

As of August 2008

We are now supporting 80 Soldiers deployed from Ky to Afghanistan until June, 2009. This group of Soldiers provide aid to the wounded; many times wounded Troops have to remain on their litters while awaiting an Air Ambulance to transport them to the hospital and if the weather has turned stormy, the Choppers can't get in. They would appreciate items to help these wounded pass the time as they wait to be airlifted out. They are at a remote location where they have limited running water, 110 v. power and microwaves.

There is no PX (store) nearby so they would appreciate whatever you can send: **any quick microwavable foods and snacks (considering the chow hall isn't always open when they can eat), beef jerky, gum, peanuts, protein bars, powdered drink mix singles to add to bottled water, hand sanitizer wipes, good razors, vitamins, foot care products, medicated body/foot powders, skin lotions, current magazines of outdoor and fitness, All Occasion cards, stationery to mail home and support for the holidays should be sent by November 15 if possible as they may get snowed in. They would also appreciate pillows and warm blankets, black knitted caps and handwarmers...they're in Afghanistan and need supplies for the cold winter ahead. For their down time they would appreciate board games/card games, horseshoes, and footballs, CD Music, DVD movies, handheld games.**
