

Youth And The Atom Is Conference Theme

Opening today in Chicago is the Twelfth Annual Youth Conference on the Atom sponsored by the Investor-owned Electric Companies, the National Science Teacher Association, and the Future Scientists of America.

Dr. R.C. Anderson, Assistant Director for Scientific Personnel at BNL, is again serving as scientific consultant to this three-day science seminar.

Attendance at the conference is limited to a select group of approximately 800 students and teachers who have demonstrated their superior skills in science.

The purpose of the conference is to present to this most able group an authoritative and inspiring picture of the promise of the peaceful atom in its various applications and to help advance interest in the study of science in the United States.

The Patterns of Nature, and Man and Energy, will be the conference themes. The first half of the program is based on the strong intellectual appeal that man's view of his position in the world is a result of successive scientific revolutions. The second part of the program, Man and Energy, will describe energy resources, energy production and energy utilization.

In addition to attending formal meetings and seminars, students and teachers will make field trips to Argonne National Lab, the National Accelerator Lab, and the Museum of Science and Industry.

United Nations Festival

Brookhaven National Laboratory personnel and their families are invited to attend a United Nations Festival on Saturday, October 24, 1970, from 1:00 to 4:00 p.m., at the Setauket Neighborhood House, North Country Road, Setauket. The Festival, sponsored by the North Brookhaven UN Day Council, celebrates the 25th anniversary of the United Nations. Admission is free.

There will be educational booths and exhibits, including one of dolls of all nations, and UNICEF greeting cards will be sold. The entertainment includes folksinger Hedy West, Black Gold (an African dance group), Scottish Dancers, a fashion show of international dress, and more.

IBEW Meets Next Week

The next General Meeting of Local 2230, IBEW will be held October 29, at 8 p.m. in the K of C Hall, Railroad Avenue, Patchogue. The agenda for the meeting will consist of general business and reports from committees, as well as a report from Delegates to the IBEW Convention in Seattle, Washington.

Conversations In The Park Debuts On Channel 21

Conversations in the Park, a Channel 21 (WLIW-TV) series of individual portraits of personalities whose lives and work have affected the Long Island community, debuted on the Long Island community station on Tuesday, October 6. The eleven-part series hosted by Robert L. Payton, President of C.W. Post College will be aired on a regular basis on Tuesdays at 7 p.m. and again on Wednesdays at 8 p.m. for maximum viewing.

Mr. Payton's guest in the premiere program was Robert Moses, former chairman of the Triboro Bridge and Tunnel Authority. In a stimulating and provocative half-hour, Mr. Moses reflected on his past positions as Director of the New York World's Fair and as president of the New York State Parks Commission, and gave his views on both highway and housing planning, on the "master plan," on pollution and other issues of interest to Long Islanders.

Dr. Raymond Davis Jr., BNL scientist from Blue Point, discusses moon rocks and the scientific detection of the neutrino on October 27 at 7 p.m., October 28 at 8 p.m. and, for daytime viewers, October 29 at 3:30 p.m.

Daylight Savings Time Ends

The Witching Hour is 2 a.m. on Sunday, October 25 when time stands still for an hour while witches and goblins prepare for next Saturday's Halloween celebration. Each fall, at the end of Daylight Savings Time, clocks are set back one hour to resume Eastern Standard time, and at the same time provide an hour for the witches and goblins to do their thing. Photographer Mort Rosen talked a friendly witch into posing for this moonlight view of the HFBR to illustrate the theme.

French Group Meets Tuesday

For its next meeting the French Group plans an informal reading (in French) of Jean Anouilh's comedy "Le Bal des Voleurs" ("Thieves' Carnival"). This play contains 9 major roles (6 men, 3 women) and a few minor parts. Everyone is welcome to participate or to just listen and have a good time. We have several copies, but if you happen to own one, bring it along. Admission \$1.50 for non-members.

Day: Tuesday, October 27

Time: 8:15 p.m.

Place: Cafeteria-Conference Center

Shoreham Hearings Resume

The hearings of the Atomic Safety and Licensing Board of the AEC, for the Shoreham Nuclear Power Plant will reconvene on Monday, October 26 in the auditorium of the Planning Building of the Suffolk County Center, Hauppauge.

Safety Glasses

There will be no dispensing of safety glasses during the weeks of October 26th and November 2nd due to the optician's vacation. For emergency equipment, contact the Safety Office.

3600 HS Students Review Our Work

When the gates opened for visitors early on Saturday morning, several dozen busses were already on line waiting to be directed to the parking fields.

Inside each bus was a critical audience of high school students and teachers who were coming to Visitors' Day to look at our exhibits, and find out what BNL is really all about.

By the end of the day the verdict was rendered. BNL had passed the review with flying colors, and was judged by students and teachers alike to be "right on" with research.

Although the crowd was smaller than the one that came last year, the students were more attentive, and their questions were more technical and searching.

More than 190 high schools and junior high schools sent delegations from all over Nassau and Suffolk counties as well as from as far away as upper New York State, New Jersey, Connecticut and Pennsylvania. While most of the groups came in busses, hundreds of private cars came singly and in convoy bringing students and teachers to BNL's annual science fair.

After checking in at the reception center in the lobby of Berkner Hall, first order of business was a walking tour that went first to the Chemistry Department, then to the Exhibit Hall, and finally to the Gymnasium before boarding busses for a tour of some research areas.

According to the figures supplied by the cafeteria management, the walking tour and the bus ride was instrumental in working up a good appetite. By the end of the day, 3301 people had gone through the food lines and had consumed the following:

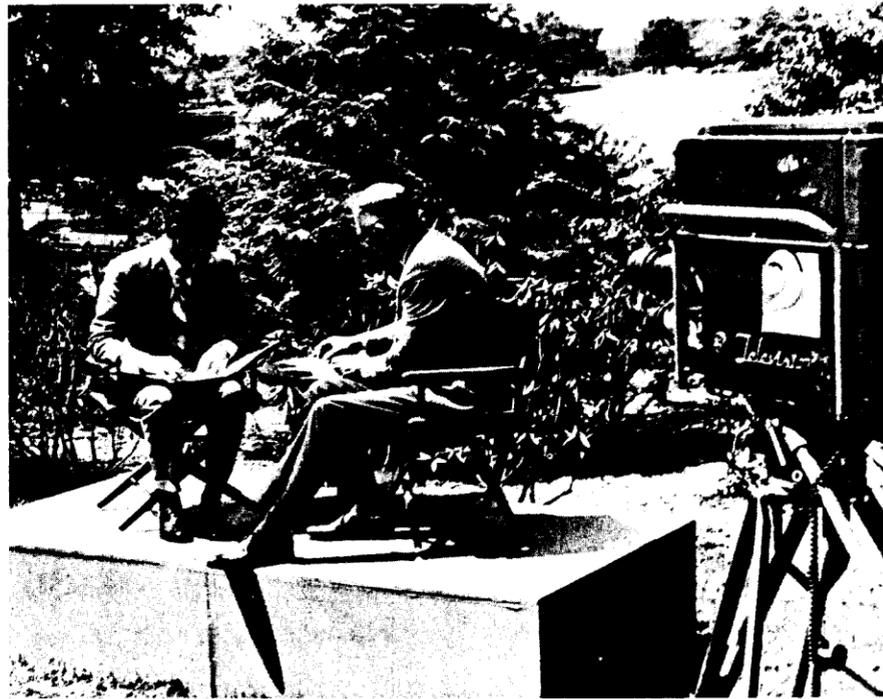

- 1890 Hamburgers
- 550 Frankfurters
- 465 sandwiches
- 965 cookies and cakes
- 804 candy bars
- 1320 Ice cream cups, pops, and sandwiches
- 1236 cans of soda
- 500 Hot chocolates
- 100 cups of tea

and . . . last but not least,
1152 cups of steaming hot coffee.

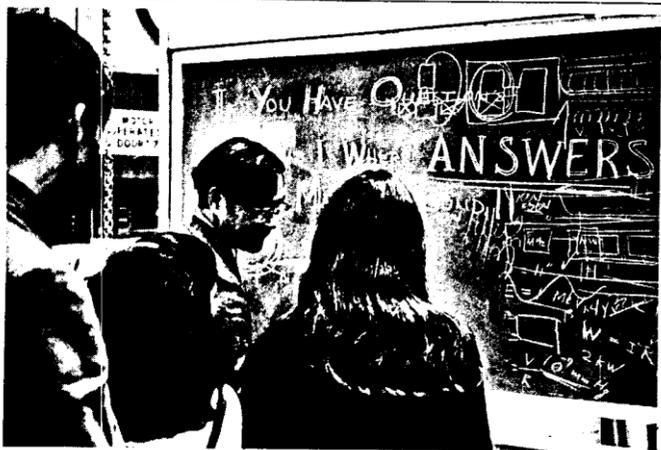

The hot coffee amount was not at all surprising in view of the fact that the thermometer registered a low of 27 degrees during the day that was marked by several short snow flurries, and frequent gusts of icy wind that chilled everyone to the bone.

By the time the last bus was dispatched at 3 p.m., all of the volunteer workers who had been manning the exhibits since early morning were beginning to feel a bit tired. As the last visitor left each exhibit area, first reaction was to find a seat and a cup

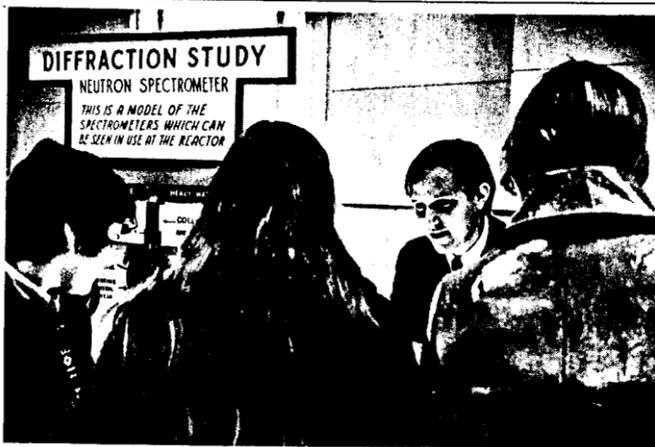

(continued on Page 2)

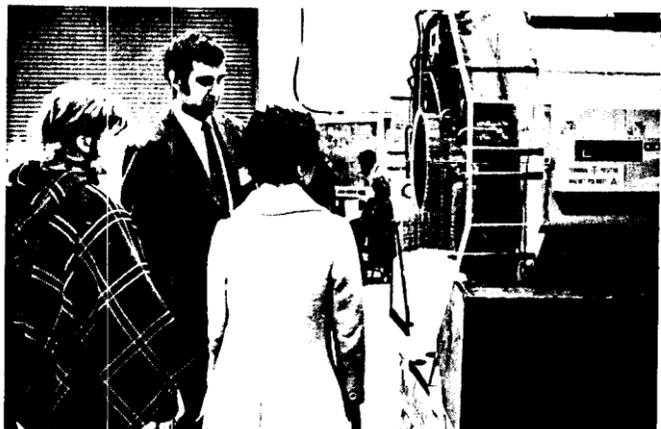

Robert Payton, President of C.W. Post College, is shown interviewing Raymond Davis, of BNL's Chemistry Department. The taped interview will be shown on Channel 21 on Oct. 27, at 7 p.m.

At the AGS, Ching Lin Wang uses the blackboard to supply answers to some of the questions that were asked.

Neutron diffraction is an easy subject to understand if you listen carefully to Vincent Minkiewicz of Physics.

At the AGS exhibit in the East Experimental Building, Michael Sheehan shows a magnet to a group.

Loretta Kelly of Applied Math draws as much attention as does the exhibit she is explaining.

Visitors were fascinated with the Medical exhibit in the Gym.

High School Visitors' Day Cont'd

of coffee before even thinking of going home.

At the Reception Center, things kept moving right up till 4:30 p.m. until the last visitor had been loaded into a vehicle to leave for home.

It was a rewarding day for the many monthly employees who volunteered to man the exhibits, and they all had the satisfaction of knowing that their efforts had been appreciated.

Next week on October 31, the whole procedure will start again. General Visitors' Day will attract a lot of Cub and Girl Scouts, Senior Citizens, and a lot of the families of Lab employees. Tickets may still be obtained for next Saturday by calling Extension 2357, or stopping by at the Administration Building, Room 117.

Paul Craig of Physics gives a practical demonstration of cryogenics.

Ray Davis, Chemistry, stands inside his lab to answer questions. At right, Sid Thompson, also of Chemistry helps out with explanations.

Bob Brown of Meteorology tells it like it is at the exhibit in the Gymnasium.

At the end of a long, satisfying day at BNL, a few stragglers race for their busses under a sky that was threatening to snow at any minute. As evening

shadows lengthened, the air turned colder and the wind picked up to turn cheeks red and make fingers icy. Hurry or you will miss your bus.

Letters To The Editor

Dear Sir:

As a member of the staff who had occasion to eat in the Cafeteria on High School Visitors' Day, I wish to register a complaint against that venerable eating place. I bought a hamburger on which the roll was literally hard as a rock. When I sat down to try to eat it, I noticed a lot of trays on which were left-over hot dog and hamburger rolls. All of these that I touched were also hard as rocks. What kind of public relations is this? Aren't the visitors to the Lab, as well as its regular employees, entitled to get what they pay for?

When I presented the roll to the Cafeteria manager, he informed me that the reason the rolls got hard was that they were warmed up and then left on the counter until the food was bought. I am sorry to say that I seriously doubt his good intentions. If the rolls had been fresh to begin with, there would be no need to warm them up. It seems that the Cafeteria management intentionally exploited the thousands of youngsters who came to visit the Lab. In fact, is it not possible that they are exploiting all of us who work here?

Fed Up

Cafeteria Menu

Week Ending October 29, 1970

Friday, October 23	
Clam & Celery Bisque	
Fried Stuffed Flounder	
Tartar Sauce & 1 Veg.	.90
Broiled Halibut w/Lemon & 1 Veg.	.90
Braised Meatballs w/Gravy & Mashed Potatoes	.80
Monday, October 26	
Vegetable Soup	
Round Roast of Beef w/1 Veg.	.80
Veal Pattie & Tomato Sauce w/1 Veg.	.80
Spaghetti w/Meatballs in Hunter Sauce	.75
Tuesday, October 27	
Puree of Split Pea Soup	
Baked Ham, Hawaiian w/1 Veg.	.80
Braised Chicken Legs w/1 Veg.	.80
Chili Con Carne on Rice w/Tossed Green Salad	.80
Wednesday, October 28	
Chicken Gumbo Creole Soup	
Beef Chop Suey on Rice	.80
Fried Filet of Sole w/French Fries	.90
Ravioli w/Cheese & Tossed Green Salad	.80
Thursday, October 29	
Turkey Noodle Soup	
Broiled Link Sausages w/Applesauce & 1 Veg.	.85
Baked Macaroni w/Cheese & Tomato Sauce	.80
Beefsteak Pie w/Vegetables & Biscuit Crust	.90

Selected Reading

Each week the Brookhaven Bulletin will list articles of general interest that have been received by the Research Library. Listings will follow the style formerly used in the Weekly Selected Reading List.

- Science 170, October 2, 1970
- The convergence of environmental disruption. M.I. Goldman. 37-42
- Academic protocol: From the G. Swinger Manual. D.S. Greenberg. 47
- The cosmos of George Gamow. W. Yourgrau. New Scientist 48, 38-9, October 1, 1970
- Environmental disaster. Acts of nature and man. Bull. At. Sci. 26, 17-41, October 1970

Zodiac Dance Set By BERA For Nov. 6

The Age of Aquarius was chosen by the Family Camping Club to be the theme of the next BERA dance. This happy event will be held at the Gymnasium on Friday evening, November 6.

We were fortunate in getting a Wayne Foster Orchestra to supply the music and entertainment for us again this year. Their toe-tapping rhythms are always a happy delight to BNL dancers. They will be playing from 9:00 to 1:00. That's four great hours of kicking up your heels.

Table reservations are now being made at the Recreation Office. Most of the tables accommodate ten people, so gather your friends together and make it a party. Obviously, reservations are also being made for smaller groups and couples. Tickets will be sold at the door if table space is still available.

Mixes and beer will be available at 25¢ a can. If you prefer, bring along your own bottle. Ice, potato chips and pretzels will be provided free of charge.

Of course we'll have door prizes. In fact, if you happen to be in the vicinity of the Recreation Office in the next few days, stop in and see the prizes on display.

Admission will be \$2.50 each for employees and escorts and \$3.00 each for visitors.

The age of Aquarius is with us. Make your plans now to join the merry-makers on November 6 and get in on the action.

All members of the Laboratory staff, Guests and Visitors are reminded that when any equipment or property in their care or custody is missing, they should promptly notify their supervisor who in turn will notify Security.

The Lion Roars . . . The Pride Listens

Director Shiela Buck stops rehearsal action to set the scene for a family confrontation in *Lion In Winter*. The cast includes: (left to right) JoAnn McGrath (Alais); Bob Kinsey (Geoffrey); Mike Lasquardo (Philip); Joseph Nardi (Henry); Richard Silberglitt (John); Graham Campbell (Richard) and Julie Peierls (Eleanor).

The Lion, of course, is the bluff, belligerent and boisterous medieval king, Henry II of England. His pride consists of his three hostile sons and his sarcastically vindictive wife. In countering their strategies to thwart his plans for his succession, he operates so neatly that he might also be called the fox. But as a lion he applies his capacity for a loud roar and a generally forceful attitude. The son who is most vigorous in opposition is the one called Richard, who later was nicknamed the Lion-Hearted. The stakes in this game of family domination are high! The prize is a kingdom!

Tickets to *Lion In Winter* are now on sale at the Recreation Office, and soon will be sold through Departmental representatives. There will be three performances at the BNL Theatre on November 12, 13, and 14. All performances start at 8:30 p.m. Tickets are sold to employees and family members for \$2.00 each, guests \$2.50, and those under 18 for \$1.00

Stony Brook Events

A wide range of movies - including a children's feature, a "New Wave" classic, and a filmed physics lesson - highlight events open to the public at the State University of New York at Stony Brook, from Friday, October 23 through Thursday, October 29. Unless otherwise indicated, the events listed are open to the public without charge.

Friday, October 23

The Committee on Cinematographic Arts begins its "Anti-War Film Festival" with "Grand Illusion" at 8 p.m. and "Fires on the Plain" at 10:30 p.m. in the Union Theatre, admission \$1.00.

A rock concert by Delaney, Bonnie and Friends and The Allman Brothers will be sponsored by the Student Activities Board at 8 p.m. and 11 p.m. in the Gymnasium, admission \$4.00.

Saturday, October 24

A Children's Folk Music Festival will feature Stony Brook student performers at 3 p.m. in the Upper Lounge of the Stony Brook Union.

Monday, October 26

A filmed physics lecture on "The Great Conservation Principles" by Prof. Richard P. Feynman, Nobel Laureate and Professor of Physics at the California Institute of Technology, will be shown at 4 p.m. in the Physics Building, Room 137. Prof. Feynman gave his lecture before an audience of non-experts.

Tuesday, October 27

Biology Professor Eric Carlson will lecture on "Eugenics: Its Future," discussing proposed solutions to the increasing load of mutations created by technological and medical progress, at 7 p.m. in Room 100 of the Lecture Center.

As part of an Anti-War Film Festival, "Paths of Glory" starring Alec Guinness will be shown at 8 p.m. in the Union Theatre, admission \$1.00.

Wednesday, October 28

Dr. Thomas Altizer, director of the Program in Religious Studies, will speak on "Zen Buddhism" as part of his "Fundamentals of Religion" lecture series at 7 p.m. in Room 110 of the Lecture Center.

Continuing his series on "The World-View of Modern Physics," Professor Clifford Swartz will discuss "Internal Energy of Microstructure" at 7 p.m. in Room 137 of the Physics Building.

Thursday, October 29

Speaking on "The Literary Works of William Blake," English Professor David Erdman will examine the poet's illuminated, color-printed Songs and Prophecies in the context of the French Revolution and the Napoleonic Wars at 7 p.m. in Room 102 of the Lecture Center.

The Gregg Smith Singers will perform works by Bartok, Robert Schumann, Ives, Telemann, Webern and William Schuman at 8:30 p.m. in the Union Theatre, admission \$2.50.

Francois Truffaut's autobiographical "Four Hundred Blows," a New Wave classic, will be shown at 8:30 p.m. in Room 100 of the Lecture Center. Tickets may be obtained in Room 294, Administration Building, between 2 and 10 p.m., Monday through Wednesday.

Here and There

Claire Lamberti

M.M. Small (PE&P) recently participated in a contractors' meeting, "Optimizing Plant Services in AEC Laboratories" held in Richland, Washington.

Dr. Harry Palevsky (Physics) is spending a year at CERN in Geneva representing BNL on the Exchange of Personnel Program.

Jerry Hudis (Chemistry) is Director of the In-Service Institute for High School Chemistry Teachers to be conducted in the Chemistry Building each Monday evening from September 28, 1970 through May 1971. Lectures on various topics in inorganic, physical, organic, and nuclear chemistry will be given by Norman Sutin, Ralph Weston, Alfred Wolf, and Jerry Hudis (all Chemistry). Approximately 25 Senior High School Chemistry Teachers from Suffolk County will participate in this program, which is supported by the National Science Foundation and the AEC.

Dr. Robert E. Chrien (Physics) has been reappointed Secretary of the Nuclear Cross Section Advisory Committee for one year.

Mortimer M. Elkind (Biology) recently visited the M.D. Anderson Hospital and Tumor Institute in Houston, Texas and gave a talk entitled "What form of damage to DNA (single breaks?) is responsible for cell death."

Robert Steele (Biology) accepted a re-appointment for one year as Adjunct Professor of Pharmacology at the New York University School of Medicine, New York City, effective September 1, 1970.

Football Notes

by Jack Brennan

The Gazelles won the Touch Football League by walloping the Phoubars 66-0 as Jim Hooper, Andy Fogarty and Ed Gill took in seven of the ten T.D.'s. The Gazelles were led on offense all season by the passes of Bob Casey throwing to Hooper, Fogarty, Gill, Greg Ogeka and Leslie Lawrence. Dave Schweller and Joe Manzi filled in on offense. On defense Bill Crockett did the rushing, Gary Hughes and Ogeka played the corners, Hooper the middle, Casey and Fogarty were the deep men.

The Hi-Balls came on strong at the end beating the Staggering Six, Phoubars and Bio-Meds big. The Slow Pokes beat the Bio-Meds to clinch second place.

Standings	Won	Lost
Gazelles	6	0
Slow Pokes	5	1
Hi-Balls	4	2
Bio-Meds	3	3
Red Dogs	2	4
Staggering Six	1	5
Phoubars	0	6

Proud Father Reports On Football Player Son

Jim Ryan, Central Shops, was a proud father two years ago when an article in the Brookhaven Bulletin told about his son Jimmy, who was selected Football Player of the Year by a Suffolk Newspaper.

This year Jim Ryan is still a proud father, but this time it's because Jimmy is now a varsity player for Dartmouth. As a defensive tackle on the Dartmouth team, Jimmy will be playing against Harvard this Saturday, and can be seen at 1:30 p.m. on Channel 8. Jim assures his friends that his son is still keeping up his studies as well as doing a standout job on the gridiron.

Basketballers: Take Notice

A reminder to all basketball teams to get your applications and entrance fees into the Recreation Office by October 29th.

If you don't already have an application form, pick one up at the Recreation Office.

Join the players pool if you don't have a team. Do this by calling Extension 2808 and giving your name and department.

Games will be played on Thursday nights and the season will be about 15 weeks long.

Bowling News

Grace Fales

Red League

The fireflies took over high team series with their 3032. B. Sylvester bowled a new high gross series of 718 and R. Nelson took over high average with his 186. Both guys are members of the Old Timers. Even though the Alphas lost all 7 points, they are still in first place while the Alley Cats and the Phoubars are fighting for last place. 200 Club for the night were B. Sylvester 214, N. Combatti 208, S. Kiss 204, N. Parinello 203, and J. Baranosky 200.

Green League

High games for the night were reported as B. Danaher 245 (League high), E. Meier 206, 219/576 series, R. Skelton 242, C. Bohensch 226, R. Meier 213, J. Baer 203 and R. Larsen 213.

Pink League

Rosalie Piccione was last week's star with a 220/490 scratch series. The Bio Boozers dropped from 1st to 3rd place, with the Medigals and Hopefuls tied for first. High games for the night included Grace Fales 186, Ellie Murgatroyd 176, Ruth Petit 160, Betty Jellet 161, Marge Stoeckel and Jo Gazzola 144. Rosalie Piccione and Grace Fales are tied for high average of 149.

Black & Blue League

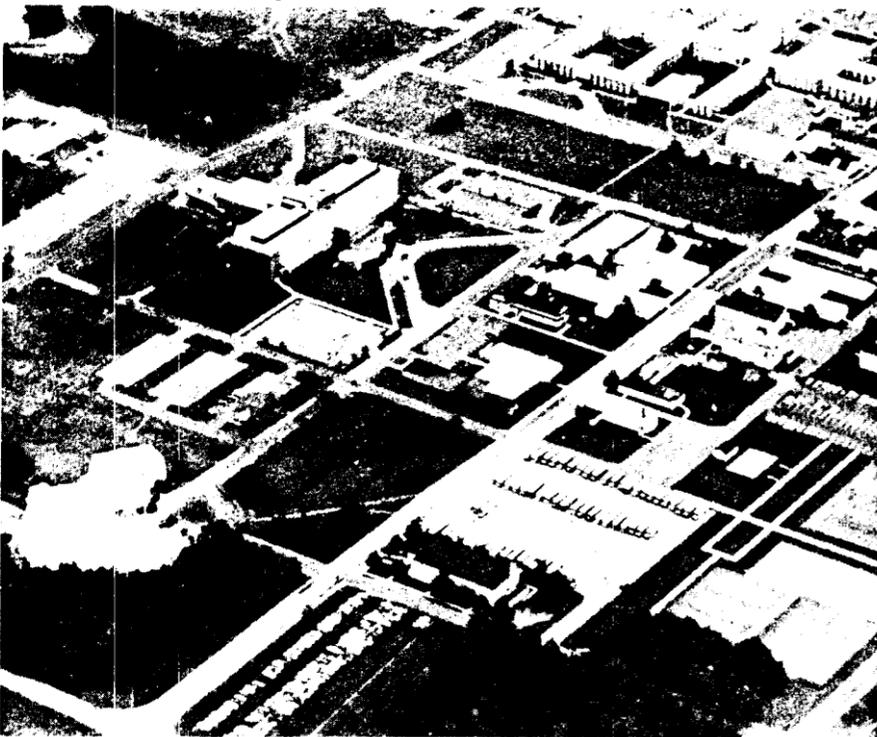

No report this week - guess it was all fun and no games.

Moon Rock In Nassau Display

BNL's 12-gram fragment of Lunar Sample #10057 was on display last week at the Mid Island Shopping Plaza in Hicksville. The display was sponsored by Navy Recruiting, and in addition to the lunar sample featured a display from Grumman. During the three days of the display, more than 15,000 people stopped by to get a close look at BNL's moon rock. On Visitors' Day, October 31, the moon rock will be on display in the lobby of the Chemistry Building where an estimated 6000 people will get a chance to examine closely an object that is truly "out of this world."

Air View On Saturday

This air view of the Lab taken an hour after the gates opened at 9 a.m. on Saturday, shows many busses parked in the Theatre parking lot. Private cars were directed to the field to the west of the Theatre where they parked on the grass. Arnold Roesch of Physics made this photo from a private plane flying 2000 feet above BNL.
