

Department of Energy

Brookhaven Site Office

P.O. Box 5000

Upton, New York 11973

4/30/2020

Mr. Kevin Fox
Prime Contract Manager
Brookhaven Science Associates, LLC
Brookhaven National Laboratory
Upton, New York 11973
Delivered via email

Dear Mr. Fox,

SUBJECT: DEPARTMENT OF ENERGY COVID-19 NATIONAL EMERGENCY GUIDANCE UNDER PRIME CONTRACT NO. DE-SC0012704 FOR THE MANAGEMENT AND OPERATION OF THE BROOKHAVEN NATIONAL LABORATORY

Pursuant to the Department of Energy (DOE) Policy Flashes attached herein, this letter serves as the DOE Contracting Officer's notification. The Secretarial Memorandums attached to the policy flashes contain requirements that are subject to DOE Contractors during the COVID-19 pandemic.

This guidance shall in no way relieve the prime contractor of any obligations or responsibilities it may otherwise have under the contract or under law. All other terms and condition of the Prime Contract remain in effect.

If you have any questions regarding the policy flashes, the point of contact is the undersigned and can be reached at extension 2405, or via email at Aundrea.Clifton@science.doe.gov.

Sincerely,

Aundrea Clifton
Contracting Officer
Business Division

MEMORANDUM FOR MARK W. MENEZES
UNDER SECRETARY OF ENERGY

PAUL M. DABBAR
UNDER SECRETARY FOR SCIENCE

LISA E. GORDON-HAGERTY
UNDER SECRETARY FOR NUCLEAR SECURITY
ADMINISTRATOR, NNSA

FROM: DAN BROUILLETTE

A handwritten signature in black ink, appearing to read "Dan Brouillette".

SUBJECT: Temporary Suspension and Exercise of Enforcement Discretion
for Certain Safety Requirements and Requirements During
Pendency of the COVID-19 Crisis

On March 13, 2020, the President determined that the ongoing Coronavirus Disease 2019 (COVID-19) pandemic is of sufficient severity and magnitude to warrant an emergency determination under section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207, based on the fact that the United States is in the midst of a significant public health emergency, which the World Health Organization has officially declared as a global pandemic.

On March 15, the Acting Director of the Office of Management and Budget issued guidance (OMB Memorandum M-20-15) to Federal agencies directing department and agency leaders to assertively safeguard the health and safety of their workforce while remaining open to serve the American people and conduct mission critical functions.

In the few weeks since those actions, in an attempt to slow the spread of COVID-19, hundreds of millions of Americans have been asked not to go to their place of work or school, and not to leave their house at all, unless it is essential that they do so. As of April 7, a vast majority of states, the Navajo Nation and many cities and counties instructed residents to stay at home in an attempt to stunt the spread of COVID-19. This means at least 316 million people in at least 42 states, three counties, nine cities, the District of Columbia and Puerto Rico were urged to stay home. Yet the critical work of the Department of Energy must continue.

We have already taken steps to ensure the health and safety of our workforce, both Federal employees and contractor-employed workers. We have instituted maximum telework flexibilities for all Federal employees of the Department, including in our

Washington Headquarters and DOE sites around the country. Departmental Elements are working with contracting officers and the Office of Management to maximize telework for contractors across the complex.

As we know, much of the work of the Department is managed through the issuance of Orders within the DOE Directives system. Appropriately, these Orders provide milestones and timeframes for measuring success and demonstrating compliance. In times of normal operation we fully expect those requirements to be met so that we can meet our mission goals. However, these are not normal times. Certain requirements in a number of DOE Directives, while important for typical operation, are difficult to adhere to during times of national crisis. Moreover, at a time when the vast majority of our workforce is teleworking to ensure their safety, it is not possible to comply with many of these requirements. However, we do not want our facilities and personnel to be in non-compliance with these requirements as they continue the important work of the Department.

Attached to this memorandum is a list of safety and security requirements contained in current DOE Directives that detail responsibilities and deadlines where compliance is adversely impacted because of this national emergency when maximum telework and social distancing activities are being implemented throughout the Department and which may therefore be suspended, at least initially, for 180 days. As such, I hereby order that obligations imposed by the specific requirements enumerated in the attachment be suspended, beginning March 13, 2020, for 180 days from the date they would otherwise apply. We will revisit the circumstances existing with regard to the COVID-19 pandemic prior to the expiration of this 180-day period to determine if this suspension should be continued. Additionally, if circumstance suggest doing so, this deadline may be terminated prior to the full 180 days, with 30-days' notice. At the end of the suspension, compliance with these requirements will resume in their normal course.

Similarly, attached to this memorandum is a list of safety and security requirements contained in current regulations issued and administered by DOE. By this memorandum, I am directing that the National Nuclear Security Administration (NNSA) and the DOE Office of Enterprise Assessments (EA) exercise regulatory enforcement discretion and not pursue enforcement actions for violations of those particular requirements, beginning on March 13, 2020, for 180 days. Correspondingly, DOE's Office of Acquisition Management, in coordination with the NNSA's Office of Acquisition and Project Management, will issue implementing guidance to contracting officers. We will revisit the circumstances existing with regard to the COVID-19 pandemic during this 180-day period to determine if this exercise of discretion should be continued. If the circumstances suggest doing so, this deadline may be terminated prior to the full 180 days, with 30-days' notice. NNSA and EA will jointly issue supplemental guidance on the enforcement discretion policy.

With regard to the attached lists of safety and security requirements contained in current DOE Orders, Directives and regulations, the requirements are those that have been identified as of the date of this memorandum. We will revisit these lists and add or remove requirements as necessary during the pendency of the emergency.

I strongly encourage all Programs document these deviations to ensure a smooth transition back to normal course and maintain communication with employees to discuss the decisions, risks, and impacts associated with deviations from Directives and regulatory requirements.

The Office of the Associate Under Secretary for Environment, Health, Safety and Security will work with Program Offices to implement this suspension. Please contact Matthew B. Moury, at (202) 586-5175, with any questions or concerns.

Safety and Security Directives

April 14, 2020

Federal Substance Abuse Testing Program	
Source of Requirement	Requirement
DOE O 343.1, Federal Substance Abuse Testing Program	
DOE O 343.1 4.b.(1)	4.b.(1) Employees in the positions listed in Appendix A, referred to as testing designated positions (TDP), are subject to random testing.
DOE O 343.1 4.b.(2)	4.b.(2) All applicants including current DOE employees, for TDP are subject to pre-employment (also referred to as applicant) testing.
DOE O 343.1 4.b.(4)	4.b.(4) Employees who volunteer to be included in the random testing program.
Environmental Protection and ES&H Reporting	
Source of Requirement	Requirement
DOE-STD-1090-2007, Hoisting and Rigging	Crane operator training requires a periodic refresher training which includes a hands-on portion (classroom).
Facility Safety	
Source of Requirement	Requirement
Order 420, Facility Safety	<p>Fire Protection requirements (all) NEW REQUIREMENT: For fire protection program requirements, the safety of personnel and facilities remains a priority. Therefore, during this national emergency when maximum telework and social distancing activities are being implemented throughout the Department, the Authority Having Jurisdiction (AHJ) has the authority to make modifications to the DOE approved Fire Protection Program required per Chapter II of DOE Order 420.1C, <i>Facility Safety</i>. These modifications must focus on changes to requirements that are unable to be completed because of the maximum telework and social distancing DOE/Contractor workforce and must maintain the safety of personnel and facilities within the Department. These changes also must be documented (with appropriate justification) by the AHJ, tracked during the national emergency, and communicated to the Program.</p>
Integrated Safety Management	
Source of Requirement	Requirement
DOE O 450.2B, Integrated Safety Management	Appendix A Section c.(1)(b) A documented comprehensive self-assessment must be performed periodically (at intervals no greater than 2 years) based on the criteria presented in this Appendix.
Protective Force	
Source of Requirement	Requirement

Safety and Security Directives

April 14, 2020

DOE O 470.4B, Safeguards and Security Program	Appendix A, Section 1, Chapter III, 4.c. Facilities/sites with denial protection strategies must conduct, in addition to the tests noted above, protective force exercises quarterly with a rotational schedule for multiple facilities requiring denial protection strategies.
DOE O 473.3A, Protection Program Operations	
DOE O 473.3A	Appendix A. Section A, 4.g.(1) Each Federal Officer (FO)/Federal Agent (FA)/Special Agent (SA) must requalify on firearms on a semiannual basis.
DOE O 473.3A	Appendix A, Section B, 8. Federal Protective Force (FPF) supervisor annual training.
DOE O 473.3A	Appendix A, Section B, 10.a. FPF Firearms Instructor annual training.
DOE O 473.3A	Appendix A, Section B, 10.b. FPF Firearms Instructor recertification.
DOE O 473.3A	Appendix A, Section B, 11.a. FPF Intermediate Force Instructor training.
DOE O 473.3A	Appendix A, Section B, 11.b. FPF Intermediate Force Instructor recertification.
DOE O 473.3A	Appendix A, Section D. 2.a. FPF firearms semiannual safety training.
DOE O 473.3A	Appendix A, Section D, 5.b.(3) FPF Live-Fire Shoot House Instructor training.
DOE O 473.3A	Attachment 2, Section B, 12.b.(1) FPF Armorer recertification.
DOE O 473.3A	Attachment 2, Section B, 12.c. FPF Armorer refresher training.
DOE O 473.3A	Appendix A, Section D. 4.i. and Attachment 2, Section J. 4.i. Emergency response drills must be carried out [at firing ranges] annually (at least every 12 months) to test personnel preparedness in implementing the plan.
DOE O 473.3A	Appendix A, Annex 1, Section D. 2.c. (1) and Attachment 2, Annex 2, Paragraph 1.c.(1) Validation Force on Force exercises must be held annually (at least every 12 months).
DOE O 473.3A	Appendix A, Section G. First Bullet and Attachment 2, Section M., 1.a. Formal appraisals or self-assessments of the safety and health aspects of the safeguards and security program must include firearms safety and must be performed by line management annually (at least every 12 months).
DOE O 473.3A	Attachment 2, Section B, 9.a. CPF Firearms Instructor annual training.
DOE O 473.3A	Attachment 2, Section B, 9.b. CPF Firearms Instructor recertification.
DOE O 473.3A	Attachment 2, Section B, 10.a. CPF Intermediate Force Instructor training.
DOE O 473.3A	Attachment 2, Section B, 10.b. CPF Intermediate Force Instructor recertification.
DOE O 473.3A	Attachment 2, Section B, 11.b.(1) CPF Armorer recertification.
DOE O 473.3A	Attachment 2, Section B, 11.c. CPF Armorer refresher training.
Physical Protection	
Source of Requirement	Requirement

Safety and Security Directives

April 14, 2020

DOE O 473.3A, Protection Program Operations	
DOE O 473.3A	Attachment 3, Section A, Chapter IX. Paragraph 2.a.(2) The IDS must be tested when installed and annually (at least every 12 months) thereafter.
DOE O 473.3A	Attachment 3, Section A, Chapter IX, Paragraph 3.b.(2) The IDS must be tested when installed and annually (at least every 12 months) thereafter to validate that it meets detection probability and confidence level requirements.
DOE O 473.3A	Attachment 3, Section A, Chapter IX, Paragraph 5.c. Line Supervision. Where data encryption is used, key changes must be made annually (at least every 12 months) and whenever compromise is suspected.
DOE O 473.3A	Attachment 3, Section C, Chapter IV, Paragraph 2.c.(1) The IDS must be tested when installed and annually (at least every 12 months) thereafter to validate that it meets detection probability and confidence level requirements.
Information Security	
Source of Requirement	Requirement
DOE O 471.6, Information Security	
DOE O 471.6	Final marking of Working Papers and Living Documents.
DOE O 471.6	36 month OPSEC assessments cycle.
Material Reporting	
Source of Requirement	Requirement
DOE O 474.2, Nuclear Material Control and Accountability	
DOE O 474.2	DOE to DoD SNM transfers- Report by September 30th each year.
DOE O 474.2	DOE Material at NRC Licensees' Site- DOE program offices must ensure that the verifications be obtained at least every 12 months, but are not required for materials that have already been identified in the licensee's most recent material balance report, provided the report was submitted to NMMSS within the last 12 months.
DOE-STD--1194-2019, Nuclear Material Control and Accountability	Material Balance Reports (MBRs) are to be submitted annually to NMMSS for the September 30th accounting period and reconciled with the NMMSS data.
Physical Inventory	
Source of Requirement	Requirement
DOE O 474.2	Frequency (metric) - Unless an alternative inventory frequency is documented with supporting justification based on the effectiveness and timeliness of process and item monitoring, access controls, and material surveillance measures,

Safety and Security Directives

April 14, 2020

	<p>the frequency for SNM inventories is: (1) Every 60 days (calendar days) for Category I and II process MBAs; (2) Every 6 months for Category I and II non processing MBAs; and (3) Every two years (24 months) for Category III or IV MBAs.</p>															
DOE-STD--1194-2019	<p>Physical Inventory Frequency - Physical inventories of accountable nuclear materials shall be conducted at frequencies commensurate with the Category and operations conducted in each MBA in accordance with Table 6.5-2, unless an alternative inventory frequency is documented in the MC&A plan.</p> <p style="text-align: center;">Table 6.5-2 Physical Inventory Frequencies</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Category</th> <th style="text-align: center;">Processing MBA</th> <th style="text-align: center;">Storage MBA</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">I</td> <td style="text-align: center;">2 months</td> <td style="text-align: center;">6 months</td> </tr> <tr> <td style="text-align: center;">II</td> <td style="text-align: center;">2 months</td> <td style="text-align: center;">6 months</td> </tr> <tr> <td style="text-align: center;">III</td> <td style="text-align: center;">6 months</td> <td style="text-align: center;">2 years</td> </tr> <tr> <td style="text-align: center;">IV</td> <td style="text-align: center;">6 months</td> <td style="text-align: center;">2 years</td> </tr> </tbody> </table> <p>Inventory frequencies may be extended using alternative measures specified in Table 6.5-3 after review and approval by DOE line management.</p>	Category	Processing MBA	Storage MBA	I	2 months	6 months	II	2 months	6 months	III	6 months	2 years	IV	6 months	2 years
Category	Processing MBA	Storage MBA														
I	2 months	6 months														
II	2 months	6 months														
III	6 months	2 years														
IV	6 months	2 years														

Safety and Security Directives

April 14, 2020

Table 6.5-3, Inventory Periods Based on Alternative Measures¹ for Category I and II Storage Locations[¶]

Alternative Inventory Control Measures ¹	Inventory Period
Formidable barriers	1 year
Hazardous environment	1 year
Bulk containment	1 year
Vault enhancement above baseline requirements	9 months
Continuous monitoring of physical or mechanical parameters	1 year
General (area-wide) confirmatory measurements	1 year
Continuous item observation ² (e.g., video/image, laser surveillance)	2 years
Continuous item monitoring ² (e.g., monitoring of serial number, TIDs, movement)	2 years
Mass ² (load cell)	2 years
Confirmatory measurements ² on individual items (e.g., thermal, gamma, or neutron emission)	3 years
Quantitative measurements on individual items	May qualify as a continuous inventory ²

¹ When multiple measures are used for storage MBAs, the inventory periods are additive as long as the alternative measures function independently.

² If the measurements are both item- and material-specific and there is a level of confidence that the measurements are correct, the monitoring may qualify as a continuous physical inventory. To be considered a continuous physical inventory, automated measurements must be made on all items on a second-to-second basis.

DOE O 474.2	Reconciliation (metric) - Inventory reconciliation is complete within 30 days from initiating the inventory taking, following receipt of all inventory information, measurement data, and sample analyses.
DOE-STD--1194-2019	Reconciliation - Procedures shall be established and approved to reconcile physical inventory with the book inventory (and adjusted if necessary) within 30 calendar days following receipt of all inventory information (including sample and analysis data). The procedures shall address responding to and reporting missing items and inventory differences in excess of control limits. (See Section 6.1.8) Inventory reconciliation shall be completed before starting the next physical inventory.
DOE-STD--1194-2019	Performance Testing of all MC&A system elements - Safeguards and security performance tests involving MC&A system elements shall be performed at least every 365 days (annually not to exceed twelve months).

Safety and Security Directives

April 14, 2020

DOE-STD--1194-2019	Daily Administrative Check (DAC) - The DAC shall be performed by facility personnel each day that the MBA is entered and shall be performed in all rooms entered if the MBA consists of more than one room.
DOE-STD--1194-2019	Daily Administrative Check (DAC) - On workdays in which an entry is not made into an MBA, the status of the intrusion detection system shall be checked and documented.
DOE-STD--1194-2019	Control Limits - All control charts shall be reviewed by a person responsible for measurement control at least monthly, unless the measurement system was not used during that period.
Program Planning and Management	
Source of Requirement	Requirement
DOE O 470.4B	Final closure reports for Category A incidents must be submitted within 90 calendar days of preliminary incident notification.
DOE Order 470.6 Classified annex	Survey periods - ODFSA have the ability to accept the risk not meeting schedule requirements. Extended completion dates to allow for restart.
Personal Security	
Source of Requirement	Requirement
DOE O 472.2, Personnel Security	
DOE O 472.2	Attachment 2, 2.a. CPSOs may accept negative results of a drug test dated within 180 calendar days of the individual's SF 86 signature.
DOE O 472.2	4.e. Reciprocity Cases - CPSOs may accept negative results of a drug test administered within 180 calendar days of the security clearance request.
DOE O 472.2	4.f. Reinstatement and Reapprovals - CPSOs may accept negative results of a drug test dated within 180 calendar days of the individual's signature on his or her SF-86.
Identifying Classified Information	
Source of Requirement	Requirement
DOE 475.2B, Identifying Classified Information	
DOE 475.2B	4.i.(12), 4.j.(10), Requirement to compile statistics

April 14, 2020

DOE 475.2B	Attachment 5, 2, Classification Decision review requirements for Program Classification Representatives; Classification Officers and Headquarter Classification Representative
DOE 475.2B	Attachment 5, 3, Correction action within 60 days of completion of assessments
DOE 475.2B	Attachment 6, Classification Education Program; Refresher training requirements for: <ul style="list-style-type: none">• Individual with access to classified information• Original Classifiers• Program Classification Officers and Classification Officers• Headquarters Classification Representatives and Alternates• Derivate Classifiers (including email DCs)• Derivative Declassifiers

Safety and Security Regulations

April 14, 2020

Worker Substance Abuse Programs	
Source of Requirement	Requirement
10 CFR Part 707, Workplace Substance Abuse	Each workplace substance abuse program will provide for random testing for evidence of the use of illegal drugs of employees in testing designated positions at identified in §707.7
Occupational Radiation Protection	
Source of Requirement	Requirement
10 CFR Part 835, Occupational Radiation Protection	
§835.1202	Each accountable sealed radioactive source shall be inventoried at intervals not to exceed six months.
§835.901(e)	Radiation safety training shall be provided to individuals when there is a significant change to radiation protection policies and procedures that may affect the individual and at intervals not to exceed 24 months.
§835.102	Internal audits of the radiation protection program, including examination of program content and implementation, shall be conducted through a process that ensures that all functional elements are reviewed no less frequently than 36 months.
Worker Health and Safety	
Source of Requirement	Requirement
10 CFR Part 851, Worker Health and Safety Program, §851.23	
NFPA 70E, Standard for Electrical Safety in the Workplace	
NFPA 70E	Annual refresher training requirement for cardiopulmonary resuscitation and automated defibrillator.
NFPA 70E	Retraining in safety-related work practices shall be performed at intervals not to exceed three years for lockout/tagout.
NFPA 70E	Retraining for lockout/tagout is required at intervals not to exceed 3 years.
29 CFR Part 1910, Occupational Safety and Health Standards	
§1910.95(g)(6)	Occupational noise exposure: Annual audiogram. At least annually after obtaining the baseline audiogram, the employer shall obtain a new audiogram for each employee exposed at or above an 8-hour time-weighted average of 85 decibels

Safety and Security Regulations

April 14, 2020

§1910.95(k)(2)	Occupational noise exposure: The Training program (k)(1) shall be repeated annually for each employee included in the hearing conservation program. Information provided in the training program shall be updated to be consistent with changes in protective equipment and work processes.
§1910.119(g)(2)	Process safety management of highly hazardous chemicals: Refresher training. Refresher training shall be provided at least every three years, and more often if necessary, to each employee involved in operating a process to assure that the employee understands and adheres to the current operating procedures of the process. The employer, in consultation with the employees involved in operating the process, shall determine the appropriate frequency of refresher training.
§1910.120(e)(8) / 1926.65(e)(8)	Hazardous waste operations and emergency response. Refresher training. Employees specified in paragraph §1910.120(e)(1), and managers and supervisors specified in paragraph §1910.120(e)(4) of this section, shall receive eight hours of refresher training annually on the items specified in paragraph §1910.120(e)(2) and/or §1910.120(e)(4) of this section, any critique of incidents that have occurred in the past year that can serve as training examples of related work, and other relevant topics.
§1910.134(d)(1)(ii)	The employer shall select a NIOSH-certified respirator. Limited to N95 equivalent filtering face-piece respirators used for bio aerosols (e.g., viruses) only when NIOSH certified N95 respirators are unavailable.
§1910.134(f)(2)	Respiratory protection. The employer shall ensure that an employee using a tight-fitting facepiece respirator is fit tested ... at least annually thereafter.
§1910.134(k)	Respiratory Protection. Training and information. This paragraph requires the employer to provide effective training to employees who are required to use respirators. The training must be comprehensive, understandable, and recur annually, and more often if necessary.
§1910.134(e)(3)	Respiratory protection. Respirator follow-up medical examination
§1910.146(g)	Permit Required Confined Spaces re-training (one-time training unless change in assigned duties; change in the permit space operations; employer has reason to believe that there are deviations from the permit space entry procedures.
§1910.147(c)(7)(iii)	Hazardous Energy Control Retraining (Only under specific conditions: reestablish employee proficiency; new or revised control methods, as necessary.)
§1910.157(g)(2)	Portable Fire Extinguishers. The employer shall provide the education required in paragraph §1910.157(g)(1) of this section ... at least annually.
§1910.178(l)(4)(iii)	Powered industrial trucks operator performance evaluation every 3 years
§1910.1001(j)(7)(i)	Asbestos: Training shall be provided ... at least annually thereafter.
§1910.1001(l)(3)(i)	Asbestos: Periodic medical examinations shall be made available annually.
§1910.1025(l)(1)(iv)	Lead: The training program shall be repeated at least annually for each employee.
§1910.1027(l)(4)(i)	Cadmium: A periodic medical examination shall be provided ...biennially.
§1910.1027(m)(4)(i)	Cadmium: Training shall be provided ... least annually.

Safety and Security Regulations

April 14, 2020

“§1910.1028(i)(3)(i)	Benzene: For all workers required to wear respirators for at least 30 days a year, requires annual medical examination.
§1910.1028(j)(3)(i)	Benzene: If exposures (to benzene) are above the action level, employees shall be provided with information and training at least annually thereafter.
§1910.1030(g)(2)(ii)(B)	Blood borne pathogens: Training shall be provided at least annually.
§1910.1053(i)(3)	<i>Respirable Crystalline Silica: Periodic examinations.</i> The employer shall make available medical examinations that include the procedures described in paragraph (i)(2) of this section (except paragraph (i)(2)(v)) at least every three years, or more frequently if recommended by the PLHCP.
Beryllium	
Source of Requirement	Requirement
10 CFR 850, Chronic Beryllium Disease Prevention Program	
§850.34(b)(2)	Periodic Evaluation (i) The responsible employer must provide to beryllium workers a medical evaluation annually, and to other beryllium-associated workers a medical evaluation every three years.
§850.37(d)	The responsible employer must provide the training required by this section ... at least every two years.
Electrical Safety Codes	
Source of Requirement	Requirement
NFPA 1582, Standard on Comprehensive Occupational Medical Program for Fire Departments.	Annual pulmonary testing for powered air purification use.
Transportation	
Source of Requirement	Requirement
49 CFR Part 172, Transportation	
§172.704(c)(2)	Training required for employee qualification and certification and retraining at least every 3 years.
Access to Classified Materials	
Human Reliability	
Source of Requirement	Requirement
10 Part CFR 712, Human Reliability Program	
§712.11(a)(2)	Signed releases, acknowledgements, and waivers to participate in the HRP on forms provided by the DOE.

Safety and Security Regulations

April 14, 2020

§712.11(a)(3)	Completion of initial and annual HRP instruction as provided in §712.17.
§712.11 (a)(4)	Successful completion of an initial and annual supervisory review, medical assessment, management evaluation, and a DOE personnel security review.
§712.11(a)(6)	An initial drug test and random drug test for the use of illegal drugs at least once each 12 months.
§712.11(a)(7)	An initial alcohol test and random alcohol tests at least once each 12 months.
§712.11(a)(8)	For designated positions, identified pursuant to 10 CFR part 709, successful completion of a counterintelligence evaluation, which may include a counterintelligence-scope polygraph examination in accordance with DOE's Polygraph Examination Regulation, 10 CFR Part 709, and any subsequent revisions to that regulation.
Protective Force	
Source of Requirement	Requirement
10 CFR Part 1046, Physical Protection of Security Interests	
10 CFR Part 1046	PF annual medical and physical readiness standards in 10 CFR Part 1046.
10 CFR Part 1046	PF semi-annual weapons qualifications.
10 CFR Part 1046	PF annual training requirements.
10 CFR Part 1046	If C19 restrictions continue through July, Executive Protection (AU-1.23) may need relief from 1046 training requirements that are being addressed directly through AU-50.
10 CFR Part 1046	Physical Protection Medical Directors (PPMDs) annual requirements pursuant to 10 CFR §1046.4(e) & (g).
