## SWIMMING INSTRUCTION

APPLICATION: Swimming Classes    Date .....

Name    Son/Daughter    Age\*    Classification

1. ....
2. ....
3. ....
4. ....
5. ....

\*If under eight years old, state height.

I wish to register the above children in the Swimming Classes. I understand that he or she is not permitted to leave the SWIMMING POOL AREA. I agree that he or she may be denied participation in the program for failure to observe the rules.

.....  
(Employee's Signature)

..... (Life No.)                      (Extension)

Forward this application with registration fee to the Recreation Office, 3 Center Street, on or before July 1.

**REGISTRATION DEADLINE - JUNE 30**

Starting the week of July 6 swimming classes for all Laboratory employees' children will be conducted afternoons under the direction of two B.E.R.A. instructors (Gene Collins and Beverly Wellings) with the assistance of our two B.E.R.A. lifeguards (Everett Ramsey and George Petropolus). The pool will be open during the scheduled class periods to ONLY the children who are registered for instruction. Please register early! A program will be arranged based on the returned applications. The BULLETIN BOARD will announce the time and schedule of classes.

**IMPORTANT:** If there are days your child can NOT attend classes, indicate this on application. No registration fees will be refunded.

**SWIMMING CLASSES:** 1:00 - 2:30 p.m.

1. These classes are for all Laboratory employees' children.
2. Children must be eight years of age or four feet in height.
3. Each child will be scheduled for a specific period, probably once a week depending on response.
4. A fee of \$2.00 must accompany application. (Make checks payable to B.E.R.A.)
5. Children will report at the Swimming Pool not earlier than 12:50 p.m.

## NEW NUCLEAR ENGINEERING BUILDING STARTED AT BNL

Ground was broken Friday, June 12, 1959 for the new Nuclear Engineering Building in an area Northeast of the Hot Lab. The ceremonies were initiated by talks by Dr. Leland J. Haworth, Director, and Mr. Emory L. Van Horn, Atomic Energy Commission Area Manager. The ground-breaking was performed by Dr. Clarke Williams, who has been Chairman of the Nuclear Engineering Department since 1952.

The first phase in the construction of this building, recently authorized by the USAEC, will provide an area of about 38,000 square feet. It will house some of Brookhaven's research activities in the fields of Nuclear engineering, specifically work in chemistry and chemical engineering. A second phase, proposed for a later date, which would accommodate the Nuclear Engineering Department's Reactor Physics and Mechanical Engineering Divisions, and Administration, is still under consideration. When ready for occupancy, the new building will bring some of the Department's many activities together, where research can be conducted in specially designed laboratories.

6. Classes will end at 2:30 p.m. Off-site children must remain in the pool area until picked up by parents. On-site children must remain in the pool or proceed directly to apartment area.

7. Children will pay daily admission fee (.35) or present season ticket to enter swimming pool.

8. To the best of your knowledge, select and write in on application the group your child qualifies for: **BEGINNER**, Non-swimmer or NOT able to swim 40 feet. **INTERMEDIATE**, Can swim at least 40 feet. **SWIMMER**, Can swim 100 yards.

**COMING - COMING - COMING**

### OPERATION GET-TOGETHER No. 2

**COMING - COMING - COMING**

## SWIMMING POOL

The pool does not open for general admissions until 2:30 p.m. daily. Parents bringing children to the Laboratory to swim are requested not to do so before 2:15 p.m. Children will be required to remain in the pool area until picked up by parents.

## SUMMER POOL SCHEDULE

Beginning **MONDAY, JUNE 15** the Summer Schedule of rates and hours will be in effect.

**Pool Open Monday Through Friday  
2:30 P.M. TO 9:30 P.M.**

### DAILY ADMISSION RATES

Employee.....	.35
Family Member.....	.35
Guest.....	.60

## PLANS GET UNDERWAY FOR OPERATION GET-TOGETHER No.2

### TENTATIVE DATE - AUGUST 15

The Laboratory Administration, and the new B.E.R.A. Board approve a repeat performance of that wonderful occasion last July when about 1500 grown-ups joined, or observed, about 1500 youngsters having the time of their lives in the recreation area, taking part in contests, games, eating, riding, watching cartoons, drinking Coca Cola, eating, running under a sprinkler, dancing, eating, playing, and mingling in an atmosphere of the friendliest possible "gemütlichkeit". The grown-ups were mellowed by childish laughter, music, beer, and places to sit.

It is realized by everyone who attended last year, that an affair of this magnitude requires much PLANNING and much DEPENDABLE manpower. This repeat performance can outdo, in pleasure, the marvelous affair of last July ONLY IF a sufficient number of volunteers will stand up to be counted. The ideal arrangement would be to have enough volunteers for each job so that NO ONE individual need give more than ONE HOUR to discharging his or her duties.

First Step: Planning - It is expected that a planning committee will be called in the near future to be composed of from one to four representatives from each department. These should be people who are really enthusiastic about this family affair, and who WANT to bring ideas, suggestions and/or constructive criticisms to the first meeting. If you are one such, don't hide your light under a bushel. Let your supervisor or group leader know that you would like to attend the first planning meeting. Before this takes place, discuss it with other members of your department or group. Find out how the majority of your people would feel about the best method of dividing up the work - would the individuals each prefer to volunteer for different types of jobs as individuals, or would they prefer that their group or department take over "in toto" full responsibility for one category of work. Example: Last year the major part of buying and serving up the food supplies, and management of the operations was done by volunteers from Metallurgy. Individuals from other departments volunteered to take over one-hour stints, in the operation of beer stations, hamburger stations, ice cream stations, etc., but it was Jerry Sadofsky and his Metallurgy cohorts who planned it, estimated needs,

ordered supplies, saw that they were delivered on time and who supervised the "volunteers".

It is to be hoped that the representatives who attend the planning session will all be of the "volunteer type" - who genuinely WANT to come and help. Again, if YOU want to be in on it, call George Sabine on Ext. 391 and let him know. Also check with your supervisor about his willingness to have you attend the planning meeting. Each department will be expected to send from 1 to 4 people, the larger departments, of course, will send the larger groups.

The general categories into which the work will fall will approximate these:  
PROGRAM - Oversee the schedule, announcements.

FACILITIES - (Booths, stoves, storage, fuel, refrigerators, chairs, benches, bandstand. Special marking and roping off areas as required by other committees). Signs, sound equipment, light, bandstands, observation tower, etc.

GAMES AND CONTESTS - Game leaders, starters, helpers, judges, prizes, etc. The BNL Rifle and Gun Club is considering an event for this category.

ENTERTAINMENT - Kiddie rides, ponies, cartoons, bands, canned music, and all the NEW things that you can suggest in this field. Some theatre group members are considering a 20 minute skit.

REFRESHMENTS - Beer, soft drinks, ice cream.

FOOD - Supplies, physical setup, and manpower.

The Planning Committee will elect an Executive Committee. The Executive Committee will appoint Working Committees, the Working Committees will submit their manpower or womanpower needs. Together with a schedule for each post, THEN, volunteers will be sought to fill the posts, and VOILLA! the big day will be here, and the fun will commence!

Have you ever seen hundreds of kids satiated with pleasure and food? It's worth a lot of work to witness it!

**THIS IS THE KICK-OFF - LET'S GO!**

### CRACK - SNAP - POP

ATTENTION - all hunters of big game!! There will be a wild animal hunt, Wednesday, June 24 at 5:15 p.m. Sharp shoot lions, tigers, elephants, etc.

PLACE - BNL range on site. You may use 22 rifles and all caliber pistols. Entry fee .05¢.

PRIZES - Ammunition to high men with rifle and pistol.

Watch for announcement of the "Big Turkey Shoot" coming soon.

## PROPERTY MANAGEMENT

Property Management is maintaining records on 23,000 items of capital equipment with a total value of \$8,000,000.00. Perhaps the item you are looking for is available in another department. Telephone extension 347, we will be glad to help you. —F.W. WALSH

## GYMNASIUM

The gym will be open for miscellaneous evening activities beginning June 23 and will continue on the following schedule until the end of August:

EVENINGS - MONDAY THRU THURSDAY - until 9:00 p.m. Equipment is available for badminton, basketball, volleyball, table tennis, exercising, etc., etc. . . .

## ATHLETIC PLAY SESSION

A summer program for ON-SITE residents children will start on Monday, July 6 at the Recreation Building on York Lane in the apartment area.

The morning session will be well supervised by two instructors and will provide a well balanced, varied program which will include both instruction and play (group and individual games, athletic skills, volleyball, badminton, table tennis, croquet, tether-ball, etc., etc. . . .). Registration applications will be sent directly to each apartment resident. Children will be expected to wear gym sneakers and play clothes.
