CEGPA OSH Web Site	http://www.bnl.gov/PGA/osh.asp	BNL ESH Policy	http://www.bnl.gov/eshq/ESSH.asp
BNL EMS Web page	http://www.bnl.gov/esh/ems/	Standards Based Management System (SBMS)	https://sbms.bnl.gov/

Key Information

Job Risk Assessment (JRA)	A systematic tool used to analyze the risks associated with a task and controls to minimize those risks
OHSAS 18001	An international standard for Safety management that ensures risks are managed and processes for continual improvement are in place.
ISO 14001	An international standard for Environmental management ensures risks are managed and processes for continual improvement are in place.

All Employees must be familiar with the environmental, safety and health aspects of their work., all hazards associated with that work and the consequences that could result from performing work outside of those controls. If you are unsure, see your supervisor or one of the ESH professionals listed on the reverse side.
