Bacon Preserved By Gamma Rays For Army Test

Nuclear Engineering's High Intensity Radiation Development Laboratory has just about completed the irradiation of 11 tons of Army bacon as part of the first large-scale field test of perishable food preserved by gamma radiation.

The bacon, packed in one-pound sealed cans, arrived in a refrigeration van Monday from the John P. Morrell & Sons packing plant in Iowa.

A second batch of about four tons is scheduled to arrive for treatment on July 7. It is coming from the George A. Hormel plant in Minnesota.

Gamma sterilized bacon, which can be stored indefinitely without refrigeration, has been served to many persons in small-scale tests with satisfactory results since the Army got Food and Drug Administration approval in 1963.

The gamma radiation, produced by about 850,000 curies of radioactive cobalt-60, penetrates the metal containers and sterilizes the bacon by destroying the bacteria and other microorganisms that are present. Once it is sterilized, the sealed cans protect it from further bacterial contamination. Gamma rays, like x-rays, are a form of energetic electromagnetic waves, and do not induce radioactivity in anything exposed to them.

HIRDL is the only existing facility where such irradiation can be carried out under the stringent specifications of temperature, uniformity of exposure, retention time in the radiation field, and other necessary criteria. HIRDL has been processing the bacon at the rate of 250 pounds per hour.

Cafeteria, Center Holiday Schedule

The Brookhaven Center will be closed on Saturday, Sunday, Monday, and Tuesday; July 2 through 5.

At the Cafeteria, only the Snack Bar will be open on each of these days. Snack Bar hours are from 9 a.m. to 5 p.m. The food vending machines there will be in operation throughout the holidays.

Cost Reduction Committee Seeking Recent Economies

It's cost reduction reporting time again! A couple of the more imaginative cost reduction items offered in the past were:

It was suggested that a less attractive receptionist be hired to reduce the "lollygagging" of research personnel in the vicinity of the receptionist's desk.

One enterprising secretary reported that she saved money for her division by periodically pilfering supplies from another division's stock room.

While both of these items reflect the spirit of cost reduction and while

they are both creative and interesting ideas, they are not quite what BNL is after.

The Cost Reduction Committee would undoubtedly welcome more of

AUI Moves Headquarters From NYC to Washington

Associated Universities, Inc. has moved its offices from New York City to 1717 Massachusetts Avenue, N.W., Washington, D.C. 20036

Lloyd E. Slater has joined the organization as assistant to T. Keith Glennan, President.

this type of savings. However, they would also appreciate hearing about the efficiencies, improvements, substitutions, and economies made in your day-to-day operations.

Send your contributions to your supervisor, who will be happy to forward them to a cost-reduction representative.

The Bulletin Board will publish a skeleton issue on July 7 with classified ads and announcements only. All deadlines remain the same.

Naval Reserve Commissions Offered

U.S. citizens, in good health, between the ages of 19 and 33, may obtain a commission under the Direct Appointment Program. They must hold a baccalaureate degree and must be in one of the following draft classifications: I-C, I-D (some), III-A, IV-A or V-A.

Further information is available from the Commanding Officer of the local Naval Reserve Research Unit on BNL Ext. 590 or 591.

Movie Tonight

Tonight, June 30, at 8:30 p.m. BERA Film Series presents - the hilarious "Hallelujah the Hills" plus short "The Golden Fish."

Reservists To Hear Talk On Animal Disease Program

Dr. Rodes Trautman of Plum Island will speak to the local Naval Reserve Research Unit on "The Experimental Program at Plum Island Animal Disease Laboratory" on July 13, 1966 at 7:30 p.m. at the Instrumentation Building 535.

Tennis Tournament Registration Open, Play Begins July 11

The 1966 BNL Tennis Tournament is scheduled to get under way in early July. Entries are being accepted for Men's and Ladies' Singles, Men's Doubles and Mixed Doubles.

Simple elimination (one loss and out) will be held in each event, provided there are enough entries. Participants will play one match each week, with the date, time and courts to be mutually agreed upon by the opponents.

Tournament play will begin the week of July 11.

The deadline for entries is July 7. A fee of fifty cents per person for each event entered must accompany the registration.

Register at the Recreation Office in the Gym.

Undeliverable Mail

The BNL Mail Room (Bldg 179, Ext. 565) is holding mail for the following:

- Dr. I. Clark
- John C. Heuern
- Derek Mosedale
- Philpiss
- Louise Salvio

Unclaimed mail will be returned to the sender after one week.

- Harold R. Gardner....Supp. & Mat.

Swimming Classes For Children Set, Will Run 7 Weeks

Beginning July 6th, the Children's Summer Swimming Program will be in full swing. The program, handled by four swimming instructors, will run for seven weeks with each classification scheduled for one lesson a week.

Children should bring bathing suits, towels, and 35-cents for admission. Girls are required to wear bathing caps. Children should not bring watches, rings, or other valuables with them.

It is suggested that a light lunch be eaten no later than noon and that children arrive at the pool no earlier than 12:50 p.m. Lessons will begin at 1 p.m. and the children will be dismissed at 2:30 p.m. Off-site children must remain in the pool area until retrieved by parents. On-site children may leave only to go directly to their apartments.

Common Poisonous Plants

HOUSE PLANTS		
Plant	Toxic Part	Symptoms
Hyacinth, Narcissus, Daffodil	Bulbs	Nausea, vomiting, diarrhea. May be fatal.
Oleander	Leaves, Branches	Extremely poisonous. Affects the heart, produces severe digestive upset and has caused death.
Poinsettia	Leaves	Fatal. One leaf can kill a child.
Dieffenbachia (Dumb cane) Elephant ear	All parts	Intense burning and irritation of the mouth and tongue. Death can occur if base of the tongue swells enough to block the air passage of the throat.
Rosary pea, Castor bean	Seeds	Fatal. A single rosary pea seed has caused death. One or two castor bean seeds are near the lethal dose for adults.
Mistletoe	Berries	Fatal. Both children and adults have died from eating the berries.
FLOWER GARDEN PLANTS		
Larkspur	Young plant, Seeds	Digestive upset, nervous excitement, depression. May be fatal.
Monkshood	Fleshy roots	Digestive upset and nervous excitement.
Autumn crocus, Star-of-Bethlehem	Bulbs	Vomiting and nervous excitement.
Lily-of-the-valley	Leaves, Flowers	Irregular heart beat and pulse, usually accompanied by digestive upset and mental confusion.
Iris	Underground stems	Severe, but not usually serious, digestive upset.
Foxglove	Leaves	One of the sources of the drug digitalis, used to stimulate the heart. In large amounts, the active principles cause dangerously irregular heartbeat and pulse, usually digestive upset and mental confusion. May be fatal.
Bleeding heart (Dutchman's breeches)	Foliage, Roots	May be poisonous in large amounts. Has proved fatal to cattle.
VEGETABLE GARDEN PLANTS		
Rhubarb	Leaf blade	Fatal. Large amounts of raw or cooked leaves can cause convulsions, coma, followed rapidly by death.
ORNAMENTAL PLANTS		
Daphne	Berries	Fatal. A few berries can kill a child.
Wisteria	Seeds, Pods	Mild to severe digestive upset. Many children are poisoned by this plant.
Golden chain	Bean-like capsules in which the seeds are suspended	Severe poisoning. Excitement, staggering, convulsions and coma. May be fatal.

Plant	Toxic Part	Symptoms
Laurels, Rhododendron, Azaleas	All parts	Fatal. Produces nausea and vomiting, depression, difficult breathing, prostration and coma.
Jessamine	Berries	Fatal. Digestive disturbance and nervous symptoms.
Lantana camara (red sage)	Green berries	Fatal. Affects lungs, kidneys, heart and nervous system. Grows in the southern U.S. and in moderate climates.
Yew	Berries, Foliage	Fatal. Foliage more toxic than berries. Death is usually sudden without warning symptoms.
TREES AND SHRUBS		
Wild and cultivated cherries	Twigs, Foliage	Fatal. Contains a compound that releases cyanide when eaten. Gasping, excitement, and prostration are common symptoms that often appear within minutes.
Oaks	Foliage, Acorns	Affects kidneys gradually. Symptoms appear only after several days or weeks. Takes a large amount for poisoning. Children should not be allowed to chew on acorns.
Elderberry	All parts, especially roots	Children have been poisoned by using pieces of the pithy stems for blowguns. Nausea and digestive upset.
Black locust	Bark, sprouts, foliage	Children have suffered nausea, weakness and depression after chewing the bark and seeds.
PLANTS IN WOODED AREAS		
Jack-in-the-pulpit	All parts, especially roots	Like dumb cane, contains small needle-like crystals of calcium oxalate that cause intense irritation and burning of the mouth and tongue.
Moonseed	Berries	Blue, purple color, resembling wild grapes. Contains a single seed. (True wild grapes contain several small seeds.) May be fatal.
Mayapple	Apple, foliage, roots	Contains at least 16 active toxic principles, primarily in the roots. Children often eat the apple with no ill effects, but several apples may cause diarrhea.
PLANTS IN SWAMP OR MOIST AREAS		
Water hemlock	All parts	Fatal. Violent and painful convulsions. A number of people have died from hemlock.
PLANTS IN FIELDS		
Buttercups	All parts	Irritant juices may severely injure the digestive system.
Nightshade	All parts, especially the unripe berry	Fatal. Intense digestive disturbances and nervous symptoms.
Poison hemlock	All parts	Fatal. Resembles a large wild carrot. Used in ancient Greece to kill condemned prisoners.
Jimson weed (thorn apple)	All parts	Abnormal thirst, distorted sight, delirium, incoherence and coma. Common cause of poisoning. Has proved fatal.

Pool Open

Week Days, 2:30 p.m. - 9:30 p.m.

The pool does not open for general admission until 2:30 p.m. daily. Parents bringing children to the Laboratory to swim are requested **not** to do so before 2:15 p.m.

**Casting Contest
July 19, Spinning
Reel Top Prize**

The BERA fishing committee has planned a special tournament to be held at the ball fields on Brookhaven Avenue, Tuesday, July 19, at 6 p.m. The competition has been separated into five divisions so that all family members can come out and cheer their favorite, and participate if they choose.

The Spinning Reel, which is the main prize, will be presented to the contestant with the longest cast. Winners and runner-ups in each division will receive "Tackle Awards" (lures, line, etc.).

An entry fee of 50¢ per entrant, per division must accompany the application. The deadline for entries is Friday, July 15, at 3 p.m. A minimum of 10 entrants must be received in each division or that event will be cancelled.

Three ounce sinkers will be provided; no maximum rod lengths; 12 lb. minimum line in the spinning events; 27 lb. minimum line in the conventional events. For youngsters 11 and under, any tackle goes.

The divisions are:

- A. Men
Spinning
- B. Men
Conventional
- C. Ladies
Spinning or conventional
- D. Junior
Boys and girls 12-16 years
- E. Junior
Boys and girls 11 and under

Select your division from above, fill out the entry blank and submit it to the Recreation Office, 3 Center Street. Decisions of the Tournament Committee will be final. For additional information contact the Chairman, John McCafferty, Ext. 2319.

BERA Film Series

Thursday, July 7, at 8:30 p.m.
Lecture Hall

**The Secret Life
Of Walter Mitty**

Danny Kaye, in one of his funniest roles, recreates the timid, henpecked suburbanite of James Thurber's classic short story. Our hero enlivens his drab world by dreaming of himself in many dramatic situations: as a dauntless sea captain, a world-renowned surgeon, a daring fashion designer, a steely-eyed riverboat gambler. Suddenly, he finds himself hurled into a real-life adventure beyond his wildest imaginings, and after a series of hair-raising episodes he finds himself the kind of hero he had always longed to be.

Short: That's Me

A delightful comedy, with satirical overtones, about a young Puerto

**Rifle Team Retains Long Island Title,
14 and 1 Record Beats Grumman, IBM**

THE VICTORS - The championship BNL Rifle Team from left to right - Peter Fallon, Nuclear Engineering; Alfred Lukas, Central Shops; Peter Colombo, Captain, Nuclear Engineering;

George Barton, Personnel; John Jacobs, Instrumentation and Health Physics; Edward J. Hart, Physics; Roy Domish and Anthony Finocchio, Nuclear Engineering. Photo by Bob Walton

The BNL Rifle team, overcoming rugged competition on and off the firing line, has won the National Rifle Association sponsored, Long Island Industrial League Championship for the second year in succession.

The Club made a clean sweep of the shoulder to shoulder and the handicap league titles.

Victories over Sperry and Grumman in the last week of the competition gave the BNL group a win-loss record for the season of 14 and 1. The two-season total now stands at 28 wins and two losses.

In second place was the Grumman team with a record of ten wins and five losses. IBM was relegated to the third spot after a tie-breaking shoot-off with Grumman.

Excellent marksmanship by Roy Domish won him the league title for the individual high average of 186.5 out of a possible 200.

The Rifle Club has been awarded a total of 34 NRA and L.I. Industrial League trophies for their team and individual accomplishments.

Not resting on their laurels, the sharpshooters decided to test their

skills by participating in the National Industrial Recreation Association shooting sponsored by the NRA. As a result, the team won first place in the ten state regional competition.

Of the 62 teams entered by various industrial organizations throughout the country, BNL ranked seventh. In the individual shooting, A. Finocchio and R. Domish placed second and third in the regional competition.

Classified Ad Policy:

The use of the classified section of *The Bulletin Board* is a privilege accorded to individuals employed at the Laboratory, to retired employees, and, in some cases, to the families of recently deceased employees. The following rules apply to all three classes of users (hereafter referred to as employees).

1. All items for sale or rent must be the property of an employee.

2. No want ads will be accepted for property associated with a full or part-time business. This includes merchandise, automobiles, real estate, etc., acquired for purposes of resale.
