BROOKHAVEN BULLETIN
Vol. 48 - No. 47 December 9, 1994
BROOKHAVEN NATIONAL LABORATORY

Five Win Brookhaven Awards for Outstanding Service to Lab

Earlier this week, five employees received 1994 Brookhaven Awards — the highest honor the Laboratory can bestow on support staff for outstanding service. In a ceremony on Tuesday, December 6, each of the winners received an engraved memento and a pre-tax award of $2,000. Summaries of the recipients' contributions are given here, and greater detail will be provided in a January Brookhaven Bulletin.

Walter Becker, Senior Technical Associate, Department of Advanced Technology (DAT), was honored for his pivotal role in DAT's safety efforts, including directing the clean-up of almost 40 years' accumulation of radioactive and mixed chemical waste, preparing the department for the U.S. Department of Energy (DOE) Tiger Team inspection, spearheading the Safety Analysis Report for the Gamma Irradiation Facility, and reviewing the Preliminary Safety Analysis Report for the research program at the High Temperature Combustion Facility.

Peter Kroon, Senior Research Engineer, Physics Department, has been lauded for providing outstanding support service to the BNL research mission. Largely due to his oversight of design, fabrication, assembly and installation, the $9-million, 350-ton calorimeter that BNL built for the D-Zero experiment at Fermi National Accelerator Laboratory was completed on schedule, on cost and with no major mechanical problems. At present, he is the chief mechanical engineer for the large PHENIX experiment, to be mounted at the Relativistic Heavy Ion Collider.

Joseph Levesque, Project Engineer I, Safety & Environmental Protection Division, was acknowledged for his significant contributions to the overall fire-protection infrastructure at BNL. He was an important contributor in determining the causes and needed corrective actions following the TRISTAN fire at the High Flux Beam Reactor earlier this year. Levesque was also responsible for the procurement and initial management of the $1.7-million, computerized site fire-alarm system at the Laboratory.

Edward Murphy, Deputy Manager, Plant Engineering Division, has been commended for outstanding contributions over his 15-year BNL career. In his first position as an Energy Conservation Engineer, he produced remarkable cost savings and began a series of energy-conservation initiatives. As Manager of the Project Coordination Group in 1989, he oversaw conventional construction projects costing almost $40 million. And, he was extremely successful as Acting Manager of the Office of Environmental Restoration for nine months beginning December 1993.

Alexander Pendzick, Senior Project Engineer, Alternating Gradient Synchrotron (AGS) Department, was recognized for being a key contributor to the successful operation of the AGS experimental facility. He heads the Experimental Areas Group, which supports AGS experiments and ensures that they are built and maintained safely. He has had an exemplary safety record, with no significant accidents occurring during his tenure. From 1990-94, he coordinated dramatic changes to the AGS experimental floor, including several major upgrades, in an efficient, timely manner.

The Spotlight Shines on 67 Employees in Fiscal Year 1994

Roger Stoutenburgh

Sixty-seven BNL employees were honored with Spotlight Awards during fiscal year 1994 for extending short-term extraordinary efforts in response to department or division needs. The 52 able to be present for this photo are:

• (back, from left) Augie Hoffmann, Physics Department; Todd Corwin, Relativistic Heavy Ion Collider (RHIC) Project; Warren Baumbach, Plant Engineering (PE) Division; Donald Von Lintig Jr., Alternating Gradient Synchrotron (AGS) Department; Harry Rice, Reactor Division; Dan McCafferty, AGS; Rob Gaschott, Safety & Environmental Protection (SEP) Division; John Trunk, Biology Department; Jeff Swenson, Staff Services Division (SSD); Tom Dilgen, RHIC; Anthony Curcio, AGS; Donald Pinelli, Physics.

• (third row, from left) Emanuel Garber, Physics; Noreen Michelsen, Budget Office; Stephen Jao, Reactor; Ken Koebel, National Synchrotron Light Source (NSLS) Department; Ken Mohring, SSD; Bob Sikora, RHIC; Peter Popken, AGS; Nelson Cause, PE; Victor Usack, AGS; Patrick Borello, Instrumentation Division; Ed Laviano, Physics; Richard Greene, NSLS; Laura Ayres, Department of Advanced Technology (DAT); Pablo Rosas, AGS.

• (second row, from left) Kathy Ryan, DAT; Raymond Savino, RHIC; Darcy Mallon, Medical Department; Sol Maria Rosario, Budget; Ron Angona, Instrumentation; Nancy May, Reactor; Steve Kochis, AGS; Nick Pisco, SSD; Maggie Marsch, Department of Applied Science; Joe Cracco, SEP; John Small, Contracts & Procurement Division; Stephanie LaMontagne, RHIC; Donald Gates, Computing & Communications Division; Elaine Zukowski, Director's Office (DO); Randi Lowis, Reactor; Bill Cahill, NSLS: Richard Lagattolla, SEP.

• (front, from left) Nancy Nelson, DAT; Marie Gavigan, RHIC; Corene Wood, Technical Information Division; Ali Lopez, DAT; Ernie Simon, PE; Janice Lamb, DO; Arlene Carlson, PE; Russ Dunn, SEP; Cyrus Biscardi, NSLS.

• Not present: John Butler, AGS; Gary Danowski, AGS; Charles De La Parra, RHIC; Rodney di Girolamo, RHIC; Sebastian Dimaiuta, RHIC; John Klein, NSLS; Doreen Krage, Management Information Systems (MIS) Division; John Muller, MIS; Michael Palumbo, Central Shops Division; Gloria Ramirez, NSLS; Richard Rossetti, Safeguards & Security Division; Nancy Sautkulis, Chemistry Department; Richard Spitz, AGS; Daniel Sullivan, RHIC; Eugene Von Achen, Instrumentation.

Doing Business With Small and Small Disadvantaged Firms

Representatives of some 135 firms attended the Laboratory's Small and Small Disadvantaged Business Conference on October 28.

Dennis Hall (at microphone), BNL's Small/Small Disadvantaged Business Officer, announces that Universal Contractors of Roosevelt has won the Division of Contract & Procurement's new Development Award, while Michael Bebon, BNL's Assistant Director for Management & Physical Plant, presents the award to company president Jackie Cayne.

A biennial event, the fair aims to reach out to minority firms and new small businesses. Explained Dennis Hall, BNL's Small/Small Disadvantaged Business Officer in the Division of Contracts & Procurement (DCP), "We want to introduce these firms to BNL's multifarious requirements while also developing a good business relationship with them." Thus, most of the day was devoted to a fair at which representatives from various Lab departments were on hand to discuss their procurement requirements with potential vendors on an individual basis.

The day's activities also included DCP's awards presentations to several vendors. Supplier of the Year awards were given to Syed Ali of Laser International, Northport, and to Seo Hong Yoo of Prime Chemicals of Franklin Lakes, New Jersey, while Mary Abad of Conroy Contracting in Miller Place received the award for Outstanding Service and Jackie Cayne of Universal Contractors in Roosevelt won DCP's new Development Award for a new vendor who has shown marked development since the inception of its relationship with BNL.

Awards were also given to Terrence Buck, Roseanne Callister and David Dale as DCP's outstanding buyers of the year in the disadvantaged business category.

Getting a Grip on Pollution Prevention

Roger Stoutenburgh

As two local science teachers look on, Nicole Bernholc (right), Safety & Environmental Protection Division, tries out pollution-preventing laboratory equipment offered by Peter Hanley (left), of Scotlab Biosciences. The transparent plastic case is designed to shield researchers from beta-emitting nuclides, while the underlying cleanable plastic tray replaces bench-covering paper that, when contaminated, must be replaced and disposed of as low-level radioactive waste. The demonstration was part of a November 10 workshop titled "Pollution Prevention Opportunities in a Laboratory Setting," organized by Bernholc. Presentations by eight speakers and eight equipment vendors drew 50 participants from BNL and Long Island and New York schools, hospitals and research institutions. The U.S. Department of Energy's (DOE) Chicago Operations Office sponsored the workshop as one of only two pilot outreach programs in pollution prevention at DOE facilities; the other is at Argonne National Laboratory.

Inside Info

Reflecting a change in emphasis from prevention to continuous improvement, BNL's Quality Assurance Office has been renamed the **Laboratory Quality Management Office**.

Also changed at the same time was the name of the committee that guides the Lab's quality efforts, from the Quality Assurance Steering Committee to the Quality Management Steering Committee.

Led by Marvin Shear, the renamed office will continue to facilitate and assist individual departments and divisions in developing and implementing their quality-assurance programs. It will also perform the same function for the new supplementary quality management initiatives, which will be aimed at improving the Laboratory's operations and which will include participative management, customer and stakeholder feedback, performance measurements and quantitative analysis.

"The change, made last June, reflects BNL's desire to remain in the forefront of the evolution of thinking in the quality field," Shear said, adding that the field has progressed from quality control, with its emphasis on detecting errors, to quality assurance, with a focus on preventing errors, to quality management, which stresses continuous improvement in both quality and efficiency.

"In doing this," Shear concluded, "we have also stayed in phase with the U.S. Department of Energy's quality efforts."

BLIP Committee Concentrates On Upgrade, Current Program

Roger Stoutenburgh

The upgrade of the Brookhaven Linac Isotope Producer (BLIP) is proceeding as scheduled, and, when completed by spring 1996, it will be able to operate year-round at about three times the present beam intensity. Members of the BLIP Users' Advisory Committee (BUAC) gathered at Brookhaven on November 15 & 16, to hear a progress report on the upgrade, as well as review BLIP's current radioisotope research and production program. BUAC members and presenters pictured at the meeting are: (front row) James Alessi, Alternating Gradient Synchrotron (AGS) Department; AGS Chairman Derek Lowenstein; Arjun Chanana, Medical Department; Harold Atkins, Medical; Gopal Subramanian, State University of New York at Syracuse Health Science Center; Suresh Srivastava, Medical; BNL Deputy Director Martin Blume; Matesh Varma, U.S. Department of Energy; BUAC Chairman William Eckelman, National Institutes of Health; Henry Kramer, Council on Radionuclides & Radiopharmaceuticals, Inc.; (back row) Andrew McNerney, AGS; Peter Kirchner, University of Iowa; Gerry DeNardo, University of California, Davis; Richard Reba, University of Chicago; Donald Blaufox, Albert Einstein Medical College; Leonard Mausner, Medical; and Carl Seidel, E.I. DuPont de Nemours & Co., Inc.

Group MACCSimizes Nuclear Safety

In the event of an accidental release of radioactivity from a nuclear power plant, how many people living nearby would be affected? What about contamination of the food supply? To predict the answers to questions like this, researchers and regulators worldwide use a powerful tool called MACCS — a computer code developed under the sponsorship of the U.S. Nuclear Regulatory Commission (NRC) to calculate the probable consequences of nuclear accidents. From November 8-10, 22 MACCS users in the newly formed International MACCS Users Group (IMUG) came together at BNL for their first meeting. Representatives of regulatory and utility bodies and research institutions from Greece, Hungary, Italy, Japan, Mexico, Norway, South Africa, the Slovak Republic, Spain and the U.S. presented findings that ranged from the potential spread of radiation across national borders to possible exposure pathways in Arctic climates, and initiated cooperative research ventures. Captured on film during a pause in the conference were: (from left) J.S. Hyslop, IMUG program manager for the NRC; Lev Neymotin, BNL Department of Advanced Technology (DAT); Vinod Mubayi, DAT; Barbara Kponou, DAT, IMUG meeting co-coordinator; Robert Bari, DAT Deputy Chairman; and Kathy Ryan, DAT, IMUG meeting co-coordinator.

Roger Stoutenburgh

BNLers Become Volunteer Mentors to Local Students

Twenty-nine percent of students — about one million children — drop out of school each year in the U.S., and one out of five Americans is functionally illiterate.

Even students who are unlikely to drop out are often unsure of their direction or unaware of possible career options. So, to build up motivation in some of these children to stay in school and to develop their self-esteem, 25 BNL staff members have volunteered to mentor selected elementary and middle school students from the Longwood School District in Middle Island. They have joined approximately 350 other volunteers around Long Island who are part of the New York State Mentoring Program, started in 1987.

According to school officials, the selected students — also all volunteers in the program — are matched with mentors of the same gender who often have common interests. The mentors agree to spend at least four hours per month with their students, either before the school day begins, or during lunchtime.

"I learned about the mentoring program when I attended a Career Pathways Workshop as Science Coordinator for my department," said Peter Soo, Department of Advanced Technology (DAT). "It sounded like a very worthwhile program."

Earlier this year, after discussing the program with DAT Chairman Romney Duffey, Soo called for volunteers from his department and was delighted with an overwhelmingly affirmative response of about 75 percent of the individuals contacted.

Roger Stoutenburgh

Volunteers at a recent mentor-training session conducted by Lori Mastromauro (front row, second from left), with input from Leslie Bilfield, Longwood Middle School, (middle row, right) of the NYS Mentoring Program were (front row, from left): Peter Soo, Department of Advanced Technology (DAT); Karen Savino, Nancy Siemon, Pauline Dixon, Lisa Toler, all of DAT; and Nanci Hoey, Director's Office; (middle, from left) Laura Ayres, DAT; Charlotte Bullok, Fiscal Division; Jody Fanizza, Jane Hodgkinson, Alice Costantini, Sandra Sullivan, Kara De Castro, Darryl Kaurin, Susan Monteleone, La Rosa Collins, all of DAT; (back, from left) Cal Brewster, DAT; Lisa Willi, Relativistic Heavy Ion Collider Project; Biays Bowerman and John Usher, both from DAT; Kathryn Kolsky, Medical Department; Ralph Wiedmann, DAT; and Terry Buck, Contracts & Procurement Division. Not shown: Alexsandra Lopez, DAT.

Soo and Karl Swyler, head of BNL's Office of Educational Programs, along with Lori Mastromauro, Long Island Director for the mentoring program, then met with representatives from the Longwood School District and the New York State Mentoring Program to map out the details of the cooperative venture. In September, each volunteer received three hours of group training given on site by Mastromauro.

The volunteers at the training session were enthusiastic about starting the program in November, and convinced of the importance of mentoring. For instance, Sandra Sullivan, DAT, said, "I never had a mentor, but if I did, I think it would have made choosing a career path easier for me. In high school, I was a top math student, but I was discouraged from pursuing a career in mathematics and encouraged to become an elementary school teacher because women were not expected to achieve in certain male-dominated fields. I would have benefited from a mentor — particularly a strong woman mentor."

"My wife is a secretary in the Patchogue-Medford School District," said Cal Brewster, DAT. "She made me aware that so many children — not only in Patchogue-Medford, but in any school district — could use extra attention for a variety of reasons. I hope I will be able to help at least one child."

Soo offered his perspective on mentoring, saying, "Long Islanders will find great fulfillment in supporting local children in education and career development. At BNL we have a wide spectrum of expertise and talents that could be used in this program."

According to Mastromauro, the BNL mentors will join 237 active mentoring programs in schools around New York State and 42 on Long Island. She explained, "A mentor is a trained, caring adult, a good listener and nonjudgmental friend to a young person who can benefit from guidance and individual attention." She further commented that a youngster's self-esteem is often improved, and his or her vision of opportunity is broadened, by a good mentoring relationship.

Additional BNL volunteers are welcome. To volunteer or to receive information about the program, call Soo at Ext. 4094. — Diane Greenberg

Spend Christmas in the King's Court

What is as recent as Mariah Carey's compact disc (CD) of holiday standards, but contains seasonal music even older than the Christmas classics sung by Bing Crosby and heard on scratchy records?

It is *Christmas in the King's Court* — music on the newly released CD by the group of BNL employee-musicians who called themselves Measure for Measure and play early European music. And, after hearing the group in the Cafeteria next week, you may want to add this CD to your list of must-have music for the holiday season.

Performing together in the New York metropolitan area since 1991, Measure for Measure is composed of five BNL employees, one guest and one of the employees' offspring. Specializing in European music from the late Middle Ages through the Renaissance, Measure for Measure includes: Alan Bieber, Department of Advanced Technology; Rene Holaday, a research specialist from the Massachusetts Institute of Technology stationed at the National Synchrotron Light Source (NSLS); Sean McCorkle, Physics Department; Eva Rothman, NSLS; Jeffrey Rothman, NSLS; Peter Siddons, NSLS; and his 14-year-old son, Giles Siddons.

"We worked up a Christmas program for our concerts last year, so, following upon the success of our tape, we decided to produce a CD," explains Bieber, who plays recorder, cornamuse, shawm, guitar — and bones.

The tape to which Bieber referred is *Measure for Measure*, which was recorded in March 1993 and contains 20 selections. The 14-cut Christmas CD was recorded in June in the Rothman's Wading River living room and mastered on digital audiotape (DAT) by recording engineer Larry Moser, a friend of the group who also produced the group's cassette. The DAT master was sent, along with a picture of the group, and cover art and liner notes by Eva Rothman, to DiscMakers, which manufactured and packaged the CD.

Using funds from their concerts, the group had 1,000 CDs and 500 tapes cut. In time for holiday gift giving, these are now being sold for $15 per CD or $10 per tape, which includes state sales tax. To purchase them through the mail, send a check for the appropriate amount plus $2 shipping and handling to Measure for Measure, P.O. Box 158, Upton, New York 11973.

On the cover of their new Christmas CD are the musicians in Measure for Measure: (back, from left) Jeffrey Rothman, Peter Siddons, Sean McCorkle, Rene Holaday, (front, from left) Alan Bieber, Eva Rothman and Giles Siddons.

Or, for direct sales, "See anyone in the group," says Bieber. "Wholesale prices are available for bulk orders, and if, upon hearing our recorded music, anyone wants to sign us to a record-company contract so we don't have to self-produce another tape or CD, we would definitely do it."

Concludes Bieber, "Obviously, we think that this is the best Christmas CD ever put out by anyone. The music is beautiful — the melodies are prettier, and the emotions are more heartfelt than what you hear in the Christmas music that is played all the time."

The group, which, interestingly, has three Jewish members, can be heard in the Cafeteria next week or at the Shoreham-Wading River Public Library, at 8 p.m. on December 16; a New Year's Eve arts festival in Freeport, on December 31; or the Epiphany service at the Trinity Evangelical Lutheran Church in Rocky Point, on January 6. For more information, contact Bieber, Ext. 2928.

— Marsha Belford

Remember: Precertify Hospital Stays

All active employees and those who retired after December 31, 1991, and who have Connecticut General Medical Insurance coverage are reminded to obtain hospital precertification from Intracorp. This precertification is mandatory for a one-or-more-night's stay in the hospital, but not for ambulatory surgery — procedures for which patients are admitted to and released from the hospital in one day.

If an employee, retiree or family member fails to notify Intracorp regarding precertification or emergency hospital admission, medical insurance benefits will be reduced to cover only 50 percent of hospital expenses, with a maximum penalty of $500.

For hospital preadmission certification, call Intracorp at (800) 772-3261 before admission to the hospital or within 48 hours of an emergency admission.

Expectant mothers must call Intracorp before the end of their first trimester to precertify their maternity hospital admission. They or a family member must also call within 48 hours following admission into the hospital for the delivery.

For a medical insurance ID card listing the Intracorp telephone number, or for more information, call Personnel Services, Ext. 2877.

BROOKHAVEN BULLETIN

Published weekly
by the Public Affairs Office
for the employees of
BROOKHAVEN NATIONAL LABORATORY

ANITA COHEN, Editor
MARSHA BELFORD, Assistant Editor

Bldg. 134, P.O. Box 5000
Upton NY 11973-5000
Tel. (516) 282-2345; Fax (516) 282-3368

Coming Up

Senior Physicist Andrew Sandorfi will deliver the 301st Brookhaven Lecture on Wednesday, December 21. His talk on "Looking Inside the Proton With Scattered Laser Light" will begin at 4 p.m. in Berkner Hall.

Avoid Bell Avenue

Over the next few months, traffic on Bell Avenue between Upton Road and Rochester Street will experience delays because of construction to replace the existing water main. The Plant Engineering Division urges you to avoid the area and use alternate routes if possible.

Country/Western Fans: Get Your Tickets Now!

Before they are all gone, get your tickets to the Country/Western dance, to be held on Friday, December 16, from 7 to 11 p.m. in the North Room of the Brookhaven Center. At $10 per person, which includes hot-and-cold appetizers and a dance lesson, tickets must be purchased in advance from: Carmen Falkenbach, Ext. 2663; Lois Marascia, Ext. 3315; or Ginny Morante, Ext. 3555.

Heartfelt Help Needed by the United Way

At two weeks into the United Way fund drive, 521 generous BNLers -- 13 percent of the Lab — have pledged donations totalling $72,820. And 85 cents of every dollar will go to fund the 165 Long Island agencies that help Long Islanders in ways that range from services for the elderly to job training and drug rehabilitation.

"Making a contribution quickly is especially useful," explained Jim Licari, who chairs this year's drive, "because the United Way can then let agencies know what funding they can expect. For small agencies operating on a minimal budget, this information means knowing how many people they can commit themselves to helping in the year ahead. Reaching our goal of $105,000 means helping so many people — and it's surprising how often these 'people' turn out to be your friends, your family members or yourself."

To encourage timely donations, Associated Universities, Inc.; the Long Island Guards Union No. 37; Local 8-431 Oil, Chemical and Atomic Workers International Union; and Local 2230, International Brotherhood of Electrical Workers have provided prizes for early pledges, so that every pledge card sent in to Betty Pergan, Bldg. 179A, before December 16, is eligible for the prize drawings.

Pictured with drive coordinators Licari (front, second from right) and Michele Cummings (front, second from left) are the winners of the first drawings for dinners for two in local restaurants: (back, from left) Rolf Beuttenmuller,

Instrumentation Division; Ping Zhou, Relativistic Heavy Ion Collider (RHIC) Project; Denis McWhan, National Synchrotron Light Source Department; (front, left) Thomas Muller, RHIC; and (front, right) Michele Haller, Contracts & Procurement Division. More prizes await the winners of the last drawing on December 16, including dinners, gift certificates, and a New York City weekend for two with theater, dinner, and brunch at the Tavern on the Green restaurant.

Look for New Benefit Summary

Next week, the Personnel Division will provide eligible employees with summaries of their individual benefits containing information on each employee benefit, as well as on the coverage you have under each.

The information will be as of December 1994, so it will not include any changes that you may have elected effective January 1, 1955, such as those for the dental program or the reimbursement accounts.

Want to Fly?

On Wednesday, December 14, the BNL Aviation Club will hold its monthly meeting to discuss enrolling more prospective pilots, purchasing an aircraft and possibly affiliating with another flying club. Current members and anyone interested in flying are invited to attend.

Volleyball

Standings as of December 6

Open League		League 1	
The Men and Me	22-5	Rude Dogs	15-6
Farside	21-9	Network News	14-7

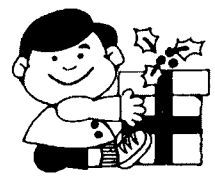
Equipment Demo

On Wednesday, December 14, BI-LOK representatives Gary Kleiner, regional sales manager, and Rich Shaffer, director of engineering, will demonstrate BI-LOK tube fittings at 10:30 a.m. in Room A, Berkner Hall. BI-LOK tube fittings involve a two-ferrule system and are compatible with other brands.

Come to the Science Museum today to:



• Finish your holiday shopping at the Winter Holiday Sales at the Science Store.

• Take a self-guided tour.

Two more Fridays — December 9 & 16
10 a.m. to 3 p.m., Bldg. 701

UNIX Training Schedule

Below is the current list of scheduled UNIX-based classes which will meet in the seminar room of Bldg. 515, Computing & Communications Division. To register for a class, send an ILR for the appropriate amount to Pam Mansfield, Bldg. 515, and a note indicating the class(es) for which you want to register, at least three weeks before the starting date(s).

Course	Date	Time	Fee
Advanced C Programming	Jan. 9-13	9 a.m.-4:30 p.m.	$500
UNIX LAN Connectivity	Jan. 23-27	9 a.m.-noon	$250
PERL Programming	Jan. 23-27	1-4:30 p.m.	$250
Solaris Internals	Feb. 6-10	9 a.m.-4:30 p.m.	$500

For more information, call Ed McFadden, Ext. 4188, or e-mail mdfadde1@bnl.gov.

1995 Holidays

Christmas Eve	Friday	December 22 (1/2 day)
Christmas Day	Monday	December 25

Defensive Driving

The Safety & Environmental Protection Division and the Health Promotion Program of the Occupational Medicine Clinic are again offering National Safety Council-approved classes in defensive driving, to be held once a month from January through December 1995.

Each six-hour class will be given in two sessions from 6 to 9:00 p.m. weekdays, or in one session from 9 a.m. to 3:30 p.m. Saturdays. At a cost of $19.95 per person, the class is open to all employees, guests and their family members.

To register, send your name, building and telephone number to Ronnie Zambelli, Bldg. 129A, or Mary Wood, Bldg. 490.

Rifle & Pistol Club

The next monthly meeting of the Rifle & Pistol Club will be at noon on Wednesday, December 14, in Room 202, Bldg. 911B. Anyone interested in club activities may call Otto Jacobi, Ext. 3471.

Arrivals & Departures

Arrivals

Katrina A. Reaves ..... Biology
Laura Reina ..... Physics

Departures

This list includes all employees who have terminated from the Lab, including retirees:

Stanley E. Gilbert ..... AGS
Ping Wu ..... Chemistry

Cafeteria Menu

Monday, December 12	
Soup: Chicken noodle	.90/1.20
A la Carte: London broil w/mushrooms	3.95
Fitness: Macaroni & cheese	3.50
Deli: Pastrami	3.20
Grill: Reuben	3.30
Tuesday, December 13	
Soup: Cream of broccoli	.90/1.20
A la Carte: Liver & onions	3.70
Fitness: Pasta w/marinara sauce	3.50
Deli: Virginia ham	3.20
Grill: Western omelet w/fries	3.30
Wednesday, December 14	
Soup: Bavarian lentil	.90/1.20
A la Carte: Pork chops	3.65
Fitness: Vegetable lasagna	3.50
Deli: Roast beef	3.20
Grill: Italian cheesesteak	3.30
Thursday, December 15	
Soup: Beef vegetable barley	.90/1.20
A la Carte: Deviled hens	4.00
Fitness: Spinach & feta quiche	3.65
Deli: Corned beef	3.20
Grill: Ham & cheese	3.30
Friday, December 16	
Soup: Seafood chowder	.90/1.20
Display cooking: Oriental	4.25
Fitness: Baked flounder d'Uxelles	3.95
Deli: Turkey	3.20
Grill: Fried shrimp boat	3.30

Placement Notices

The Laboratory's placement policy is to select the best-qualified candidate for an available position. Consideration is given to candidates in the following order: (1) present employees within the department/division and/or appropriate bargaining unit, with preference for those within the immediate work group; (2) present employees within the Laboratory; and (3) outside applicants. In keeping with the Affirmative Action plan, selections are made without regard to age, race, color, religion, national origin, sex, handicap or veteran status.

Each week, the Personnel Division lists new placement notices. The purpose of these listings is, first, to give employees an opportunity to request consideration for themselves through Personnel, and second, for general recruiting under open recruitment. Because of the priority policy stated above, each listing does not necessarily represent an opportunity for all people.

Except when operational needs require otherwise, positions will be open for one week after publication.

For more information, contact the Employment Manager, Ext. 2882, or call the JOBLINE, Ext. 7744 (282-7744), for a complete listing of all openings.

SCIENTIFIC RECRUITMENT - Doctorate normally required. Candidates may apply directly to the department representative named.

SCIENTIST - With extensive experience in experimental high-energy nuclear or particle physics. Experience working with both tracking software and wire-chamber hardware designed to operate in high-multiplicity environments is preferred. Research experience in heavy-ion fixed-target programs at BNL and CERN is highly desirable. Demonstrated ability to create and maintain tracking pattern recognition computer code is preferred. The successful applicant will join the PHENIX Experiment, which is based on a large general-purpose detector at RHIC. Contact: Samuel Aronson, Physics Department.

SCIENTIST - With extensive experience in experimental nuclear and/or elementary-particle physics. Demonstrated experience in commissioning and maintaining high-power ^{3}He-^{4}He dilution refrigerators and superconducting magnets is essential. Applicants should be familiar with techniques used to polarize nuclear targets and to monitor polarization. Experience in the interfacing and control of instruments with a variety of computer buses and in Monte Carlo simulation techniques is also desirable. The successful applicant will play a central role in the R&D of a new, high-field, low-temperature, polarized target program and will coordinate the application of these targets in complex experiments with medium-energy (approx. 0.5 GeV) polarized-photon beams at the LEGS facility. Contact: Andrew Sandorfi, Physics Department.

SCIENTISTS & POSTDOCTORAL RESEARCH ASSOCIATES - Trained in high-energy theory, to join a research group whose activities currently involve electroweak phenomenology, quantum chromodynamics, lattice gauge theories and finite temperature field theory. Contact: William Marciano, Physics Department.

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in nuclear or experimental particle physics, to join the PHENIX group involved in central tracking, electromagnetic calorimetry and on-line software. A background in relativistic heavy-ion physics, especially in hardware and event simulation or analysis is preferred. Part-time participation in the ongoing AGS relativistic heavy-ion programs will be possible. Contact: Samuel Aronson, Physics Department.

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in physics with expertise in development and implementation of high-resolution, many-channel tracking detectors for nuclear and/or high energy physics experiments. Experience with a large system of position-sensitive silicon detectors is desirable. The successful applicant will join a team developing the Silicon Vertex Tracker for the STAR detector. Contact: Thomas Ludlam, RHIC Project.

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in chemistry or physical chemistry, with experience in gas chromatography, to join the Tracer Technology Center which has developed a unique ultrasensitive (sub 10^{-15}) perfluorocarbon tracer technology for a range of diverse applications. Contact: Russell Dietz, Department of Applied Science.

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in chemical oceanography, with experience in gas chromatography and analytical instrumentation development. The work will involve study of the distribution of a suite of anthropogenic halocarbon tracers in the deep ocean. Contact: Douglas Wallace, Department of Applied Science.

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in physical or chemical oceanography, to study the transport of dissolved inorganic carbon within the oceans. Experience with heat-transport calculations and inverse modeling of oceanographic section data is preferred. Contact: Douglas Wallace, Department of Applied Science.

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in plant molecular biology or molecular biology, to study the molecular basis of photoacclimation in eucaryotic algae. Experience with characterization of DNA binding factors and signal transduction mechanisms, and the development of transient transformation systems for nuclear genes is highly desirable. Contact: Paul Falkowski, Department of Applied Science. (reposting from 11/11/94)

POSTDOCTORAL RESEARCH ASSOCIATE - Trained in physics, biophysics or related discipline. Experience with gel electrophoresis, electronics, lasers and/or component fabrication is desirable. The research program will involve developing and characterizing new equipment and methods for performing DNA sequencing by gel electrophoresis under a CRADA entitled Instrumentation for High Throughput DNA Sequencing. Contact: John Sutherland, Biology Department.

LABORATORY RECRUITMENT - Opportunities for Laboratory employees.

DD 2393. SECRETARIAL POSITION - (part-time) Requires an AAS in secretarial science or equivalent experience, demonstrated organization skills and excellent communication skills. Stenography skills desired. Will provide varied secretarial support including report and correspondence preparation using WordPerfect, IPAP/JCARS, arranging travel, filing and telephones. Department of Applied Science.

DD 0532. TECHNICAL POSITIONS - Requires an AAS in mechanical technology or equivalent experience to fabricate, assemble and operate cryogenic systems for the RHIC Project. Operating experience on any process system and experience in piping and mechanical assembly is highly desirable. Shift work may be required. RHIC Project.

OPEN RECRUITMENT - Opportunities for Laboratory employees and outside candidates.

DD 2899. TECHNICAL POSITION - (term appointment) Requires an AAS in electronic technology or equivalent and experience troubleshooting electronic/electromechanical equipment to the component level. Experience in instrumentation calibration is highly desirable. Good oral and written communication skills also required. Duties will include maintaining and calibrating air-flow measurement and radiation-monitoring equipment, developing calibration procedures for new equipment, installing and testing site-perimeter radiation monitors, assisting in installation and testing of systems in calibration facility upgrade, and assisting in implementation of new instrument calibration database. Safety & Environmental Protection Division.

DD 0046. BIOLOGY ASSOCIATE POSITION - (term appointment) Requires a bachelor's degree in biochemistry, molecular biology or equivalent with recent relevant course work, including laboratory experience. Responsibilities include the measure of DNA damage and repair in cells, skin-model systems and mammalian skin at cellular, molecular and sequence levels; the preparation and characterization of DNAs and enzymes; general lab support; and participation in weekly research meetings/journal clubs. Collaborative research may require protracted and/or weekend hours, as well as local travel. Biology Department.

DD 6164. TECHNICAL POSITION - Requires an AAS in mechanical technology or equivalent experience. Will assemble experimental magnets, vacuum systems, and various other mechanical equipment. Alternating Gradient Synchrotron Department.

LS 3679. CHEMISTRY ASSOCIATE POSITION - Requires a bachelor's degree in chemistry or equivalent, advanced degree desirable, with a minimum of three years' experience in analytical chemistry, environmental chemistry or a related field. Experience in instrumentation, electronics, data acquisition and processing, and aqueous chemistry highly desirable. Responsibilities include operation of research-grade instrumentation for the measurement of atmospheric trace species, development and implementation of new instrumental methods, and participation in field measurement programs requiring up to two months travel per year. Department of Applied Science.

Motor Vehicles & Supplies

93 QUAD BLASTER - very low hours, like new, mint cond., asking $2,800. 286-1615.

91 CENTURY BUICK - custom, 59k mi., loaded, V-6, new tires, brakes, med. gray, blue int., mint, must see, $7,950. Emil, 744-7343.

90 TOYOTA CAMRY - 4-cyl., a/t, p/s, p/seats, p/w, ac, 70k mi., new tires, mint, $7,550 firm. George, Ext. 2597.

89 CAMARO RS - V-8, a/t, ac, p/l, p/w, alarm, black ext., tan int., 74k mi., $4,995. Tom, Ext. 5265.

88 PRECIS - 5-spd., m/t, 90k mi., am/fm/cass., new exhaust & brakes, $950. Bob, Ext. 2503.

87 OLDSMOBILE REGENCY BROUGHAM - 75k mi., 4-dr., elec. sunroof, white w/leather int., excel., $4,900. 744-9802.

87 NISSAN SENTRA - clean, in good running cond., 109k mi., $1,950. John, Ext. 2769.

86 PONTIAC GRAND AM - V-6, 88k mi., orig. owner, gar., 6-way driver's seat, loaded, v.g. cond., $3,400. Ext. 3701 or 751-8128 eves.

86 HYUNDAI - 4-dr. h/b, m/t, red, not running, best offer. Stratos, Ext. 3983.

86 OLDS CUTLASS SUPREME - rebuilt eng. & trans., new brakes, shocks & tires, $2,500. Andy, 447-5965 afternoons.

86 MONTE CARLO - V-6, EFI, ask. $1,500. 286-1097.

86 DODGE CHARGER - 86k mi., 2.2 turbo, alarm, stereo, excel. cond., $3,200 neg. Ramón or Juan, 231-5329 after 5 p.m.

85 MAXIMA - white, fully loaded, all power, alarm, excel. cond., $4,200 neg. 399-6367.

86 HONDA CIVIC - 4-dr. sedan, ac, am/fm, 136k mi., $1,100 eng.; '79 Pontiac Bonneville, a/t, p/s, p/w, 160k mi., runs well, reliable, $400. Stefan, Ext. 3565.

85 LINCOLN TOWN CAR - white/red int., 5.0 liter, od., gar., loaded, v.g. cond., $3,500. Bob, Ext. 2710 or 467-4222.

85 CHRYSLER LE BARON - 4-cyl., 4-dr., white, p/s, p/w, ac, am/fm stereo, 36,928 mi., one owner, v.g. cond., $2,400. O. Booker, Ext. 3082 or 727-5912.

85 CORVETTE - red/red int., 28k mi., a/t, loaded, excel. cond., Tom, Ext. 5899.

84 HONDA CIVIC - blue, 4-dr., 5-spd., good performance, high mi., $900. 878-0270 eves.

84 VOLVO WAGON - good body, tight eng., new tires, brakes, shocks, rear susp. pivots, a/t plus od., 100k mi., $4,000. Ext. 3401 or 744-6229 or SWEET@BNL.GOV.

81 MONTE CARLO - 56k mi., p/s, p/b, ac, white, excel. cond., $1,395. 874-4845 after 7 p.m.

81 BUICK SKYLARK - 2-dr. sedan, new tires & battery, needs work, looks good, $250. Ron, 924-8644.

80 PONTIAC SUNBIRD - 4-cyl., body good cond., engine barely running, make offer. 298-8087.

80 CHEVY PICKUP - rebuilt eng. & tranny, good cond. w/ladder racks & storage boxes, asking $2,000. Rich, Ext. 5284 or Evan, 924-4237.

79 CAMARO - great car, easy to start, runs well, $700. David, Ext. 5207.

74 MGB - convertible, used on road through 1992, new top w/zippered window, ran well, asking $1,500 neg. Marcia, Ext. 7796.

67 MUSTANG - new Crager wheels, tires, bumpers, asking $600. Doug, Ext. 7698.

60 CHEVY BEL AIR - good running cond., needs body work, $1,000. Doug, Ext. 4484.

MERCURY SABLE WAGON - 104k mi., well maint., p/w, p/l, p/s, p/b, ac, $2,800 neg. Gerry, Ext. 4841 or 289-5433.

BUMPERS - front & rear, '95 Chevy van, $100 ea. firm; trailer hitches, class III Draw-Tite, class I bolt-on, $20 ea.; radio, $40. Don, Ext. 7237 or 744-2921 after 5:30 p.m.

BATTERY - 12-volt deep cycle for marine or RV, w/case, never used, $60. Mark, Ext. 4898.

HELMET - motorcycle, full head w/face shield, white, like new, $25 or best offer. Victor, Ext. 2395.

HOOD PROTECTOR - vinyl, fits '82-'93 S10 pickup, '83-'94 Blazer, '82-'90 S15 pickup, '83-'94 Jimmy, '91-'93 Sonoma, more, $20. Crystal, Ext. 2970.

REPAIR MANUAL - for '89 Toyota Camry, make offer. Jim, Ext. 4617.

REPAIR MANUAL - for '92 Honda Accord, $45. Ext. 2043.

RIMS - for FR-78-14 tires, $35/2. David, Ext. 5207.

RUNNING BOARDS - aluminum, diamond plated, from Chevy S10 Blazer, excel. cond. 289-8105.

TIRE - Firestone radial ATX P235 75R15, good cond., $30. John, Ext. 4297.

91 GEO METRO - 2-dr., blue, 59k mi., 5-spd., am/fm cass., body damage, runs well, $3,495. Joe, Ext. 2898.

90 PLYMOUTH VOYAGER LX - 82k mi., excel. cond., well maintained, $8,500. 929-3347 after 6 p.m.

89 FORD ESCORT WAGON - blue, 5-spd., 60k mi., am/fm stereo, good cond. Holroyd, Ext. 4329.

89 JEEP WRANGLER - red, 6-cyl., a/t, ac, am/fm stereo, 2 tops, new tires. 588-9325.

88 FORD TAURUS WAGON - V-6, ac, am/fm stereo, p/s, p/b, cruise, 98k mi., v.g. cond., $3,500. Ext. 3963 or 928-0516 eves.

86 CHEVY PICKUP - 2wd, V-8, low mi., runs well, $3,000 firm. John, 283-7716.

86 RENAULT ALLIANCE - 4-dr., m/t, 100k mi., runs well, needs muffler, $500 neg. Yuksel, Ext. 3136.

85 PLYMOUTH WAGON - 4-cyl., white, ac, a/t, good cond., asking $900. Bawa, Ext. 3357.

85 TOYOTA CAMRY - in/out mint cond., runs well, new tires, brakes, shocks, $2,875. Dave Boeje, 395-3484.

85 VOLVO 740 GLE - new tires/exhaust system, high mi., sunroof, pull-out stereo, $2,000. Joe, 475-8468.

85 CAMRY - 4-dr. sedan, ac, cruise, 65k mi., $2,500. Chrien, Ext. 3903 or 286-0037.

84 HONDA CXR- 5-spd., needs motor work, $250; '76 Ford Granada, needs motor, $150. Rich, Ext. 4986 or 589-9103.

82 CADILLAC DEVILLE - burgundy, 40k mi. on 2nd engine, $1,500 neg. Bert, Ext. 5156.

81 FORD GRANADA - 6-cyl., runs well, needs muffler. 325-9682 eves.

81 PLYMOUTH RELIANT WAGON - runs, clean int., or use for parts, $500. Ed, Ext. 2007 or 751-1474 eves.

81 FORD FAIRMONT - a/t, ac, p/s, p/b, reliable, $500 neg. Wang, Ext. 5814 or 345-6830.

79 VOLVO 245DL WAGON - p/s, p/b, new exhaust & brakes, 130k mi., very reliable, $1,600 neg. Rich, Ext. 2889 or 821-4188.

76 CHEVY MALIBU CLASSIC - 350 small block, Holley 4-bar. carb., Edelbrock manifold, chrome headers, B&M Quicksilver slapshift, posi rear. Phil, 286-1348.

68 CHEVY TRUCK - V-6, 16' box, 30k mi. on rebuilt engine, good cond., must sell, asking $3,500. Joann, 584-3830.

PARTING OUT FORD F150 4x4 - front nose, 351M motor, new rear, hood, door, transfer case, steering box. Wayne, Ext. 2964.

TIRES - Uniroyal, 235-15, 5 tires, 4 on rims, $235. Chris, Ext. 2022 or 395-6112.

TIRES - 1, P215/70R14, Firestone, excel., $25; 2, P225/75R15, Goodyear, brand-new, orig. $175, now $40 ea. 698-9274.

TIRES - 225/70R15, 1 Dunlop, 3 Remington w/Dunlop-type thread, $60/4; 225/70R14, Goodyear Eagle ST radials, $35/2. Ron, Ext. 4553 or 744-1194.

Boats & Marine Supplies

23' SAILBOAT - fg, sleeps 4, galley, fixed keel, mooring, dinghy, new jack stands & windows, 6-h.p. motor, sails, extras, $1,800. Mike, Ext. 7861 or 698-3967.

18' STARCRAFT - work boat, 50-h.p. Merc, rebuilt w/trailer, $1,800. Ron, Ext. 5905 or 298-5625.

ANCHOR - 35 lb. CQR, $200 firm. Bill, Ext. 2434.

25' AQUASPORT - 1987, 200-h.p. Merc., 9.5 Yamaha kicker, new batteries, Loran, radios, full canvas, excel. cond., $13,000 neg. 878-0480.

21½' PURSUIT - 1991, deep V cuddy, 150-h.p. Yamaha, 140 hrs., o/b, loaded, 1993 E-Z trailer, full canvas, mint cond., $18,000. Lloyd, 587-7876.

16' HOBIE CAT - w/1.2-h.p. kicker, $1,200. Ext. 3922.

BATTERY - 12V, deep-cycle for marine or RV w/case, never used, $60. Mark, Ext. 4898.

Furnishings & Appliances

AIR CONDITIONER - Carrier, window, 3 yrs. old, 5,400 Btu, $150. Joe, 924-7476.

BEDROOM SET - girl's, pine, Formica desk, dresser, night stand, bed frame, $125; dining set, $1,500 neg. Ext. 2949 or 427-2435.

CHAIRS - 4, Ethan Allen, solid cherry, bow-back side chairs, American Expressions collection, never used, orig. $199/ea., now $149/ea. Eric, Ext. 5875.

COUCH & LOVE SEAT - black, good cond., asking $400. 586-5447.

DRESSER - small, 5 drawers, solid wood top, v.g. cond., asking $90; bookshelf, white, $15; futon, full bed size, wood, $80. Stefan, Ext. 3565.

DINING ROOM - country American, trestle table, 2 leaves, lighted breakfront, 6 chairs, rolling bar/server, extra fabric, $925. Fran, Ext. 3309.

DINING ROOM - Mediterranean, oval table, 6 chairs, china cabinet; Spanish traditional l/r couch, tables & lamp, best offer. Ext. 2949 or 427-2435.

CHINA CLOSET - glass door, $40; Rattan étagère, 6'x6', glass shelves, $200. 325-1907.

FOOD PROCESSOR - Moulinex La Machine, used once, $40. Scott, Ext. 4661 or 744-4237.

HEADBOARD - full-size, w/matching mirror, fruitwood finish, $75/both. Lou, Ext. 3499.

SOFA - sectional, 3-piece, ultrasuede, cream color, like new, $400. Ext. 2043 or 475-7250.

SOFA - pullout sleeper, tweed material, w/mattress, $100, good cond. Rodger, Ext. 4630.

SOFA & CHAIR - living room, white wicker, green cushions, Henry Link brand, excel. Steve, Ext. 3822 or 929-6527.

SOFA BED - Sealy, full size, 6" innerspring mattress, beige, Scotchguarded, like new, $400. Ext. 5873.

TABLE - dark pine, 48" round, 12" leaf, 4 captain's chairs, excel. cond., $300; hanging Tiffany-style fixture, $50. Donna, Ext. 2826 or 732-9366.

TABLE - 3½'x6½', white, Formica top, black legs, $20. Nancy, 821-2652 or John, Ext. 2667.

TABLE - trestle, light pine, 1¾" x 36" x 72", mfg. MLU, custom pad, 2 benches, asking $450, like new. Ext. 7016 or 543-7674.

TABLES - end, coffee, oval table, dark walnut, like new, $100. Marty, Ext. 2214.

WATER BED - queen, semi-waveless, 4 drawer pedestal, good cond., $200. Craig, Ext. 4028.

BED - captain's, w/2 drawers under bed, good cond., $40; bed headboards, frames, full size, $25/each. John, Ext. 3292 or 286-1348.

BEDROOM SET - hardwood, armoire, dresser, 2 nightstands, king-size bed, excel. cond., $1,100. Ext. 3922.

BEDROOM - maple, twin beds, w/boxsprings, mattress, spindled hdbrds., 2 chests with bookcases, student desk & chair, nightstand. Shirley, 689-8665.

BEDROOM SET - dresser, mirror, chest, 2 nightstands, king-size hdbrd., 1 yr. old, like new, orig. $1,700, asking $750. Mac, 924-2348.

BUFFET & TABLE - w/2 leaves, pads, glass top, 5 chairs. 878-1552.

CARPET - 18½"x11½", bound, mauve, plush, used 1 yr., $100. 331-2298.

COOKTOP - KitchenAid, smooth surface, 4-burner, radiant heat, 21"x30", v.g. cond., $150. Nancy, Ext. 7996.

COUCHES - 2, hide-a-bed, 6' wide, solid bamboo arms, $125. 473-2473.

CURIO CABINET - walnut, excel. cond., $125; changing table, white, $25. Ext. 7611.

DESKS - 1 wood, 1 metal, $10/ea.; king-size water bed, reduced-motion mattress, fiber fill, $100; misc. kitchen cabinets, free. Rick, Ext. 2889 or 821-4198.

DINETTE SET - like new, contemporary, round table, almond gloss Formica w/chrome accents, 4 high-back chairs, $400. Artie, Ext. 7934.

DINING ROOM - table w/2 leaves, pads, 6 chairs, seats 6-14, good cond., $250. Randy, 588-7744.

DINING ROOM - contemp., glass-top table on faux stone base, 4 black upholstered chairs, excel. cond., $575; gas dryer, Maytag, like new, $175. Carter, Ext. 7599.

Classified Ads continued on back of this page.

DINING TABLE - 4 chairs, solid oak, Formica top, octagon, brown, $35. Bert, Ext. 5156.

DISHWASHER - GE, portable, can be built-in, $250, avail. Jan.; Karastan area rug, 9'x12', ivory trellis, $500. Culwick, 958-5251.

HUMIDIFIER - 10-gal., 3-spd., auto., walnut metal finish, refill gauge, $40. Carter, Ext. 7599.

LIVING ROOM - sectional, Brant-Ross, 2 incliners, 2 armless chairs, 1 wedge, Stefano fabric, light brown, excel. cond., orig. $1,600, ask. $600. Teri, 289-2925.

LOVE SEAT - Pier I, rattan, $75; IKEA pine dresser, 5 drawers, $45. Ext. 2208.

OVEN - GE, also GE dishwasher, both excel. cond., $30/ea. or $50/both. T.J., 744-3308.

RANGE - GE, elec., 30", 4 burners, clean, good cond., $75. 286-1956.

RANGE - Westinghouse, elect., oven, like new, $135. Ext. 3152 or 874-4845 after 7 p.m.

REFRIGERATOR - GE, full-size, 7 yrs. old, excel. cond.. $175. Penny, 929-4014.

REFRIGERATOR - Gibson, 16.4 cu. ft., frost free, $125; Welbilt electric range, $75. Steve, Ext. 7862.

SEWING MACHINE - Singer, portable, w/case, like new, $100. 924-8558 after 5 p.m.

TUB & SHOWER SEAT - brand-new, still in orig. package, $15. 751-5868.

WALL UNIT - hanging desk, shelves, magazine rack, 8' of space, $50; area rug, 12'x15', rose color, good cond., $45. Sue, Ext. 2888 or 286-1474 after 6 p.m.

WASHER - large-capacity, heavy-duty, 6 cycles, white, running cond., $120; Kenmore dryer, elec., white, runs well, $85. Ext. 5076 or 744-4615.

WATER BED - queen, Simmons, cylinder-type, frame, sheets, $250; wicker: 2 nightstands, full-sized hdbrd., 2 hanging lamps, $10/ea. 286-0353 or Ext. 5744.

Tools, House & Garden

AIR CLEANER - Friedrich, model C-90, electronic, $225. Ruppert, Ext. 3254.

BENCH GRINDER - $125; 10" ball bearings; gas barbeque grill, $75. Doug, Ext. 7698.

COAL STOVE - 60k Btu, Wellington, airtight, 24-hour auto feed hopper, thermostat, cooktop, glass door, asking $350. Marcia, Ext. 7796.

COAL STOVE - Chubby, heats 4-bdrm. house, $200. A. Waltz, 473-1658.

FIREPLACE DOORS - brass w/smoked glass, folding doors, screen, 39"x28", new, in box, $75. Ext. 3884.

FIREPLACE INSERT - Bullard, airtight, great cond., $350 neg. Joe, 981-7719.

GENERATOR - 4 kW, 120 & 240 volt outputs, used 1½ hrs., $250. Ext. 3922.

LUMINARIA - light up your yard & driveway for Christmas, kits of 20, $10. Steve, Ext. 4925 or 744-7290 after 6 p.m.

MOWER DECK - for Gravely model L. 363-7032.

POWER PAINTER - w/roller, 4 pads & rollers, 18" & 34" ext., 18' clear hose, $85; edger, elect., $50; Sears toolbox, 6 drawers, wheels, $60. Joe, 924-7476.

WINDOWS - double-hung, misc. sizes, no reasonable offer refused. Ken, Ext. 7351.
