APRIL 1, 1959

SLO-BALL COMES TO BNL

Little by little, over the past few years, a new variation of softball called "Slow Pitch Softball" has been becoming increasingly popular throughout the country. It has been designed to eliminate the domination of the game by merely one person, the fast-ball pitcher. Slo-ball gives everybody "a whack at the ball" and plenty of fielding exercise.

At the close of last year's season, the Captains of all our teams unanimously voted to give Slo-ball a try this spring. This is a game every employee can play which offers fun and exercise without eliminating good ball playing and competition. Several groups have already submitted entering rosters.

There will be a short meeting of all groups wishing to enter the league at the Recreation Office, this Friday, April 3, at Noon. Send your representative.

DAUGHTERS OF DESTINY (Doings of Three Dolls)

The April film showing will consist of three short stories, two of which will tell of the effect of war on women and the third, the effect of women on war.

ELIZABETH (Claudette Colbert) is an American war widow who comes to an Italian village to visit her husband's military grave. There she discovers her husband had an illegitimate child by a local girl.

JEANNE (Michele Morgan) depicts an episode in the life of Joan of Arc telling of the events just prior to Compeigne. Outstanding not only because of Miss Morgan's fine performance, but a welcome relief from the usual sentimental characterization of Joan. Here she is depicted as an intelligent, forceful and determined woman - entirely human and at times doubtful of her own capabilities.

LYSISTRATA (Martine Carol) is the leader of a plot by the Athenian women to end the war with Sparta and to bring their husbands home. Martine Carol, a delightful dish, if ever there was one, does a fine tongue in cheek interpretation of Lys, with Rof Vallone as her distraught husband.

Added attraction. A Mack Sennett one reeler with Ford Sterling and Mabel Norman in "BARNEY OLDFIELD'S RACE FOR LIFE".

In the Lecture Hall on Monday, April 6 at 8:30 p.m. Admission 50 cents.

NEW YORK STATE INCOME TAX

In accordance with recent legislation, New York State Income Tax will be withheld from all pay checks beginning April, 1959. Charts to estimate the amount that will be withheld are available from your department office or from Personnel Services, 58 Brookhaven, Extension 2107.

DANCING IN THE DARK???

The present "Arthur Murray Dance" class has one more lesson to complete this session. It will end on April 1. Several of its participants have expressed a desire to start another session after this one is complete.

Wednesday, April 8 has been set for all dance enthusiasts to meet at the Recreation Hall - York Lane at 8:00 p.m. to decide what will be taught during the new 10-week session.

If you are interested in joining the group and would like to help decide the type of dancing to be offered, it is important that you ATTEND this FIRST organizational meeting.

HERMANS TO LEAD FOLK DANCE WORKSHOP

The BNL Folk Dancers will have a special evening workshop session Monday, April 6. The leaders will be Mary Ann and Michael Herman of Folk Dance House in New York City who are well known as two of the finest teachers in the country. They were recently sent to Japan by the State Department where their infectious enthusiasm for dancing and other folk arts made them popular ambassadors of good will. Michael is leader of his own folk orchestra, author of several books on folk dancing and has published over two hundred records on "The Folk Dancers" and "RCA Victor" labels.

Most of the evening will be spent learning dances which will be new to the group, including the universally popular but difficult Swedish Hambo. Anyone who has had an introduction to folk dancing should enjoy the Hermans' workshop very much.

The date is Monday, April 6, from 7:30 to 11:00 p.m. in the Recreation Hall in the apartment area. The admission will be \$1.00 and refreshments will be served. —LIZ AND NEIL LARK

Nightingales took 2 from the Allthumbs with Jody O'Connell rolling a 161. Health Physics dropped 2 to the Biology team.

BNL SAFETY RECORD

3 Days Since Last Disabling Injury (March 27, 1959 - March 29, 1959)

The fifth disabling injury of the year occurred on March 26th, when an employee attempted to disconnect some "live" electrical wires. The loose ends came together and arced, giving him flash burns in both eyes. Preliminary information indicates that he did not realize the power was on, but details and suggested precautions for such work will be covered in the monthly safety report (issued to all Department Safety Coordinators).
