DOUBLE PLAY FEATURES 2ND GIRLS LEAGUE SOFTBALL GAME

Gallantly 8 innings were completed last Wednesday evening, despite player after player falling by the 1st base line as if struck by mysterious ray guns - victims of sore leg muscles. One result of this blight was a complicated system of runners for about every other batter, causing at one point a heated discussion on 2nd base as to who belonged there and who was supposed to be still on 1st. The girls now realize that one game of softball does not a conditioned athlete make.

The surprising catch of a pop fly by Health Physics' Marian Mayhew set up the double play, catching a "runner" off base. She crawled back as fast as she could, but couldn't beat the throw.

The "What-me-worrays?", captained by the Hot Lab's Elaine Daniels, came up with their first victory by defeating the "Goofers", by a tight score of 17 to 10. A contributing factor to the loss was "Goofer" captain Helen Kelly's inability to keep from socializing on first base, tightly clutching the ball and enabling her opponents to encircle the bases. Whirlpool anyone?

IT'S A WOMAN'S WORLD

A couple of weeks ago the T-209'ers (Men's League) challenged the Odds and Ends (Ladies Bowling League). WHAT HAPPENED TO THE T-209'ers - let the women beat them again this year. Those Odds and Ends are real hot cats - Yeah! Boy's - quit while you're ahead.

B.N.L. SOFTBALL

Tuesday: In a game where wild pitching was the deciding factor, Metallurgy came forth and did it again for their third straight win. Despite a strong effort to start a rally in the last inning the Phoubars just didn't have it. The final score was close enough to be a real heart breaker - 5 to 4.

Wednesday: Cosmotron pulverized the Potsareebies in this slaughter, 22 to 4. Obviously the Potsareebies are going to give the Dirty Sox some stiff competition for the cellar.

Thursday: The Dirty Sox slightly off their usual stride, dropped this game to the Bio's. Perhaps it would be better to say that they dropped it to Biology's "Side-Arm" pitching. However, not giving up without a fight the ADD team brought in Gordon Danby whose own style of legalized "Side-Arm" had the opposition hopping for a couple of innings. The final in this one was a really sad 16 to Zip.

1. Metallurgy	3	0	1.000
2. Biology	3	0	1.000
