

County Legislators Visit BNL Staff

Three Suffolk County legislators visited BNL last Friday to discuss with Lab administrators the impact of recent budget cuts on Brookhaven's research program.

Frederick Merz, Chairman of the Economic Task Force; William Morrissey, and Berkeley Jackson, legislators; spent the day in discussions with the Administration and with Department Chairmen and researchers to acquaint themselves with the Lab's program and the impact of a recently announced \$1 million budget cut.

Accompanied by Deputy Director George Vineyard and Assistant Director Vincent O'Leary, the legislators toured the Tandem Van de Graaff where Harvey Wegner explained the research program at that facility.

At the Accelerator Department, Chairman Fred Mills arranged a briefing session that ranged from a description of the present program and facilities to a look at future plans. George Wheeler, Head of the Conversion Group, described the Conversion project and the Brookhaven Isotope Producing facility.

John Blewett then spoke to the legislators about future plans for multi-billion volt accelerators, and the effect that superconducting technological advances would have on power transmission in the future.

After a short tour of experimental areas and the 200 MeV Linac, the party was joined for lunch by other members of the scientific and administrative staff. During the luncheon session, Dr. George Cotzias described some of his present and proposed research work.

After luncheon, the party went to the Medical Department where Dr. Eugene Cronkite described the various research programs, and their impact on the Nassau and Suffolk community. Dr. Cronkite pointed out that last year the hospital treated a daily average of thirty patients from Long Island.

As the legislators were leaving at the end of the day, Chairman Merz promised that his committee would attempt to interest other County, State, and Federal officials in visiting the Lab and becoming aware of the Lab's impact on the local economic picture.

Cooking Exchange

The next meeting of the Cooking Exchange will be held on Thursday, March 4, from 3 to 5 p.m. in the Apartment Area recreation building. French cooking will be featured in the demonstration.

A donation of \$.75 will be requested from each adult to defray expenses for the cooking demonstration and the babysitters.

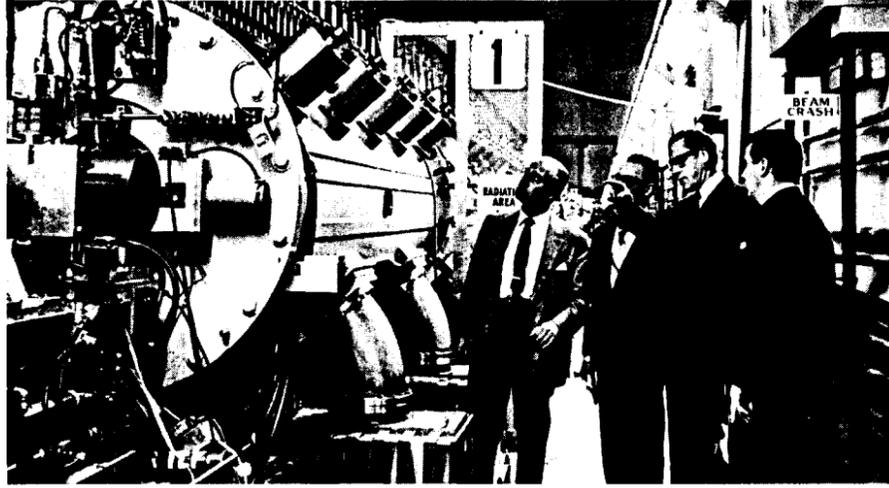

Junior Scientist Visits

Mark Bellon, 14-year-old ninth grader from West Hollow Junior High School looks up a reference on radiation doses with the help of John Cusack of HIRDL. The youngster brought some one-celled animals to Brookhaven to be irradiated and used in a demonstration project at his school's Science Fair.

—Humphrey

Suffolk Legislators

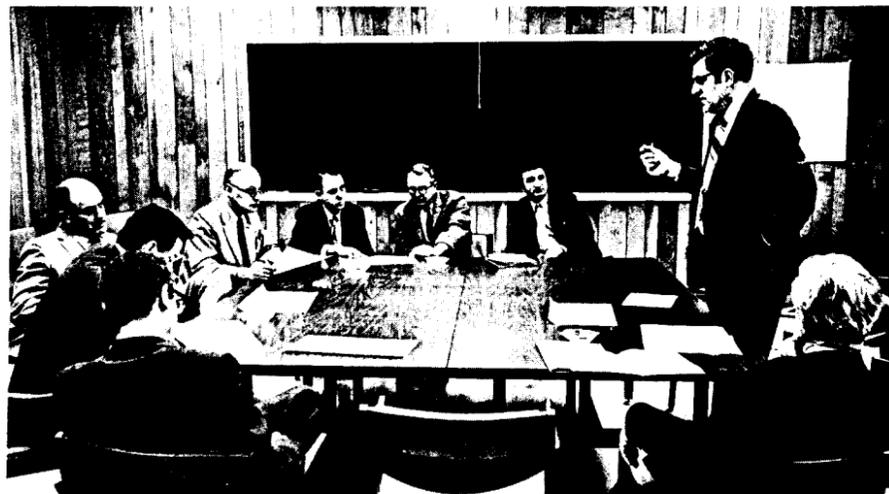

Deputy Director George Vineyard (pointing) shows tank #1 of the 200-MeV linac to Suffolk County legislators. Nearest the tank is Berkeley Jackson, from District 18. Next is Frederick Merz, Chairman of the Economic Task Force. At right is William Morrissey, member of the Task Force.

Left: Harvey Wegner, Head of the Tandem facility gives a capsule physics lesson to visiting legislators who were accompanied by Deputy Director Dr. George Vineyard (left) and Assistant Director Vincent O'Leary (in back of Wegner).

—Photos by Humphrey

Below: Dr. Fred Mills, Chairman of the Accelerator Department briefs visiting Suffolk legislators on operations and research at the Alternating Gradient Synchrotron. Other members of the Accelerator Department spoke about the AGS Conversion Project and the future possibilities of building a 2000 GeV accelerator.

Camera Club To Prepare Photo Exhibit For May

As was done last year, the Camera Club is going to exhibit prints and slides at Berkner Hall some time in May. With the object of preparing the organization for the exhibit, and start selecting prints and slides, the BNL Camera Club is going to hold a meeting on Tuesday, March 2, at 8 p.m. at the Recreation Building of the Apartment Area. Club members and any other amateur photographers of the BNL "family" are invited to attend.

Please bring slides, color or black and white prints to the meeting, even if you do not feel that they are of top quality. During the meeting there will be a "post mortem" of the last shooting session with artificial lighting, so bring also the result of your efforts.

—J. Llacer

Meeting Tonight

The regular monthly meeting of Local 2230 IBEW will be held tonight, Thursday February 25, in the K of C Hall, Railroad Avenue, Patchogue at 8 p.m. The agenda will be regular business and committee reports. Pension plan will also be discussed.

FAS Meets Friday

A meeting of the Brookhaven National Laboratory members of the Federation of American Scientists will take place in Room "A" at the Cafeteria at 12:00 noon on Friday, February 26. It will be an informal occasion, the intended purpose of which is to discuss the current national programs of FAS and to consider ways in which the local membership might further them. The meeting will be open to all interested persons.

Badminton Tourney

A group of badminton enthusiasts are getting together to have an informal tournament with the hope of creating enough interest to promote the organization of a Badminton Club. At the present time we see no reason for entry fees or awards.

If you are interested in meeting new opponents, testing your playing ability, or getting more playing experience, send your name to John P. Binnington as soon as possible, if you have not already signed up. You will be sent further information about the Activity which will start the week of March 16.

Lab Officials Meet With David And Seaborg

A number of Laboratory officials, including Dr. Maurice Goldhaber, Dr. George Vineyard, Dr. R. Ronald Rau, and Dr. Fred Mills, were in Washington last week to confer with Federal officials.

After the regular meeting of the AUI Executive Committee, which included Drs. Tape and Haworth, Dr. Goldhaber, with Deputy Director George Vineyard, Associate Director R. Ronald Rau, and Accelerator Department Chairman Fred Mills, went to Germantown Headquarters for conferences with AEC Chairman Glenn T. Seaborg, Assistant General Manager for Research and Development Dr. Spofford G. English, and Director of the Division of Research Dr. Paul W. McDaniel.

During the conference with Commissioner Seaborg, Dr. Goldhaber explained the problems facing the Lab during the coming fiscal year. According to Dr. Goldhaber, Dr. Seaborg lent a sympathetic ear.

The following day Dr. Goldhaber and Dr. Rau visited with Dr. Edward David, Jr., Science Advisor to President Nixon, to acquaint him with BNL's problems and the implications of these problems on the national scientific scene. The conference was described by Dr. Goldhaber as useful.

Dr. David was appointed last August to succeed Dr. Lee DuBridges as the President's science advisor. The 45-year old Dr. David was formerly an electrical engineer for the Bell Telephone Laboratories. He is regarded as an expert in the field of communications between man and machines, particularly computers. He has been active in securing better support for science and technology in the Federal Government.

SCOPE Course Offered On Problems Of Power Supply

A course on Energy Needs, Resources, and Environmental Costs is currently being offered by SCOPE, the Suffolk County Inservice Education Workshop. The class is taught by V.L. Sailor, BNL Physics Dept., and meets in Patchogue each Wednesday night from 7:30 to 9:30. Dr. Sailor has agreed to give the same course at the Lab in April if sufficient interest is indicated. Anyone who is interested in taking this course, please call Mary Hall on Ext. 7629.

During the fourteen sessions various problems will be examined which are associated with the supply of energy to meet the daily needs of society. The course is designed to be intelligible and useful to the non-scientist as well as the scientist. Since the subject matter is interdisciplinary it is hoped that the class will include people with a variety of interests including economics, sociology, urbanology, and ecology.

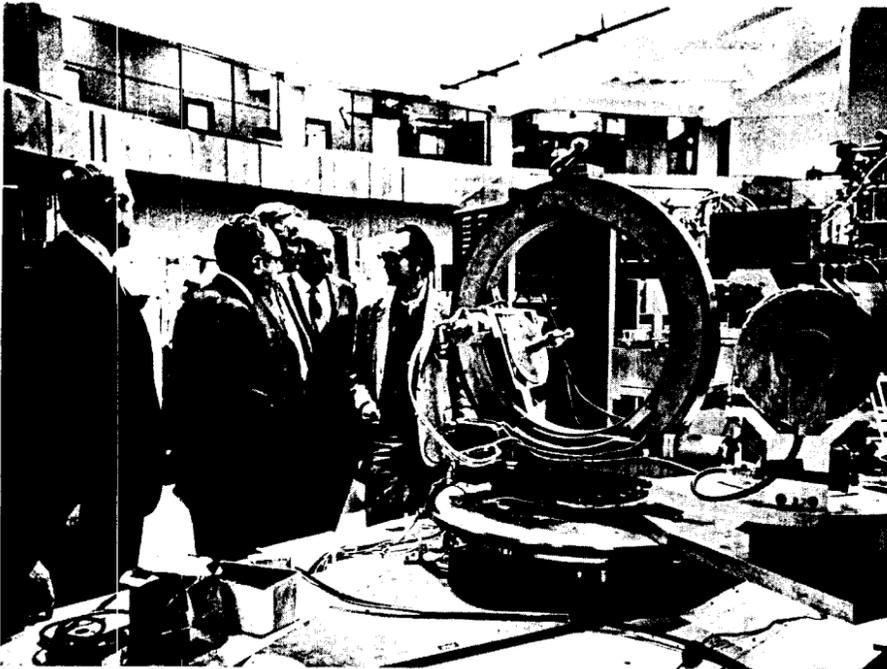

Areas to be explored include: present consumption and estimated resources; "needs" versus "demands" (will rationing be required?); social and economic consequences of fuel shortages; technical description of various energy systems (conventional and nuclear); the environmental costs of energy production (effect of mining, transport, and processing of fuels, waste disposal, air pollution, radioactivity, waste heat); site selection for generating facilities; and the idealized energy production center of the future.

Overseas Jobs Open

The IAEA has announced twenty new openings in Experts Section of the Division of Technical Assistance. These positions are for periods from one to twelve months, with assignments principally in South-east Asia, Africa, and South America. Job qualifications include engineers and scientists in many areas of nuclear technology.

Further details may be obtained from the Office of Scientific Personnel, 40 Brookhaven Avenue.

NIH Director Visits Brookhaven

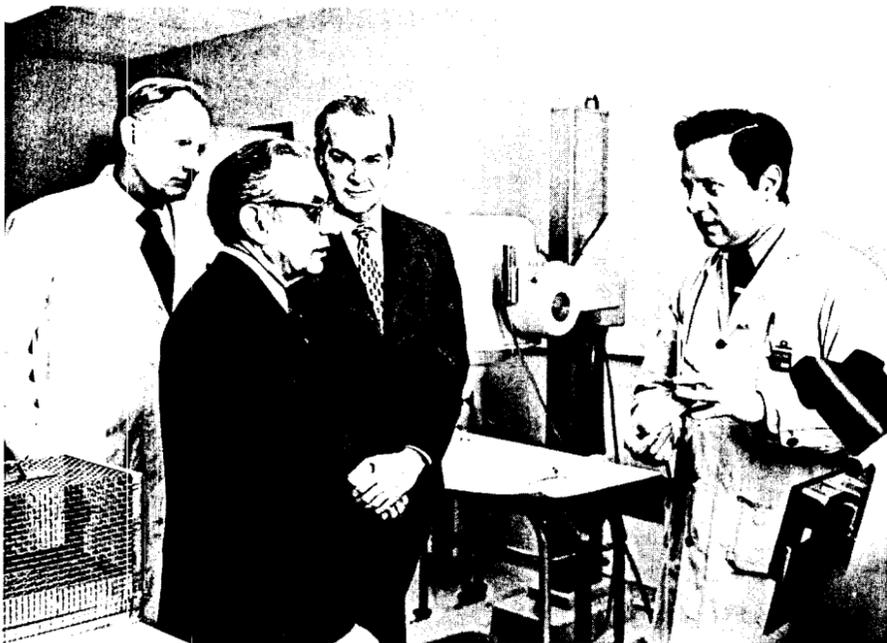

Dr. Robert Q. Marston, Director of the National Institutes of Health, was at BNL on February 17 to become better acquainted with the Brookhaven medical and biological research program. Benno Schoenborn (above, right) demonstrates use of neutron diffraction in the study of complex proteins. Others in the picture are (from left) Dr. Gerald Tape, President of AUI; Dr. Maurice Goldhaber, Director, BNL; Dr. Marston, and Dr. Victor Bond, Associate Director, BNL. —Humphrey

Dr. George Cotzias describes research on Parkinsonism.

Dr Robert Marston listens attentively to Dr. Cronkite.

Dr. Harold Atkins (right) explains scanning techniques to Dr. Joseph D. Goldstein, (left foreground) Chief, Medical Research Branch, USAEC. Dr. Eugene Cronkite, Chairman of the BNL Medical Department (left) and Dr. Marston look on.

Dr. A.D. Chanana (left) explains work on kidney transplants using extracorporeal irradiation techniques. Others in picture are (left to right) Dr. Martin Minthorn, Division of Biology and Medicine, AEC, Dr. Cronkite, and Dr. Robert Marston.

Here and There

Claire Lamberti

Lewis J. Greene (Biology) recently participated as a member on the Panel on Methods at the International Symposium on Proteolysis and Pulmonary Emphysema, sponsored by the City of Hope, in Duarte, California.

Gertrude Scharff-Goldhaber (Physics) will give a colloquium on March 10 at Rutgers University on Collective Motions in Even-Even Nuclei.

George M. Woodwell (Biology) gave a lecture on "Retrogression in Succession" at Cornell University, Ithaca, New York on January 4.

Jurgen Moller joined the Biology Department as Research Collaborator on January 5. He received his Ph.D. at the University of Freiburg, Germany, under Dr. Hans Mohr. Dr. Moller is the recipient of a fellowship from the Deutsche Forschungsgemeinschaft and will carry out post-doctoral work in H.W. Siegelman's laboratory.

Dr. John P. Blewett (Accelerator) has been appointed Visiting Research Professor at Rutgers, the State University of New Jersey, for the 1971 spring semester.

Dollars and Sense

Frank Federmann

April 15, 1971

The deadline for filing personal income tax returns is rapidly approaching! New laws and forms may tend to confuse and frustrate the taxpayer. In the past we have written articles concerning tax matters which we felt would be of interest to BNL employees. This year, however, we are asking our readers to ask questions regarding tax areas that are of interest to them. We will publish the answers in the *Bulletin*.

Since the changes in our tax law will affect each and every BNL employee, we will conduct an on-site Tax Clinic for employees one evening each week, if there is sufficient employee interest.

Please address your tax questions in writing to the *Bulletin*, and tell us if you are interested in attending the Tax Clinic.

Cafeteria Menu

Week Ending March 4, 1971

Friday, February 26	
Manhattan Clam Chowder	
Fish 'n' Chips w/Tartar Sauce	.75
Grilled Chopped Beefsteak w/Onions & 1 Veg.	.80
Shrimp Creole on Steamed Rice	.85
Monday, March 1	
Cream of Tomato Soup	
Round Roast of Beef w/Gravy & 1 Veg.	.85
Veal Pattie Parmigiana w/1 Veg.	.85
Frankfurters w/Baked Macaroni	.70
Tuesday, March 2	
Chicken & Rice Soup	
Salisbury Steak w/Saute Sauce & 1 Veg.	.80
Chicken Patties w/Chicken Cream Gravy & 1 Veg.	.80
Pork Chop Suey on Steamed Rice	.80
Wednesday, March 3	
Beef Vegetable Soup	
Roast Leg of Lamb w/Mint Jelly & 1 Veg.	.80
¼ Roast Chicken w/Stuffing, Cranberry Sauce & 1 Veg.	.80
Poached Filet of Sole w/Shrimp Sauce & 1 Veg.	.95
Thursday, March 4	
Minestrone Soup	
Pot Roast of Beef w/Vegetable Brown Gravy & Mashed Potatoes	.80
Cider Basted Ham Steak w/Pineapple Ring & 1 Veg.	.85
Beef Hash w/Chili Sauce & 1 Veg.	.80

February Retirees

On February 26, two employees with a combined total of forty-eight years of service will be retiring from BNL.

Albert G. Saletros

Albert G. Saletros, an Equipment and Inventory Accountant in the Fiscal Division, came to BNL on August 5, 1947. His retirement plans include just plain relaxing, and following the stock market. Depending on whether the climate is agreeable, Mr. Saletros may include a move to Florida, California or Arizona in his future plans.

Kenneth L.W. Rose

Kenneth L.W. Rose, an Accountant in the Fiscal Division, started his career at Brookhaven on March 1, 1947 after four years in the Air Corps. He had been inducted into the Army at Camp Upton, and when he started work at BNL the barber and tailor shops from Army days were still in operation. After retiring, Mr. Rose plans to work for Physical Review a few days each week. A native of Scotland, he would like to return there during the summer to show his wife the beauty of the heather-covered countryside; he would also like to see South America, Africa and Australia. Mr. Rose admits that he will especially miss his carpool, with which he has ridden for 18 years.

Letters To The Editor

Dear Ladies and Sirs:
 I live in East Marion but I go to school in Greenport. I saw the moon rock and man was I interested. I'll tell you something I never told anyone but my friend Chris. When I grow up I'm going to go to the moon and so is Chris. If I can't well I'm going to keep on tryin. I love to look at the moon and sometimes I think, "It's amazing pretty soon we'll be living on it!" I hope I'm not to late, I'll die if I am. Could I please have some tickets to go to Brookhaven? I have 2 brothers Dan 12 Frank 7 I'm 10 and Joan's 3.

Thank you,
 Future Astronaut

Bowling News

Grace Fales

Red League

John Cain was the hero this week with his 255/606 scratch/687 gross series. The Old Timers have increased their lead, and Ralph Nelson still holds high average. The other 200 club members were W. Kollmer 226, R. Nelson 208, N. Anderson 202, and J. Richter 200.

Green League

Bob Vignato's new league high game of 266 sparked the league this week in a close second half race. Highs for the night - B. Vignato 266/602, J. Petro 202/203/590, E. Sundberg 203, M. Bull 210, E. Meier 217, K. Riker 204/595, J. Austin 203, and R. Penna 224.

Pink League

Fran Scesny won the girl's high gross game award with a 225. Pinsplitters took the lead for first place. High games were Pat Oster 176, Fran Scesny 164, Renie Rosati 162, Pat Fox 158, Bev Nine 158, and Evonne Hammond 152.

Black and Blue League

AR's are in first place by 9 points, with the Pacesetters, Sore Losers, Sizzlers, and Omegas bunched for second. Ben Belligan had a 218/574 scratch series. Terry Van Dervoort bowled 223/556, Marie Borzi 225/590, Nancy Mayeski 214/616, Ellie Murgatroyd 206/556, and Carol Baker 206/555 - all the gals scores are gross.

To All Bowlers - For the 18th consecutive year the L.I. Bowler's Benefit Tournament will be held during the week of March 1st thru March 7th. The entry fee is only \$1.00 and league scores are used on your home lanes with 100% handicap. The prize fund last year was \$16,720, shared by 2692 winners. The balance of the proceeds were given to the unfortunate children and hospitalized veterans in Nassau-Suffolk Counties. Entry fees will be collected next week; captains should turn all monies over to the League Rep. How about 100% participation for BNL?

Second Chance For Joining The Volleyball Activities

A meeting of the captains and league officers was held on February 17. During this meeting the past progress of the league was reviewed and plans for the future were proposed.

Volleyball activities are expected to continue after the end of the presently scheduled games on March 24. A short series of games is being planned for the Men's League in order to form an all-Laboratory team after which teams from outside the Laboratory will occasionally be invited.

A similar type of activity for the Mixed League is also being considered. All persons interested in joining either the present leagues or the post-season activities should call the Recreation Office on Extension 2808.

The first half of the Volleyball season ended on January 20 with the DAS team,

the Spikers, in first place in the Men's League, and a tie between the Jets and the Boomerangs in the Mixed League. The tie was resolved on February 1 when the NNSC team, the Boomerangs, defeated the Jets 2-1 in a three-game series.

Standings as of February 18:

Men's League	Won	Lost
Spikers	8	1
Atom Spikers	4	2
Chemistry	4	5
Bio-Med	2	4
Charlie Browns	0	6
Mixed League		
Boomerangs	6	0
Jets	4	2
Spikers	2	4
Misfits	0	6

Girl Guides Feted

Twenty-two of Brookhaven's thirty four guides were guests of honor at a Valentine luncheon last Tuesday at the Brookhaven Center. The girls have all attended an orientation course in non-technical information about the Laboratory, and they assist the Visitors' Services Office by guiding bus tours around the Laboratory site. —Humphrey

Soccer

K. Batchelor

On Friday, February 12th, AGS went further ahead in the soccer competition with 2 victories. In the first game, AGS overwhelmed Physics by a score of 5 goals to nothing, due to some fine attacking play by J. McCafferty, who netted 2 goals, and strong defense by R. Pfister and N. Fewell. In the second game, Physics and Biology, Chemistry and DAS played a very even game in which the final score of 2 goals apiece was a fair result. The third and final game saw AGS take a comfortable lead of 4 goals to 2 but late in the game Biology, Chemistry and DAS threw everything into attack and were rewarded in the final seconds with a well taken goal by D. McCafferty. Palmedo played a fine attacking game in scoring 2 goals for the losers and some fine defensive play by R. Fairchild kept the AGS team from adding to their score.

AGS 5 vs. Physics 0
(J. McCafferty 2, Batchelor 2, Lankshear 1)

Physics 2 vs. Biology, Chemistry and DAS 2
(Emery 2) (Meijer, D. McCafferty)

AGS 4 vs. Biology, Chemistry and DAS 3
(R. Pfister 2, McCafferty, Batchelor) (Palmedo 2, D. McCafferty)

League Standings

	W	D	L	F	A	Pts.
AGS	6	1	1	25	12	13
Biology, Chemistry and Das	3	1	4	16	22	7
Physics	1	2	5	14	21	4

Leading goal scorers: Batchelor 11, Emery 5, DiNaro, Dietrich, Larsen, J. McCafferty and Palmedo, 4 each.

Election Results Reveal A BERA First

For the first time in BERA history all three of the outgoing Trustees were re-nominated and re-elected to the BERA Executive Board.

Elected to serve their second terms on the Board are Lynn Kalbach (secretary in the Biology Department), Paul Kelly (sign painter in Plant Engineering and Planning), and Leslie Lawrence (scientific programming analyst in the Applied Math Division).

Miss Kalbach, Mr. Kelly and Mr. Lawrence will be rejoining incumbent members Charles Meinhold, George Oldham and Jerome Weiss on March 1.

George Sabine and the BERA Executive Board wish to thank the members of the Nominating Committee, all the candidates, as well as all the employee voters in this election for their enthusiastic interest in the Association.

Leslie Lawrence

Paul Kelly

Lynn Kalbach

Stony Brook Events

A wide range of movies, including a trend-setter of the Polish film renaissance, will be shown this week at Stony Brook. Concerts and lectures are also among the events open to the public between Friday, February 26, and Thursday, March 4.

Friday, February 26

A concert by Pulitzer Prize-winning composer Charles Wuorinen and three performers with the Contemporary Music Group at Columbia University will feature "A Message to Denmark Hill," a cantata for baritone, with flute, cello, and piano, at 8:30 p.m. in the Union Theatre, admission \$1.50.

Saturday, February 27

Tom Rush, a popular folk singer, will perform with Cowboy in two concerts sponsored by the Student Activities Board at 8 and 11:30 p.m. in the Gym, admission \$4. Tickets should be purchased before this date at the Union Ticket Office.

Sunday, February 28

An Israeli Coffee House, organized by the Student Coordinating Committee for the Israel Emergency Fund, will offer food, music and entertainment between 8 p.m. and midnight in Room 201 of the Union.

Monday, March 1

Dr. B.R. Holt of the Brookhaven National Laboratory will speak on "Evolutionary, Cliseral and Successional Changes" as part of a Distinguished Visiting Lecture Series sponsored by the Department of Ecology and Evolution at 5 p.m. in Room 109 of the Lecture Center. Coffee will be served at 4:30 p.m. in Room 105 of the Biology Building. Additional lectures in the series by Dr. Holt will be given on Tuesday, Wednesday and Thursday at the same time, same place.

Tuesday, March 2

As part of a lecture series on "The Future of Man," guest speaker Dr. Ronald Caplan of the Marine Sciences Research Center will talk on "Reflections of an Albatross" at 7 p.m. in Room 100 of the Lecture Center.

Visiting Professor of English John J. McDermott will continue his lecture series on "Philosophical Dimensions of American Experience," an interdisciplinary analysis of themes significant in the development of experience in this country, at 7 p.m. in Room 240 of the Humanities Building.

Wednesday, March 3

O'Neill College will show two films, "The Haunting" and "The Wild One," at 8 p.m. in the O'Neill Lounge.

Thursday, March 4

"Ashes and Diamonds," the movie which initiated the Polish film renaissance, will be shown at 8:30 p.m. in Room 100 of the Lecture Center. Admission is free but tickets must be picked up between 2 and 10 p.m. Monday through Wednesday in Room 294 of the Administration Building.

Slo-Break Basketball

by George Latham

In last Thursday night's action in the Associated League, the Tandems continued their undefeated season with a 69-21 victory over AMD. Leroy and Burleigh James each had 18 points for the Tandems. George Leverock had 6 for AMD. Personnel downed the Dirty Dozen 51-35 behind Bob Rowley's 17 points. Red Carsten scored 8 points for the Dozen.

In the Universities League Physics almost won their second straight, losing the game with Chem-Med 35-32. John Marto hit 15 points for Medical, as did Mayweather for Physics. Dick Sutter's game high total of 18 points led the Nationals to a 34-19 victory over Biology. Nick Combatti had 9 for Biology.

Associated League	Won	Lost
Tandems	2	0
Knacks	2	0
Dirty Dozen	1	1
Personnel	1	1
AMD	0	2
Universities League		
Chem-Med	3	0
Nationals	2	0
Physics	1	3
Biology	0	3

Gymnasium Schedule

Monday	5:00-7:00 p.m. Volleyball League (Mixed)
	7:30-9:30 p.m. General Activities
Tuesday	5:00-7:00 p.m. Judo Club
	7:00-9:30 p.m. General Activities
Wednesday	5:00-7:30 p.m. Volleyball League (Men)
	7:30-9:30 p.m. Volleyball League & General Activities
Thursday	5:00-6:15 p.m. Judo Club
	5:15-9:30 p.m. Basketball League (4 games) 5:30, 6:40, 7:50, 9:00
Friday	5:00-7:30 p.m. Soccer League
	7:30-9:30 p.m. Tennis (by posted self-service reservation)

Note: This schedule is subject to revision depending on the final structure of the organized activities.

WOODY ALLEN'S DON'T DRINK THE WATER

"Don't Drink the Water," to be presented at the BNL Theatre on March 5, 6, 12, 13 is the first play to have been written by Woody Allen, who within 6 years was driven by his neurotic timidities up a ladder of success as a comedian on TV, in movies, night clubs, and record albums. His play, he admitted in an interview, is his fantasy of what might happen if his family went on a European tour.

Bert Farmer (Walter Hollander) and Rita Straub (Marion Hollander) rehearse one of their scenes.

If Walter Hollander is a caricature of Allen's own father, then Axel Magee (played by Bob Kinsey) has to be a self portrait. Axel is the son of the American ambassador to a small Iron Curtain country, left temporarily in charge of the embassy when Papa makes a quick trip home to check on his political fences. Papa (John Gorr) goes reluctantly because Sonny Boy's record in the diplomatic service has consisted of one disaster after another. He has been bounced out of one post after another, and once he was expelled from Africa - "not a country but the whole continent."

This is an abrupt change of character for Bob Kinsey (Physics), last seen on the BNL stage as the scheming, cynical Geoffrey in "The Lion in Winter." But Bob has a wide experience on stage, in Gypsy, Plaza Suite, The Solid Gold Cadillac, The Male Animal, and The Inquisitor with the Bellport Playcrafters. He lives in Brookhaven with Sue and their two children and used to be a ham radio operator before acting took so much of his time.

Darlene Yelon (Susan Hollander) and Robert Kinsey (Axel Magee) laugh while diplomatic worlds crumble.

Apart from his problems with the Hollanders (Bert Farmer and Rita Straub); the Secret Police (Ove Dietrich and Hugh Yerry); the French chef (Robert Comes); diplomatic smoothies (Mike Losquadro and William Wilhelm); the crazy magician-priest Drobney (Bruce Martin), and foreign dignitaries (Doug Hunter, Carol Losquadro, Andrese Rozzo); poor Axel is a natural target for the Hollander's daughter Susan, played by Darlene Yelon. Darlene's husband has been in the Physics Department since September, and this is her first appearance on the BNL stage. In the play, Susan is a wide-eyed opportunist who thinks being imprisoned in the Embassy is "exciting and romantic" - a wonderful change from her usual life as a sometime ballet dancer, folk singer and motorcycle repairman in a Village Coffee House, and who finds Axel more interesting than her confident lawyer fiance. Off stage, Darlene is a social worker, and a gourmet cook with a 3 1/2 year old son.

Classified Advertisements

Positions Available

The Brookhaven Bulletin each week will list job openings which have come to our attention and may be of interest to Lab employees. Each listing will be repeated (if still available) only once.

KEYPUNCH OPERATOR (2) - Systems and Data Processing. Half-time, 5-9 p.m.

SECRETARY - American Institute of Physics, State University of New York at Stony Brook, Stony Brook, New York.

PROGRAMMER/ANALYST - Bachelor's degree plus approximately three years "hands-on" programming experience. General Telephone & Electronics Laboratories, Bayside, New York.

CHEMIST - Ph.D. in physical chemistry, chemical engineering or electrochemistry. General Telephone & Electronics Laboratories, Bayside, New York.

CHEMICAL TECHNICIAN - A.A.S. in chemistry or equivalent. General Telephone & Electronics Laboratories, Bayside, New York.

TECHNICIAN - Glass research; experience in metallurgy and ceramics desirable. General Telephone & Electronics Laboratories, Bayside, New York.

LABORATORY TECHNICIAN - Plant tissue research; A.A. or A.S. or equivalent in biology or plant physiology. General Telephone & Electronics Laboratories, Bayside, New York.

PROGRAMMER - B.A. or M.A. in mathematics or computer science. General Telephone & Electronics Laboratories, Bayside, New York.

For further information, please contact Employment Supervisor Ext. 2109 or 2513.

Autos & Auto Supplies

70 MGB - Dk blue, chrome wire wheels, radio, fold-down top, tonneau cover, excel cond. \$2500. 234-2451.

67 SUNBEAM MINX - 4 dr, auto trans, r/h, 25 mpg, good cond & transportation. \$850. Jake, Ext. 2580.

64 CHEVELLE MALIBU SS - 6 cyl, auto trans, r/h, 2 dr, good transportation. \$450. Jake, Ext. 2580.

326 PONTIAC MOTOR - 2 spd auto trans for Pontiac; compl Pontiac GTO rear, 3.08 gears, 281-5289 after 4 p.m.

60 OLDSMOBILE - Int & ext good, new brakes & batt. \$125. Pfister, Ext. 2934, HR2-1409.

62 DODGE TRUCK - R/h, good tires, new batt, 4 spd trans. \$250 firm. 325-0225.

65 CHEVY IMPALA WAGON - Ps, auto trans, 283 V8, 4 dr, 6 psgr, r/h. \$400. Ext. 7821.

68 BUICK - SKYLARK CUSTOM - 2 dr hdtp, V8, auto trans, ps/pb, pwr windows, radio, w/w, vinyl top, remainder 5 yr guarantee. \$1750. P. Sparrow, Ext. 2753, 727-4859.

63 CORVAIR MONZA SP CPE - Bckts, 4 spd stick, r/h, very good running cond. \$225. J. Dispart, Ext. 7415 noon time, 281-8943 after 5:30 p.m.

MINI BIKE - Honda 1970 mini trail, 50 cc, excel cond, w/helmet & extras. \$250. 283-1718 after 6.

64 CORVAIR MONZA - 2 dr, good tires & snow, auto trans. Asking \$195. Bill, 929-6026.

62 CORVAIR MONZA CONV - Slight body damage (rear trunk area), very good running cond, 24 mpg, good transportation, make offer. Ext. 422.

2 TIRES - 1-7.75x14 reg tread, 1-6.40x15 snow. I. Danowski, Ext. 2921.

69 TRIUMPH GT-6 + - Overdrive, r/h, 17,000 mi. \$1950. Hartman, Ext. 598, EM3-7260.

61 CORVAIR - Good cond, no eng work needed. \$150. Judy, 924-8659.

65 RAMBLER - 2 dr sedan, blue, auto trans, new batt, good cond. \$350. Gesi, Ext. 7606, 523 after 6.
