## FIFTH CONCERT: WEDNESDAY, APRIL 15

## SUZANNE BLOCH

Suzanne Bloch, lutanist, singer to the lute, player of virginals and recorders, will give the final concert in our Brookhaven series Wednesday evening, April 15. For many years, Miss Bloch has been the principal concert performer on the American continent on the lute. She has adapted a charming voice as an ensemble instrument to use to her own lute accompaniment for performances of the beautiful literature of lute songs which once marked so high a point in musical culture.

Miss Bloch is the daughter of the composer Ernest Bloch and her first training was as a pianist. At 19, she won first prize in a Paris contest for women composers; in recent years she has had her works performed in New York by Leonard Bernstein and Leon Barzin, and at one of her New York recitals she included some lute-songs of her own, set to verses from "Alice in Wonderland".

While studying composition abroad, she became interested in the great repertoire of earlier centuries, largely neglected in recent times, and she turned to the study of lute tablature to review for herself this once-cherished literature. From there she became determined to acquire a lute and the lute technique for performance of this music, to turn her keyboard ability to earlier music, and to become adept at other instruments of the medieval and renaissance periods. As a girl she took part in the Haslemere, England, festivals of the Dolmetsch family as lutanist, singer, virginals and recorder player, and even as dancer, and on her return to the United States she began a solo career.

Miss Bloch brings to her programs fascinating performances and repertoire, a warm and sparkling personality, a delightful stage presence and a communication with her audience which is immediately established. Her spontaneous, informal comments on her music and instruments are part of a recital which is unfailingly enjoyed by all who hear her. Her research in the field of early music continues unceasingly, and it is her privilege as well as pleasure to recreate constantly music of great beauty which might otherwise be forgotten.

Miss Bloch will give her concert in the Research Staff Lounge Wednesday evening, April 15, at 8:30 p.m. Single admission for this concert will be \$2.00 for adults and 75 cents for children.
