VOL. 6 - NO. 49

JULY 26, 1954

## "LOUISIANA STORY"

July 26 at 8:30  
Lecture Hall

This was the last documentary film Robert Flaherty made, and really his finest. As in all Flaherty movies, the story was derived from the locale; it only developed as he turned his cameras on the area.

"Louisiana Story" tells about the bayou country and the effect of an oil company moving its derricks in. It is beautifully photographed, played against a musical background by Virgil Thompson.

### LAB WIVES ATTENTION

Attention, Lab Wives, regular or Summer...Are you interested in the making of a scientist? The Lab Wives' book group will use Anne Roe's book, "The Making of a Scientist", as a basis for discussion at the next regular monthly meeting on Thursday, July 29, at 8:15 p.m., at the home of Norval Dwyer in Wading River. All are welcome. The reading of this particular book is not a prerequisite. For further information, call Edith Pilcher, Ext. 525 or Barbara Swartz, Shoreham 4-2309.
