# S3 Initiative

## Employee Recognition for Outstanding Safety Performance

- Similar to the Environmental Stewardship award.
- ESH&Q ALD will champion this program.
- It will be run via the OHSAS 18001 program and be administered by SHSD.

# S3 Initiative

Submission Forms and ranking criteria will be distributed to line organizations

- Single act of outstanding nature
- Multiple or sustained effort

- S2 Council will be the selection body
- Annually awarded to coincidence with Healthfest or Safety Week

# S3 Initiative

- Roll out is August 1 for completion of entries by Sept 15. Awards during HealthFest.
- It will run concurrent with any line organization's recognition programs (not meant to replace)
- Gift/cash, recognition plaque/certificate, & award ceremony

## Employee Recognition Program for Safety Awareness

### *"Safety Super Stars" (S3)*

This program is designed to seek out and recognize outstanding awareness and implementation of health and safety improvements and corrective actions.

Nominations of noteworthy performance are sought from employee, management, and the BNL professional safety staff. It functions in a similar manner to the BNL Environmental Awareness Program.

### Program Description

Brookhaven National Laboratory's (BNL) mission is to produce excellent science in a safe, environmentally responsible manner with the cooperation, support and appropriate involvement of our many communities. A strong program to correct safety deficiencies and strive for continual improvement of the health and safety program is an essential element of successful accomplishment of this mission and BNL's Occupational Safety & Health Management System. The BNL Safety Employee Recognition (S3) Program reflects the BNL and Department of Energy accident and injury prevention goals and policies and represents an ongoing effort to make safe operations an integral part of the BNL operating philosophy.
