

Ondrej Chvala

UNIVERSITY OF CALIFORNIA @ RIVERSIDE

I'm postdoc from UC Riverside working on the Phenix experiment at RHIC. I did my PhD on NA49 experiment at CERN, earning my PhD from Charles University in Prague. As ASAP's president during this year, together with Nathalie, Boaz, and Mimi, we managed to keep the ASAP social function up to the standards set by the previous board. We have a new web forum, and improved budget to reflect higher attendance on Thursday evening gatherings. I am running for the ASAP board again to help ensure we do as well or better in 2009.
