Form ID:	11269
Beamline Used:	23-ID-2
Start Date:	3/9/2018
End Date:	3/11/2018

SAF No.:	302183
Time requested this cycle:	2
Time received this cycle:	2
Name:	Matthijs van Spronsen
Institution:	Harvard University/LBNL
Guest Number:	K7607
E-mail:	mavanspronsen@fas.harvard.edu

This user would like to be contacted with a status report.

1) How satisfied were you with the fraction of the year that the facility operates?
very satisfied

2) How satisfied were you with the Beamtime scheduled (i.e., was beamtime delivered on schedule were beamtime outages kept to a minimum)?
neither satisfied nor dissatisfied
Comments:
The schedule of beamline 23.2 did not allow us any time to prepare our sample and to bake out the endstation. Both are needed to decrease the contamination in the experiments and to do useful measurements. Therefore, we had to invest valuable beam time to bake out the endstation to decrease the effect of the gases used by previous users. We lost the beam for an hour and lost an hour due to the switch to daylight summer time.

3) How satisfied were you with the beam performance (i.e., was beam or service maintained close to specifications)?
satisfied
Comments:
One time the beam was lost, which took roughly an hour to restore. Not bad at all.

4) How satisfied were you with the support for users provided by the NSLS-II staff?
n/a

5) How satisfied were you with the support for users provided by the beamline staff?
very satisfied
Comments:
Very good. Very knowledgeable and invested.

6) Which of the following benefits have resulted or will soon result from your use of this facility this year?

Created new fundamental knowledge (i.e., basic research)
Dissemination of new knowledge via publication in peer-reviewed open literature
Dissemination of new knowledge via presentations at professional society meetings
Dissemination of new knowledge via other presentations

---

7) How satisfied were you with the Safety Approval Form and the Beamline authorization processes?
satisfied

---

8) How satisfied were you with the quality of general training (NSLS-II safety orientation, GERT, Stop Work) and BeamLine Operations and Safety Awareness (BLOSA)?
n/a

---

9) Are the training and safety procedures appropriate?
yes

---

10) What would you like the NSLS-II to do differently in the future that would assist users (not mentioned above)?
