

STANDARD TURN-AROUND: 6-9 business days expected delivery of results from the time samples received by the BNL IH lab [based on 1-2 days at BNL outbound processing, 1-2 days in transit; 5 days at analytical lab]

- Samples will be processed through Liberty Mutual (LM), with the BNL insurance premium covering the analysis cost.
 - Samples received before 11:00 am can be expected to be processed on that day (post calibration, shipping papers, and packaging).
 - Samples received after 11:00 am may be processed on that day or the next.
 - Samples received after 2:00 pm can not be prepared in time for the 3:00 pm cut off at PPM. Shipment will occur on the next day.
- Workload and vacation schedules of BNL lab personnel will not be altered to address processing and shipping. Delays in processing and shipment of up to 2 days after receipt may occur. Submitters will be notified of expected delays.
- Shipment will be for standard delivery time with 2 day delivery acceptable.
- Analysis turn-around at the lab will be requested for 5 business days (standard lab rate).

RUSH ANALYSIS: 2-4 business days expected delivery of results from the time samples received by the BNL IH lab [based on 1day at BNL outbound processing, 1 day in transit; 1 day at analytical lab]

- Samples will be processed through EMSL, with cost paid by the organization requesting the rush analysis. (If practical, Liberty Mutual will be investigated as an option for the analysis).
- Samples in IH lab before noon will be processed on that day for the 3:00 pm transfer to PPM.
- Workload and vacation schedules of IH lab personnel will be altered so shipping will occur if notice of at least 48 hours has been provided.
- Shipment will be requested for next day delivery with cost paid by the organization requesting the rush analysis.
- Analysis turn-around at the lab will be requested for 24 hour with the organization requesting the rush paying the standard sample analysis cost plus:
