June 7, 2019

Mr. Kevin J. Fox
Prime Contract Manager
Brookhaven Science Associates, LLC
Brookhaven National Laboratory

Dear Mr. Fox:

**SUBJECT: SUBCONTRACT FOR THE CONSTRUCTION OF A MAIN ENTRY
ROUNDBOUT AT THE ENTRANCE OF BROOKHAVEN NATIONAL
LABORATORY**

A Property and Procurement Management (PPM) Advance Notification #2019-202 for the award of a subcontract for the construction of a roundabout at the main entrance of the Brookhaven National Laboratory (BNL), was transmitted to the Brookhaven Site Office (BHSO) Contracting Officer (CO) on May 23, 2019. At the time of receipt, the BHSO CO communicated to the Brookhaven Science Associates, LLC (BSA) PPM Manager that BHSO management had concerns, not so much with regard to the subcontract, but with the prioritization of this project under the BNL Currently Unfunded Requirements List (CURL) process. Based on discussions between the senior managers within both BHSO and BSA, the prioritization concerns for fiscal year 2019 have been resolved.

As an outcome of those discussions, it is BHSO's expectation that BSA will establish an engagement process between BHSO and BSA. That engagement process would take the form of the communication of ES&H and infrastructure priorities proposed for the CURL. Ideally the CURL process would include annual discussions between the BSA Associate Laboratory Directors for Facility and Safety, with their respective BHSO counterparts prior to the submission of priority safety and infrastructure projects proposed for CURL consideration.

BHSO is requesting that BSA modify the existing CURL process to include a segment to ensure that communications between BHSO and BSA senior managers occurs. Therefore, the PPM subcontract award may proceed subject to the agreement of these conditions.

If you have any questions regarding this letter, please contact me at extension 7812.

Sincerely,

Fausto Fernandez
