

## Retired And Still Working

LeRoy Jefferson is making good use of his retirement. Two days a week he returns to the Lab to offer a helping hand to employees who are striving to move into technical fields and who either lack basic training, or need refreshing, in mathematics.

This is not a formal classroom situation. In fact, Jefferson steers away from such a format because, he says, "many of the students have been turned off by school." They meet in the conference room at Personnel where Jefferson guides them through a math textbook and encourages them to discuss their particular problems.

Most of the students have moved into jobs as technicians from the custodial and clerical fields, and have varying degrees of skills. Harvey Thomas, Head of the Affirmative Action Office initiated this program, and with the cooperation of the Personnel Division, the pilot project went into being in February. Originally started as a program for minorities and women, word of the classes has spread, and they now encompass anyone who wishes help with math fundamentals.

The first class consisted of five students, three of whom had taken some junior college courses and two who had completed high school with emphasis on shop training. Basic physics was also studied, but was dropped in later classes as the primary need was for mathematics. Now the classes have increased to from 12 to 14 students. One group works in basic math, the second does preparatory work for intermediate

algebra, and the third is devoted to the study of intermediate algebra.

Jefferson comes to his latest career with a lot of experience behind him. He retired in 1973 and after 26 years at Brookhaven, as a Technical Associate in Nuclear Engineering (now DAS), where he worked on the polymer concrete and fuel processing programs. Although he attended Howard University for a period in his youth, he says that "my training has been a combination of Laboratory experience and home study courses."

Tutoring students is nothing new to him. His four children, now adults, have all earned their bachelors, and two have earned masters, degrees and he worked with them throughout their early school years. He also did the same for children of friends who could not afford to pay for tutors.

Math is a stumbling block for many students and Jefferson feels his role is to act as a bridge to help them get over their fear of this subject, and to pursue more formal training in this and other areas. The student selects the class level that best serves his needs and he can transfer to another class at any time. This keeps the classes fluid and there is no need to stop and go back whenever a new student enters.

Some of the students are enrolled in International Correspondence School courses and some are taking courses at the com-

## Branch Head Sought For Naval Research

The Naval Research Laboratory in Washington, D.C. seeks a Head for its Radiation-Matter Interaction Branch, one of four branches of the Radiation Technology Division. Although both experimental and theoretical physics are pursued, the present emphasis is more heavily on theory.

The candidate should have a comprehensive knowledge and experience in radiation effects, nuclear physics, solid-state physics, classical and quantum electrodynamics, electron beams, atomic physics, electronics, metallurgy, and the physics and chemistry of high explosives. He should be able to supervise other senior physicists and be able to present and defend the research in his branch.

Deadline for applications is December 31. Details are available from the Office of Scientific Personnel, 40 Brookhaven Ave., Ext. 3338.

## Postal Bulletin

With only three weeks remaining until Christmas, the following deadlines indicate the schedules for the mailing of cards and parcels in order to get them to their destinations on time:

Domestic Mails			
Contiguous 48 States			
Surface Parcels.....	Dec. 3		
Letters.....	Dec. 10		
Priority.....	Dec. 21		
Alaska and Hawaii			
Letters.....	Dec. 10		
Priority.....	Dec. 20		
International Mail			
	Air greeting cards	Air parcels	Surface greeting cards
Canada & Mexico	Dec. 20	Dec. 15	Dec. 8
South & Central America	Dec. 16	Dec. 11	
Europe	Dec. 16	Dec. 11	
Africa	Dec. 14	Dec. 9	
Near East	Dec. 14	Dec. 9	
Far East	Dec. 14	Dec. 9	

## A Wing-Ding For Ting

Nobel Laureate Samuel C.C. Ting was feted at Brookhaven recently on his first trip back to the U.S. since he and Burton Richter of Stanford won the Nobel Prize in Physics for 1976. The celebration started with a luncheon hosted by Laboratory Director George Vineyard. Later in the afternoon, at a ceremony in Berkner Hall, Mark Barton (above) Chairman of the Accelerator Department, presented Ting with an autographed album of photos commemorating the J-particle experiment, a plaque and a box of pumpkin seeds which, apparently, is one of Dr. Ting's favorite snacks. In his statement, Dr. Ting offered his thanks to the many Brookhaven people who assisted in the famous experiment and also expressed his appreciation for the help he received from ERDA and from Professor Frederic Epling, Associate Director of the MIT Laboratory for Nuclear Science. A champagne reception followed at the Center.

— photo by Rosen

## Concert Reminder

Two prominent young American artists will appear on Wednesday, December 8, at 8:30 p.m. in Berkner Hall. Flutist Paula Robison and pianist Ruth Laredo will present a recital featuring music by Bach, Schubert, Franck, Rachmaninoff (piano solo) and Leon Kirchner (flute solo).

Admission	
Regular.....	\$4.00
Students and persons over 65.....	2.00
Persons under 18.....	1.00

## Take A Vacation

Once again, as in past years, employees are encouraged to take vacations over the Christmas and New Year's Holiday. Due to the high number of employees on vacation during this period, vacant areas can be kept at a minimum safe temperature. Energy Conservation Coordinators are being asked to determine in which areas the heat can be turned down, and which sparsely occupied areas could be temporarily consolidated. This program was so successful during past holiday periods that our fuel oil consumption was about 22% less for these periods than would have normally been used.

## Candidates Sought For NSF Waterman Award

The National Science Foundation has announced that nominations are being accepted for the second Alan T. Waterman Award. In addition to a medal, the award carries with it up to \$50,000 per year for up to three years of advanced study in the mathematical, physical, medical, biological, engineering, social or other sciences at the institution of his or her choice.

Candidates must be U.S. citizens. They will normally be 35 years of age or younger, or for those who received the Ph.D. degree later in their careers, not more than five years beyond receipt of the Ph.D. degree.

Candidates should have completed sufficient scientific or engineering research to have demonstrated, through personal accomplishments, outstanding capability and exceptional promise for significant future achievement. In addition, they should exhibit quality, innovation and potential for discovery in their research.

Deadline for nominations to be received by the Award Committee at the NSF is December 31, 1976. Announcement of the Award will be made in May 1977.

Details are available from the Office of Scientific Personnel, 40 Brookhaven Ave.

## John Kelsch Dies At 58

John J. Kelsch, Instrumentation Division, died Friday, November 26, at his home in Stony Brook. He was 58 years old.

Kelsch had been in charge of the Microscopy Laboratory in Instrumentation since 1967. He came to Brookhaven in 1959 and spent eight years as a microscopist in Nuclear Engineering (now DAS) until he transferred to Instrumentation. He was the author of over forty papers on microscopy, from printing inks to fission fragments.

A graduate of Brooklyn College, Kelsch worked for a number of years with Interchemical Corporation in New York City and at RCA in Camden, New Jersey, before coming to the Laboratory.

He was a member of the Electron Microscopy Society of America, the New York Microscopical Society, the American Society for Metals, and the Organizing Committee of American Society for Professional Microscopists.

He is survived by his wife, Florence, and four sons.

## Her Way

In Suffolk County, 40,000 girls aged 6-17 benefit from the educational and recreational activities of the Girl Scouts - one of a dozen local youth service organizations, including the Boy Scouts, the Y's, and various supportive centers for youth development and counseling, that belong to the 97-agency United Way family.

Your United Way dollar goes much further because there are people like BNL's Marilyn McKeown - a Girl Scout volunteer for 12 years. "No wonder I'm in Girl Scouts," she says, "we have four daughters." A computer analyst in solid state physics, Marilyn started at the Laboratory in 1947, one year ahead of husband Michael who is in charge of the Tandem's ion source. Allowing time out for motherhood, Marilyn still has racked up 22 years at BNL.

"Scouting has done so much for our youth," says Marilyn. "The program provides a wide range of activities to help young people develop leadership and life skills and the ability to do things for themselves and others. We take fruit baskets to the County Infirmary at Thanksgiving, wrap gifts for the needy at Christmas, make Easter baskets and placemats for the retarded, and donate clothes for migrant workers. In Bellport and other communities near the Lab, not so accessible to Y's and other youth centers, scouting fills a real recreational need."

Another reason Marilyn has been so active: the great outdoors. "With Cadette and Senior Scouts I've done white-water canoeing on the Delaware River, cycling to Smith Point Park, and hiking in Harriman

Marilyn McKeown and some of the reams of material she must be familiar with as a Troop Consultant for the Scouts.

State Park near Bear Mountain." Scouting affords outdoor activities not very often offered by the schools, such as overnight camping.

How does United Way help scouting? For the most part, explains Marilyn, it goes for Girl Scout camps, "and scouting just wouldn't be scouting without camping. There's really no better way to teach young people to get along with each other, to accept responsibility, and to cope with being on their own from home." By the way, did you know that Girl Scout camps are open to non-members?

Marilyn has been involved with all levels of scouting except Brownies (grades 1-3). She spent seven years as a troop leader for the Juniors (grades 4-6), two years with the Cadettes (grades 7-9), and a year with the Seniors (grades 9-12). Now a troop consultant, she specializes in the training of Junior Scout Leaders. Within her Bellport-East Patchogue-Brookhaven unit, she works with new leaders individually on a one-to-one basis or, depending on need, with half a dozen. They learn about resource materials, troop management, and planning functions and outings. The Junior program awards achievement badges in such categories as first aid, camping, hiking, cycling, Native American lore, crafts and home economics.

People like Harvey and Marilyn have shown they care: More than \$25,500 from 433 contributors has been collected thus far in BNL's United Way campaign, report co-chairmen Barney McAlary and John Binnington. "The sum and the number of contributors have already outstripped the end results of last year's campaign, but we still have a long way to go to reach our goal of 50% participation and \$40,000," says Barney. John adds a big "thank you" to those who've given and a plea to "give what you can" to those who haven't. Your contribution is needed, and this year - because of the tremendous number of volunteers - almost 90¢ of each dollar given will go directly to helping people." If you've misplaced your pledge card, please call Payroll on Ext. 2487.

## His Way

On the job at BNL Harvey Thomas is Assistant to the Director for Affirmative Action. Off the job, Harvey has been working for dozens of years to enable blacks and other minorities to reach their full potential. In this connection, he devotes many hours to three United Way agencies: the Urban League of Long Island, the Suffolk

Harvey Thomas works with three United Way agencies.

Community Development Corporation, and the Long Island Sickle Cell Project.

The Urban League is a community-based agency serving minority groups and women in the areas of employment, education, housing and health. A member for 30 years, Harvey is concerned, in particular, that almost 40 percent of black youths, between the ages of 19 and 23, are unemployed. "If they're out of a job long enough," he explains, "they become unemployable because of losing out on training and educational opportunities." Harvey and others at the Urban League work to find and create these opportunities on a number of levels.

One is to close the gap between what the schools are offering and what industry needs. Career counseling and mini-courses updating the curriculum help. The National Urban League's skills bank in New York City helps. And, with requisite training in hand, practical advice on "how to get your foot in the door" helps. "Trying to move in, even on an entry level basis, can depress even the heartiest soul," says Harvey, "who is often told that he or she is 'underqualified' or 'overqualified'." What they want to know is how they can get "qualified" if no one will hire them. We advise them to seek summer and part-time jobs in their fields during the school year at industrial concerns, generate projects and acquire skills from professors who have funded projects, become members of professional societies, and of course make contacts.

The Urban League encourages educational institutions and industry to provide meaningful summer employment for teachers and professors from predominantly black schools.

In the area of eliminating discriminatory housing practices, Harvey has interceded with local banks to help blacks and women secure mortgages and loans. Discrimination is one thing; being able to afford a house is another. United Way helps here too.

Harvey is on the board of the Suffolk Community Development Corporation - a member agency whose aim is to secure housing for low and moderate income families. SCDC remodels and reconditions homes taken over for lack of tax payments. It then locates potential buyers who can move in with little or no down payment and pay rent which can be applied to the move-in purchase price of the house.

In the area of health, he works with the Long Island Sickle Cell Project which seeks to find ways to eliminate sickle cell anemia. This crippling blood disease affects mostly blacks and people from the Mediterranean.

The Long Island Sickle Cell Project provides education, testing, medical care, genetic counseling, referral, and follow-up for sickle cell and related blood disorders.

## Hospitality News

A morning coffee will be held Thursday, December 16, from 9:30 to 11:30 a.m., at the Brookhaven Center. The theme of this get together will be "Christmas in Other Countries."

Please come and bring the children. Babysitting will be provided at no charge. It is suggested that you bring along one or two toys for your children to play with.

## Cooking Exchange

The next meeting of the Cooking Exchange will be on December 8, at 12:30 p.m. in the Recreation Building. Our subject will be "Coffee Klatch Baking." We will attempt to answer the old question "What do I serve when it's too late for breakfast and too early for dessert?" To volunteer your favorite recipes for yeast breads, quick breads, muffins and coffee-cakes, call Marjorie Stone at 281-1169 or Judy Mills at 281-4472.

Everyone is invited. Babysitting is provided at 25¢ per child, and 75¢ will entitle you to tasting privileges.

Remember - our Christmas party is scheduled for December 15, from 12:30 to 2:30 at the Recreation Building. Bring a large plate of your favorite holiday sweet - cookies, candies, cakes or sweetbreads, along with the recipe, and plan to have a terrific afternoon!

## Sneak Preview

The program of the year is being produced by David Dew Hughes for the Tuesday, December 14 meeting of the Theater Group.

A British import with an impeccable ancestry has reached us via the underground and will be performed by a selected cast of established talent thus assuring all theater group members and friends of an evening of high humor - extremely high.

If you have an appointment with your solicitor, cancel it - if you are taking your wife out to dinner, postpone it - if you are having a swine flu vaccination, ignore it - if you are planning a rendezvous, renege. Let nothing interfere with the evening in Stage II beginning at 8:00 p.m. on Tuesday, December 14.

## Soirée de Chansons

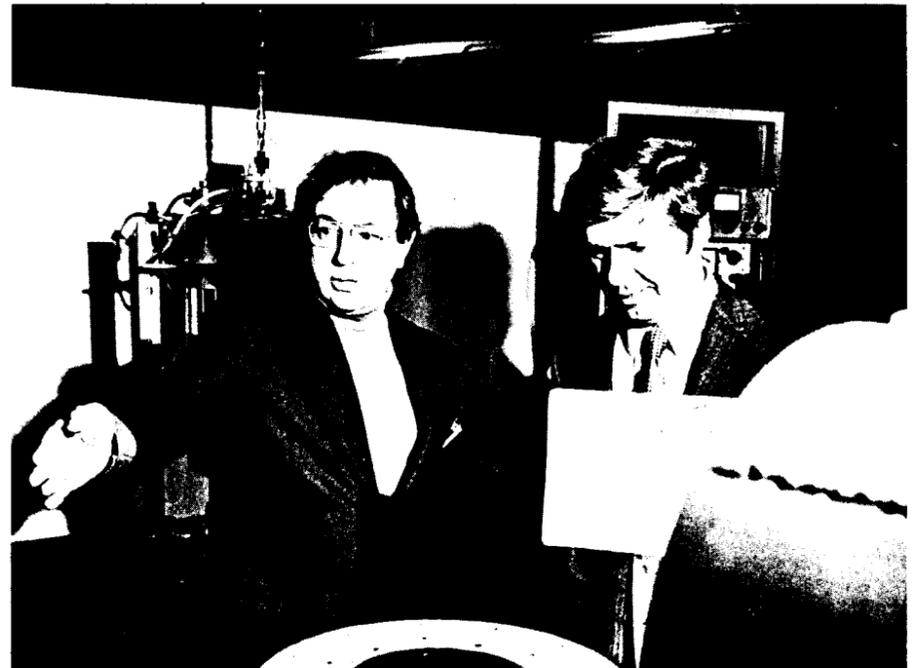

Sing your troubles away with the French Group of BNL, Friday, December 3. Personal and all-time favorite songs of France will be sung to guitar and accordion accompaniment as we herald in the yuletide season.

Knowledge of lyrics will not be necessary, however, (nor will the ability to sing on key), as many of the songs will be available on ditto sheets. As the evening wears on, requests will be in order and refreshments will be offered.

Throw your pitch pipe to the winds and join the would-be Jacques Brels and Edith Piafs of Suffolk for our "Soirée de Chansons," at 8:00 p.m., in the Recreation Hall.

Non-members of the French Group will be asked for a \$2.00 donation to help cover the cost of refreshments.

## Washington Visitor

Dr. J. Thomas Ratchford, consultant, Committee on Science and Technology, U.S. House of Representatives, visited the Laboratory recently. One of his stops was the HFBR where Martin Blume (left) Deputy Chairman of the Physics Department, showed him around.

## Swine Flu Day At The Lab

At the BNL Gym on November 30, 896 people showed up to receive their swine flu inoculations, out of 1,215 who registered. Everything went smoothly thanks to the capable administration of Gerald Kinne (Director's Office) and the personnel of the Medical Department. Employees between the ages of 18-24 who received a shot on November 30 are reminded to get a booster in four weeks at the BNL Clinic. For those who had previously registered and for one reason or another did not get an inoculation, vaccine is available at the BNL Clinic.

## Jefferson

(Continued)

munity college. Jefferson also helps them with study methods and comprehension. When questions come up in areas that he cannot answer, he refers the student to someone at the Laboratory who can.

In addition to their homework assignments and classroom discussions, the students have had tours of a few experimental areas and Jefferson would like them to see more of the Laboratory in action.

Jefferson's one-to-one approach is valuable; he reinforces the students' desire to learn and helps them over the rough spots. As one student says, "It is very rewarding. Much of what I had forgotten over the years has been brought back to me, and it has motivated me to study on my own. I hope that more people will take advantage of it."

Anyone wishing to enroll in the classes, or any member of the staff who can assist with tutoring or give a talk to the students on a particular discipline, should contact Jefferson any Tuesday or Wednesday on extension 2878.

## Christmas Concert

The Long Island Symphonic Choral Association (LISCA), with soloists and orchestra, will present a Christmas program on Saturday, December 11 at 8:30 p.m., in the Chapel of St. Teresa of Avila at St. Charles Hospital, Port Jefferson. Included will be *Variations on a Bach Chorale*, written by LISCA's director, Gregg Smith, to mark the chorus' debut on Long Island in 1968. Tickets, \$4.00; students and senior citizens, \$3.00. For additional details, call 751-1381.

# BROOKHAVEN BULLETIN

## Letters To The Editor

To the Editor:  
The Hospitality Committee would like to thank all those who attended its Tea and Sherry Party featuring "Grow Something Beautiful." Special thanks to the Biology Department and Staff Services Division for all their help; to Jane Love, Chairperson of the Theme Committee; to the Area Representatives, all the bread bakers, and those who helped pour the tea and coffee. With your help and cooperation our Tea and Sherry Party was a great success.  
Pat McKenzie-Wilson, and  
Ginny Thien, Chairpersons

## Parking At Stony Brook

BNL employees and guests may use any parking lots on the Stony Brook university campus provided their car has a valid BNL registration sticker, or if they are using a Laboratory vehicle. Temporary campus parking permits will no longer be issued by the BNL Transportation Office.

## Safety Shoes & Glasses

Responsibility for the control and administration of safety shoes and safety glasses is again a function of the S&M Division. The Safety Division will not be involved in this program except for the designation of tints for safety glasses to be used where job hazards effecting vision require the selection of specially tinted lenses.

Questions regarding footwear and spectacles may be directed to John P. Schneider, Ext. 2979. The new location for the issue of these items will be located in Bldg. 88 which is being readied for this purpose.

For the protection of the staff, any prescription three years old will not be accepted, or reproduction of present glasses made unless an eye test is taken at Medical and a certification is received by the optician that the wearer's present glasses meet his or her vision requirements.

It is necessary that all prescriptions for safety glasses plainly state whether the lenses are single vision, bifocal, trifocal, tinted, as well as indicating whether glass or plastic is being specified.

Glasses will be issued on Tuesdays,  
9 a.m. - 12 noon, 1 p.m. - 5 p.m.

Shoes will be issued on Mondays,  
1:30 p.m. - 4:30 p.m.; and  
Thursdays, 9 a.m. - 12 noon.

## Get Fire Protection

Today, December 3, will be the last opportunity to order fire extinguishers and a smoke detector through BERA at a substantial saving.

The units will be on display today for the last time between 11:30 a.m. and 1:30 p.m. at the Cafeteria.

## Grow Something Beautiful

Under the chairmanship of Ginny Thien and Pat McKenzie-Wilson (cutting the cake above) the BNL Hospitality Committee held their Fall Tea and Sherry Party at the Center recently. The tea featured an exhibition of many varieties of indoor plants, as well as demonstrations of dried flower arranging, terrariums and how to make macrame for hanging plants. Photos by Rosen

## Sports News

### Bowling

#### Red League

11/16/76: The big news this week was the battle for "the bird," the annual turkey shoot. W. Rasmussen (229 game, 569 scratch and 701 gross) took the honor, while winning his 678 club award. His bowling sparked the Cosmos to the highest team series of the season thus far, 3091 pins. W. Kollmer led the Bubble Boys to victory with a 256 game, 609 scratch and 687 gross. He was a close second for the turkey, but did win his club awards for the year. T. Prach also bowled well. His 203 game and 680 gross series won him a club award, but no bird. Good bowling guys! J. Scesny had a good night with a 229/206 for a 625 scratch. R. Marlow had a 224 game and J. Dioguardo came in with a 221.

11/23/76: After eleven weeks of bowling, the Anachems still have a four point lead. Counting position night there are still 55 points to be had, and anything can happen before the half winner is decided. High games for the night were E. Gill 222, A. Pinelli 214, R. Adams 209/200, M. Bull 209, J. Ferrero 206, L. Newman 203, R. Meier 202, J. Dioguardo 202, T. Prach 201, and J. Connelly 201.

#### Black & Blue League

11/17/76: Congratulations to Pat Lebitski and Lew Jacobson on winning their club awards. Pat earned her 666 club award with a 682 gross series, and Lew qualified for the 600 and 678 awards with a 615 scratch and a 705 gross series. The turkey was won by Irene Sperry. High games were Lew Jacobson 211/245, Pat Lebitski 181/189, Marshall Bull 209. The high gross pots were won by Lew Jacobson 275 and Pat Lebitski 237.

#### Purple & White League

11/18/76: The Good Guys took seven points and remain in first place. The Plutoniums also took seven and are now in second place. June Polistina was high for the women with a 199/451. Nice games also by Ruth Duffy 170, and Gail Thompson 168. Jere Austin bowled a 213. Other high games were Ben Belligan 199, Hank Henck 190.

#### Green League

11/16/76: The Sparks took only three points this week but are still leading the pack by six points. The Pick-Ups struggled with three men but managed to take eight points from the Old Timers. The Blue Jays started to move up by taking eleven from the Trouble Shooters. Tom Iarocci led the Jays with a bowling exhibition of 245/241/210 696 scratch and a 750 gross series. It was only fitting that Tom won the turkey with high high gross series. Other high games were B. Sick 209, H. Haller 203 and A. White 202.

11/23/76: The Sparks still maintain their first place lead by taking six points from the Cosmos. The Pick-Ups are still in second place as B. Sells had a 205 game. The Got-A-Hit-Ums moved into third place by taking eight points, as Nick Parrinello had a 200 game. The Blue Jays gave up eleven points to the Sandbaggers. The Charlie Browns are on the move as they took eleven points from the Super Cools. For the Pinball Wizards, C. Dodge had a 201 game.

#### Pink League

11/16/76: The Pinsplitters are still holding first place with the Personnelities in second. High games for the night were M. Stoeckel 185/160, M. Brenner 164, H. Keeley 161, A. Trubisz 156, C. Schuette 156, N. Netusil 152.

11/23/76: The Pinsplitters are holding their lead by six points. High games for the night were C. Beckner 189, K. Hunt 181/517 scratch, D. Pion 175, M. Brenner 498 scratch, C. Holland 166, R. Flack 165.

### Soccer

The indoor league will start play on Friday, December 10, at 5:15 p.m. sharp; entry fee \$1.

Interested players should contact R. Fairchild, Ext. 3649, or come to the gym at 5:15 on December 3, when pickup games will be played. Interested players should attend a meeting (bring your lunch) in the Cafeteria, Room B, at noon on December 8.

Patchogue Reserve beat BNL 1-0 at the Tremont School grounds on Sunday, November 28.

## Classified Advertisements

### Placement Notices

Each week the Personnel Office lists personnel placement requisitions, currently being processed. The purpose of these listings is, first, to give notice of all non-scientific staff positions being filled and, second, to give employees an opportunity to request consideration for themselves through the Personnel Office. In filling vacancies, the Laboratory's objective is to give first consideration to present employees, as follows: employees within the immediate group having the vacancy, employees within the department or division, employees within the Laboratory as a whole.

For further information regarding a placement notice, or to request consideration for an available position, contact Supervisor, Personnel Placement & Development, extension 2874 or 2882.

261. **TECHNICIAN** - AAS degree or equivalent in mechanical technology with experience in the operation, maintenance and repair of large helium refrigerators including their compressors and the assembly, test and operation of large complex mechanical devices. Experience with cryogenic magnets, storage dewars and the associated piping systems is particularly desirable. Accelerator Department.

262. **TECHNICIAN** - AAS degree or equivalent in electronic technology to perform maintenance, repair and modification, testing, operation, and construction of equipment and facilities relating to scientific investigations. Experience with vacuum systems desirable. Rotating shifts. Tandem Van de Graaff facility. Physics Department.

263. **SECRETARY** - Assignment involves operation of Redaction Word Processing Equipment, plus technical typing experience and knowledge of general office procedures. Department of Applied Science.

264. **HEAVY EQUIPMENT MECHANIC-OPERATOR** - Maintains, operates, and repairs all material handling, earth moving, road and ground maintenance and similar equipment, including complete repair and maintenance of gasoline and diesel engines and the use of required machine tools. Plant Engineering Division.

265. **SECRETARY** - Part-time position. Department of Applied Science.

266. **DRIVER (LIGHT)** - Supply & Materiel Division.

267. **OFFICE SERVICES ASSISTANT** - Temporary position requiring 4 - 6 years' clerical experience. Staff Services Division.

268. **HEALTH PHYSICS ASSOCIATE** - BS to MS degree or equivalent experience in radiochemistry and counting room techniques. Knowledge of environmental monitoring desirable. Safety & Environmental Protection Division.

### Autos & Auto Supplies

69 CADILLAC - Sedan deVille. \$940. Ext. 3267, 473-2594.

AIR FILTER - Lee #AFL-52, new, for most Chrysler 6 cyl 1960-72. \$1. Joe, Ext. 4212.

2 RIMS - 14", 5-lug for Olds. \$7.50 each. Joe, Ext. 4212/4640.

STEEL RADIAL TIRE - GR78-15, w/w, Goodrich Life-saver, good cond. \$10. Ext. 2492, 475-8658.

71 FIAT - 124 Spyder, 5 spd, Michelin radials, Craig power play stereo, excel cond, garaged. 758-9673 after 6.

57 FORD - 292, F500 flat bed, 12' bed, very good cond, 2 spd, rear tires good, asking \$650. 924-4693.

71 AMC AMBASSADOR - Wagon, auto, rebuilt trans, good tires & body, needs motor. Asking \$300. 924-4693.

72 CAMARO - 307 V8, auto, new trans, tires & brakes, am/fm, vinyl top. Asking \$1500. 924-7821.

73 YAMAHA - 350 cc, street bike. \$250. Marty, 283-0526.

71 MARK I MUSTANG - Smashed front, 302 auto, ac/ps/pb. \$300 or make offer. 283-0526.

14" RIM - 5-hole. \$5. Tony, Ext. 3658.

67 PONTIAC LEMANS - Running cond, needs some work. \$250. V. Racaniello, Ext. 4592.

69 VW - Customized mini-Rolls. Joe, 286-1137 week-ends.

71 AUDI - For sale in Dec. Ext. 3035.

VW TUNE UP KIT - For 64-67, fuse kits for VW, Opel, MG, Austin Healy, Volvo. \$65/kit. Ext. 3609.

2 TIRES - Firestone super belted, G78-14. \$20, good tread. John, 929-6341 after 5.

PARTS FOR DODGE VAN - Exhaust system, bumpers & grill for 71-4 Dodge van. \$10 ea. 281-4405 eves.

4 RIMS - 5-hole for Plymouth or Ford. \$5 each. 281-4405 eves.

74 HARLEY DAVIDSON - 175 cc road & trail, stand incl, very good cond. \$400. 281-4405 eves.

70 REBEL - 4 dr sedan, 6 cyl, auto trans, good running cond. \$475. Al Campbell, Ext. 3354.

HOLLY CARB - 650 double pumper, brand new, still in box. \$100. Mike, 878-2486.
