NO SWEET CORN

Dr. Singleton of the Biology Dept. has asked the Bulletin Board to print the following statement for the information of all employees:

"There will be no sweet corn for distribution to members of the Laboratory Staff this summer. All of the corn that will be grown on the site is for experimental purposes. This is a warning that people who want sweet corn had better plant their own. There is still ample time to plant corn if it ever stops raining.

"There are several reasons why corn will not be available. Getting corn ready for staff members entails considerable work. No one will be available to do this work. Another reason is that last year several ears of experimental corn were taken without permission from plots growing on the site. We want all to know that all corn on the site is for experimental purposes and none should be taken by anyone. Furthermore, all experimental corn will be treated with a deer repellent which will render it unpalatable and possibly poisonous."

PATTERSON & LENTO GOLF CHAMPS

BNL golf enthusiasts drew a beautiful sunny day to open the 1950 golf season. There was just enough breeze blowing off the Great South Bay to add zest to the game, which was played at the Bellport Country Club Saturday, May 27.

Dr. Robert A. Patterson teamed with Louis Lento to win the Best Ball match play (with handicap) against par, against the stiff opposition offered by Marshall Bull and Marvin Fox who came in with a sterling Best Ball of 66 to finish in second place, 4 up on par.

Tommy Marrion, 1949

"THE DARK TOWER" PREVIEWED IN ISLIP TONIGHT

The cast of "The Dark Tower" takes the show on the road today by traveling to Central Islip to give a performance at Pilgrim State Hospital. This "off the site" appearance is the first for the BNL players and is a fulfillment of the idea that our plays be shown at institutions of this kind. The purpose, of course, is twofold. One is to provide entertainment for such groups and the other is to give the cast the added experience.

With the performance given and with two rehearsals to smooth out the rough spots, the BNL audience is guaranteed a fast-moving and finished show for June 13 and 14.

Heloise and Abelard, with their twitching tails, beady eyes, and pointed white teeth, are anxiously awaiting the curtain call. So let's not disappoint them!

Tickets are being sold by the following:
Carrie Lipetz, Nuc. Reac.
Stanley Kramer, Elect.
George Cox, Photography
Jerry Howland, Chem.
Joyce Harris, Pile Bldg.
