

CLOSING REMARKS (For Rene Bellwied)

John Hill, Iowa State University, 6-22-07

UEC Next Year Priorities

1. Coffee House completed.
2. Progress toward additional lighting to RHIC ring.
3. Review of BNL housing situation (Rene's priority). Comments welcome.
4. Three chairs visit to OMB in late summer with new one pager on relevance of RHIC in LHC era.
5. Upgrade interaction with Congress with visits in Spring targeting members of Energy and Water Appropriations Committees.

Thanks To Workshop Organizers

Probing the nucleon's spin structure with longitudinally polarized beams
(Frank Simon and Alexander Bazilevsky)

Probing the nucleon's spin structure with transversely polarized beams
(Mickey Chiu and Akio Ogawa)

The future of RHIC spin and the physics of eRHIC (Ernst Sichtermand and Ralf Seidl)

Bulk and medium properties in heavy ion collisions at RHIC and RHIC II
(Sergei Voloshin and Dave Morrison)

Hard probes of nuclear collisions at RHIC (James Dunlop and Brian Cole)

Heavy flavor and quarkonia production (Ralf Averbeck and Frank Laue)

Non RHIC related nuclear and high energy physics at BNL (Gerco Onderwater and Yannis Semertzidis)

Education and outreach workshop (Scott Bronson)

Thanks To Workshop Organizers

Abhay Deshpande

Spin

Rene Bellwied

Heavy Ion

Thanks To All the Speakers

Thanks to Our Student UEC Members Organized the Poster Session

Sarah Campbell—PHENIX—Stony Brook

Christine Nattrass---STAR---Yale

Users' Center Staff

Kelly Guiffreda

Angela Melocoton

Regina Robinson

and Susan White-DePace

CA-D End-of-Run Party

Building 911 (AGS)

Courtyard and Lounge

4:30 p.m. Today (Now)
