## Lab and IBEW Agree On New Contract

The Laboratory and IBEW Local 2230 have agreed on the terms of a new labor contract, which was ratified by the union membership on Sunday.

The highlights of the contract are as follows:

It is for a period of three years, from July 1, 1968 through June 30, 1971.

The Laboratory will grant wage increases of five per cent as of July 1, 1968, six per cent on July 1, 1969, and seven per cent starting July 1, 1970. Each of the three percentage increases is to be applied to the present base rates.

Effective July 1, 1969, the Laboratory will pay the full amount of medical insurance premium for the "employee only" and "student" coverage. The Laboratory will also pay the full medical insurance premium for retired employees and spouse when each reaches the age of 65. These same benefits will become effective for all employees of the Laboratory on the same date.

The disagreement that arose last year over a uniform work schedule for sixteen refrigeration and air conditioning engineers has been resolved with a new six-day on, two-day off schedule that meets the requirements of the Laboratory policy on shift schedules.

The fire fighters will be placed on a new three-platoon, twenty-four hour schedule that will provide the Laboratory with increased fire fighting protection without adding manpower.

The agreement includes mutually acceptable language changes in several sections of the contract, covering such subjects as promotions, handling of grievances, and changing of work schedules.

A committee composed of two Laboratory and two Union employees will be established for the purpose of identifying and clarifying the division of work between bargaining unit and non-bargaining unit employees in certain specific areas. If this committee cannot agree, then either side can request the services of the Chairman of the Atomic Energy Labor-Management Relations Panel as mediator.

This Panel played a major role in the current settlement after it assumed jurisdiction shortly before midnight on July 14th, when the previous contract was due to expire. Panel members present at the sessions since July 14th were the Chairman, Father Leo Brown of Cambridge, Massachusetts, and Morris L. Myers, Executive Secretary of the Panel and Chief Counsel for the Federal Mediation Service in Washington, D.C.

## South Sea Island Paradise, But . . .

You must leave at 2 a.m. - no matter how much fun you're having at the Beachcombers Dance to be held this Friday, August 2nd, in the Gymnasium.

By 2 a.m. you may not have had your fill of dancing and entertainment. You may want to hear more of Wayne Foster's music and more of Frank Fields' songs. But that will be it!

So we strongly urge you to start the evening off promptly at 9 p.m. Come with sandaled feet, sneakered feet, or bare feet. Come in shorts or slacks or grass skirts. Come dressed to have fun and win the special prize for the best "Beachcomber" couple.

BERA will supply ice, chips and pretzels. There will be table and chairs for all.

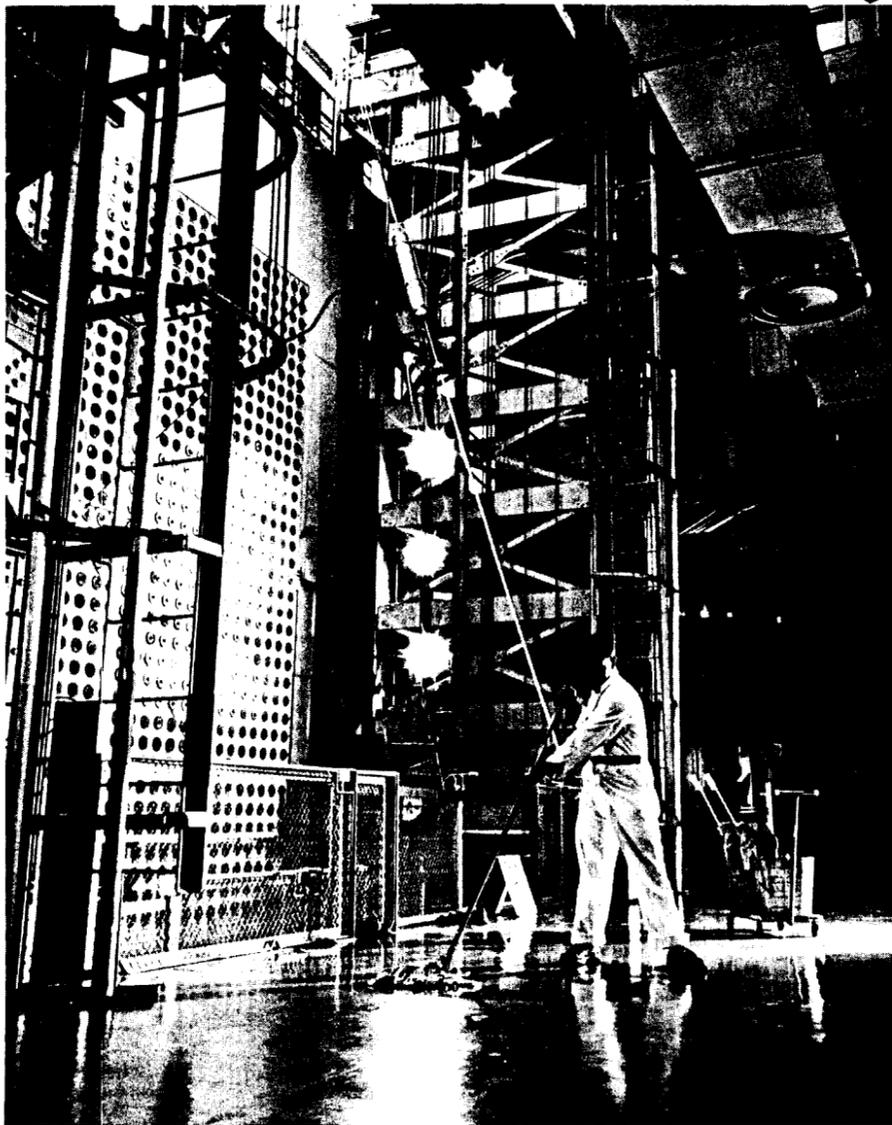

It will cost you only \$1.50 each; your friends, \$2.00. Come, and enjoy!

## Evening Aquatic Carnival

An added attraction to our Swimming Pool Program this Summer will be an Aquatic Carnival.

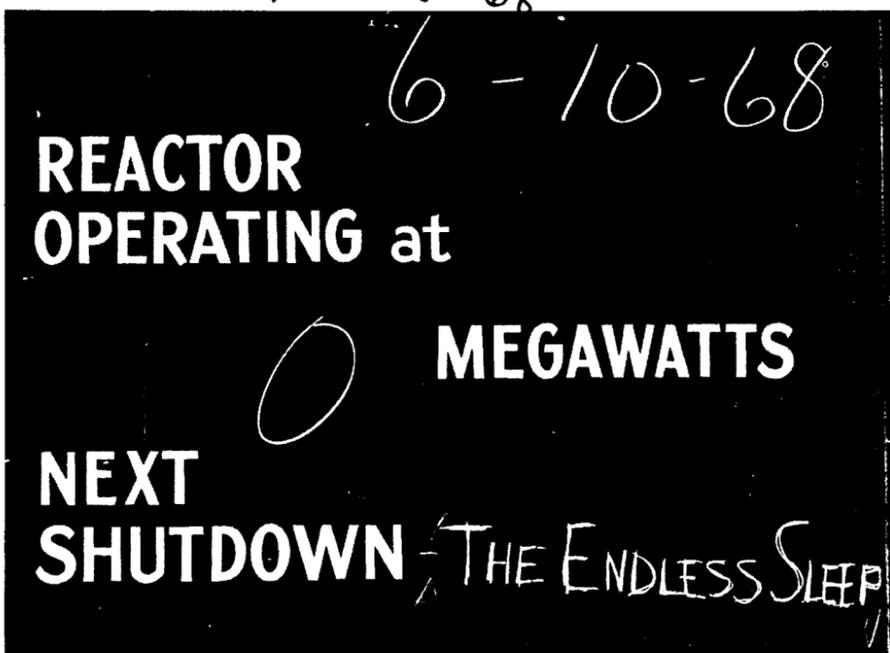

The program, on Aug. 22, will consist of games and competitions, will run from 7:00 p.m. to 9:30 p.m.

## First Peace-Time Reactor Goes On Stand-By 7-1468-68

At the loading face of the BGRR, Milton Jones, Jr., of PE&P does a floor-cleaning job at the unused research facility. 7-1466-68

The blackboard at the Graphite Reactor tells the story.

## Rau To Serve On LAMPF Board

Dr. R. Ronald Rau, Chairman of BNL's Physics Department, has been appointed a consultant to LASL (Los Alamos Scientific Laboratory), and has been asked to serve on the LAMPF (Los Alamos Meson Physics Facility) Policy Board.

The Board, consisting of experienced members of the national scientific community, was established by Dr. Norris Bradbury, Director of LASL, to "review periodically the important technical, administrative, policy and fiscal aspects of the Facility." The Board would also be asked to review the quality, balance and level of staffing of the Facility.

LAMPF is a proton linear accelerator, with top energy of 850 MeV, some ten times greater than the most powerful proton linear accelerator now in operation. However, the major difference is its very high intensity proton beam, which, upon

hitting a target, can produce intense secondary beams of pi-mesons. The machine, a national facility, will be open to use by scientists from all over the U.S.

## Atomic Pile Now On Stand-by Basis After 18-Year Use

Back in September of 1947 the headquarters of the United Nations was at Lake Success in Nassau County. Fifty miles to the east, Camp Upton was undergoing a name-change to Brookhaven National Laboratory. A writer for a popular magazine had just visited the Lab and predicted that "Ultimately the scientific staff of Brookhaven would grow from the present 90 members to a total of 200 scientists." He also predicted that Brookhaven would eventually look more like a university than an army post. "Scientists work better in that kind of setting," he said.

At Brookhaven, 800 people, mostly construction workers, were busy starting construction of an atomic pile, the first to be built for research on the peaceful uses of atomic energy. They worked on Rutherford Hill, excavating, building, and pouring concrete for the foundations of the "Pile."

In another section of the Lab, a gymnasium had been converted into a storehouse for blocks of graphite that were to form the moderator for the reactor.

On August 22, 1950, after the completion of the buildings and loading of the fuel elements, the pile achieved criticality, and has since operated without trouble for the past eighteen years. Although it was designed for a power level of 28 megawatts, it frequently exceeded that level.

Now the UN has long been settled in a complex of skyscrapers in Manhattan. Camp Upton is remembered only by a few old-timers, and the scientific staff of Brookhaven National Laboratory has grown to over 900. Most of the army buildings have either been torn down or remodeled, but the Lab still has a long way to go before it looks like a university campus. 7-1467-68

On June 10, 1968, the Brookhaven Graphite Research Reactor was placed on a stand-by status. The BGRR will be maintained in a state of readiness for operation on 30-day notice. It is expected that the reactor will be operated occasionally for experiments with the Chemo-Nuclear Loop for the Nuclear Engineering Department.

During its 18 years of operation, the accomplishments of the pile have been considerable. New methods, materials and experimental techniques have been developed in areas of physics, chemistry, biology, medicine, engineering, and training of personnel. Dating of art treasures, development of new motor oils, manufacture of radioisotopes and development of new grain crops through seed irradiations. All of these as well as the less spectacular experiments in physics and engineering have had a great effect on the present knowledge of atomic energy.

Dr. Maurice Goldhaber, BNL's Director, said, "It is with a deep feeling of regret and loss of an invaluable research ally that we put the BGRR on stand-by status. Its reliability and versatility over the years more than demonstrated its usefulness. I am sure that if we were not forced by economics to take this step, the BGRR could and would continue to operate far beyond its original design life of 20 years."

Most of the irradiations normally done at the BGRR are being accommodated at the Medical Research Reactor. Experimenters who had hoped to use the neutron flux of the BGRR will now use the HFBR.

Today, more than a month after the last shut-down of the reactor, the once-bustling building is quiet. The experimental faces still have some equipment in place, but the familiar blinking of lights on instrument panels is missing. The control room is deserted, and the blackboard near the northeast corner of the pile bears this poignant message: Reactor Operating at - 0 megawatts. Next shutdown - The Endless Sleep.

**Assembled Chemists View Interaction** 7-1280-68

Sculptor Robert I. Russin (with back to camera) unveils "Interaction" before a group of Chemistry Department staff members and guests.

**Sculpture Unveiled**

Visitors to the Chemistry Department will henceforth be greeted by "Interaction," an original sculpture, a gift to the Laboratory which was unveiled in special ceremonies on the evening of July 23rd.

The sculptor was Robert I. Russin, Professor of Art at the University of Wyoming, who had worked on it since early 1967. According to Russin, the design was developed only after many tries, and "definitely was not the result of an inspirational flash."

"Interaction" is symbolic of the roles of man and atomic energy in the modern world. As one approaches it, the graceful contour of a single symbolic human trunk and head are the predominating features. A closer view reveals the gentle concave portion of the trunk containing what may be the nucleus of and atom in the process of fissioning, and emanating from it various radio forms suggesting energy. It is cast in bronze not highly burnished or polished, thus giving a soft, textured appearance.

The message is - man has discovered atomic energy and man controls it.

The idea for having an original sculpture grew out of a desire by a group of chemists to enhance the beauty of their new building with some worthwhile art. Using only money collected among themselves, they began by purchasing a few paintings and accepting the donation of a few others from interested individuals. The sculpture was a natural outgrowth of this interest on the part of the chemists who work there. Mr. Russin was asked to take on the assignment early in 1967.

A portion of the credit for the final design must go to Gerhart Friedlander, Chairman of the Chemistry Department, who suggested the concept of the fissioning atom.

The Chemistry Department Art Committee, consisting of Ed Sayre, Morris Perlman, Julius Hastings, and Garman Harbottle, presented the statue to the Laboratory on behalf of the senior staff of the Chemistry Department. Accepting for the Laboratory was Maurice Goldhaber, Director.

**Shipping News**

*Special to the Bulletin Board* - The sloop *Iona* out of Patchogue, has arrived in Hamilton Harbor, Bermuda after a six-day journey. According to a member of the crew, two days of continuous squalls made everyone aboard seasick except Jeff Buck and Pete Puleston. Skipper Eric Forsyth expected to clear Bermuda late on Saturday, July 27, and arrive at St. Thomas by August 5. Forsyth, formerly of the BNL Accelerator Department is the owner of the 35' steel sloop, and is an experienced blue-water sailor. The crew consists of Steve Gould, Jeff Buck, Archie Bonyun and Pete Puleston, all in their early twenties.

The *Iona* underway as she leaves Patchogue for the West Indies.

**Your Auto Insurance Coverage - Is It Adequate?**  
by Bob Butscher

For most of us, the amount of auto insurance coverage that we have has unfortunately become a matter of renewing last year's policy, or worse yet, a matter of just complying with the minimums required by law.

In New York State, you are required to maintain coverage for bodily injury of \$10,000 each person and \$20,000 each occurrence, and property damage of \$5,000 - popularly called 10-20-5. This is minimum coverage and in many instances would not be adequate if you become involved in a serious accident.

The way courts are making awards today, a serious accident could result in a judgment of \$100,000 or more against you. The insurance carrier would be liable for only \$10 or \$20,000. You would be responsible for the balance. None of us want to be in this position. Further, although the insurance carrier must defend you against such claims, once they realize an award will be in excess of the coverages in the policy, their defense of the claim against you quickly loses steam. If you carry only this minimum, consider increasing your protection. You will be surprised at how low the cost is. One company quoted that for an additional annual premium of \$20, liability and property damage coverage can be increased to 100,000 - 300,000 - 25,000.

You might also want to consider "umbrella" insurance for coverage up to \$1 million. This form of insurance provides excess coverage, which extends the coverages provided by your basic auto and homeowner's insurance policies. In the event of a serious accident, your basic auto policy would provide coverage to the limits stated therein, and the umbrella policy would provide additional coverage to \$1 million. We understand annual premiums for such umbrella insurance to be under \$100.

Read the fine print in your insurance policies. For example, under one policy - and others may read the same - there is no protection if you lend your car to a fellow employee and the fellow employee injures a third co-worker. Most policies also contain restrictions on certain business uses of your car.

Understand your insurance policies - see next week's *Bulletin Board* for savings on premiums.

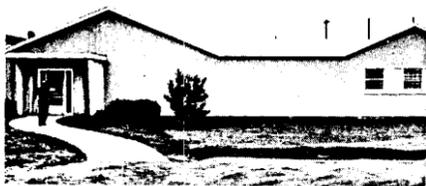

**AEC Youth Workers Tour Lab**

BNL Senior Operator, Audrey Schulz, explains the workings of the main switchboard to a group of girls from the Brookhaven AEC Office. Before visiting the Telephone Exchange the girls were taken on a tour of the Lab's scientific facilities as part of a general indoctrination program. Laverne Sweezer and Lois Branch, students at Suffolk Community College, and Denise Sanders, a student at Longwood High School, are working at the AEC office as part of the Youth Opportunity Campaign. Juanita Smith, (second from right) is a regular employee of the AEC, and coordinator of the YOC Program.

**Facade Revisited** 7-1494-68

The beautiful new facade of the Nuclear Engineering Building 197 as it appears to a visitor (above) is not so beautiful when viewed from inside the building (below). The plumbing is just being stored there temporarily.

7-1493-68

**Bellport Playhouse Discount Tickets**

BNL employees are now able to purchase tickets to Bellport's Gateway Playhouse at a 20% discount for performances Tuesday through Thursday. The 5 p.m. Saturday and the 8:30 p.m. Sunday performances are also discounted. Tickets which sell regularly at \$4.50, \$3.95, and \$2.95 are on sale to BNL employees at \$3.60, \$3.16, and \$2.36.

The Red Barn Theatre, which features musical shows, continues to offer a 20% discount for performances Monday through Friday and Sunday evenings. Tickets which are regularly \$3.65 and \$2.65 can be purchased at \$2.92 and \$2.12.

Tickets may be purchased at the Recreation Office, at least two days in advance of the desired performance date. Orders must be accompanied by a check or money order payable to the Gateway Playhouse, and must be placed in person.

**Letters To The Editor**

Dear Sir:

A recent letter to the Editor commented on rented lockers at the gym and offered some alternatives to alleviate the present shortage.

Another alternative, not mentioned, is to limit rental of lockers to a person for only as long as the person maintains a season pass, for example, at the pool. This could include both winter and summer.

In this way the lockers will be receiving maximum use while at the same time maintaining the convenience of a rented locker for regular users of the facilities.

"Interested"

Dear Sir:

I am writing this letter, not expecting results, but rather to "get something off my chest."

On Sunday I spent three hours washing and waxing my car. Monday, when I left the Lab to go home I discovered someone had hit the car and driven away.

I have one question for the person who hit the Gold 1967 Chevy parked near the Recreation Building; tell me Someone, where is your feeling and sense of moral obligation? Although the damage is not very serious, it is enough to make me both heart-sick and mad.

Along with the memories of the many wonderful people I have met and worked with, I must take back this one also, which mars my experience of this summer.

Thank you for your contribution, Someone.  
Doreen Solce

Dear Sir:

I would like to heartily endorse last week's letter to the Editor in reference to the sudden and substantial increase in locker rentals in the gymnasium.

BERA is not supposed to be a profit making organization and I don't see why those of us who use the gym should be paying for other BERA activities through the rental of lockers. The fact that there are not enough lockers for the demand does not preclude the increase in fee - it simply indicates that more lockers are needed. The solution BERA came up with is an arbitrary, negative approach to the problem - it is unfair to favor those willing to fork out the \$5 against those who feel that this fee is exorbitant within the realm of a non-profit organization. And as last week's letter mentions, BERA has absolutely no way of evaluating the frequency of locker usage, short of an arbitrary guess or a systematic annual head count.

Boris M. Lomonosoff

Dear Sir:

A letter in a recent issue of the "Bulletin Board" requested action in favor of new gun laws. Unfortunately criminals don't obey the laws we have now so there seems to be little reason to expect them to obey new laws. In order to minimize crime we need to maintain the right laws and to enforce them. These laws should be carefully thought out to reward honest behavior with freedom and to punish dishonest behavior so as to provide a maximum incentive toward honesty.

Some of the laws which are now being considered would have the wrong effect by harassing honest citizens and depriving them of protection and recreation. Furthermore, these laws would tend to decrease gun ownership among honest citizens thus encouraging criminals by providing them with increased safety in their chosen occupation.

## Tennis Anyone? 7-1497-68 Name Contest Still On \$25 Prize for Winner

Contestant in Senior Men's Singles Division of the BERA Tennis Tourney returns a baseline drive.

### Tennis News

First round play has been completed in the men's singles open and the senior men's singles tournaments. Still to be reported in the first round are one match in ladies' singles, two in mixed doubles, and two in men's doubles.

Two matches have already been played in the second round of the men's singles open. Second round play in all tourneys should be completed this week.

Players are reminded that tournament play has priority. When others are waiting non-tournament play should be doubles, preferably limited to a single set.

Results of play between July 23 and July 29. Men's Singles Open: **Fleitman-Koczak**, 6-1, 6-2; **Richberg-Halpin**, 6-1, 6-3; **Mariscotti-Jones**, 6-2, 6-0; **Kevey-Platt**, 6-1, 6-0; **Dernbach-Martin**, 6-2, 6-2; **Ascarelli-May**, 4-6, 6-0, 6-3. Second round: **Rosenberg-Ames**, 6-3, 6-4; **Garellick-Weingart**, 6-0, 10-8.

Senior Men's Singles: **Kevey-Thomas**, 6-0, 6-0; **Collins-Robertson**, 6-0, 6-0; **Schaeffer-Goldhaber**, 6-3, 6-4; **Bookless-Merkle**, 6-3, 4-6, 6-1.

Ladies' Singles: **Dorning-Dernbach**, 6-4, 6-1; **Buckner-Palmedo**, 6-1, 6-2; **Harris-Emerly**, forfeit; **Johnson-Goldhaber**, 6-1, 6-2.

Entrants in each tournament should arrange to play during the week scheduled for each round. Scores must be turned in so that the results may be posted.

### BERA Film Series

Thursday, August 8 - 8:00 p.m. Lecture Hall  
**The Tenth Victim**

Carlo Ponti's op-art film *The Tenth Victim* is a superb science-fiction study of what life in a future century might be like without war as an outlet for human hostilities. Suspense and romantic comedy usher one through a "Big Hunt" conducted by qualified participants in the international sport of murder starring Ursula Andress and Marcello Mastroianni, who have each completed their respective fifth hunted and hunter roles out of ten and now must switch places. A computer pairs them together and a complicated hunt between the sexes begins, with Miss Andress trying to earn a bonus by killing Mastroianni in front of a TV camera as part of a tea commercial. The end is logical; the build-up is terrific.

**Short: Two**  
A parody on art films. A chick in a flowing gown and a young man who meet by the ocean engage each other in crazy conversation written by TV comedienne Renee Taylor (the chick), with music and vocal accompaniment by David Lucas adapted from the Yardley Men's Toiletries TV commercial.

**Movie Tonight:**  
An Evening of Experimental and Avant-Garde Cinema.

Last week in the *Bulletin Board* a "name the field contest" was announced. A twenty-five dollar prize will be awarded to the person submitting the name chosen for the Brookhaven recreation field.

Response to this announcement was immediate. By the end of the first day almost one hundred entries had been submitted. Those received thus far have been of various types, there are serious ones and light-hearted ones, long ones, and short ones. The judges will consider the entries on the basis of name only.

All contestants are asked to keep in mind the contest rules. Entries should be printed or typed on a sheet of paper. The information should be included on the entry form as explained in the July 25 *Bulletin Board*. All entries should be in separate sealed envelopes.

A change has been made in regard to the announcement of the contest winner. In order to make the presentation more convenient, the winner will be announced and the prize awarded Tuesday, August 22 at Softball Night. The winner will also be announced in the August 29 *Bulletin Board*.

The contest officially closes August 9 at 2 p.m., so hurry and get those entries in. A twenty-five dollar prize is waiting for someone.

### Bowling Starts Soon

Applications for next winter's bowling leagues are now available at the Recreation Office. All leagues will be handicap, and here are the **deadline dates:**

Priority for last year's teams - August 9th.

Registration - August 23.

New teams have until August 23rd to round up 5 men or 4 gals to join a league.

We bowl after work - about 6:00 p.m. at local alleys. The applications give you a choice of night and place. BERA supplies trophies at the end of the season.

**Remember** - for priority - get your application (with money please) and return it by August 9th.

### Softball

Tom Lee

**Brookhaven League** - There is no turmoil in this League again. The Batmen, who were on top dropped a 13-5 game to the Old Timers, while the Blue Jays were operating on Medical 21-7. This ties the Blue Jays and the Batmen with the Old Timers getting an outside shot at the second half crown. The Bubble Boys surprised the Dirty Sox 14-10. This puts the Sox out of the race. HRS for the week M. Gottfried (2), B. Lorelli, B. Newlands (Blue Jays); J. Sondericker (Bubble Boys); R. Larsen (Batmen); B. Dilello, D. Cassidy (Old Timers).

**National League - Rain**

**Laboratory League** - AMD continued winning, extending its streak to 12 straight with a victory over the sharks 13-5. The Deadwoods in 8 innings defeated the Converts 12-10. Mets won by forfeit over Charlie Browns. HRS for the week R. Atkins (2) (Sharks); R. Pace (AMD); J. Warner, S. Feldberg, P. Karol (Deadwoods).

Contests for 21 Runs this week and the National League will play for High Inning and Low Score also.

#### Team Standings

League	Team	W	L
Brookhaven League	Blue Jays	10	2
	Batmen	9	3
	Old Timers	8	4
	Dirty Sox	6	6
	Bubble Boys	3	9

### Crazy Hat Prize Winners

Winners of the Crazy Hat Contest run by the On-Site Morning Recreation Program are (left to right) Marcus Meister, Tobias Beckurts and Francesco Guidoni.

### Football Notes

by Jack Brennan

#### Football Notes

Although the thermostat may read 90° outside, it is that time of year to get your football club together. The entry fee will only be \$10 a club this year; deadline for applications will be August 23rd. A minimum of seven players is required to enter a team, maximum roster - ten, shift workers - twelve. Rules, regulations and entry blanks can be picked up at the gym office.

The following officers were appointed for the 1968 season: E. Bindel - President; F. Campbell - Vice President; and J. Brennan - Secretary - Treasurer.

Two changes have been made in the playing rules: (1) An extra point try will be tried after each T.D. Ball will be placed on ten yard line after each T.D. and either run or passed for extra points. (2) Waiting time on snap of ball is changed from four to three seconds.

### Adult Swimming Lessons

The Recreation Office is expanding the Summer Program to offer adult swimming lessons. Instruction will vary from non-swimmers to swimmers who desire to improve their stroke and/or develop new strokes. Ocean safety and rescue procedure techniques will be demonstrated and taught.

Participants must be BNL employees or employees' spouses. Register early. Class maximum is 30. Registration fee for six lessons is \$6.00 payable at the Recreation Office, Gymnasium, 3 Center Street. Registration deadline is Friday, August 9th at 1:00 p.m.

The six lessons will be held on Monday, Tuesday and Wednesday - August 12, 13, 14 and 19, 20 and 21. Class time is 5:30 p.m. to 6:30 p.m. Any questions may be directed to Walt La Prarie, Ext. 391 or the Lifeguards at the Pool.

### Personnel Services

At the Recreation Office

Open Daily 9:00 a.m. to 1:00 p.m.

**Athletic Equipment** - In stock right now for sale are baseball/softball gloves at a discount of 1/2 off list price, softball bats, softballs, tennis rackets, tennis balls, and other assorted athletic equipment, all at discount prices.

**Theatre Tickets** - Theatre tickets to certain shows (listed below) may be purchased at a 20% discount and reservations for dinner/theatre may be made at a 10% discount. Schedules and prices are posted in the Office. All orders must be placed in person and accompanied by a check or money order at least two days in advance (no cash will be accepted). Sorry - no discounts on Saturday nights.

**Gateway Playhouse** - August 6 through August 11 Hans Conreid in "Don't Drink the Water"; August 20 - 25 Robert Cummings in "Generation"; August 27 - September 1 George Gobel in "The Odd Couple".

**Red Barn Theatre** - Now through August 11 "On A Clear Day You Can See Forever"; August 13 through August 25 "Funny Girl"; August 27 - September 1 "Half A Sixpence."

**Mineola Theatre** - Now through August 11 Menasha Skulnik in "The Midnight Ride of Alvin Blum" (pre-Broadway); August 13 - Sep-

### Crazy Hats At Crazy House

The kids call it the "Crazy House"; to us it's the Recreation Building. It is the scene of the BERA Morning Recreation Program.

The July 26th Special was the "Crazy Hat Contest."

Parents and children worked through the night preparing the weird assortment of chapeaux that brought fantasy land to reality. Over fifty children arrived to participate and some twenty mothers dropped by to cheer the contestants on. Many children just looked on and were awed by the festivities.

The winners took home red, white, and blue ribbons. Those who didn't win began preparing for "A Halloween Party" in two weeks. So what if it will be in August, anything can happen at the "Crazy House" and usually does.

### Bayport Fife and Drum Corps To Perform at Family Get-Together

The BERA Morning Recreation Program is sponsoring a Family Get-Together and Track and Field Night on Thursday evening, August 1st, starting at 5:30 p.m.

Parents are to provide food for the cook-out and participate in the festivities. Prizes will be awarded to the winners. This is the first of three "Evening Specials" to be sponsored by the BERA Summer Program - the other two being Trophy and Awards Night featuring Bow Wow The Clown on August 15th and the Aquatic Carnival at the Pool on August 23rd.

The August 1st Get-Together will be honored by the appearance of the Bayport Fife and Drum Corps which specializes in precision marching and colonial music. They will perform in the Recreation Area near Building 317 in the Apartment Area. Everyone is invited to attend. Last year this group performed on a Friday morning and many people missed them - so by popular demand they can be seen tonight. Come and enjoy the fun - we will be honored to have you.

tember 1 Luther Adler in "Death Of A Salesman"; September 3 - 15 Sam Levine and Maureen O'Sullivan in "Don't Drink The Water."

**Westbury Music Fair** - Now through August 4 "Milk and Honey"; August 12 - 18 "The Andy Williams Show"; August 20 - 25 "The Fantasticks" with Howard Keel and Anna Maria Alberghetti; August 27 - September 1 "The Music Man" with John Raitt.

**Wedgewood Dinner Theatre** - Now through August 25 Monique Van Vooren in "Irma La Douce."

**Discount Exchange Coupons** - May be picked up at the Recreation Office and mailed into the Box Office of listed theatre.

**Jones Beach Marine Theatre** - Now through September 2 "South Pacific" (no discounts on Friday or Saturday evenings).

**Madison Square Garden Center** - August 28 - 30, September 4, 5, 11 and 12 "Holiday On Ice of 1969." (These dates only)

**NY Mets Baseball Tickets** - Choice seats behind third base. Seats available for August 13, Los Angeles; August 20, San Francisco; August 28 & 29 Cincinnati; August 31 St. Louis.

**NY Jets Tickets** - October 5 San Diego; October 13 Denver; October 27 Boston; November 3 Buffalo; November 10 Houston; December 1 Miami; December 8 Cincinnati.

## Watermelon in Pool?

The Recreation Staff has done it again! On Friday afternoon a Watermelon Scrimmage was held at the pool. Over one hundred youngsters of all ages and sizes splashed, pushed, dunked and fell attempting to capture the succulent prize.

The children were divided into teams and were told to get the watermelon to the

opposite side of the pool. There was only one problem, the other team. Two events were held, one in the deep end and the other in the shallow end. The little ones had to have a chance to fatten up on a melon.

The winners enjoyed the watermelon and the losers enjoyed the fight, knowing that there would be another day and more frolic at the pool.

## Tuesday Dance Goes Over Big

The first of three Tuesday night dances went off big with the on-site populace. Over one-hundred people arrived at the Recreation Building on July 23rd and danced to the music of Tony Forlano. It was a warm evening to start with but

things got warmer as the night went on. Beer, Pretzels, Chips and Laughter provided a refreshing time for all.

The next dance will be held at the Recreation Building #317 on Tuesday evening, August 6th. The live band will be there, the beer will be there and the dance floor will be there.

Will you be there?
