MEDICAL ASPECTS OF SPACE TRAVEL

All employees are invited to attend a talk entitled, "Medical Aspects of Space Travel". This talk will be presented by Dr. Abraham Edelmann of BNL's Biology Department, Wednesday, November 17th, 7:30 p.m. in the Research Staff Lounge.

This is but one of the programs of Naval Reserve Research Company 3-9. Whenever possible the informal bi-monthly meetings are opened to all BNL employees. The company has made many friends who find the programs of interest and who take part in the discussion sessions following the talks.

Reservists of all the Armed Forces are invited to meet with 3-9 to keep their reserve status up-to-date with a minimum of red tape. For details call Al Weinstein, Ext. 610 or 330.
