# BNL Safety Awareness Day

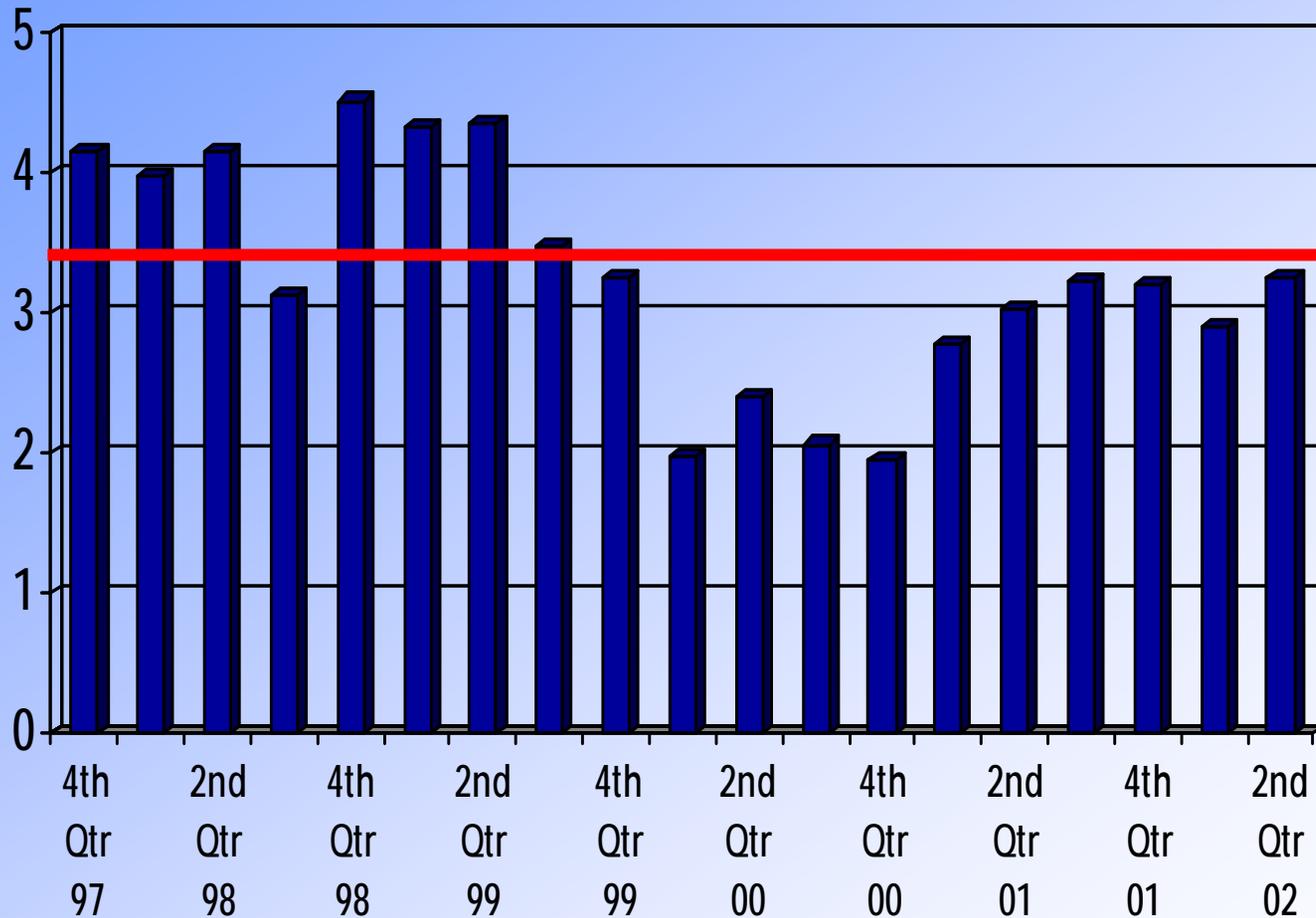

ESH Coordinators and Reps Meeting  
Presentation

June 19, 2002

Prepared by Otto White

Safety and Health Services Division

# BNL TRCR Performance Measure

RED LINE DENOTES DOE RESEARCH CONTRACTOR 5-YEAR AVERAGE (CY 1996-2000)

# BNL TRCR Performance Measure

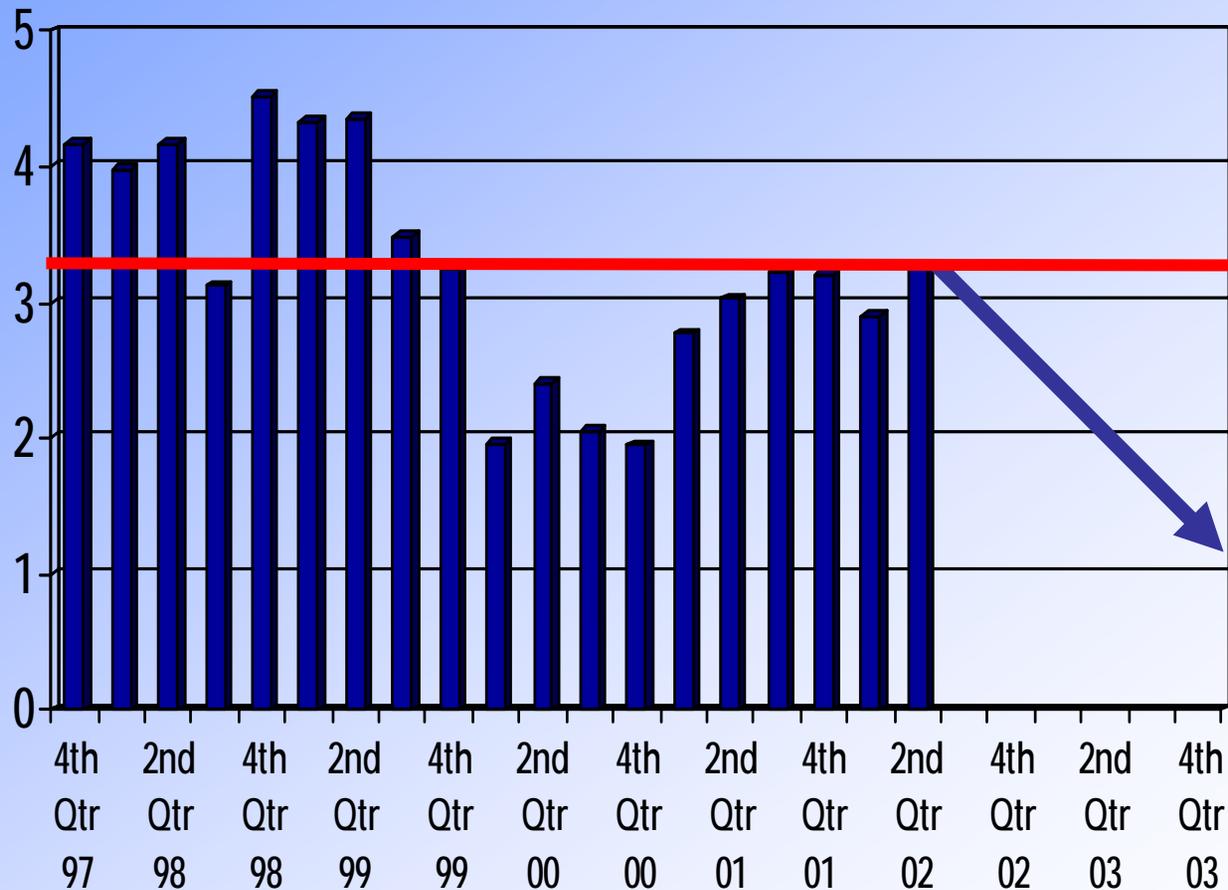

---

## What Is The Impact?

- Higher Operating Costs
- Increased Oversight
- Lower Productivity
- Lower Stakeholder Confidence

# BNL TRCR Performance Measure

## What Is Proposed To Change BNL Trends?

# DOE Injury and Illness Summary Reports

	1996	1997	1998	1999	2000	2001
C.I.	31	27	26	25	24	24
TRCR	23	25	24	12	15	17
LWCR	30	26	27	22	24	24
LWDR	27	22	27	23	21	24
Total in Class	31	28	27	27	27	27

Numbers in table represent BNL rank among DOE Labs

# BNL TRCR Performance Measure

---

## What Is Proposed To Change BNL Trends?

- SHSD is Developing an Improvement Plan Designed to Reverse Trends
- Monday Memo Messages from Dr. Peter Paul
- Bulletin Articles
- Presentations to Management and Operation Councils and BNL Unions
- Increase Presence by SHSD to Support Line Safety Programs
- Special Attention to Accident/Incident Cause Analysis

# **BNL Safety Awareness Day**

**July 8, 2002**

---

## **Suggested Activities:**

- **AM Presentation: Billy Robbins, Motivational Speaker, “ Hooked on Safety”**
- **PM S&T Lecture: Paul Stevens, Retired DuPont Scientist, “Safety and the Researcher”**
- **Department/Division All Hands Meetings**
- **Staff Safety Commitment Agreements**

# Purpose

---

**To increase the overall safety awareness and philosophy of BNL staff members. If successfully received, this information will result in improvements to safety and health performance indicators, i.e. TRCR, LWCR, and LWDR. Additionally this information will result in increased productivity, morale, and improved safety responses both on and off the job.**

# “Hooked on Safety”

**Billy Robbins is considered to be one of the top motivational safety speakers in the country. “Hooked on Safety”™ will change the way employees view safety for a lifetime. His diverse clients range from Princeton University to NASA.**

# Targeted Audience for Billy Robbins' Presentation

---

- Mandatory – Support Divisions' Supervisors and Staff
- Mandatory - Org. Units with OI statistics above BNL Average\*
- S&T Technicians from org units with > 5 TRC in 1999 to 4/30/02\*\*
- Union Members
- Level 1 and 2 Managers

\* *Except for essential continuity staff*

\*\* *Except for essential continuity staff*

# Paul Kende, Retired DuPont Scientist/Manager

## DuPont Safety Resources

---

### “Safety and the Researcher”

“DuPont Safety Resources is the authority on safe workplaces. We help leading-edge companies gain significant improvement in operating costs, security, productivity, product quality, public image and employee morale.”

“By reducing workplace injuries, illnesses and deaths, companies improve business performance and eliminate needless pain to families and communities.”

Paul Kende has 26 years R&D experience in positions with line responsibility for the safety of groups in size up to 120 people. All of these groups delivered business and technical results safely with zero lost-time injuries. He has developed materials for self-assessment, auditing, and continuous improvement follow-up and trained the staff in self-assessment and auditing.

# Targeted Audience for Paul Kende's Presentation

---

- S&T Principle Investigators and other Scientific staff
- Level 1 and 2 Managers
- User Groups Members
- Scientific Staff Visitors and Guests

# All Hands Dept./Div. Safety Meetings

---

- Statement of Safety Commitment and Expectations by Level II Manager and Cognizant ALD
- Review of Dept/Div Safety Performance (Injury Statistics, Radiation Exposure, Experience Reviews and Work Plans, Tier I Findings, etc.)
- Open Discussion with Staff to Identify ESH Strengths and Weaknesses
- Identify Safety Action Items/Goals for the Dept/Div to Complete during the Remainder of 2002 and 2003.
- Testimonials from BNL Incidents
- Sign Safety Commitment/Bill of Rights Posters
