BERA CONCERT

Trio di Bolzano Friday, Feb. 3, 1956 at 8:30 P.M. Research Staff Lounge

The next concert to be presented by BERA will be the Trio di Bolzano. The committee regrets that it originally scheduled the date for this concert on Feb. 1st, which falls during the New York meetings of the American Physical Society. Attempts were made to move the concert to a different week but the tour of the Trio is such that this would be impossible.

We have managed to delay the concert by two days in the hopes that almost all those attending the meetings would be back from the city and would be able to go to the concert.

SQUARE DANCE - JAN. 18th

Is square dancing dead at BNL? Controversy has raged for a long time as to whether there are any able-bodied square dancers left. If there are any, come out and show yourselves, Wednesday, January 18th at the Recreation Building. There will be a real old fashioned SQUARE DANCE. Music will be LIVE and we mean LIVE. The best and liveliest this side of the Ozarks. The famous Paul Hunt, Ed Durlacher and Paul Conklin would give their eye teeth to get the "4 Squares": Bill Higinbotham, Alf Christofferson, Ewen Duff and Lloyd O'Laughlin. B. Margulies will assist on the clarinet. Bill Higginbotham and Bill Cohen will furnish the calling.

Whether the dancers are there or not, the "4 Squares" will play for their own edification. As far as they are concerned, the dancers are only an excuse to play. Let's see you there. Refreshments will be available.

TELESCOPE MAKERS OF BROOKHAVEN

Next meeting: Tuesday, January 17, 5 PM
Place: Room 6, 2nd floor, Administration Building.

The 6-inch telescope is still here for inspection and for viewing, if Long Island weather will permit. It will be available to us for some time to come. The meeting will be devoted to decisions on specific materials each member wants to buy and plans for working setups. Everyone interested in the project, even in looking over the shoulders of those who are a little more interested, is invited to attend.

CHESS CLUB

The first meeting of the BNL Chess Club will begin at 6:30 P. M. on Thurs., January 19, in the Lobby of the Research Staff Building. All are welcome. Bring your set.

Arthur Murray's Bay Shore Studio will send two instructors on Site one evening a week to conduct dancing classes. They will charge \$1.00 an hour each for an eight hour course (payable in advance), and will give one free lesson at the end of the course for anyone who has missed a lesson. Each group will be limited to thirty people. If you are interested in joining a group please complete the information requested and send it to Dick Vogt, Bldg. 461. We will then announce an evening convenient to the majority and the dances to be taught will be chosen by popular demand.
