

Shop At Home

The Shop at Home Program allows Brookhaven National Lab employees the opportunity to purchase major appliances at prices not normally found in traditional retail stores.

We offer over 100 of the largest national brand name manufacturers. Names like GE, Maytag, and Whirlpool to Sub Zero, Thermador, DCS, Weber, Panasonic and Viking, and many more.

Simply e-mail us the make and model number of the product your shopping for and we'll provide you with a detailed price quote. Your price quote will be itemized for your convenience. Your quote will include the product cost, shipping or delivery charges, and the tax.

If you don't have the make and model, we'll work to help you find the appliance that's right for you, then deliver it promptly to you.

Just e-mail Shop At Home at:
