

## **BNL Environmental Stewardship Awards**

Each year, the Environmental and Waste Management Services Division solicits nominees for the BNL P2 Awards. Up to 3-4 individuals are selected to receive this award. The award is meant to recognize employees who, in their own way, " think globally and act locally" by embracing pollution prevention, waste minimization, and/or environmental compliance activities into their everyday work practices. The awards are handed out during the Laboratory's annual Earth Day Awards Ceremony, held during the 3rd or 4th week in April.
