

## Bob Brown

The extended Brown family wants to notify everyone that Bob passed away on September 26, 2020 at age 94. The son of Millard Joseph Brown and Teresa Kathleen Donovan, he was born and raised in Gardner, MA, but lived the latter 70 years of his life in the Hamlet of Brookhaven, Long Island, NY.

As a WWII member of the Amphibian Forces, he served in the South Pacific and participated in the invasion of Okinawa and Japan. Upon discharge he joined the staff at the Brookhaven National Laboratory and for almost 45 years did research in the atmospheric sciences.

He was married to Gloria Helen Duryea and had two sons, Steven (Donna Scalia) and Peter (Jean Fallon). Bob served many years as a Boy Scout Leader, and was proud of his two Eagle Scout sons. He is survived by five grandchildren and nine great-grandchildren who were his pride and joy.

Bob was active as an avid softball player, fisherman and golfer and still found time to volunteer his time as a Jitney driver at Brookhaven Memorial Hospital Medical Center. A private graveside memorial was held for immediate family. Donations to the Brookhaven Free Library or the South Country Ambulance would be most meaningful and appreciated.
