**APPENDIX L
FY 2006 FEE COMPUTATION
FEE BASIS**

For FY2006, the performance measure model has one class of performance measures in Appendix B of the Prime Contract that is directly associated with fee (fee bearing). This reflects the approved FY2006 Performance Goals, Objectives, Measures and Targets for Science & Technology and Management and Operations. The FY2006 fee structure is in consonance with the following guidelines:

1. The maximum fee is to be in consonance with fees paid for the operation of similar FFRDC laboratories and will have a single tier structure;
2. While there are no current integrated subcontractor(s), the fees for integrated subcontractor(s), when and if they are again added to the BSA management structure, are included in the total fee set forth in Section B.3 for FY04 through the first quarter of FY08;
3. The fee structure is to be based on individual Target outcomes and their associated weights as determined separately;
4. The Performance Goal of Science and Technology will act as a “gate,” in that a final Grade of C (1.8) or above is required; there will be no fee if either Performance Goal outcome is D (1.0) or below.

Maximum Fee

The maximum fee that BSA can earn under this matrix for FY 2006 is established at \$7,400,000, if the performance goal for Science & Technology is scored 4.1 or above and Management and Operations is scored 3.1 or above. The scoring process is described in Appendix B.

Fee Matrix (Table 1)

Appendix B of the Prime Contract describes the scoring system for BSA’s performance. The “Percent S&T Fee Earned” from Appendix B is multiplied by the “M&O Fee multiple” from Appendix B to arrive at the total earned fee percentage. That percentage is then multiplied by the total available fee to arrive at BSA’s earned fee. See Fee Matrix below.
