.

Art Society Bus Trip

Set in beautifully landscaped gardens, the Winterthur mansion in Delaware is renowned for one of the world's greatest collections of American antiques. Visit there, then prowl round antique shops, or ride a steam train or canal barge at the village of New Hope, Pennsylvania — all on the BERA Art Society's bus trip on Saturday, June 25. The coach will leave BNL's tennis court parking lot at 6:15 a.m. and return to BNL by 10 p.m.

All are welcome. Coach tickets are $20 each; Winterthur guided visit and garden tram tour is $10. Call Liz Seubert, Ext. 2346, for information and tickets.

New CREF Accounts

Beginning July 1, two new equity funds — the Growth Account and the Equity Index Account — will be offered by CREF as investment options for BNL employees for the AUI Retirement Plan, and the 403(b) voluntary, tax-deferred, salary reduction (SRA) retirement program.

The CREF Growth Account portfolio will contain stocks issued by companies of all sizes, emphasizing small and medium-sized firms in emerging areas of the economy. The Growth Account may also invest in foreign stocks, and overseas stocks can range up to 40 percent of the account's portfolio. In seeking extraordinary growth opportunities, the Growth Account may invest in companies to benefit from prospective acquisitions, reorganizations, corporate restructurings or other special situations.

The Equity Index Account will invest its assets in stocks listed in the Russell 3000, a broadly based index of U.S. common stocks.

For additional information about these accounts, contact TIAA-CREF at (800) 842-2776.

Mountain & Canoe Club

The BNL Mountain and Canoe Club will meet on Monday, June 6, at noon in the gazebo by the softball fields to discuss summer activities. Those interested in canoeing, hiking, climbing, etc. are welcome; bring your lunch and ideas.

Hospitality News

The next Hospitality Committee get-together will be Tuesday, June 7, at 9:30 a.m., in the Recreation Building in the apartment area. This informal meeting will be a good time for newcomers to the apartment area to meet their neighbors and plan future activities.

Spouses of Lab employees and guests are welcome. Bring the children, but also a toy or two. Coffee and cookies will be served.

Equipment Demos

On Wednesday, June 8, from 11 a.m. to 2:30 p.m., Olympus America will display the new, ergonomically designed, universal, infinity-corrected optical Olympus microscope equipment for the biological and material sciences. In addition, image-archiving and retrieval systems, micromanipulators, video systems, camera systems, motorized stages and more will be previewed. Free microscope technique reference books will be available. For more information, call (800) 446-5967 or (908) 873-2313.

•

Representatives from Littelfuse Power-Gard will host a product display in Berkner Hall on Thursday, June 9, from 10 a.m. to 2 p.m. At 11 a.m., there will be a brief presentation on fuse technology and applications.

In Memoriam

The following retirees passed away recently:

Edward H. Pultz, who retired from the Plant Engineering Division on January 8, 1988, died on May 7. He was 68 years old. He started at the Lab on November 15, 1965, as a refrigeration & air-conditioning engineer, and was Group Leader at the time of his retirement.

•

Bernard F. Brennan, former Police Group Supervisor in the Safeguards & Security Division (SSD), died on May 17 at the age of 67. When he joined the Lab as a staff assistant on March 29, 1976, the Police Group, which he began to supervise in October 1980, was in the Safety & Environmental Protection Division. Beginning in October 1983, it was part of the Safeguards & Emergency Services Division, which became SSD in October 1985. When he retired on July 31, 1991, he was a security specialist.

Placement Notices

The Laboratory's placement policy is to select the best-qualified candidate for an available position. Consideration is given to candidates in the following order: (1) present employees within the department/division and/or appropriate bargaining unit, with preference for those within the immediate work group; (2) present employees within the Laboratory; and (3) outside applicants. In keeping with the Affirmative Action plan, selections are made without regard to age, race, color, religion, national origin, sex, handicap or veteran status.

Each week, the Personnel Division lists new placement notices. The purpose of these listings is, first, to give employees an opportunity to request consideration for themselves through Personnel, and second, for general recruiting under open recruitment. Because of the priority policy stated above, each listing does not necessarily represent an opportunity for all people.

Except when operational needs require otherwise, positions will be open for one week after publication.

For more information, contact the Employment Manager, Ext. 2882, or call the JOBLINE, Ext. 7744 (282-7744), for a complete listing of all openings.

SCIENTIFIC RECRUITMENT - Doctorate normally required. Candidates may apply directly to the department representative named.

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in experimental solid-state and surface physics. Synchrotron radiation experience preferred. Research conducted may include hydrogen on surfaces and hydrogen in multilayer films; modified properties of metal monolayers; chemical phenomena near 10 K; and experiments on high T_c superconductors. Contact: Myron Strongin, Physics Department.

OPEN RECRUITMENT - Opportunities for Laboratory employees and outside candidates.

DD 2973. OFFICE SERVICES POSITION - (term appointment) Requires excellent clerical skills, demonstrated organizational abilities and substantial office experience.
