## "SPICE OF LIFE" MAY 6

The next presentation of the Film Study Group will be the French comedy "The Spice of Life."

The film depicts delightfully illustrated discourses by Noël-Noël on the social pests and bores found in everyday life—"some of your best friends." Full of surprises and laughs—human frailties are presented in an original and hilarious fashion. Among Noël-Noël's examples are the woman driver, the person who loves to telephone during dinner hour, the gossip, the practical joker, the amateur medical expert, and many, many more.

Lecture Hall on Monday at 8:30 P.M. .... Admission \$.50.
