## Final Performance Saturday Night

Graham Campbell, as John Proctor, comforts his wife Elizabeth, played by Luella Zavesky in a climactic scene from *The Crucible*. —Humphrey

## Passions Flare As 'Crucible' Unfolds

Powerful words and basic settings combined to make the BNL presentation of Arthur Miller's *The Crucible* a suspenseful and thought-provoking experience.

In retrospect, the message of *The Crucible* is quite clear. Things have not really changed very much since the early days of American history. True, our courts are more formal, and our crime detection methods are more sophisticated, but the minds of men are still prone to being swayed by the emotions of the hour.

*The Crucible* tells an absorbing tale of a community that is swept up in hysteria about witchcraft to the extent of causing a breakdown of normal social structure.

John Proctor, played by Graham Campbell, starts as the voice of logic and sanity, but is engulfed in the course of events to become one of the victims of the macabre hoax perpetrated on the town of Salem.

To point out individual members of the cast would be difficult, because each provided a necessary element to the telling of Salem's tale. The Deputy Governor and the judge, who were swayed by political expediency, were matched by community members who would rather sacrifice their lives than their principles.

The accusing children who could not extricate themselves from the web of evidence they had woven were matched by the opportunists who climbed on the bandwagon of popular opinion to further their own ambitions.

Julie Peierl's direction and staging of the play showed careful attention to detail. Lighting effects for the last scene, in a Salem jail cell, were chillingly realistic. Makeup and costuming was unobtrusive and effective. The entire production staff obviously worked very hard to match the effort put forth by the cast.

The two final performances of this classic will be presented in the BNL Theatre on Friday, January 31, and Saturday, February 1, at 8:30 p.m. Tickets may be purchased either at the door or from ticket

sellors in various Departments and at the Cafeteria.

### The Crucible

Produced by Ronald Peierls

Directed by Julie Peierls

### Cast

(in order of appearance)

Betty Paris	.....	Patty Gould
Rev. Samuel Parris	.....	Ronald Peierls
Tituba	.....	Agnes Donahue
Abigail Williams	.....	Gladys Rech
Mrs. Ann Putnam	.....	Catherine Wingate
Thomas Putnam	.....	Carl Goodzeit
Mercy Lewis	.....	Hallie Frazer
Mary Warren	.....	Patricia Campbell
John Proctor	.....	Graham Campbell
Rebecca Nurse	.....	Anna Passell
Giles Corey	.....	Gerhart Friedlander
Rev. John Hale	.....	Robert Marr
Elizabeth Proctor	.....	Luella Zavesky
Francis Nurse	.....	George Cox
Ezekiel Cheever	.....	Geoffrey Hind
John Willard	.....	Bruce Martin
Judge Hathorne	.....	Dan Hooper
Deputy Gov. Danforth	.....	John Gorr
Sarah Good	.....	Rita Straub

### Production Staff

Stage Manager	John Binnington
Stage Lighting	Joseph Kahane and George Cox with Lorraine Kahane
Set Furnishings	Rita Straub with Joan Silsbee
Props	Ann Miller and Barbara Amoretti with Toni Salamone and Moira O'Brian
Makeup	George Counadis with Ann Miller, Bonnie Hughes, Flo Counadis, Maebelle Madden, Lyllis Adams, Vivian Chen
Wardrobe	Margaret Hind with Marjorie Rudert, Diana Bartelt, Susan Heath
Sound Effects	Carl Goodzeit and Bruce Martin
Publicity/Ticket Sales	Dan Hooper and John Gorr with Bruce Martin
Program	Jerry Friedman and Pat Towey
Cover Design	Patricia Campbell
House Manager	Charles Meinhold
On Book	Lorraine Kahane

## Technical Scholarship Deadline Date Extended One Week To February Seventh

Application date for technical employees who want to participate in the AEC Technical Scholarship Program has been extended by one week to a new deadline of February 7.

The scholarships, sponsored by the AEC and Brookhaven National Laboratory are offered to eligible employees of eight AEC laboratories, with up to two awards to each multi-purpose laboratory. The purpose of the program is to provide an opportunity for employees with technical proficiencies to accelerate their completion of bachelor's degree requirements in a field of interest to the AEC.

Awards to those finally selected include full salary and all benefits, as well as tuition and fees, while attending college full time for up to two years. The practical effect of winning the award will be for the student to continue work at BNL but instead of reporting to the Lab each day, he will go to college with BNL picking up the tab.

The main requirements for applicants is that they be actively pursuing a bachelor's degree at the time of application. In addition, the field of study must be one that is in a field of interest to the AEC. As these are technical scholarships, majors in business administration or non-scientific fields will not be considered.

Of course, the candidate must also demonstrate capability by maintaining a reasonable scholastic average, and be able

to complete the requirements for a bachelor's degree in two years or less.

Of the six employees who have won these awards to date, two have completed their degree requirements and have returned to BNL in better paying jobs, and the last two have just started full-time schooling.

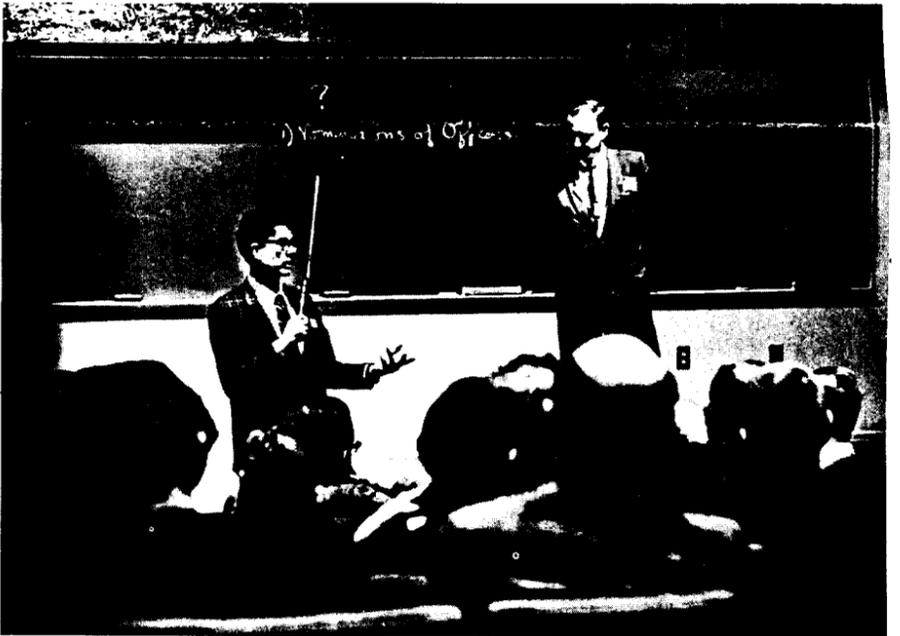

The committee for initial screening and interview of applicants consists of Dr. R.C. Anderson and William Knapp, Office of Scientific Personnel; Julius Spiro, Accelerator; William A. Tuttle, Physics; and Peter Paige, Personnel. After an initial screening by the BNL committee, final selection is done in Washington by a committee consisting of one member from each participating laboratory, at which time up to two awards are made to BNL employees.

The value of the scholarship to each winner varies, but can range from \$20,000 to \$30,000, when all factors are considered.

### Coming Attractions

- 1/31 "The Crucible" (BNL Theatre - 8:30 p.m.)
- 2/1 "The Crucible" (BNL Theatre - 8:30 p.m.)
- 2/6 BERA Concert - Bernedi Quartet (Berkner Hall - 8:30 p.m.)
- 2/12 Navy Lecture (Brookhaven Center - 7:30 p.m.)
- 2/14 BERA Dance (Gymnasium)

## LAMPF Users Group Organizes

R. Ronald Rau, Chairman of BNL's Physics Department (left) addressed the Los Alamos Meson Physics Facility (LAMPF) Users Group at their meeting on January 16. Dr. Rau is a member of the LAMPF Policy Board. Gerald C. Phillips (right) of Rice University served as temporary chairman at the meeting.

Harry Palevsky, BNL's Physics Department, newly-elected chairman of the LAMPF Users Group executive committee, addressed the group meeting at Los Alamos Scientific Laboratory, and outlined what he felt the initial functions of his organization should be.

M.L. Perlman, BNL's Chemistry Department, at the LAMPF Users Group meeting, discussed the composition of the Scheduling Committee and the problems of establishing who got to use the machine and when. Dr. Perlman is a member of LAMPF's Technical Advisory Committee.

**Who Has More Fun - Blondes or Brunettes?**

Mea Lindner, whose husband Louk is with BNL's Chemistry Department, debates the fun of long dark tresses over the short bob; as Marie Yax, wife of AEC Charles Yax (standing, left), and Rose Petrie, owner of the Village Wig Inn (standing, right) show Jacqueline Newman, wife of DAS Leonard Newman (seated) how attractive long blonde tresses can be. The wigs 'n things demonstration was given by Rose Petrie at the Hospitality Coffee this past Monday, January 27.

**North Tract Closed Again to Hunters**

The Suffolk County deer season is over for this year, and BNL's North Tract is again closed to any and all hunters.

According to figures provided by New York State Conservation Biologist Robert Inslerman, the 142 hunters who entered the Laboratory's woods took out a total of 5 deer. This was only a 3.5 per cent hunter success. Of the 5 deer, one was a doe and the other four bucks. While most of the deer were slightly less weighty than deer taken upstate, one of the bucks was a large 9-point, 143-pounder.

When questioned as to the general condition of the herd, Mr. Inslerman said that while it seemed to be good, the health of the herd was being determined through blood samples taken and tests being made on vital organs of the deer. A report will be issued in the near future.

**Maternity Program At St. Charles**

A six-week informational program for expectant mothers will be conducted without charge at St. Charles Hospital, Port Jefferson, beginning Friday, February 7.

The two-hour classes will be held on consecutive Friday afternoons at 1 p.m. at the hospital as a service to residents of the community. The classes will be informal and group discussions will be encouraged.

Additional classes will be held starting the first Friday in April, June, August, October and December. No formal registration is required, and fathers are also encouraged to attend. For further information, contact the Maternity Department at St. Charles Hospital, HR3-2800.

**Adult Ed Registration At Newfield Feb. 3 - 6**

Registration for Adult, or Continuing, Education courses in the Middle Country Central School District will be held during the first week of February from 7 to 9 p.m. at Newfield High School in Centereach.

Courses offered are in the fields of Applied Arts, Art and Music, Business Education, Driver Education, Drama, Educational opportunities, Languages, Electronics, Data Processing and Recreational subjects.

Brochures describing the courses in detail as well as fees and meeting nights may be had at the BNL Personnel Office, or by applying to the school. John F. Jacobs, I & HP, can supply further information about the electronics courses offered. He may be reached on Extension 2955 at the Lab.

**Masthead Art**

The art work for the heading for the *Brookhaven Bulletin* was done in the Illustration Section of Photography and Graphic Arts.

The words "*Brookhaven Bulletin*" were produced by Emil (Whitey) Ciazza, who slanted and weighted each letter to fit the space available.

**People To Cuba - Maybe AEC Documents - No**

Because of all the unscheduled trips to Cuba these days, the AEC has forbidden its employees carrying secret documents to use commercial aircraft anywhere in the United States.

Since this order, issued last fall, all such employees use trains, military aircraft or private planes operated by some of the Commission's contractor companies.

It is supposed that such means of transportation will stymie all but the really astute hijacker.

**Musket & Firelock Group To Meet**

The BNL Rifle & Pistol Club will hold its next regular meeting on Friday, February 7. The meeting will be held in the Recreation Building and will begin at 8 p.m.

**Dollars and Sense**

Leon Meshel

**Insurance Inventories**  
by Frank Bloom

Just about every home owner carries fire insurance coverage on his home and its contents. However, in many cases the amounts of coverage were determined at the time the home was purchased. Since houses have appreciated in value considerably over at least the past 15-20 years, if the original policy has not been revised, the current coverage may be entirely inadequate. In addition, there may have been improvements and acquisitions of additional personal property (furniture, tools, art works, etc.) that represent considerable dollars of value. The foregoing indicates that the homeowner's limit of coverage should be reviewed at least every few years.

An easy way in which to keep a record of improvements and personal property acquired is to maintain an inventory list supported by a bill file. This list serves three important purposes:

1. By keeping the list fairly current and accumulating total dollar values, the homeowner can determine the amount of coverage he should have without having to "guesstimate." (It is surprising the total dollar value of personal property that one accumulates.)
  2. By sending a duplicate copy of the inventory list to your insurance broker every few years as updated, it can be attached to your policy to help substantiate the extent of a loss should one occur.
  3. The list and bills can serve as supporting evidence for tax authorities in cases of casualty loss or determination of cost basis where the house is sold at a gain.
- Although a complete inventory sounds like a lot of work, it isn't really so. Once the basic list is completed, it is a simple matter to update it periodically, either from memory or by a quick "walkthrough" inside your home, noting all new items or improvements.

**Here and There**

Dolores del Castillo

At a meeting of the American Math. Society held in New Orleans, January 23-27, the following papers were presented by members of the Applied Math Department:

"Eigenfunction Expansions and Similarity for Non-Selfadjoint Operators," by Charles Goldstein; "A Solution of the Reduced Wave Equation in an Infinite Domain," by Burton Kleinman; and "An Integral Identity Due to Ramanujan which Occurs in Neutron Transport Theory," by James Thurber.

Stephen W. Feldberg (DAS) presented an invited paper entitled, "Digital Simulation of Electrode Chemistry," at the Gordon Conference in Electrochemistry, Santa Barbara, January 19-24.

Julius Milau (DAS) attended meetings of the Sealed Source Committee N43.3 of the U.S. American Standards Institute, January 16 and 17, held in New York City.

Leonard Galanter (DAS) attended a Seminar Workshop on Gamma and Electron Transport Theory sponsored by the USNBS and ORNL. The workshop was held at Oak Ridge, January 26-28.

Lester Sine has joined the HIRDL group (DAS) as a Guest Associate Engineer from Isotopes, Inc. for a period of several months.

Dr. George C. Cotzias (Medical) addressed the Chicago Society of Internal Medicine meeting at the Drake Hotel in Chicago on January 27. His subject was the metabolic treatment of cerebral degenerations and the internist. Following the meeting, Dr. Cotzias was interviewed by Dale McCaren of Station WBBM-CBS News.

Douglas F. Humphrey (Photo) was the featured speaker at the Long Island Communicators Association meeting held on January 27. His talk was entitled "Editors and Photographs - Moving Away from the Shotgun Weddings." Humphrey is the author of articles on public relations photography appearing in the current issues of *Technical Photography* and *Photographic Business & Product News*.

Michel Sarquiz of Saclay will visit the Laboratory on February 7 to discuss fast electronics and circuits.

William B. Sampson, Richard B. Britton, Richard A. Beth (all of the Accelerator Department) and P. Gerald Kruger (consultant) were the named inventors of a "Multipole Magnet Having a Sequentially Shim Stepped Coil Configuration" for which U.S. Patent No. 3,423,706 was granted to the AEC on January 21, 1969.

**Joins AEC EEO Program**

Marion A. Bowden, formerly personnel official at Argonne National Laboratory, has been appointed Assistant for Equal Employment Opportunity Programs within the AEC. In his announcement of this appointment, Robert E. Hollingsworth, General Manager of the Atomic Energy Commission, said that Mr. Bowden would be assigned to his office at AEC Headquarters in Germantown, effective February 1, 1969, to serve as liaison with interested national and local public and private organizations. Bowden will recommend to the General Manager ways in which the AEC might work with such organizations in equal employment opportunity efforts. He will also advise on the establishment and maintenance of contractor equal employment opportunity programs.

**Letters To The Editor**

Dear Sir:

There are many corporations that utilize "employee suggestion programs" of some type to stimulate individual participation in company programs.

Would BNL benefit both economically and in employee relations by instituting such a program?

Gene Czelada  
Technical Photography

**Dorothy Lewin Leaves Lab**

BNL's Security Office just isn't going to be the same after January 31, 1969 - the Lewin is going out of it! After 22 years as the Office's Executive Secretary, Dorothy Lewin will be leaving BNL.

Mrs. Lewin came to BNL in June of 1947, and was assigned to the Security

Dorothy Lewin

Office. It fell to her to set up the general office procedures, the files, do the early paper work as an infant Laboratory was taking shape around her. All Lab employees, past and present, have been through her office to be mugged and fingerprinted, and have received their ID cards through her office.

Now she has decided to rest on her laurels. She'll rest, that is, after proposed trips to Florida and California. It's planned that she and her husband will spend the summer boating and fishing, and then maybe some more travelling will be in the offing. In any event, the Lewins will continue to reside in their home in Yaphank.

**Arrivals & Departures**

Steven Lewkowitz.....Applied Science  
Nancy E. Schiffer.....Physics

**In Memoriam**

Paul A. Pion of the Mechanical Engineering Division died of a heart attack on January 25, 1969. He was 46.

Employed at the Laboratory since November, 1954, for the past eight years he had been assigned to the Bubble Chamber Group as Design Room Supervisor.

Mr. Pion is survived by his wife, Doris of the Fiscal Department, and his two daughters, Patricia and Carol Jean.

## Bernède Quartet Here February 6

The fourth concert of the BERA Concert Series will feature the Bernède String Quartet on the evening of February 6.

Youth is the trademark of this ensemble which makes its American debut this month. Founded in 1964 by Jean-Claude Bernède, the Quartet won an award at the Munich International Competition the following year, and shortly thereafter made its debut in Paris. It has since established its reputation in France, Holland, Switzerland, England, Greece, Germany, Italy and Spain. Debuts were made in Salzburg, Austria and Basel, Switzerland in the spring of 1968.

Beginning his studies at the Conservatory in Agers, Jean-Claude Bernède, violinist, was First Prize at age 11. He graduated in 1957 from the Paris Conservatoire, winning First Prize again. Starting his career as a soloist, in 1964 he devoted himself to performing chamber music with his own quartet.

Gérard Montmayer, violinist, began his studies at the Conservatory in Dijon, going on to the Paris Conservatoire where he won First Prizes for violin and chamber music. Upon his graduation, he joined the Bernède Quartet.

Equally proficient with viola and violin, Guy Chêne is a graduate of the Paris Conservatoire and was awarded Prizes in violin, viola, and chamber music.

Paul Boufil, cellist, started his musical education at the Conservatory of Toulouse where he was awarded the Prix d'Excellence. Going on to the Paris Conservatoire, he graduated with First Prizes in cello and chamber music. Before joining the Bernède Quartet, he concertized in France and abroad, being awarded a Grand Prix du Disque in 1965 for a record with Christian Ivaldi and Michel Debost.

The program for the evening of February 6 will include Roussel's Quartet in D Major, Opus 45, Milhaud's Quartet No. 14 and Bartok's Second Quartet in A Minor, Opus 17 (1917).

The concert will be held in Berkner Hall, and will begin promptly at 8:30 p.m.

## Steinway Concert Grand Given to Berkner Hall

AUI has purchased a Steinway Concert Grand Piano to serve professional concert artists in their appearances at BNL. To remain in Berkner Hall except under rare circumstances when a concert pianist will perform in the Theatre, the piano will be used primarily for recitals, particularly those sponsored by the BERA Concert Group. Other needs for a piano will be met by the use of the Baldwin Grand Piano in the Brookhaven Center.

It is consistent with good maintenance of a piano that it be played often but not promiscuously. All pianists and piano students are invited to practice on the new piano when it and the hall are available. To be kept locked, the key will be available upon request from Manny Hillman, Ext. 2378. Availability of the hall must, however, first be cleared with Mrs. Mariette Kuper, Ext. 436.

Reservations for the use of the piano for evenings and weekends must be made during working hours, and the key may be kept only for those hours requested. All precautions must be taken to keep the piano in excellent condition.

Surely this fine instrument will afford audiences greater enjoyment of the musical talents of the performing artists, and it is hoped that it will serve the Laboratory for many years to come.

## Long Island Viewers Get Their Own TV

Monday, January 27, was a great day for the Island, although many residents may not have been aware of it. The Long Island Educational Television Council, Inc. came on the air with Channel 21 - Long Island's first television station.

Located at Mitchel Field in Garden City, Channel 21 (WLIW) will cover Long Island, including Brooklyn and Queens, and Manhattan, Staten Island, lower Westchester, and portions of northeast New Jersey and southwest Connecticut. WLIW's 700,000-watt transmitter is the most powerful in the entire metropolitan area.

With the coming of WLIW, residents of Nassau and Suffolk Counties will have for the first time a television programming with a Long Island orientation. The population concentration being served by this channel in just these two counties was the largest anywhere in the country without its own TV station. The general manager of the station, William J. Pearce, said, "With approximately 2½ million people in Nassau and Suffolk about to have their own TV outlet, we are well aware of our responsibility to meet the many varied and particular concerns, interests, and needs of all segments of the Long Island community." To this end, Mr. Pearce indicated, Channel 21 will continually seek to offer a wide range of informational, educational, cultural, and public affairs programming.

"Whenever possible and to as great a degree as we are able," he added, "we will involve the community in the station's programming. The station should be a means of local expression for individuals and groups."

The bulk of the 9 a.m. to 9 p.m. Monday through Friday programming will consist of instructional, in-school courses for elementary and secondary levels. The first half-hour of the broadcasting day will be for pre-schoolers, as well as the program just prior to the noon hour. There will be management and supervisory training programs for business and industry, and late afternoon offerings providing a mixture of in-service teacher training, children's shows and general interest community programs.

The evening programming will offer two hours of college credit courses in connection with the State University of New York, and community interest programs.

Approximately 60 per cent of all the television homes in the metropolitan New York area are able to receive ultra high frequency channels such as Channel 21. By Federal Law all sets built since 1964 had to be so equipped. Older sets can be converted to receive UHF by means of an adapter. Installation of a 70-channel tuner, installation of a strip-type tuner for each UHF channel desired, or mounting on or near your set of a 70-channel tuner will convert a set for all channel reception.

Depending on location and distance from the transmitting source a special UHF antenna may be necessary for reception. Various kinds of indoor and outdoor antennas are available at reasonable prices.

It is hoped that WLIW will make a significant contribution towards fostering a sense of community for all Long Island while adding to residents' awareness of the importance of Long Island nationally.

## Bowling News

Irma Carl

### Purple League

Designers bowled new high gross series of 3068, moved into first place, and lead the Phoubars by one point. Clayton Spence with a 212-566 scratch series made high gross series of 719 for the league. Carl Cantera's 202-206-580 scratch combined with Ed Sperry's 550 scratch contributed to the mighty Designers effort. Bill Brown aided the Twisters with a 205.

### Green League

Fire Department now leading the Electrons by one point. D. Menago bowled a 537 series with a 231 which is a new high game for the league. C. Tomesch rolled a 203/531. Other high series were rolled by J. Rhodes (514) and M. Caunter (511).

### Red League

The Dimwits dropped out of the tie for first, leaving the Sandbaggers and Bar Flies to fight it out. Would you believe the winners of the first half are in tenth place as of this writing!! R. Nelson rolled a 224, J. Lee 215, R. Wilson 214, K. Riker 202, J. Speidel 201, and R. Newlands 200.

### Pink League

The Medigals moved into first place by one point over the Fiscal Assets who have set the pace so far during the second half. Marge Stoeckel finally joined the high gross series list which is growing each week. Bio Boozers and the Bookies continue to squabble over last place. Fizzles are standing by as "innocent bystanders." Terry Barbato, Ann Kirkpatrick, Arden Neber and Marge Stoeckel are steadily moving their averages up, up and away. Move over Helen Caisey.

## Slo-Break Basketball

by George Latham

Last Thursday night was the end of the first half of basketball action at BNL.

Biology was down at half time, but outscored the Stratums in the second half to squeak by 32-29. Dick Ruffing had 8 points for Biology, while Oscar Thomas had 17 points for the Stratums.

In another close game Medical got by the Old Timers 38-36. Charlie Crump had 18 points for Medical, as Tom Nelson scored 14 points for the Old Timers.

The Rat Pack took the Highballs 38-31. John Capote had 12 points for the Pack, while McGonigle scored 13 points for the Highballs.

The final first half standings:

Associated League		Won	Lost
Knacks		8	2
AMD		6	2
Rat Pack		6	2
Biology		4	4
Old Timers		3	5
Universities League			
Medical		4	4
Highballs		3	5
Stratums		2	6
Physics		0	8

## Swimming Pool Schedule

Daily Monday through Friday

12:00 noon - 3:00 p.m.

5:00 p.m. - 9:30 p.m.

The new extended schedule of the Swimming Pool is now in effect.

The Pool is closed on BNL holidays.

## Pool Classes Offered

Applications are now being accepted at the Recreation Office for the following 12-week swimming programs which are scheduled to begin at the Laboratory Pool the first week in February.

Scuba Diving - Employees and/or Spouse - Fee \$2.00

Class A - Mon. 5:15 - 6:30

Class B - Tues. 5:15 - 6:30

Junior Life Saving - Children 12-15 years - Fee \$10.00

Class C - Tues. 3:45 - 5:00

Senior Life Saving - Children 16 years and over - Fee \$10.00

Class D - Thurs. 3:45 - 5:00

Deadline January 31 or before if class maximum is reached.

For additional information consult last week's Brookhaven Bulletin or call the Recreation Office, Ext. 391.

## Girl's Best Friend?

You guessed it - **Diamonds!** Here's your chance to either receive the ring you've been looking for or to give one to your gal. True, they're not from Tiffany's, but BERA will give its attendees at the Valentine Dance on February 14 "diamond" rings, charm necklaces, one of the best bands in town, five hours of dancing, vocalist Margie Farrell and other special prizes. All this for only \$1.50 per person.

You may bring your own refreshments or buy ours.

The Decorating Committee is now at work cutting out hearts and experimenting with psychedelic lighting effects.

Friday, February 14 - 9-2 a.m. at "The Place", formerly called the Gymnasium.

## Cooking Exchange Meeting

On Thursday, January 30, a meeting of the Cooking Exchange will be held in the Apartment Area Recreation Building from 3 to 5 p.m. Various casserole dishes will be demonstrated at this meeting.

## Rings On Her Fingers

If diamonds truly are a girl's best friend, this young lady will never be lonely. The rings are similar to those to be given out at the Valentine Dance sponsored by BERA and presented by the Central Shops Dance Committee. All ladies attending the dance on Friday, February 14, will have a similar ring for a souvenir to take home with them.

### Classified Ad Policy

#### Deadline is 12 noon Friday for publication the following Thursday.

- The Brookhaven Bulletin classified section may be used only by active and retired Laboratory employees.
- All items for sale or rent must be the advertiser's property.
- Persons listing houses, apartments, or rooms for sale or rent, do so with the understanding that these must be available without regard to race, creed, color, or national origin.
- Ads for material acquired for resale in association with a full or part-time business cannot be accepted.
- Ads should be restricted to 20 words or less and typed

or printed on the form provided, and must bear the employees signature.

6. Ads not carried because of space restrictions will be held for publication in the next issue.

7. Ads are run only once and must be resubmitted if they are to be repeated.

8. Firearms offered for sale or trade may not be brought on site.
