

National Science Board Issues Fourth Report

The President has transmitted to the Congress the fourth annual report of the National Science Board, "The Role of Engineers and Scientists in a National Policy for Technology." The report was prepared by the 25-member policy-making body of the National Science Foundation.

The report calls for a national commitment to the technologies of peace as strong as have been the commitments over the past three decades to the technologies of war, defense, and space.

Toward that end, the Board urges:

— A new Federal Government role in stimulus and support of research and where desirable, development in American industrial technology;

— The provision of adequate means of technological assessment as a balance for that stimulus;

— Major efforts to enlarge and focus the contributions of science and engineering toward finding solutions for complex societal problems.

In a letter of transmittal to the President, Chairman H.E. Carter of the National Science Board said the report "carries forward an exploration of one of the most important questions of our time: how science and engineering, through technology, may be brought to bear most effectively on societal problems."

The report offers five recommendations. Summarized, they are:

1. Government aid in support of basic and applied research both in those mature industries where such activity is lagging and in technologically advanced industries which are not providing support for it at an adequate level.

2. Government aid for research and development in technologies needed for improving the provisions of public goods and services.

3. The launching of major efforts by groups of full-time professionals of outstanding competence to develop approaches to long range solution of major national problems.

4. Federal and industry initiatives to enhance public understanding of technology, by programs in and out of the classroom, in order to strengthen the public's capacity for informed decision-making on issues having technological elements, and for enhanced satisfaction in use of technology in daily life.

5. The creation of new capabilities for technology assessment, the fostering of a new awareness and understanding of the nature and potential usefulness of those capabilities among the public generally, and the widest possible dissemination of the findings of assessment as they become available.

Administrative Intern Deadline Approaches

The last day for filing an application for the Administrative Intern Program is Friday, April 28. Applications received after the deadline date will not be considered by the selection committee.

Two qualified minority individuals will be selected to participate in the program in management techniques.

Qualifications for candidacy include a bachelor's degree in a field related to the activities of the Laboratory, or the equivalent in experience.

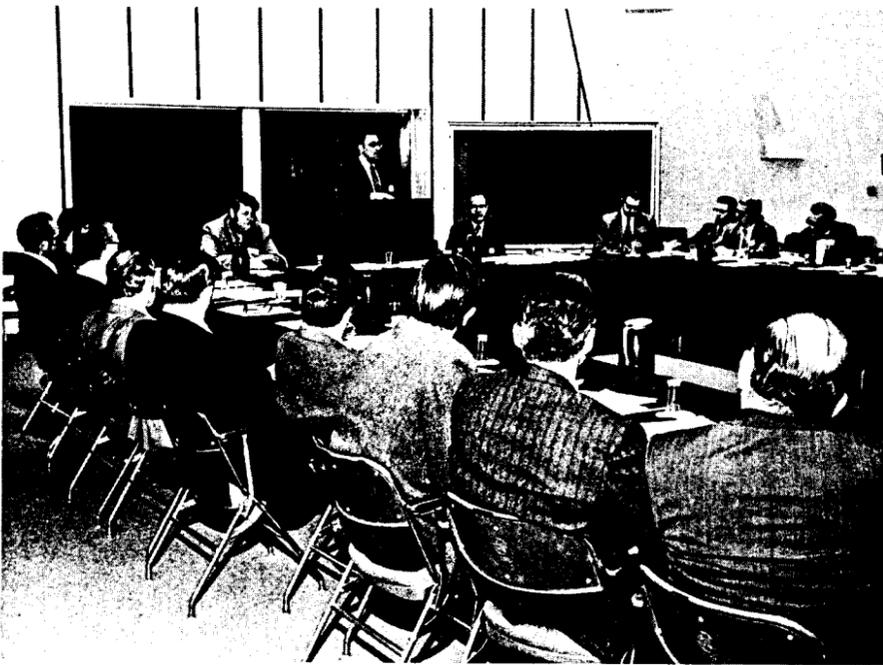

Employees wishing to be considered should send a letter of application to Mr. Joseph Washburne, Personnel Manager, Building 185. The letter should contain a brief statement of the applicant's educational and career objectives.

Radeka To Head Instrumentation

Robert Chase, Head of the Instrumentation Division has gone to Orsay, France on a two-year leave of absence.

As of April 10, 1972, Dr. Veljko Radeka has become Head of the Instrumentation Division for a term of three years. He will report to Deputy Director George Vineyard.

RAP Session At Berkner

Representatives from eight northeastern states, the District of Columbia and the AEC met last Thursday in Berkner Hall to discuss the Radiological Assistance Program (RAP) for which the on-site AEC Area Office has been given responsibility for the northeastern part of the United States. RAP is designed to help out in radiation incidents requiring trained personnel and specialized equipment not normally available in the local area of the incident. Many BNL personnel have been designated members of the RAP team, ready to go anywhere when called. Locally, David Schweller, Chief, Operational Safety, Brookhaven Area Office, heads the RAP effort. He is assisted by Arnold A. Weintraub, Radiological Assistance Coordinator. The states represented included Connecticut, Maine, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. Lyman Bryan, Manager of the AEC Brookhaven Area Office, welcomed the visitors to BNL.

Among the RAP visitors here last week were F.R. Zintz, Acting Chief, Emergency Planning Branch, AEC, Washington; David Schweller, Chief, Operational Safety, Brookhaven Area Office, AEC; Charles Meinhold, Head, Health Physics and Safety Division, BNL; and Richard Hede, Radiological Defense Officer, Office of Civil Defense, Region I, Maynard, Massachusetts.

Talented Young Scientists

Maurice Goldhaber, Brookhaven's Director (left) poses with some of the finalists of the thirty-first annual Science Talent Search for the Westinghouse Science Scholarships and Awards. The eight young people, all from the New York City area, came to Brookhaven as Dr. Goldhaber's guests, to see some of the research and machines at BNL. The youngsters are, from left: David Cholst, Regina Gortych, Dora Lee, Alan Grenadir, Tony Horowitz (seated), Susan Landau, Gary Swergold, and Gwen Seitman.

Minority-Owned Firm Gets Lab Contract

For the first time in the history of Brookhaven National Laboratory, a wholly minority-owned and operated construction firm, Modernized Building Corp., is working as a general contractor under a contract with Brookhaven on the Laboratory site.

This has been accomplished under a new and unique Operating Procedure developed by the Purchasing Division as part of the Affirmative Action Program. This Procedure was designed to assist, inform, and educate minority construction firms in the intricacies of bidding, establishing eligibility for bonding and performing federally-funded construction work. Many of the minority-owned firms are literally too "overwhelmed" to bid a government construction job because of the size and complexity of the bid package and the often voluminous requirements of the job as spelled out in the specifications and drawings.

Most of these firms do not have the experience or the paper "know how" to apply for the bid packages. Further, they do not know how to fill out the bid forms and are almost completely unfamiliar with the "small print" in contract documents. If they were to bid a job without this knowledge, they could either put themselves into bankruptcy by bidding too low or price themselves out of the market by bidding too high. This is the dilemma which these contractors face — and the dilemma which BNL proposes to break. Under the new procedure BNL can render such needed guidance to the minority contractor in the form of assistance in the preparation of his bid, including technical clarification of the specification by the Plant Engineering Division, as well as giving him a practical course in government contractual requirements by the Purchasing Division; help in obtaining the required bonds after the firm is awarded the job; close supervision of the job by PEP Division's field engineers during the course of the work; and maintenance and control of the cash flow to the contractor in the form of progress payments for work completed.

The procedure is the first of its kind within Government procurement regulations. It enables the Laboratory to engage potentially qualified minority firms in demonstration projects for the purpose of counseling and developing them to become fully qualified sources who can be solicited to compete with other firms on an equal basis for government construction work, at Brookhaven or elsewhere. The cumulative effect resulting from this will be the broadening of the competitive base for the Laboratory and a contribution toward the fulfillment of the Director's commitment to do everything possible to further Equal Opportunity.

The Purchasing Division wishes to acknowledge the help, encouragement, counseling and approval of the Director's Office and the AEC Field Office as well as the AEC Operating Office in Chicago and AEC Germantown. This project could very well become the model for similar action by other AEC installations and by other Government Agencies.

Modernized Building is headed by Al Wilkins, President, and Thurmon Jones, Vice President and Field Superintendent. All of the crew from Modernized and the six subcontractors are Suffolk County residents.

The model project involves the remodeling of the Purchasing Division building both inside and outside to develop more efficient office space and to provide a new entrance. The work started on March 20, and in spite of bad weather, has been progressing on or ahead of schedule.

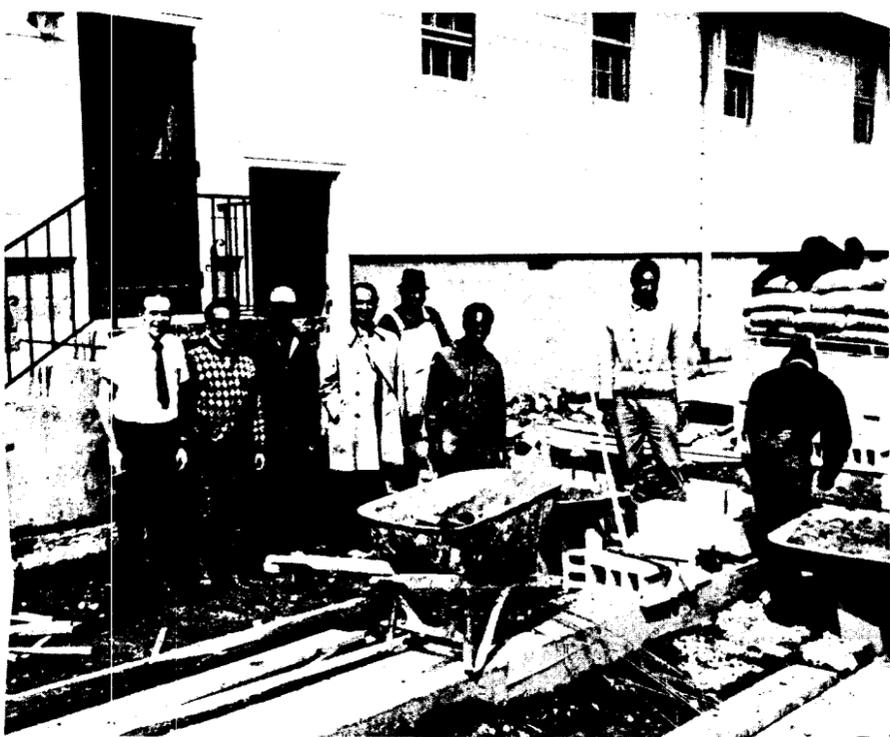

Planning for the demonstration project has been underway for ten months, and has involved consultations with officials of the County Human Rights Commission, CORE, the Patchogue office of the Equal Opportunity Commission, and the Workers Defense League, as well as Brookhaven and AEC people.

(Pictures on Page 2)

Purchasing Modernized

New entrance for Purchasing being constructed by a minority-owned construction firm. In addition to the new entrance, considerable work will be done to the interior of the Purchasing building on Brookhaven Avenue.

A few days after the start of the Purchasing job, this group assembled to watch the start of cement work. From Left are: Bill Rogers, EEO Compliance Officer, Purchasing; Peter Chen, Assistant to the Director, Affirmative Action; Thurmon Jones, VP and Field Superintendent, Modernized Building; Hank Johnston, Executive Director, Suffolk County Human Rights Commission; and Mason sub-contractor Howard Brevard.

Gemmell Concert

A recital by James Gemmell, concert pianist, will be presented by the Bay Area Friends of the Fine Arts on Sunday, April 23, at 5 p.m. at the home of Mr. & Mrs. Norman Elliott, 20 Bergen Lane, Blue Point, N.Y.

A graduate of Oberlin Conservatory of Music, Mr. Gemmell will receive his Master of Music degree from Juilliard in June, and will then pursue professional study with Ania Dorfman. Mr. Gemmell appeared last year as a guest soloist with the Baffa Symphony Orchestra, and in 1970 in a concert at Brookhaven National Laboratory; he is the son of Lee Gemmell of Instrumentation.

Proceeds from this chamber recital will go toward the special fund for the purchase of a new grand piano for James Wilson High School in Bayport, N.Y.

For information on tickets, call Norman Elliott, Ext. 679, or HR 2-0644 or EM 3-6596.

CREF Unit Values

1971

Here and There

Claire Lamberti

Robert L. Chase (Instrumentation) was Program Chairman of the 13th Scintillation and Semiconductor Counter Symposium held in Washington, D.C. on March 1-3; **Veljko Radeka** (Instrumentation) presented a paper entitled "Some Advances in Analog Computation on Pulse Signals from Radiation Detectors."

J. Fajer (DAS) presented an invited paper at the Conference on the Chemical and Physical Behavior of Porphyrin Compounds and Related Structures, held in New York on April 3-6; the title of his paper was "Electron Spin Resonance Studies of Porphyrin Cations."

William A. Higinbotham (Instrumentation) received the 1971 Annual Nuclear Science Award of The Institute of Electrical and Electronics Engineers, Inc., in recognition of professional leadership in the field of Nuclear Science and Instrumentation.

I.N. Tang (DAS) presented a paper at the 163rd American Chemical Society Meeting held in Boston, April 10-14; the paper, entitled "Hydration of Lead Ions in the Gas Phase," was co-authored with A.W. Castleman, Jr. (DAS).

A.W. Castleman, Jr. (DAS) introduced the subject of ion induced nucleation at the International Workshop on Nucleation Theory held at Clark College in Atlanta, Georgia, April 10-12; his paper on "Clustering About Ions: Bond Energies, Structure, and Relationship to Embryo Formation" was co-authored with **I.N. Tang** (DAS).

Stony Brook Events

Spring Festival/Alumni Weekend, with a carnival midway featuring adult and children's rides, games and entertainment tops the bill of activities open to the public at the State University of New York at Stony Brook this week. Unless otherwise specified, events listed are open to the public at no charge.

Friday, April 21

Spring Festival opens, with a carnival midway open from 6:30-10:30 p.m. on the Administration Building Mall.

A beer fest, featuring the music of the Henry Strichodt German Polka Band and 15¢ hot dogs, beer, soda and pretzels, begins at 9:30 p.m.

The original uncut version of "King Kong" will be shown at 1:30 a.m. in Roth Cafeteria for night-owl film fans.

Timothy Eddy, a performing artist-in-residence at the University, will perform works on the cello at 8:30 p.m. in the Stony Brook Union Auditorium in a presentation of the Department of Music's Professional Artist Series. Donation, \$1.50.

The Department of Theatre Arts presents "Mime '72," a demonstration in the Marcel Marceau mime technique by Assistant Professor Tom Neumiller and Ralph Zcelka, 8 p.m. at the University Theatre on the South Campus, on Friday and Saturday night.

Saturday, April 22

Spring Festival/Alumni Weekend continues, with the carnival midway open from 1-10 p.m. on the Administration Building Mall.

The movie "Woodstock" will be shown at 7:30 p.m. and midnight in the Women's Gym. Admission, \$1.00.

An evening of "Latin Sounds," with Latin band, hispanic food and drink begins at 9 p.m. in G Quad Cafeteria.

Lon Chaney stars in the silent version of "The Hunchback of Notre Dame" in a night-owl showing in Roth Cafeteria at 1:30 a.m.

Sunday, April 23

Spring Festival/Alumni Weekend continues, with the carnival midway open from 1-10 p.m. on the Administration Building Mall.

Comedy classics by the Marx Brothers, Charlie Chaplin, W.C. Fields, Laurel and Hardy and Buster Keaton will be screened in the Stony Brook Union Auditorium, beginning at 1:30 p.m.

An outdoor "mini rock concert" featuring "Rain," "Villa, Amy and Eric," and the Black Gold Dancers, begins at 2 p.m. at the duck pond on Roth Quadrangle.

The University Band, Simon Karasick conducting, presents their Spring Concert at 8:30 p.m. in the Gymnasium.

Alec Rubin's Theatre of Encounter presents an evening theater event and sensory celebration, at 9 p.m. in the Stony Brook Union Ballroom. Admission \$1.50.

Monday, April 24

The Stony Brook Chamber Orchestra, Arthur Weisberg conducting, will perform in concert at 8:30 p.m. in the Stony Brook Union Auditorium.

Tuesday, April 25

Dr. Peter Goldmark of Goldmark Communications, who pioneered in the development of color television, invented the long-playing record, and devised a videotape cassette system which may revolutionize home entertainment, will give a lecture on some of his work at 8:15 p.m. in Room 100 of the Lecture Center. Formerly with CBS Labs, Dr. Goldmark will speak in a presentation of Stony Brook's Center for Contemporary Arts and Letters.

Wednesday, April 26

The New Jersey Percussion Ensemble will perform at 8:30 p.m. in the Stony Brook Union Auditorium, as part of the Department of Music's Professional Artist Series. Donation, \$1.50.

Thursday, April 27

Professor Stephen Pepper of Johns Hopkins will give a critique on bourgeois art entitled "From Modernism to Modernity" at 7:30 p.m. in Room 226 of the Stony Brook Union.

Wolfgang Staudte's film, "Der Untertan," will be shown by the Center for Continuing Education at 8:30 p.m. in Room 100 of the Lecture Center, followed by Leontine Sagan's "Maedchen In Uniform."

The University Chorus will perform in concert at 8:30 p.m. in the Stony Brook Union Auditorium.

Cooking Exchange Notice

There will be no Cooking Exchange meeting on April 20. The next regular session is scheduled for Thursday, May 4, when the cooking demonstrations will be conducted by children.

The World Of BNL

This week The World of BNL will feature Dr. Harold Atkins in the first part of a two-part program on the use of radioisotopes in medical research.

The World of Brookhaven National Laboratory is broadcast every Sunday over WBLI-FM (Patchogue 106.1 on the dial) at 8:15 a.m., and over WGLI-AM (Babylon 1290 on the dial) at 11:15 p.m.

BROOKHAVEN BULLETIN

Published Weekly for the Employees of Brookhaven National Laboratory

Letters To The Editor

Dear Sir:

Since the Lab is now collecting computer paper for recycling, I wonder if it would be possible to set up a center where employees could bring in their old newspapers for recycling.

—Kurt Jellett

Arrivals & Departures

Arrivals

Wing-Chee Lam Accelerator

Departures

Morris F. Gottfried Security
Frank J. Lawrence Applied Science
Robert A. Lorelli Mech. Engrg.

AEC Retiree

Alfred K. Huse, U.S. Atomic Energy Commission, retires on April 21, 1972 after 20 years of service with the Federal Government. He received his B.M.E. from CCNY and an Army Reserve Commission. He devoted his first 14 years to research and development in positions of senior project engineer, chief engineer, production head, and was consultant to BuAer on rocket engine design in 1946-7 on the XS-1 airplane now in the Smithsonian Institute. He joined the AEC in April 1952 at Oak Ridge and came to Brookhaven in October 1954. He held positions of administrative officer; chief of safeguards; reactor engineer; nuclear materials, classification security and contract representative on the LMFR program; and staff assistant to Area Manager on research programs. He is a member of the SAE, ANS, INMM, AIAA and the Professional Engineering Societies.

Did You Win?

Check your pockets, and forget those lottery tickets with a 100,000 to one chance. In BERA's 100 to one lottery for tickets to the Duke Ellington concert, two winners have been chosen from the first 100 tickets sold!

Ready for the winning numbers? Here they are: Seat Number D-106 and D-110 are the lucky winners! Each is eligible for a full cash refund from the Recreation Office.

Take your winning ticket to George Sabine, and he will refund the full price paid for each of the winning seats.

All you have to do after that is to go to the Duke Ellington concert on June 13 and enjoy a delightful concert with some of the best musicians around.

Ellington is a musician who has been around for a long time, spanning the years from the big band-hotel date era to the most recent poll in Playboy magazine. As composer, musician and as band leader he has consistently been on top of the list for the past couple of decades, and still commands premium prices for his concerts.

Tickets are still on sale at the Recreation Office for BERA members at \$5.00 per person. The sale to the general public starts on Tuesday, April 25. Buy your ticket now, and be "up Front" with the Duke!

Cafeteria Menu

Week Ending April 27, 1972

Friday, April 20

Fish Chowder	
Fried Fillets of Sole w/Tartar Sauce & French Fries	.95
Codfish Cakes & Spaghetti	.80
Baked Beef Loaf w/Savory Gravy	.85

Monday, April 24

Cream of Tomato Soup	
Breaded Pork Chop w/Applesauce & 1 Veg.	.95
Beef Ravioli w/Parmesan Cheese & 1 Veg.	.90
Beef Livers w/Smothered Onions & 1 Veg.	.85

Tuesday, April 25

French Onion Soup	
Salisbury Steak w/Brown Gravy & 1 Veg.	.85
Frankfurters Rolled in Bacon w/Baked Beans & Cole Slaw	.85
Sliced Turkey & Stuffing w/Cranberry Sauce & Giblet Gravy	.90

Wednesday, April 26

Vegetable Soup	
Chinese Pepper Steak on Rice	.90
Old Fashioned Chicken Pie w/Biscuit Crust	.95
Flounder Stuffed w/Crabmeat, Tartar Sauce & 1 Veg.	.90

Thursday, April 27

Turkey Noodle Soup	
Grilled Monte Cristo Sandwich & Pickled Beets.	.85
Veal Pattie w/Noodles Oregano	.85
Braised Beef a la Mode & 1 Veg.	.95

The Cafeteria is now featuring nightly two hot Entree Specials from the grill.

Crown Controls Display

A product display sponsored by Crown Controls, Inc. will be held in the Exhibit Hall, 26 Brookhaven Avenue, on Wednesday, April 26, between 10 a.m. and 3 p.m.

The display will feature valves, tube fittings, regulators, and cylinders from Hoke, Inc.; Taylor Instrument thermometers and gauges; CE-In-Val-Co Liquid Flowmeters; Veriflo Regulators; and Valco Engineering Co. pumps and valves.

IBEW Meets April 27

Local 2230 IBEW will hold its regular monthly meeting at 8 p.m. on April 27 in the K of C Hall in Patchogue. There will also be an afternoon meeting for shift workers in the Union office at 31 Oak Street, Patchogue. On the agenda will be regular business and the President's report.

Hospitality News

Don't forget the morning coffee on Monday, April 24 at 10 a.m. to noon in apartment 8A.

Everyone is welcome - bring the children.

Basketball Champs

League Two Champs: Personnel. Seated: Tony Baltz, Dick Sutter, Bob Eisner, and Ken Ellis. Standing rear: Ed Taylor.

League One Champs: AEC. Front row: Marty Blume, Tim Henry, and Jack Brennan. Rear Row: Dennis Nordstrom, Robert Casey, James Hooper, and Greg Ogeka.

Bowling News

Grace Fales

Pink League

Bowling well on April 12 were: Mary Austin 163, Ruby Burwell 165, Helen Keeley 166, Josephine Gazzola 170, Renie Rosati 189, and Helen Caisey 177/520. The Spares won seven points from the Alley Oops and settled the battle for second place. The Fiscal Assets moved up one position by winning all seven points from the Pin-splitters. The Bioboosers won two very close games over the Hopefuls, who just about have first place all sewed up. Special event award winners were: Renie 189 scratch, Josephine 230 gross game, and Helen 634 gross series. After bowling was finished, several enthusiasts met in the lounge and formed a new organization... but that's another story.

Green League

Special Events awards went to E. Meier for a 237 high scratch game, L. Jacobson for a 244 high gross game, G. Guldish for a 630 gross series. R. Jones had the only other 200 game, a 200 right on the nose. Highest scratch series this week was E. Meier's 582. Congratulations to the Sandbaggers who clinched first place for the second half. May 2 promises to be a good match when the Designers meet the Sandbaggers for the Green League champion title.

Black and Blue League

Mention money and this League goes crazy!! Special Event winners were: High Scratch Game, Helen Caisey 210; High Gross Game, Lou Caisey 238; and High Gross Series, Bob Brown 656. For the ladies - Kit D'Ambrosio bowled a 165 and Ellie Murgatroyd followed with a 179. Helen Caisey was in a world of her own when she scorched the lanes with a 210

Basketball Night

The basketball season at BNL concluded its schedule with a social for all League participants at the Recreation Building. The evening featured all the beer and pizza the players could consume.

Awards were presented by Bob Fuchs, the Awards Committee Chairman and George Sabine to A.E.C., the League #1 champions, Andy Fogarty Captain and to Personnel, the League #2 champions, Ed Taylor Captain.

All of the "active" participants were presented their participation cards by George Latham of the Awards Committee.

James Hooper, League Chairman for the last two seasons, was given a round of applause for his tireless efforts on behalf of the Hoopsters. A special award from the players - 2000 BERA Merchandise Points - was presented by Les Lawrence of the BERA Executive Board.

Entertainment for the evening was provided by the Knicks, Nets and Rangers. Our players watched their players (via TV).

Sweater - BERA's Second Award

The BERA Awards Committee has begun a new policy for those persons who have earned more than three participation award cards. When you collect three cards which are stamped "Second Award," present them to the Recreation Office for your award. Currently the second award is a V-Neck Pullover Sweater in gold, backed with soft fleece and washable.

scratch game and 573 scratch series. Wow!! That's terrific bowling and we all congratulate her. For the fellas - Ben Belligan managed a 175, but was outdistanced by Dick Murgatroyd 181/473, Lou Caisey 209/484, Phil Borzi 191/488, Joe Mayeski 174/507 and Bob Brown 202/551.

BERA Golf

Just two weeks to go before the 1972 Golf Season gets under way. This year promises to be one of the most interesting and exciting with two types of competition - Singles League Play and Team League Play. Two chances to win, with your partner or on your own.

Tournaments will be held during the season and a buffet awards dinner ending the season. For further information contact Jim Conway at Ext. 7559.

If an application has not been mailed to you, one can be obtained by calling Jim Conway or picking one up at the Recreation Office.

Met Tickets

We still have many choice dates available for this season. We still have tickets available for April 23, May 5, 7 and 11 as well as many other choice dates throughout the year.

Toilet Articles

For your convenience, there is now a drug vending machine installed in the Brookhaven Center Club lobby. Articles such as combs, toothpaste, Alka-Seltzer and aspirin are available. Come have a drink, then try some of our cure-alls.

Walt Disney - Discount Cards

At The Recreation Office
9:00 a.m. - 1:00 p.m.

Arrangements have been made to provide special discounts to Laboratory employees and their families at Walt Disney World in Florida as well as Disneyland in California.

We now have "Magic Kingdom" Membership Cards which you may pick up (no cost) which will entitle you to discounts which range from 20% to 50% on rides, transportation system, park admissions and hotel accommodations (Florida only).

Specific price information is posted at the Recreation Office.

Swimming Pool Schedule

Open Weekdays Monday through Friday
12:00 noon - 1:30 p.m. Employees Only
(Must have Season Pass).

5:00 p.m. - 9:30 p.m.
Employees/Family/Visitors.

Rates

Season Pass	
Employee or Family Member	\$ 5.00
Family (Same Household)	\$10.00
Daily Single Admission	
Employee or Family Member	50¢
Visitor	75¢

(No Single Admissions 12 noon - 1:30 p.m.)

N.Y. Net Playoff Tickets

The Recreation Office has a limited number of tickets to the ABA Playoff Games between the Nets and the Virginia Squires at the Nassau Coliseum.

The games have been scheduled to be played on Monday, April 24, Wednesday, April 26, and if necessary Monday May 1.

Regular price is \$6.00 - BNL price \$5.00 - Students (through High School \$2.75). Game Time 8:15 p.m.

IAEA Openings

The following openings have been announced by the IAEA for a term of two years in Vienna:

Programmer/Analyst - In the Division of Scientific and Technical Information. To carry out systems analysis and programming primarily for data-processing applications in financial systems and administrative areas.

Senior Officer - In the Division of Research and Laboratories Chemistry Section. To formulate, initiate and supervise the Chemistry Section's program of information exchange and co-ordinated research related to the chemical aspects of the production and application of nuclear energy.

Details are available at the Office of Scientific Personnel, 40 Brookhaven Avenue.
