GFCI Testing - Implementation

Plan Second Review

GFCI Testing Plan

My understanding is the electricians will be installing the stickers as part of team maintenance or other routine activities.

However – the testing is still a User test. This will be discussed in the next Monday Memo.

Hopefully you will be able to answer questions, if not please email me or Rich Biscardi so we can include the question in the electrical FAQ's web site.

GFCI Testing Problems

Now the problem with continuous use GFCI's

- **Drinking fountains, soda machines, heat trace – I hope to set-up meeting with F&O to discuss options.**
- **Scientific equipment – How do you want to handle? My suggestion is you require testing when down for some reason – let's think about for policy.**
