## McKAYLE DANCERS

The theatre group joins with the concert group in sponsoring a modern dance program this Tuesday, November 24, at 8:30 PM in the theatre. The company, led by Donald McKayle, includes nine dancers and four musicians. They will present three major works: Mr. McKayle's ballet "Games", "Nocturne", and an entirely new work, "The Street", which will be seen by an audience for the first time here in our theatre.

This is going to be a highly interesting and original program, both musically and theatrically. The dance company includes a set designer and will bring along the scenery and props for a full scale production. A number of theatre group members will assist technically in the lighting and staging of the show. It's going to be the major event of the fall season here on the Lab site, so don't miss it. Tickets will be on sale in all departments for those who do not hold season concert tickets.
