## ANS Radiation Industry Award

The 1968 Radiation Industry Award has been funded by Packard Instrument Company of Downers Grove, Illinois. The announcement was made July 16, by Lyle E. Packard, President. Presentation of the award will be made by Mr. Packard at the ANS International Meeting on the Constructive Uses of Atomic Energy, November 10-15, 1968 in Washington, D.C.

A certificate and \$1000 will be given to a scientist or engineer for the "most significant achievement made possible through the utilization of tritium and carbon-14 as dual tracers." Although this award is for research or basic development, a primary criterion is the industrial significance of the application. The work, which may have been performed at any time in the past, must have been fully published in an established scientific journal and the fruits of the work must have been practically demonstrated.

The first ANS Radiation Industry Award was sponsored in 1967 by Nuclear Chicago and was given for development and successful demonstration of the large volume lithium-drifted germanium detector in gamma ray spectroscopy.

The American Nuclear Society is a non-profit scientific and educational organization which was founded in 1954. Although its nearly 8000 members come from many disciplines and backgrounds, they share a common interest in the development of the peaceful uses of nuclear energy.

## Employees Son Killed In Vietnam

1st Lt. Joseph Neal, son of William (Graphic Arts) and Josephine Neal of Bellport, was killed in Vietnam on July 31, 1968, in the line of duty.

A graduate of Bellport High School, he entered Howard University, Washington, D.C. in 1964, where he was studying languages. Already well versed in Spanish, Neal completed two years of Swahili in the one year he attended Howard. It was his intention to become an interpreter.

Neal entered the U.S. Army in August of 1965. After his basic training for which he received third highest honors in a field of 1000 men, he attended the Army Language School in California where he completed the course in Korean.

He was then assigned to Infantry Officer Candidate School, and was graduated with the commission of 2nd Lieutenant in the U.S. Army in April of 1967. After receiving his commission, Lt. Neal was assigned to the U.S. Army Ranger Training School.

Before going to Vietnam in March of 1968, Lt. Neal was promoted to 1st Lieutenant.

## Navy Lecture At Grumman

The Naval Reserve Research Company lecture scheduled for August 14, will be held at the Anechoic-shielded Test Hangar at Grumman Calverton. Captain George Klaus, USNR will be the lecturer.

On August 21, John Garfield, Head of Photography and Graphic Arts, will lecture on Bubble Chamber Photography. This lecture will be held in the Brookhaven Center and will be open to all staff members.

## BNL Host To Marshall Islanders 8-253-68

A group of four Marshall Islanders, accompanied by an interpreter arrived at Brookhaven last Sunday for study and evaluation of the need for thyroid surgery. Shown with William Scott (right) of the BNL Medical Department are: (left to right) Sebjo Shoniber, interpreter; Elio Boas; Namiko Kalal; George Anjain and Lekoj Anjain. The four Rongelap residents are patients of Dr. Robert Conard, Head of the Brookhaven team that conducts the annual medical examination of the Marshall Islanders who were exposed to fallout from a 1954 Bikini bomb test. Photo by Humphrey

## Schoolmarm's Tour Biology 7-996-68

Controlled environment for the growth of plants holds the interest of these elementary school teachers participating in a Physical Sciences Workshop. Eleven members of the workshop sponsored by Queens College toured the Lab in order to get a first hand look at current methods of research. Photo by Humphrey

## Bowlers Take Note 8-256-68

The girls above are holding up an invitation for all the distaff side of the Lab to join the BERA Bowling League this fall. Shown above are (left to right) Wilma Flannery, Pat Oster and Carol Godfrey. Photo by Humphrey

## BNL To Inaugurate New Education Plan

The Brookhaven Semester program, a new concept in the approach to education by a national laboratory, will be started in September of this year.

A National Science Foundation grant of \$57,000 has made possible the Brookhaven Semester program, which is unique in four major ways: First, it provides for two faculty members per year and six students per semester from participating schools to spend their academic year in residence at Brookhaven Laboratory; second, it provides for the students to receive full credit the same as they would were they on campus; third, it is aimed entirely at the developing universities and colleges; and fourth, it provides an opportunity for Brookhaven scientists to directly contribute to the educational process at each of the members schools.

In order to bring the Brookhaven Semester to a reality, an historic "first" was accomplished by the ten participating universities and colleges. All are among the so-called developing schools, and all are primarily Negro schools, and for the first time they are organized in an association in pursuit of a common goal.

The Association has adopted the name Regional Cooperative Association in Science and Mathematics (RCASM), and its members include Miles College, Tuskegee Institute, and Talladega College in Alabama; Grambling College in Louisiana; Tougaloo College in Mississippi; Langston University in Oklahoma; Prairie View A&M College, Texas College, and Jarvis Christian College in Texas; and Knoxville College in Tennessee. All of these schools have a four-year curriculum leading to a bachelor degree in the arts, science or education, and some also offer masters degrees. The National Science Foundation grant was directed to Grambling College, where Dr. Amos P. Kennedy, Professor in the Chemistry Department, has agreed to act as coordinator for RCASM and the Brookhaven Semester program. At Brookhaven Laboratory, the coordinator will be Isaac Cole of the Personnel Division.

The academic terms at Brookhaven Laboratory will run from September 1, 1968, to May 30, 1969, for the two faculty members and from September 1, 1968, to January 15, 1969, for six students and from February 1, 1969, to May 30, 1969, for a different group of six students.

The participating faculty members and students will be selected by an Advisory Council which consists of one representative from each school in RCASM. A BNL representative will also help in the selection, and will serve as a member of the Advisory Council.

Faculty members are expected to pursue a high-level research project as a research collaborator, and are expected to attend weekly seminars in their field of interest. The research project will be conducted under the supervision of a Brookhaven staff scientist and will be correlated with the work and/or curriculum of the individual's school.

The students will also participate in a research program, but as a member of a team already functioning at Brookhaven Laboratory. In addition, the students will attend classes to be taught by Brookhaven staff members, as well as a series of seminars which will be conducted by BNL scientists.

In a reverse interaction, selected BNL scientists will visit the member schools in RCASM to give lectures, conduct seminars, and provide general counsel in science and mathematics to both faculty and students. In addition, the students upon their return to their schools are expected to address the faculty and their fellow students on their experience at Brookhaven Laboratory. At least one joint seminar (The Brookhaven Seminar) will be held at one of the member schools, at which time all of the participants will be expected to present their material. The Brookhaven Seminar will be rotated among the different member institutions and will be held near the close of each semester.

A proposed schedule at Brookhaven Laboratory calls for the students to perform research every morning, attend classes on Monday, Wednesday and Friday afternoons, and attend seminars and conferences on Tuesday and Thursday afternoons. In addition, there will be occasional evening lectures which the students will be expected to attend.

The students' performance, including a final report, will be evaluated and graded.

**Beachcombers Dance In Style**

8-264-68

BERA's Beachcomber Dance, sponsored by the Supply & Materiel Division was held on Friday, August 2 in the Gymnasium. The Wayne Foster Orchester played until 2 a.m., and kept the above happy couple dancing all evening.

8-257-68

George Leverock, Supply & Materiel, as Chairman of the Beachcomber Dance, welcomed the crowd at the start of the evening.

Not the start of a brawl, but a treasure hunt at the Beachcomber Dance was the cause of these people lifting their chairs to look for a prize attached to the bottom.

**Auto Insurance - Savings Through Understanding by Bob Butscher**

Add up your total insurance expenses. You will find that premiums for medical, life, auto, homeowners, and other insurance can cost you \$500, \$600, or more each year. We'll bet that premiums for auto insurance alone represent one-third plus of this amount. And, if your driveway sports two or more cars, or you keep the jet set in "wheels," you're paying a lot more for auto insurance.

Here are some thoughts for trying to whittle down the premiums you are paying.

First, don't discount the discounts. There are several discounts available that can significantly reduce your premium cost: 1) If you own two cars, you can generally get a 25% discount for the second car, provided both cars are insured with the same carrier under one policy. 2) A car classified as a compact can save you another 15%. One criteria is that the car weigh less than 3,000 pounds. 3) For the safe drivers (no accidents in three years), a "safe drivers" discount of generally 5% may be available. 4) If there is a male driver under age 25 in the family who has completed an approved driver education course, a 15% discount may apply.

Look at the cost of your collision insurance too. Fifty dollar deductible can cost you almost half again the premium cost of \$100 deductible. One company quotes a premium of \$57 for \$100 deductible and \$80 for \$50 deductible on a new station wagon. You would be paying \$23 for only \$50 of coverage. Consider saving the \$23 and "self-insure" the difference between the deductible limits. You might also consider higher deductibles of \$150 or \$250 for further premium savings.

Do you still require collision or comprehensive on a car that is 4 or 5 years old? You may, but, first weigh the premium cost against the cost of a total loss of your car minus the deductible and also minus the value of the income tax deduction you would be permitted for a casualty loss.

You may also be carrying medical payments, death indemnity, and disability income insurance under your auto policy. Although these coverages are not that ex-

Dorothea J. Hodgdon.....Chemistry  
Boran A. Leontic.....Physics  
Eugene B. MacGuire.....Accelerator  
Ruth E. Moore.....Syst. & Adm. DP

**Education Plan (Continued)**

Granting of credits will be made at each member institution by the department heads with the administration approval. Normally, each of the two courses presented in class instruction will earn three credit hours, and the research will earn six credit hours, for a total of twelve credits for the semester spent at Brookhaven Laboratory.

While at Brookhaven Laboratory, the students will live on-site in dormitory facilities, and the faculty members will have a choice of various on-site housing or will be able to live off-site in one of the nearby communities.

On Friday, August 9, a discussion of the Brookhaven Semester will be held for members of the scientific staff of BNL in the Physics Seminar Room.

pensive, you may be paying for benefits you already have under BNL's group insurance plans. Passengers other than your family have recourse under the liability section of your policy.

A final premium thought for you parents of college students who drive the family car - if your child is resident at a school more than 100 miles from home, this could mean lower premiums - check with your agent.

Understand your insurance policies. Don't just accept the insurance company's automatic renewal of last year's coverages. You may want to make changes - it can save you premiums and spare you grief.

If you missed last week's *Bulletin Board*, it contained an article on adequate coverage.

**Here and There**

Dolores del Castillo

John Marinuzzi (ME Division at AGS) has been awarded a National Aeronautics and Space Administration Fellowship leading to a doctorate degree in large scale R & D administration. He will start the program at the University of Southern California this Fall.

Harry Palevsky (Physics) served as Acting Chairman at a recent meeting of the Los Alamos Meson Physics Facility Users' meeting.

Sol Pearlstein (NED) has been appointed as Director of the National Neutron Cross Section Center effective August 1, 1968. He has been Acting Director of the Center since September of 1967. He will continue to be Chairman of the Cross Section Evaluation Working Group which is coordinating the national effort to provide an Evaluated Neutron Data File for U.S. reactor designers.

R. Christian Anderson (DO) will serve as a Discussion Leader for the American Management Association's Workshop Seminar on Recruiting Advanced Degree Personnel to be held in New York City next month.

Responsibility for operation of the 7094 and 1401 computers has been transferred from the Applied Mathematics Department to the Physics Department. P.V.C. Hough (Physics) will supervise the computer operations.

Louis Shotkin (NED) will attend a conference on Fast Reactors and the University to be held at Rensselaer Polytechnic Institute later this month. The Conference will be sponsored by the American Society for Engineering Education, the Atomic Commission's Division of Nuclear Education and Training, and Rensselaer.

Students of State University at Farmingdale are touring the Laboratory facilities today.

Wolfgang Gossner, Head of the Division of General and Experimental Pathology of Society for Radiation Research in Munich, Germany will visit the Laboratory August 23 to discuss radiation effects on the intestines.

Hiroshi Mizuta and Kensuke Shiraishi of the Central Research Institute of Electric Power Industries August 26 to discuss mechanical properties and electron microscopic observations.

Wieslaw Czyz, Head of the Theoretical Section of the Institute for Nuclear Physics in Krakow, Poland, is visiting with the Physics Department until September 15.

Brookhaven Laboratory is full of wonderful people.

With so many standing so closely, how could anyone fall!

We thank you.

Teresa, Deborah and Fred Van Dervoort

**Photographer Wins Photo Award Citation**

Robert F. Smith, Photography, has been chosen the winner of the Charles Foster Memorial Citation Award of the Biological Photographic Association.

The photo-micrograph of "Bone Metachromic Stain - Polarized Light" will be

Robert F. Smith

on exhibit at the 38th Annual Meeting of the association in Los Angeles, California, August 12-15, 1968. Smith will attend the meeting and will be presented the award at a formal ceremony presided over by the national awards chairman.

**Letters To The Editor**

Dear Sir:

In a recent letter to the Bulletin Board it was asserted that strict gun control measures would, in effect, deprive the average citizen of needed protection and recreation while at the same time encourage hardened criminals to victimize vulnerable households. I must take exception to this view on several counts.

One, I disagree strongly that a gun control law would not significantly lessen the number and types of firearms available to the criminal element. If a permit for all firearm acquisition was made mandatory, and adhered to by all major distributors, it is true that all Americans would find it difficult to buy guns, but the criminal, without necessary credentials to be granted a license, should find it much harder, not easier, to buy a gun than the honest citizen with an unblemished record.

Two, law enforcement officials nationwide have stated time and again that they do not consider the average citizen competent enough in the use of firearms to be afforded any real protection in their mere possession. In fact, the average citizen is often far more dangerous to those around him than to a suspected intruder.

Three, in any case, it is a tragic facet of modern life that far more murders are committed exactly by this "average citizen," either accidentally or in a mentally unbalanced state, than by professional criminals. Today, an average citizen like Oswald or the Central Park sniper can buy a gun anywhere. Should this be allowed, would this be allowed, with effective control legislation?

The anachronistic "right" to bear arms is no longer viable in a society as interdependent and complex as ours. We recognize the need to license cars, doctors - even barbers - for the public interest. Is this interest being served by shameful and continued neglect in the area of gun control?

Andrew Blake Fogarty

Dear Sir:

While I have learned from experience not to expect very much from the BERA film series, last night's offering of avant-garde films showed such unusually execrable taste as to require comment.

The idea of avant-garde suggests subject and technique that are fresh and unestablished being used to make some statement about individuals or society. Last night's dreck failed all three ways. Most of the films were made in the 1950's (which had the side effect of the actor's clothes being outlandish and laughable by recent standards), the style was sufficiently lacking in novelty to resemble silent films, and the subject matter concerned such significant, fresh, up-to-date topics as elderly derelicts and wish-fulfillment fantasies.

The films were far too ludicrous to relate to or to see any relevance in. Only two of the offerings were of any interest, one because it was slightly reminiscent of "The Graduate" and the other because its style is now occasionally seen on TV. As a whole, the evening was far too boring and cretinous to be laughed at, let alone enjoyed. There are several theatres in New York City which show real avant-garde and I recommend some research before another attempt at this is made.

Joel Koplik

**Name-The-Field Prize Waiting**

The judges will have a hard time picking the winner in the contest for naming the recreation fields. Many score of entries have already been received, but there is still time for sending in a winning name.

In response to demands from many people who will not be able to attend the Softball Special on August 27, the *Bulletin Board* has gone back to the original plan of publishing the name of the contest winner in the August 22 issue.

Tomorrow, Friday, August 9 at 2 p.m. is the official deadline for entry in the contest. No entries received after that time will be considered. If you haven't entered yet, hurry in with the winning name. Remember, the prize is \$25 cash, enough for a dinner for two at a good restaurant, or all of the fixin's for a deluxe backyard barbecue.

## Fife and Drum Corps at Track and Field Night

It was a fun night - a great evening of frolic and games. Both parents and children came away smiling from the BERA Recreation Program's Track and Field Night. There was food, drink, prizes and entertainment on Thursday evening August 1st. The evening was highlighted by a spectacular performance of the Bayport Fife and Drum Corps.

It was a sight to behold as the red-and-white clad corps went through the drills which make their every step a notable event. The Corps, dressed in colonial costumes, played and marched to what can be described as truly "American Music". This alone was a pleasure in our day and age - a little bit of the old America returned to the BNL Site.

### BERA Film Series

Thursday, August 15 - 8:00 p.m. - Lecture Hall

#### The Finest Hours

This is an exceptionally well made documentary based on Winston Churchill's memoirs and narrated by Orson Welles. Not a critical appraisal of Churchill, but rather a fascinating tribute to a great man, produced with patience and enthusiasm, dignity and occasional humor. Much of the footage was culled from newsreels, specially processed for color, though a considerable amount of excellent shooting was done for the film. It encompasses Churchill's entire career showing him as a man of tenacious loyalty, courage and energy - one of the great men of our age. The film is so well made that it could serve as a textbook on how to make a biographical feature.

—Harvard Lyman

No short subject.

**Movie Tonight:** The Tenth Victim; "Two."

#### Sink or Swim

The Recreation Office will offer a course in adult water instruction. We plan to gear the program to accommodate all ability levels. If you are a non-swimmer, join us; if you can paddle and want to improve your stroke or develop new strokes, join us. Ocean safety demonstrations and instruction will be offered. **Water knowledge can protect your family.** We are never too old to learn or improve.

The registration fee, payable at the Recreation Office, for the course is \$6, and the deadline date for registering is August 9th. Lessons will be from 5:30 to 6:30 p.m. on the evenings of August 12, 13, 14, 19, 20, and 21st.

8 - 292 - 68

8-284-68

The children participated in sack races, three-legged races and relay races and were awarded ribbons and ice cream for their efforts. The parents on the other hand, enjoyed the food, drink and the chance to say "That's My Kid" when a race was won.

The two hundred people who attended the affair wish to thank the Bayport Fife and Drum Corps for a great performance and the BERA Program for an outstanding evening.

8-285-68

## Aquatic Carnival Special

As a grand finale to top off a big year, an Aquatic Carnival has been scheduled on Thursday evening, August 22nd, from 7:00 to 9:30 p.m. The Carnival will be opened to all children in the Morning On-Site Recreation Program and those taking Swimming Lessons.

Events will include diving, inner tube derby, cage ball scrimmage, relay races and penny fetch.

Because of this Special Event the Pool will be closed at 5:00 p.m. Remember the big night - Thursday evening, August 22nd.

## Second Terpsichorean Success

Tuesday, August 6th, the Recreation Building bulged with writhing bodies perambulating rhythmically to the sounds of Tony Forlano's great group.

The "partyers" varied from the young to the ageless. Everyone retired to their respective abodes exhausted from dancing and "middle hurting" from laughter.

Next one? Tuesday, August 13th. Fifty cents, three Francs or twenty-five Ruples will get you in.

Special admission price for girls - two for one dollar. See you Tuesday - 8:00 P.M.!

## Hey There!

What are you doing for fun? Have you thought about bowling?

The BNL bowling season starts the week of September 9th. Our leagues are ABC and WIBC sponsored, and are handicap. Newcomers are always welcome, and our teams from last year are reminded that priority date this year is Friday, August 9th.

Keep those applications and entry fees rolling in. And remember, August 9th is almost here!

## Beachcomber Rally Set

Saturday, August 10, is the night! Registration is at 5 p.m. and the first car will be off at 6 p.m.

Starting at Oakdale Lanes parking lot on Montauk Highway, Oakdale, BLAST's next rally - "The Beachcomber Rally" - will lead all comers on a merry tour of eastern Long Island ending up at beach - who knows where? Included in the entry fee (\$4.00 BLAST members, \$5.00 others) will be liquid refreshments and charcoal fires for cooking. The only thing you have to do is bring your own food, a car, and be prepared to have a good time.

Pre-registrants receive dash placques. See or call Stan Anderson for further information (Ext. 2411 or 581-0950) and/or pre-registration.

## Money Balloon - Yeah!!

The children hit the water with dollar signs in their eyes. It was another Friday Pool Special and colorful balloons were floating harmlessly in the water. The date was August 2nd and the gang had rested all week for that big "dive for the dollars".

Over ten dollars was awarded to the two hundred and fifty children who massed at the pool for the BERA Special. The trick was to dive in and beat your neighbor to the balloon and then get the balloon out of the pool without breaking it. Each balloon was numbered and each number was money to be earned. A broken balloon was worth only two cents.

The gang had a wonderful time, made some money and cooled off. Several of the group immediately began preparing for next week's special, The Inner Tube Derby.

## Tennis News

Dates for the championship competition in the BERA tennis tournament have been selected by the tennis committee. Each championship match is scheduled to begin at 5:15 p.m. on court number 1 on the date indicated.

### Senior Men's Singles - August 9

Kevy and Bookless are the finalists. During the past week, Kevey eliminated Collins 6-0, 6-2, and Bookless defeated Schaeffer 6-1, 6-0. On form, this should be a close, hard fought contest.

### Men's Singles Open - August 14

One more match in the second round, and two in the third, remain before all the semifinalists will be known. Competition since July 29 has produced these results: 2nd round; **Elmore** - Dernback, 6-1, 6-1; **Palmedo** - Ascarelli, 6-1, 6-2; **Brandon** - Richberg, 6-0, 6-1; **Bookless** - Passell, forfeit; **Kevey** - Mariscotti, 6-2, 6-0; 3rd round; **Rosenberg** - Garelick, 6-0, 10-8; **Kevy** - Bookless, 6-2, 6-2

### Mixed Doubles - August 19

Two 2nd round matches were completed: **Palmedo & Stangby** - Marimuttu & Buckner, 6-3, 7-5; **Rosenberg & Faust** - Sompayrac & Nelson, 6-0, 6-2.

### Men's Doubles - August 21

First round, **Marimuttu & Wallace** - Baron & Richberg, 6-4, 4-6, 6-4; **Garelick & Michael** - Seewald & Watkins, 6-1, 4-6, 6-2. 2nd round: **Palmedo & Ames** - Sears & Van Norman, 6-3, 6-1; **Rosenberg & Stein** - Merkle & Elmore, 8-6, 6-3; **Kevey & Auskern** - Marimuttu & Wallace, 6-1, 6-2.

### Ladies' Singles - August 28

Second round: **Faust** - Dorning, 6-2, 6-1; **Stangby** - Johnson, 13-11, 3-6, 6-1.

Larry Passell had to bow out of competition this year, having injured his ankle during first round mixed doubles play.

Trophies will be presented to the finalists immediately after the championship match in each event. Come out to watch the moment of truth!

## Football Notes

by Jack Brennan

Only two weeks left to get your group together for the B.N.L. Football Leagues. Deadline for entry is August 23, and each entry must be accompanied by a \$10 entry fee. A minimum of seven players is required to enter a team, maximum roster - ten, shift workers - twelve.

The game is a non-blocking sport, depending on a passing game. So, round up seven of your fellow workers and \$10, and you might end up with a trophy. Season begins August 28.

## More Graffiti 6-1595-68

Wheeled graffiti is displayed in all its glory by this bug. Other forms of wheeled graffiti can be seen traced in the dust on trucks and cars parked around the Lab.

## How's Your Rearview Mirror?

Do you feel depressed at the end of the day?

It may not be just a feeling - you may indeed be depressed. Dr. Peter Kyropoulos of General Motors said a person can be almost an inch shorter at dinner time than at breakfast.

As a matter of fact, in some instances the change in height is so noticeable in some people that they find they have to readjust the rearview mirror in their automobile before they drive home at night although the position was just fine in the morning.

Results of a study conducted by GM showed the change in height occurs when the spinal column relaxes and stretches during the sleeping hours and then compressed during the active hours of the day.

## Softball

Tom Lee

### Brookhaven League:

Blue Jays	21	Bubble Boys	4
Dirty Sox	8	Old Timers	7
Batmen	12	Medical	1

Blue Jays and Batmen remain on top with 5-1 records with Dirty Sox and Old Timers out of the race but still in a good position to spoil it for someone.

HR's B. Alster (Batmen) 2

### National League:

Mon. - Six Pax	14	Make-Ups	13
Potsareebies	9	Phoubars	5
Wed. - Make-Ups	7	Rat Pack	2
Pots	23	Six Pax	10
Pots	13	Six Pax	9
Metallurgy	11	Phoubars	2

The Six Pax won their third in a row stopping the League Leading Make-Ups. Our on-the-scene reporter, C. Murray, said the Pax were a mixture of T.N.T. and fire on this particular evening. The Potsareebies won their 4th in a row and are only one game out in the lost column. Make-Ups returned to form, out defending the Rat Pack. Leonard Farnz was at the game. Metallurgy remained 1/2 game out by sweeping a double header. HR's - Brown 2, Bores, Carciello, Wilson (Potsareebies), Vail (Rat Pack), Vaughn (Make-Ups), Mastriion (Phoubars).

### Laboratory:

AMD	8	Mets	2
Deadwoods	15	Sharks	4

AMD has won the Laboratory League Championship with their 13th straight victory. The closest team this half has 3 losses with two games to go. Congratulations!

The Deadwoods, making a run for second, are tied with the Mets 3-3.

HR's for week - Lanigan (2), Helmig, Brennan, Feldberg (Deadwoods); Fisher, Taylor (AMD)

Due to the unavailability of the Captains of the Charlie Browns and the Converts, their scores cannot be reported.

## Classified Advertisements

### Positions Available
