Brookhaven Lab Added Over $40 Million to the Long Island Economy in 2007

B

NL purchased $40.2 million worth of supplies and services from Long Island businesses in fiscal year (FY) 2007, a period from October 1, 2006 to September 30, 2007.

In addition, Brookhaven’s buying goods and services from Long Island vendors, most of the Lab’s approximately 2,700 employees live in Suffolk County and shop on Long Island. All told, employee salaries, wages and fringe benefits amounted to $281.8 million, or 53.6 percent of the Lab’s total budget of $530.2 million in FY2007.

Owned and primarily funded by DOE, BNL creates and operates major facilities available to university, industrial, state, and other researchers. BNL’s total procurement budget in FY2007 was approximately $181.5 million. Out of that amount, the Lab spent about $13.8 million on 467 purchases in Nassau County, and $26.4 million on 2,786 purchases in Suffolk County.

Leif E. Hedin, BNL’s Procurement & Property Management Office, which handles purchasing for the Lab on Long Island, said, “It is nice to know that when we manage the Lab’s $40.2 million budget, we are supporting Long Island businesses.”

Two High-School Seniors Win BNL 'Discovery' Art Prizes

Each year, Brookhaven Science Associates (BSA), the U.S. Department of Energy's manager BNL, and the Discovery Prize is annually to a local high school senior for artwork that best exhibits the spirit of scientific discovery. The BNL Art Society chooses the prize, which ranges from the artworks exhibited at a show for high school seniors held by the South Bay Art Association (SBA) each spring. The Laboratory Director Sam Aronson selected each the winner with a certificate and a $500 savings bond at the BNL Art Society & Crafts show held in February in Berkner Hall, where the winning art works were accorded the prize of honor.

The two winners of the 2007 Discovery Prize are Brittany Melton of William Floyd High School and Stephanie Sheehan of Longwood High School.

Said Robert Cherien, BNL Art Society President and SBA Treasurer, "To have become accustomed to the excellent standard in the high school seniors' artworks. Making a choice for a prize winner is a very difficult task, and all the students were to be congratulated, especially, this year, Amy Ilados of William Floyd and Melissa Busenitz of Longwood, the two runners-up among the students. Completing two works of art that we chose this year represent the ideals of science, and therefore are particularly suited to the Discovery Prize."
Want Help With Your Concerns? Try the BAC

H ave you exhausted all your avenues to get your concerns heard? Did you know that BNL has a diverse group of employees who are ready to listen? Why not seek the assistance of the Brookhaven Advocacy Council (BAC)?

The BAC is a key component of the Lab’s system of justice. The members advise and make recommendations to the Lab Director and management on issues that are brought to the BAC’s attention. The BAC has the authority to receive and respond to these concerns or issues and to seek resolution or recommendations, if appropriate.

Members have access to all pertinent, uncensored information, within BNL’s guidelines regarding confidentiality, to assist them in resolving these concerns or issues. The BAC functions independently of the Human Resources and Occupational Medicine Division, reporting directly to the Lab Director. For more information contact the Brookhaven Advocate, www.bnl.gov/bac.

CAR.getEntity() 

BAC members, who stand ready to assist lab employees at any time, can be contacted by calling Ext. 4345. The Brookhaven Advocacy Council (BAC) is:

Chair: Gretchen Cisco, National Synchrotron Light Source (NSLS), Ext. 4702; John Reddy, Information Technology (IT), Ext. 3284; BAC Secretary, 570-1113; Susan Wong, IT, Ext. 7988; At Borrelli, NSLS, Ext. 7749; Outreach Coordinator Barbara Blume, Community, Education, Government, & Public Affairs, Ext. 4400; Christine Lichen, Collins-Accelerator Department, Ext. 4872; Debra Petitt, Environmental & Waste Management Services, Ext. 3557; Aneta Angelou Malcolmb, Human Resources & Physics; Ext. 3532; and Betty Elder, Business Systems, Ext. 3562.

SENIOR ADMINISTRATIVE SECRETARY

**Description:**

- Experience: Full knowledge of the PeopleSoft travel system is necessary. Must be highly competent in secretarial skills and computer applications.
- Responsibilities: Must be familiar with the administration of the PeopleSoft travel system.
- Requirements:
  - At least 6 years' related secretarial experience at BNL in a similar role.
  - Must have had full knowledge of the PeopleSoft travel system.
  - Must be able to handle Secretarial/Word processing and computer skills.

**Application:**

---

**Postdoctoral Research Associate in Developmental Stem Cell Biology**

**Department:** CIATE

**Requirements:**

- Requires a Ph.D. in molecular biology and a background in bioinformatics, as well as experience in translational stem cell model system. Experience with Arabidopsis is a plus.
- Must have experience with high-throughput screening and drug design.
- Experience with cell-based assays and the analysis of high-content data is desired.
- Will evaluate the epigenetic sequence and the transcriptional activity of the neural progenitor cells.
- Will be involved in the design and implementation of large-scale high-throughput screening campaigns.
- Will be responsible for identifying and validating new drugs for the treatment of human diseases.
- Will be involved in the identification of novel drug targets.
- Will be involved in the development of new drugs for the treatment of human diseases.

**Application:**

Send CV to aaponte@bnl.gov, referring to Position No. FH 4918.

---

**Technologist (I-9) - Requires a B.S. in physics, computer science or related field.**

**Department:** CIATE

**Requirements:**

- Requires a B.S. in physics, computer science or related field. Must have experience in high-energy physics, experience in lattice gauge theory, experience in Monte Carlo simulation, and experience in the administration of Linux and SUSE systems.

**Application:**

Send resume to felicia@bnl.gov, referring to Position No. FH 5007.

---

**Open Recruitment**

**Department:** Media & Outreach

**Requirements:**

- Requires a Ph.D. in nuclear or particle physics, experience in model building and theory, and experience in the administration of Linux and SUSE systems.

**Application:**

Send resume to felicia@bnl.gov, referring to Position No. FH 5007.

---

**Administrative Assistant - Required to be able to work in a fast-paced environment.**

**Department:** Administration

**Requirements:**

- Requires a high school diploma and experience in clerical work.
- Must be able to type at least 40 words per minute.

**Application:**

Send resume to felicia@bnl.gov, referring to Position No. FH 5007.

---

**Administrative Assistant - Requires a high school diploma and 1 year of related experience.**

**Department:** Administration

**Requirements:**

- Requires a high school diploma and 1 year of related experience.
- Must be able to type at least 40 words per minute.

**Application:**

Send resume to felicia@bnl.gov, referring to Position No. FH 5007.

---

**Administrative Assistant - Required to have strong organizational skills.**

**Department:** Administration

**Requirements:**

- Requires a high school diploma and 1 year of related experience.
- Must be able to type at least 40 words per minute.

**Application:**

Send resume to felicia@bnl.gov, referring to Position No. FH 5007.

---
