## Buyer's Son Cited For Combat Heroism

Corporal Richard A. Haeg, son of Joe Haeg, a buyer in Purchasing, was awarded the Bronze Star Medal with V for valor, by Lt. Gen Krulak of the Third Marine Division. Haeg's citation reads as follows:

"For heroic achievement in connection with operations against the enemy in the Republic of Vietnam while serving as a Grenadier with Company A, First Amphibian Tractor Battalion, Third Marine Division. On July 14, 1967, during Operation Hickory II, Corporal HAEG's squad was temporarily pinned down by intense enemy automatic weapons fire while conducting a search and clear mission south of Hill 31. In the initial moments of the fire fight, his unit sustained several casualties.

Realizing the seriousness of the situation, Corporal HAEG unhesitatingly exposed himself to the heavy volume of fire and delivered effective M-79 grenade fire against the enemy positions to cover the evacuation of one of the casualties. Then, continuing to disregard his own safety, he repeatedly maneuvered across the fire-swept terrain to assist other wounded Marines to positions of relative safety and supervise their evacuation. His heroic and timely actions in the face of extreme personal danger were an inspiration to all who observed him and saved the lives of several Marines. Corporal HAEG's courage, bold initiative and selfless devotion to duty were in keeping with the highest traditions of the Marine Corps and of the United States Naval Service."

Corporal Haeg joined the Marine Corps after graduation from Mattituck High School 18 months ago. After completing basic training, Haeg was sent to Viet Nam and earned his award near Con Thien in the DMZ. Joe Haeg and his wife Christine, live in Mattituck with two other children, a son Dennis, 17 and a daughter Mary Jo, 12.

## Lab Firemen Complete Emergency Aid Course

Chief Thomas A. Newham, Captain Frederick J. Strier, and Fireman Edward F. Yost, all of the BNL Fire Department, have received the graduate certificate of the Committee on Injuries of the American Academy of Orthopaedic Surgeons for completing the "Advanced Practical Course on Emergency Care of the Sick and Injured," sponsored by the Committee, October 26, at Columbia University, College of Physicians and Surgeons, New York City.

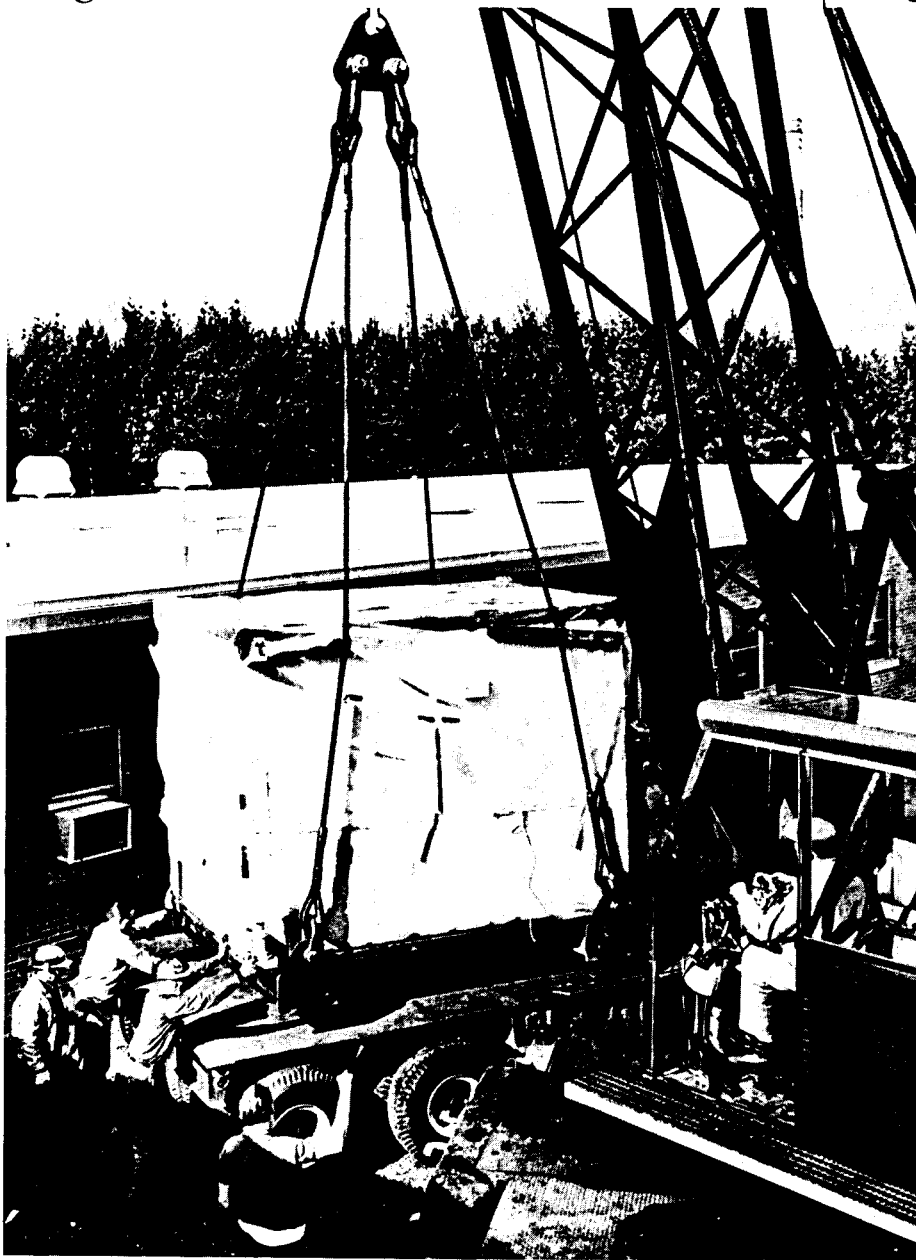

Award of the diplomas was made by Dr. Walter A. Hoyt, Jr., Akron, Ohio, Committee Chairman, at the conclusion of the three-day course of lectures and demonstrations held in cooperation with the New York City Police Department and attended by 300 registrants from New York City and 125 other cities in nine states and Canada.

The advanced training is given to improve the skills and knowledge of persons involved in the emergency handling of critically sick and injured persons.

Dr. Charles S. Neer II, New York orthopaedic surgeon, was chairman of the committee of physicians and police officials directing the course.

## Largest Lab Load Lifted

11-85-67 Jones

Shielded steel room being lifted by BNL's 80-ton crane in front of Medical Research Center.

## T. Nelson To Assist S & M Division Head

Organizational changes in the Supply & Materiel Division have been announced by P.L. Borzi, Manager of the Division. Effective November 1, 1967, Thomas Nelson assumed the position of Assistant Manager of the Division and is responsible for Receiving, Warehousing, S & M's AGS facility, and the Office Machine Repair Section.

Michael Guacci has been appointed as Inventory Control Officer, responsible for Stores, Inventory Control and Quality Control Sections of the Division.

Robert Hannel has been promoted to Material Handling Foreman and will continue his duties as Supervisor of the Receiving/Shipping Section.

Harvey Lotko has been promoted to the Monthly Staff as Material Handling Foreman and is responsible for the day-to-day operation of S & M's AGS facility.

Grace Fales has been appointed Property Control Supervisor and will continue her present duties relating to the Property Management function.

## Flexible Flyer Now Grounded

The 1952 model Flexible bus that has been in service at the Lab for the past 15 years has now been retired. Since its purchase it has had three new motors, and has carried thousands of visitors around the site.

The Flexible bus is now parked at the warehouse area with a group of other Lab vehicles that are being retired. At intervals the Laboratory conducts sealed-bid sales of excess vehicles, and the bus will be included in the next listing.

Replacement for the Flexible is a brand new Checker Aerobus, more commonly known as a "stretch-out." The Lab has another of these 11-passenger cars that is used for picking up groups at the airport or the train station.

## Hospitality Reminder

The Sewing Class meets every Tuesday from 10 a.m. to 12 noon in the Recreation Building. If you have any questions regarding these classes, contact Mrs. Cesar Sastre, SH4-5080.

## 50-Ton Lift Sets Record

When Jimmy Winters, rigging foreman, clamped his teeth around his cigar and waved his hand in a circle, the Lab's 80-ton crane took up the slack in the cables holding the shielded room of the Whole Body Counter. As the cables tightened, the onlookers quieted down and Ed Hunter stopped puffing on his pipe. There was an audible sigh of relief when the 50-ton load was lifted clear of the ground.

The dual front wheels of the giant crane just barely touched the earth in front of the Medical Research Center as the steel cube was lifted high enough to be loaded onto the waiting 75-ton, 16-wheel trailer. When the load was finally in place, and Winters had shifted his cigar to the other side of his mouth, a flurry of hand clapping broke out amongst the several dozen spectators.

The lifting of this record load was the culmination of a series of events that started when a new computer-controlled counter was installed in Medical at the Low Level Background Facility.

After a decision was made by the Medical Department to remove the 50-ton shielded room, the Shops Division was called in to give an estimate of the cost of cutting it up and disposing of the pieces. When all of the costs were computed, the price tag came to approximately twenty thousand dollars.

Bob Lehn of Shops, Al Finn of Medical, and Ed Hunter of Plant Engineering and Planning put their heads together, and decided as an alternate plan to lift the room through a hole in the roof, and remove it in one piece. This new plan would only cost about fifteen thousand dollars and have the added advantage of less disruption to the rest of the Medical Research Center.

After removal, the chamber would then be available for further use, and the initial investment of \$35,000 for building it would not be lost. It was decided to place it in the "cow barn" to be used for whole-body counting of large animals.

After looking over the proposals for the use of the space vacated by the steel room, Al Finn noted that the removal of one wall was scheduled, and that the move of the steel room could be made without opening the roof if the chamber was slid out through an outside wall of the building. When costs were re-figured for the new proposal, it was found that with all the necessary building work and the purchase of new slings and jacks, the steel room could be removed from the building and placed in the Large Animal Facility for an expenditure of approximately seven thousand dollars, or a savings of thirteen thousand dollars over the original estimate.

According to Dr. Lewis Schiffer, the shielded room will be used in the Large Animal Facility for absorption and retention studies of pancreatic and renal functions. Others working on the bio-medical project under the direction of Dr. Eugene Cronkite are: Drs. A. Chanana and D. Joel of Medical and Dr. L. Greene of Biology.

## 70th B'haven Lecture Is On Organic Liquids

Radiation and Organic Liquids will be the subject of the 70th Brookhaven Lecture to be presented Wednesday, November 15, by Dr. Donald Metz of the Nuclear Engineering Department.

Dr. Metz will attempt to delineate some of the problems peculiar to radiation induced chemical reactions in organic systems, with an emphasis on several experimental approaches to the problem. After a brief introduction to the question "What is an organic compound?", he will attempt to answer two interdependent questions: first, What are the reactive species produced by radiation in organic liquids; and second, Is there any correlation between the molecular structure of the starting irradiated liquid and the products that are formed?

Donald J. Metz was born in Brooklyn on May 18, 1924. His undergraduate education started in 1941, was interrupted for three years spent in the Infantry in Europe, and was completed in 1947 when he received a B.S. in Chemistry from St. Francis College, Brooklyn. Metz did his graduate work at the Polytechnic Institute of Brooklyn in Polymer Research Institute and was granted an M.S. in Chemistry in 1949, and a Ph.D. in Physical Chemistry in 1955.

In 1954 he joined the staff of BNL in the Nuclear Engineering Department, and was recently appointed Supervisor of Radiation Research in the Radiation Division. His research effort at Brookhaven has centered mainly on radiation induced chemical reactions in organic systems, specifically in the area of graft copolymerization and polymerization of ultra-pure vinyl compounds. Since 1947 he has been a part-time member of the faculty of St. Francis College, where he is presently a Professor of Chemistry and Physics.

A buffet supper will be served at the Brookhaven Center before the lecture from 6 to 8 p.m. Refreshments will be available in the Exhibit Hall after the lecture.

### Your Last Chance . . .

The Educational Testing Service in Princeton, New Jersey, will not accept AUI Trustee Scholarship applications after November 15. This means there is just one more week for high school seniors whose parents are employed at BNL to file.

Last year there were a number of requests after the deadline date, and a number of disappointed seniors. If you have an eligible high school senior who has not filed an application, contact the Office of Scientific Personnel, 40 Brookhaven Avenue, today. If you put it off until tomorrow, you may be too late.

Do yourself, as well as others, a favor and sign your United Fund pledge cards and return them to Personnel, 58 Brookhaven Avenue, by Friday, November 10.

## Here and There

Dolores del Castillo

**A. vanSteenbergen** (AGS) has requested leave of absence beginning November 15, 1967, so that he can join in the design effort on the 200 BeV synchrotron at the National Accelerator Laboratory. During his absence **Julius Spiro** will be Acting Division Head of the AGS Operations Division.

**C.H.W. Hirs** (Biology) will address the Biochemical Discussion Group of the New York Section of the American Chemical Society at the Chemists Club in New York on November 10. The subject of his talk will be "Structure and the reactivity of amino acid side chains in ribonuclease."

**Ira H. Ames** (Biology) will attend the meeting of the American Society for Cell Biology to be held in Denver, Colorado, November 13-15.

**E. Walter Anderson** (Physics) will address the High Energy Conference of the Canadian Association of Physicists to be held at the Carleton University, Ottawa, November 10 and 11.

**S. J. Lindenbaum** (Physics) will present a paper at the High Energy Physics Conference being held in Ottawa this week.

**Garman Harbottle** (Chemistry) returned November 1 from a two-year leave of absence spent in Vienna as Director of Research and Laboratories of the International Atomic Energy Agency.

**John W. Baum** (Health Physics) will present a paper entitled "Radial Distribution of Dose Along Heavy Ion Tracks, LET" at the Symposium on Microdosimetry to be held at Ispra, November 13-15. He will also visit Hammersmith Hospital and Harwell, England, and CERN, Switzerland, to discuss dosimetry problems.

**John H. Cusack** (NED) has been invited to present a paper at the 8th Japanese Conference on Radio Isotopes to be held in Tokyo, November 13-15. He will also accompany E.E. Fowler, of the AEC Division of Isotope Development, on visits to India and Pakistan relative to loan of food irradiators.

**Meyer Steinberg** (NED) will lecture at Savannah River on nuclear and radiation chemical processing, November 13.

**George Adler** (NED) has been invited to visit the Middle East Technical University in Ankara to write a review paper on solid state polymerization jointly with Professor B. Baysal, Chairman of the University's Chemistry Department and an Atomic Energy Commissioner. He will leave November 12.

**R.C. Anderson** (Office of Scientific Personnel) will address the New Jersey Education Association Convention to be held in Atlantic City, November 9-11.

**Daniel M. Schaeffer** (Patent Office) will address the Sayville Rotary Club and show its members the "Brookhaven Spectrum" on November 9.

**Victor Bell** and **Barnard Devin** of Sackville will visit at the Laboratory on November 13.

**J.J. Fedelem** and **E. J. Tuthill** (NED) will visit Battelle Northwest Laboratories in Richland, Washington, Nov. 13-18, to observe the operation of a phosphate glass waste demonstration prototype.

BNL was well represented at the ANS Winter Meeting held last week in Chicago. Among the many attendees, **R.E. Chrien** (Physics), **Bal Raj Sehgal**, **Hiroshi Takahashi**, **F.L. Horn**, **F. J. Salzano**, **S. Aronson**, **A.W. Castleman**, **I.N. Tang**, **D. Huzsagh**, **L.E. Kukacka**, **M. Steinberg**, **M.M. Levine** and **J. Chernick**, (all of NED) presented papers at the Meeting.

## Power Outage Causes Some Inconvenience

The entire Laboratory was without power for a few seconds on Friday afternoon, November 3, when a short circuit occurred on LILCO's 69,000-volt power line on Long Island Avenue in Medford. Automatic equipment in BNL's main substation responded immediately to restore power by switching from the faulted line to the standby 69,000-volt line. However, the short outage was sufficient to force shutdown of the reactors, accelerators, computers and other major equipment.

BNL's power supply comes from two high-voltage feeders that enter the property on widely separated power lines. Either line can carry the full load of BNL's electric power requirements. If power fails on the line which is in use, the other line is automatically switched into service. Switching can also be initiated remotely from LILCO's operating center at Hicksville.

Plans are now being formulated by Plant Engineering and Planning to improve the reliability of the power supply in coming years as the electric load grows. A large increase in power demand will occur when the AGS conversion project is completed. It is expected that at that time we will have a direct 138,000-volt line from LILCO's new nuclear plant at Shoreham. This will be a looped feeder with the possibility of power flow from either of two directions. Although this line will not be in service until 1973, it can be seen now under construction along Route 25A on the North Shore.

## Radar Cookery At Cafeteria

The East Room of the Cafeteria now has a radar cooking unit for fast heating of canned and prepared food. The unit, which is operated on a self-service basis, can heat the average portion of food in about 10 seconds.

Hot dogs, hamburgers, stew, goulash or ravioli are available for coins in the slot of a refrigerated case. The food is unwrapped and placed in the radar oven until a buzzer sounds. When food is removed after about 10 seconds, it is piping hot and ready to eat. Bowls, forks, spoons, and straws, as well as mustard and ketchup are available on the serving counter which is equipped with a can opener for the stew and the goulash.

A new coffee dispenser that brews only one cup of real coffee at a time has been installed. No matter what the hour, for ten cents you can get your coffee fresh - light, dark, black, sweet or not.

In conjunction with the new vending services, beginning next Monday, a new schedule for service at the cafeteria will be put in effect. On weekdays, food will be served from 7:30 a.m. until 6:30 p.m. and on Saturdays, Sundays and Holidays, the food serving counters will be opened for limited short order service.

For three periods during the day, the cafeteria will be closed while tables are cleared and food is prepared for the next serving. The new schedule appears below:

### Monday - Friday

7:30 a.m. - 9:30 a.m. Breakfast  
9:30 a.m. - 10:00 a.m. Coffee, Snacks  
11:15 a.m. - 1:30 p.m. Lunch  
2:00 p.m. - 4:00 p.m. Coffee, Snacks  
5:00 p.m. - 6:30 p.m. Dinner

### Saturday, Sunday & Holidays

9:00 a.m. - 2:00 p.m. Brunch

## BULLETIN BOARD

Published Weekly for the Employees of  
Brookhaven National Laboratory

CARL R. THIEN, Editor  
DOLORES DEL CASTILLO, Editorial Assistant  
CLAIRE LAMBERTI, Copy Preparation

Public Relations Officer

## Letters To The Editor

Dear Sir:

My wife, Grace, and I would like to express our thanks to all our friends here at the Laboratory for their thoughtfulness during her recent illness. The many kind expressions of concern and get-well wishes did much to help us through a worrisome time.

I am happy to say that Grace is at home and taking giant steps back to good health.

F.X. Jones

Dear Sir:

I wish to tell you how very much my Mom, Dad, and I appreciate your "Visitors Day" on Oct. 28.

I am a 6th grade student at the Hubbard School in E. Berlin, Conn., and some day I hope to be a nuclear physicist.

My visit yesterday was an inspiration for my future years. Everyone was so kind and helpful - the ladies in the reception center, the guards, the technicians, the bus drivers, and all the other helpers. I especially want to thank the "Answer Man" in physics who answered my question on muons. He was a great help to me. Also a technician in the reactor building who answered a lot of my questions.

Thank you for the most important day of my life.

John Kulesza - Age 11

P.S. I am also writing a letter today to President Johnson to tell him what a wonderful place I visited yesterday.

Dear Sir:

I would just like to tell you how much I enjoyed visiting the Lab during the open house program. It was truly an exciting and worthwhile day.

After seeing these exhibits I realize how important a college education can be. Thank you again.

Kathleen Reth

Dear Editor:

The Brooklyn Tech Alumni Association would greatly appreciate your cooperation in informing your readers that all Brooklyn Tech Alumni are cordially invited to attend the first organizational meeting on Thursday, December 21 at 8 p.m., in the auditorium at Brooklyn Tech.

—Howard Novins, Secretary

Dear Sir:

I'd like to congratulate the *Bulletin Board* and BNL's printing department for the clear, sharp pictures every week. Keep up the good work.

An Avid Reader

# Born Yesterday Opens Tomorrow Night

November 10, 11, 17 & 18, 8:30 p.m.

All right, Harry, she isn't stupid.

Now food for body, later food for soul.

What's brawn against a little brains and a lot of talent?

## Tickets for Born Yesterday

Tickets for "Born Yesterday" can be purchased at the Recreation Office from 9 a.m. until 1 p.m. and at the Cafeteria from noon until 1 p.m. The Box Office at the Theatre will be open for door sales at all four performances. However, buy early in order to get the best seats.

## Mister Roberts At Bellport HS

A cargo ship in the Pacific area toward the end of World War II is the scene. Among the players are John Binnington (Research Library) as Doc, Sam La Plata (Chemistry) as Insigna, George Cox (Graphic Arts) as Stefanowski, Boris Lomonosoff (Physics) as Chief Johnson, and Ernest Sykes (Instrumentation) as Dowdy. The play is Thomas Heggen-Joshua Logan's "Mister Roberts" as produced by the Playcrafters. The scenic design is by Edward Sayre (Chemistry).

The place will be the Bellport Jr. High School Auditorium on Thursday, November 16 at 8 p.m., and Friday and Saturday, November 17 and 18 at 8:30 p.m. The price is \$2 and all seats are reserved. There will be special discount rates for groups of 25 or more.

For additional information, call Lillian Regalmuto at AT6-8507 or Boris Lomonosoff at Ext. 2488.

You look smarter than Billie, but can you...

Call M...!, tell him not to eat the tossed salad.

For something like that I don't need a drink.

Billie Dawn bootlegs the ball as she practises an end run. As usual, the Born Yesterday star is about to be pursued by men.

## BERA Film Series

Thursday, Nov. 16 - 8:00 p.m. - Lecture Hall

### The Connection

Directed by Shirley Clarke; screenplay by Jack Gelber based on his play. Starring Warren Finnerty, William Redfield, Carl Lee.

This film deals with drug addiction in a non-conventional and exceptionally frank manner. Eight addicts are gathered in a sleazy, Manhattan loft apartment waiting for their "connection" to make a heroin delivery. While waiting they play jazz and talk of themselves, their lives and experiences. The actors perform with brutal clarity; the direction of Miss Clarke is fluid and compelling; the camera work is superb. This film is a major work of American cinema and marks its entry into the world of graphic realism. *Recommended for the mature.*

Short: Captains Outrageous, a Mr. Magoo classic. —Harvard Lyman

No Movie Tonight.

## Fish Tales

by John Tagliavia

The bass blitz is in full swing as any one of 5,000 anglers will readily attest to; that is, if you can break them loose from an arched rod. Last week the Giant extended an invitation to Captain Cooch and myself to fish the fantastic numbers of breaking fish all along the North Shore. We fished from Mt. Sinai to Rocky Pt. alternately trolling and casting. Up until 3:30 p.m. the fishing was fraught with frustration that can only be appreciated by those who have cast or trolled through breaking bass for hours without a hit.

As the sun began to go down the picture changed radically. We began to take fish on anything shiny. At this point I'd like to mention that the Cooch from the beginning did not think much of my 4 lb. test rig. With each fish I landed, condescension turned to resentment. At one point I turned to put a fish in the box and was startled to see the Cooch holding a sacrificial knife over the Giant while muttering some forbidding incantation to the gods that sounded like, "I offer you the Giant if you put a fish on Tag's line large enough to strip his reel." The Cooch's prayers went unanswered, and grudgingly he went on to catch more than his share of the 27 fish we wound up with.

Well, the final tally has been made, and the presentation of awards closes the last phase of the BERA Fishing Contest: For the month of October the largest fish award goes to Henry Hage for his 31 lb. 2 oz. striper. The average fish award was taken by Chester Bubka for his 9 lb. 2 oz. bluefish. Largest fish of the year was Dick Albert's 13 lb. 13 oz. bluefish. And Fisherman of the Year — you guessed it! Mary Boruse. This may be the last year we enroll women.

## Bowling News

### Red League:

- T. Ericson 214/223 for 603 scratch
- E. Meier 211/221
- S. Kiss 224
- B. Sylvester 217
- J. Lypecky

Gross award to E. Meier

### Rose League:

- L. Bartos rolled a 220

Gross award to R. Evans

### Pink League:

- Gross award to H. Kelly

### Purple League:

- Gross award to R. Wilson

### Green League:

- Gross award to A. Hanson

## 'Special' to Highlight Theatre Group Meeting

The next regular meeting of the BERA Theatre Group will be held on Tuesday, November 21, at 8:30 p.m. in the Theatre. The program will be a presentation of *I'm Herbert* by Ed and Ginnie Sayre. *I'm Herbert* is the last of four one-acters which comprise the current Broadway hit, *You Know I Can't Hear You When The Water's Running*, by Robert Anderson. The Sayres' presentation promises to be delightful. All are welcome to join us for the evening.

## Slo-Break Basketball

Just two weeks remain before the November 16th deadline for team entries in the BERA Basketball League. Don't be shut out; get your team together now and take advantage of our new lower entry fee of only \$25 per team. If you can't organize a team, enter the Player's Pool and be assured of a spot on an existing team. Just call Ext. 391.

## LI Ducks Hockey

Arrangements have been made with the Long Island Arena to secure discount tickets for all LI Ducks Hockey Games. Reservations may be made by calling the Recreation Office, Ext. 2808, at least two days in advance of desired date.

Reservations can only be accepted for any one of the three upcoming scheduled games and must be paid for at the Long Island Arena Box Office. Prices are as follows:

Regular Price	BNL Price
\$3.00	\$2.55
2.75	2.35
2.25	1.90
1.75	1.50

There are no discounts on children's tickets and the employee must show his BNL ID Card when picking up tickets at the Box Office.

Schedule information is posted at the Recreation Office.

## Fall Foliage Night At the Camera Club

There will be a general meeting of the Camera Club on November 13 at 8:30 p.m. in the Lounge of the Recreation Building. A featured slide program, "One Man's Opinion," will be given by Frank Stark of Mastic Beach. All members are asked to bring their Autumn slides. Newcomers are welcomed.

10-888-67

Paul Kelly of the Sign Shop entertains on the guitar at the Annual Picnic of the Buildings Maintenance Division of Plant Engineering and Planning. Others in the group around the picnic table are: Bob Allen, Eddie Leitgeb and Bill Werner of the Cabinet Shop; Joe Whelan of the Paint Shop and Chuck Watson of the Carpenter Shop.

## Autos & Auto Supplies

55 INTERNATIONAL PICKUP TRUCK - 6 cyl, r/h. \$300. Ext. 2852.

57 FORD SEDAN - 4 dr, auto trans, new battery, muffler, plugs, runs very well. \$150. Ext. 2715.

61 CORVAIR MONZA 900 - Excel mech cond. \$350. F. German, Ext. 7204.

2-14" WHEELS FOR FORD - \$5. J. Barry, Ext. 2152.

2-6.50x14" RIMS W/TIRES - For Ford Fairlane. \$6/pr. Dave, Ext. 2824.

64 CADILLAC SEDAN DEVILLE - Blk, all power, air cond, 36,000 mi, extras, excel. \$2295. M. Hansen, Ext. 2389.

60 CHEVROLET BELAIR - 4 dr, r/h, auto trans. Ext. 2515.

WILLY'S PICKUP - 4 wheel drive, w/283 Chev motor & snow plow. \$1200. B. Hulse, 878-1915.

NSU "1000" 1966 SPORTSEDAN - Orig owner, like new, 32 mpg on regular gas. Bill, Ext. 2393, 724-3035.

FREE - 15" wheel, from Ford, use it for one of your snow tires. Roy, Ext. 7789.

2 SNOW TIRES - 7.75x14 b/w, 4 ply tubeless, mounted on Chev rims, bargain. \$35. Fred, Ext. 638.

VOLKSWAGEN BODY PARTS - Window glass, doors, fenders, hood, etc. Make offer. B. Conway, AT6-0630.

65 TR-4 TRIUMPH - Blue, w/new top, snow tires, r/h, good mech cond. \$1300. K. Fritz, SE2-3613.

55 FORD - New engine, body & tires in good cond. PA7-0075.

63 PONTIAC - Conv, aqua w/white top, good cond, auto trans, ps/pb, r/h, new w/w tires. \$1000. A. Guthke, Ext. 2152, 475-0549.

65 MUSTANG - 6 cyl, std trans, r/h, luggage rack, KO wheel covers, rally pac, shop manual, dk gr/blk int. John, Ext. 629.

59 CHEVROLET IMPALA - Runs but motor needs work. Dick, Ext. 7228.

63 VW LATE MODEL 1500 - White sedan, 52,000 mi, carefully maintained, nearly \$200 extras, excel cond. \$980. Ext. 7612, HR3-7951.

61 CHEVROLET - 4 dr sedan, 6 cyl, std shift, runs but needs work. \$100. Bob, Ext. 2265, AT9-1568.

66 MERCURY COMET CYCLONE - Conv, V8, auto trans, ps, bucket seats, new w/w tires. Sue, Ext. 388.

64 DODGE DART - 6 cyl, auto trans, r/h, new tires, needs motor work. \$350. Bill, Ext. 2126.

2 CHEVROLET RIMS - For station wagon. Ext. 2165.

60 CHEVROLET - 4 dr sedan, very good mech cond, 2 spare wheels, owner leaving country. \$250. Ext. 514.

5 GOODYEAR BLUE-STREAKS - 6.95x14 tires, all have some tread. Best offer around \$20. Sue, Ext. 2532.

66 MUSTANG - Conv, red, V8, reg gas, auto, r/h, 12,000 mi, power top, perfect cond. Ext. 2955, HR3-1465.

57 CHEVROLET BELAIR - Auto trans, new battery, in running cond. Asking \$60. B. Kowalski, Ext. 2314.

60 CHEVROLET - 4 dr sedan, ps, auto trans, good cond. \$200. Wick, Ext. 2411, 475-0853.

65 TURNER - Conv, good cond, low mileage. \$1600. Lydia, AT6-3962 after 6 p.m.

66 VALIANT V100 - R/h, w/w tires, 18,000 mi. \$1150. C. Wilson, 727-1864.

67 FORD LTD - Aqua blk vinyl top, air cond, less than 5000 mi. \$3050. Kathy, Ext. 7503, 585-5756 after 6 p.m.

59 CHEVROLET STATION WAGON - Runs OK, needs work to pass state inspection. \$100. Andy, Ext. 2469, 744-5592.

62 COMET - 4 dr, auto trans, new tires, good cond. Ext. 7267.

60 DESOTO - Ps/pb, good cond. \$300 firm. P. Eggena, Ext. 2913.

55 PORSCHE CONTINENTAL - Conv, good cond. Asking \$450. 286-8744.

1944 MARTIN - Rare specimen, body needs work, provides adequate trans, a conversation piece. Bruce, Ext. 2929.

## Boats & Marine Supplies

RHODES 19 FIBERGLASS C'BD SLOOP - 2 jibs, 2 mains, 2 spin, CG equip, lights, race gear, in water. \$2100. Ext. 2531.

50 HP EVINRUDE - 1959, w/2 gas tanks. \$200. Ext. 2489.

BEATLE CAT SAILBOAT - Stored for winter, decent shape, cotton & dacron sails. R. Anderson, Ext. 7741.

## Miscellaneous

## Classified Ad Policy:

- The Bulletin Board's classified section may be used only by active and retired Laboratory employees.
- All items for sale or rent must be the advertiser's property.
- Persons listing houses, apartments, or rooms for sale or rent, do so with the understanding that these must be available without regard to race, creed, color, or national origin.
- Ads associated with a full- or part-time business cannot be accepted.
- Ads should be restricted to 20 words or less and typed or

printed on the form provided. (Additional copies of the form are available at the Bulletin Board office.) Twelve noon on Friday is the deadline for inclusion in the following week's issue.

- Ads are run on a space-available basis; those not carried because of space restrictions will be held for inclusion in the next issue.
- Ads are run only once and must be resubmitted if they are to be repeated.
