1954-1955 BERA CONCERT SERIES

Plans have now been completed by the BERA Concert Committee for the following series of five concerts to be presented during the 1954-1955 season.

Wed. Oct. 20 - Julliard String Quartet. -- A standing favorite of BNL music lovers, the Julliard Quartet almost always draws the largest audience of the season.

Thurs. Dec. 2 - Charles Rosen, Piano. -- Not to be confused with Joel Rosen who has performed here at previous concerts, this brilliant young musician holds a PhD in French and has a flair for physics and mathematics. Reviews of his concerts have been extremely favorable and he has now given up teaching at MIT in order to pursue a promising career in music.

Wed. Feb. 9 - Theresa Green, Soprano. -- This lovely and gifted singer, who has won many honors including the Marian Anderson Award, has become so popular that her tours with the Community Concerts are consistently sold out.

Thurs. Mar. 10 - Moyse Flute Trio. -- Created in 1933 by Marcel Moyse, head of the famous French Woodwind Instruments School and known all over the world for his instruction, compositions, and flute recordings, The Moyse ensemble has been described as playing with perfect harmony and homogeneity.

Thurs. Apr. 7 - WQXR String Quartet. -- Listeners to Station WQXR have for many years enjoyed the weekly programs of the WQXR Quartet, one of the leading string groups in New York City.

All of the concerts will be presented in the Research Staff Lounge at 8:30 p.m. Subscription tickets for the series will, as usual, be \$6.00 for adults and this year, for the first time, there will be a special rate of \$2.00 for students. (Students are defined as
