Memo

Date: June 27, 2001

To: Distribution

From: R. Lee R. Lee 6/27/01

Subject: **Hazardous Substance Bulk Storage Registration Renewal**

Attached please find a copy of the BNL Hazardous Substance Bulk Storage Registration Certificate for your records. The certificate was renewed on June 11, 2001 and expires on July 27, 2003. A copy of the registration should also be posted at each regulated tank location.

In February 2001, the New York State Chemical Bulk Storage program conducted an inspection of BNL storage facilities. Several deficiencies were noted during this inspection, the most significant of which involves the construction of secondary containment areas for transfers. The Environmental Services Division is working with Plant Engineering to develop the most cost effective means of complying with this requirement. Other issues involved maintenance of inspection records, and labeling of facilities. Tank inspection requirements were also discussed. In accordance with the Subject Area for storage of hazardous materials, the following inspections are required for tanks regulated under the State bulk storage program. Daily inspections must be conducted to ensure the storage facilities are not leaking. Annual inspections are required to ascertain the condition of the tanks and associated piping. Five-year inspections are required to ensure the tanks remain suitable for use. Documentation must be maintained and reproducible for the annual and five-year inspections. Copies of the inspection reports must be maintained at your facility for review by the NYSDEC upon request.

If there are any questions regarding the attached registration certificate or any of the state requirements, please do not hesitate to contact me at Extension 3148.

Dear Ms Cunniff:

SUBJECT: HAZARDOUS SUBSTANCE BULK STORAGE REGISTRATION CERTIFICATE - RENEWAL

Enclosed, please find a renewal certificate from NYSDEC for BNL's chemical storage facilities subject to registration. Please ensure all special conditions are understood by tank operators including posting of a copy of this certificate at each tank location.

If you should have any questions regarding this matter, please contact Jerry Granzen at extension 4089.

Sincerely,

for Robert L. Desmarais, Director
Project Management Division
