OPEN MONDAY thru FRIDAY, 5-11 p.m.

MONDAY, 8 p.m. - Folk Dancing

THURSDAY, 8:30 p.m. - Arthur Murray Dance Class.

## THE LABORATORY

## POLICE GROUP

## BNL SAFETY RECORD

The fourth disabling injury in 1960 occurred March 25, 1960 when a Physics employee dropped an empty nitrogen cylinder on his left foot. Although wearing safety shoes, which prevented more serious injury, the 4th and 5th toes, not entirely protected by the steel cap, were fractured.

The story of the Laboratory Police Group is the story of versatile police officers who by training and discipline fulfill a complex role at BNL. Protect classified material, find a lost child, control the gates, respond to fire alarms as auxiliary firemen - the Laboratory Police do these things and many others for us. In the protection of the Laboratory's 3700 acres on the main site (and 2400 acres north of Routh 25) and its more than one hundred million dollars worth of property, the Laboratory police are faced with all the duties of a small city police force in addition to the problems which are peculiar to an Atomic Energy Commission facility.

The Police Group is headed by a Chief who supervises 44 men. There are eight or nine men on each of three shifts, 24 hours a day, seven days a week. In addition to the officers guarding the entrance gates, to provide information to the visitor and to screen out the unwelcome, radio cars continuously patrol the site as a matter of protection and traffic control. The officers on duty watch for hazards in buildings which they regularly visit, escort and transport classified materials, and regularly report to the Captain.

The Police Group is a part of the Security and Plant Protection Division, which is primarily a service organization composed of the Security Office and

(Continued on Page 2)

**LABORATORY POLICE—Cont'd**

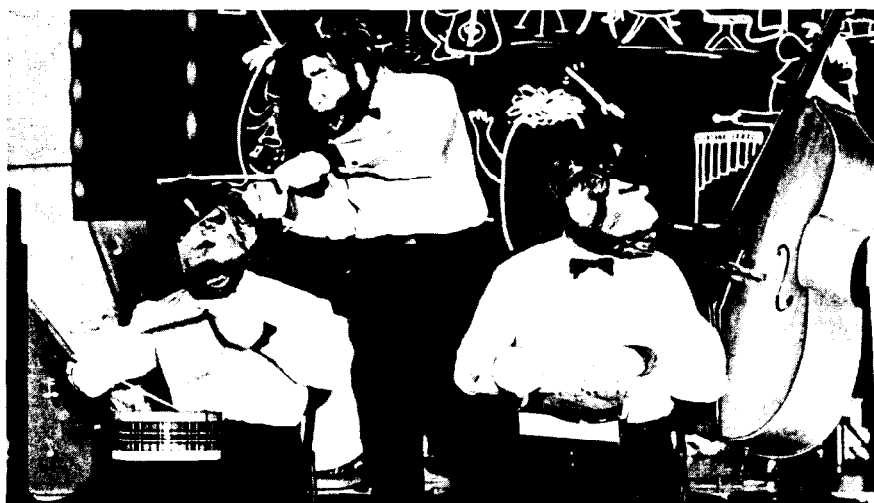

the Police and Fire Groups. The Division, and therefore the Police, are charged with three major duties: security, protection, and service.

The importance of security in the work of the police cannot be over-emphasized despite the fact that during the past few years classified work has almost disappeared from the Laboratory. There are many security files scattered throughout the site, which must be checked during off-hours, as well as the Classified Library in which some 25,000 classified documents are stored. The first obligation of the group is the security of classified matter.

The largest part of a Laboratory police officer's work, as far as time is concerned, is protection. The Laboratory must be protected against fire, theft, arson, sabotage, and malfunctioning of machinery. An especially important part of the protection job is ensuring the safety of employees, residents and guests. During off-hours, roving patrols and inspectors check some 55 buildings and laboratories as well as inspect some 350 pieces of machinery and experimental equipment not under the scrutiny of other Laboratory personnel. Over the years the Laboratory police have been credited with preventing numerous fires, discovering incipient fires or other hazards, saving numbers of valuable experiments and effectively assisting in many situations where life and property were endangered.

The third aspect of BNL police work is service. Providing emergency transportation, controlling the school buses, fixing blown fuses, protecting deer against wild dogs, and helping stranded motorists - all are part of the police officers job. The residents, guests, and employees have come to expect service and the Laboratory police try to give it.

The Laboratory Police are trained, willing and able to provide the Laboratory and its personnel with the security and protection which is part of the Laboratory's obligation to the individual and to the United States Government. A Laboratory Police Officer is as close as the nearest telephone - the Extension is 411.

**THE PARTY'S OVER**

Nairobi Trio.

And what a party it was - the BERA sponsored April Fool's Dance! Approximately three hundred and fifty employees and guests attended. Everyone enjoyed dancing to the lively music of the "Hi-Fives" in an out of this world atmosphere created by the Decorations Committee. The highlight of the evening was a musical performance by the Nairobi Trio, imported for the occasion (thanks to E. Sayre, BERA President and A. Christoffersen and L. Fuller, BERA Board Members).

(Continued on Page 4)

**UPTON RIFLE - PISTOL CLUB**

The U.R.P.C. pistol shooters lost a pistol match to the Mattituck Rifle and Pistol Club last Tuesday night by a score of 934 to 878.

Starting Tuesday, April 12 at 5:00 p.m., and continuing every Tuesday through the summer, there will be practice shooting, instruction, and non-official matches for all pistol shooters.

On April 21 the U.R.P.C. will hold its first small-bore rifle tournament. All contestants will shoot individually with handicaps based on last year's scores for veteran shooters and first fired scores for tyros. The tournament will run for nine consecutive Thursdays starting at 5:30 p.m. at the on-site range. Each contestant is required to fire a minimum of six times in order to qualify for trophies and prizes. The course fired will be the DCM course. All ammunition and targets will be supplied free of charge. The only requirement is that a participant be a member of the Upton Rifle and Pistol Club and pay a nominal entrance fee.

Participation will be limited to 30 people - so get your name on the roster now. For further information call R. Domish, Ext. 2468 or P. Colombo, Ext. 624.

**BROOKHAVEN DIVERS TO MEET AT POOL**

The next meeting of the Brookhaven Divers Club will be Monday, April 11 at 8 p.m. in the pool area. All members planning to attend the club dive to Block Island, or the lake dive April 25, must attend this meeting.

Following the business meeting, club members will take pool proficiency tests and have their equipment inspected. All club members must bring all their equipment in to be inspected.

New members are welcome. Why not come down and watch the club in action? Summer's coming and the deep blue sea is calling all skin divers.

**THEATRE GROUP TRYOUTS**

Last call on tryouts for DIAL "M" FOR MURDER, Thursday, April 7, at 8:30 p.m. in the Theatre. Wes Springhorn is the director of the Theatre Group's new production. Copies of the script are available at the Library.

**MICROMET**

To those who placed orders for Micromet - you may pick up the Micromet at Personnel Services, 58 Brookhaven Avenue, on Wednesday, April 6.

## BERA BOWLING

### ATTENTION ALL BOWLERS

As some of you may know, the Bowling Proprietor's Association will be holding its First Annual Summer Tournament this year. To be eligible for this tournament, participants have to bowl in one of the summer leagues, in a BPA house. The tournament is handicapped, will run for 14 weeks. There will be three (3) Grand Awards, and five (5) House Awards, all of which look very attractive, and certainly worth shooting for. A note here to encourage some of our lower averaged bowlers who might be interested: a handicapped tournament is definitely aimed at and to the advantage of a low average bowler. If there is enough interest, BERA will organize its own league to enter into this tournament. However, to do this we must act quickly. The leagues are open to start any time from May 14th. If you are interested in joining a BNL summer league, or would like more information pertinent to it, contact your League Representative as soon as possible. We have to finalize the organization of such a league within the next two weeks in order to allow enough time to enter into the tournament. If you are interested in a summer league, and have a preference as to the type of league you would like to see organized, please make this known to your representative also.

### BLUE LEAGUE

There is no joy in Techville tonight for they bowed to the (there goes another one on the Jersey side) Thumpers. The Thumpers took a full four points from the Techs with good bowling from Joe (Speedball) Cantwell, Whoops-slips Carsten, Cigar-smoking Atherton, I'll-see-you-later Reams, and who-said-they-won't-go-on-the-Jersey-side Guthke - no comment from the Tech team.

The Irregulars stayed right with the Thumpers to maintain their second place lead by taking four from an undermanned Skins team.

The Fire Dept. ran into a little difficulty and the Downunders took full advantage and ended up taking 3 from the Department.

The Biology team ran over the Cosmotron team with a big 3-1 victory, helped by Belohlavek's 213.

## ANNUAL VISIT TO MARSHALL ISLANDS COMPLETED

Rongelap children.

Dr. Robert A. Conard and Mr. William Scott returned to this country on March 29 from the annual BNL survey to the Marshall Islands. The yearly surveys of the Marshallese are now primarily concerned with examination for possible late effects of radiation such as cancer and leukemia. In March 1954 a group of people of the Marshall Islands were accidentally exposed to fallout radiation. Hardest hit were 82 Marshallese on Rongelap Atoll.

Dr. Conard and Mr. Scott traveled by air to Majuro, capital of the Marshall Islands, where they were met by a Trust Territory cargo ship which carried them to Rongelap. There they combined forces with members of the Trust Territory Medical Department, who cooperated in this year's survey. The team stayed at Rongelap 5-6 days, living aboard ship and making examinations ashore. An electronic blood counter, which counts white blood cells, was a valuable time-saver in making the examinations. The team also stopped in Kwajalein and Majuro to examine others exposed to the radiation fallout in 1954, who had moved away from Rongelap.

The Marshallese people examined were found to be generally in good health. The team did not find any cases of leukemia, cancer, or other late effects of radiation.

### PURPLE LEAGUE 3/23/60

The Phoubars, still battling for the first division, had quite a tussle with the Toppers as they only took 1 1/2 points to the Toppers 2 1/2. Ole had 200, 529, Dick Vogt 215, 565 and Red 173, 515. For the Toppers, Reamy had 207, 527 and Nocar 180, 510.

Fiscal and the Ptuis fought to a two to two tie. A. Beckwith led the Ptuis with a 204, 552 and Bubka had a 169. H. Bohn had a 176, 515 and Saletros a 171.

The Chain Gang took three points away from the Bowl Aids. Brems had a 197, 514 and Whitaker 171. For the losers McIver had 179 and Schulz had 171. The Designers had a Bye.

**3/30/60** The first place Designers took three points from the Bowl Aids. Rocky led with a 191, 552, Cuccia 169, Sperry 167. For the Bowl Aids Schulz had 168.

The mighty Phoubars, still battling for first place, with **Ole's Mighty "98"** could only take one point from the Fiscal team. Sleeper Tommy O'Brien found a new ball and rolled 178, 509 series backed by H. Bohn's 195, 514 and Saletros's 172. Dick Vogt led his teammates with a 204, 568, Tom Marrion 216, 563, Serry 178 and Red 177.

The Toppers up and shut out the Ptuis 4-0. Reamy had 192-529, Green 183-501 and Zelenka 168. For the losers Becky had 178 and Dick German 176.

**PARTY - continued**

The door prize was awarded to Gar Harbottle of Chemistry and a more surprised person has yet to be seen. The prize was a bottle of Scotch encased in a cake of ice - "Rock on the Scotch!"

Thanks to everyone who in any way contributed to the success of this affair and special thanks to all those who contributed their time and efforts to the decoration of the gym.

**LADY****KEGLERS****COLUMN**

"Merrily we roll along". With only 5 weeks to go in the 59-60 bowling season, Odds and Ends now maintain a 12 point lead on 1st, by taking 3 points from Chemistry, while Medical lost all 4 points to the Nightingales (this puts Nightingales in 4th place). The Strugglers, keeping a firm hold on 3rd place, scored a complete victory over the Frisbees. Allthumbs dropped down to 5th as a result of losing 4 points to Sam's Gals.

**FAMILY PASSES**

All employees are urged to obtain long term passes for members of their immediate families if such members will use the recreation areas without the employee being present.

Members of immediate family include husband, wife, children over 13 years of age and other relatives who reside in the employees home. A memo of request to the Security Office is sufficient.

**NEW YORK PLAY**

Discounts are now available for "The Snow Maiden" at the 7 Arts Center. Employees can pick up exchange tickets at Personnel Services, 58 Brookhaven Ave. Tickets must be exchanged at the Theatre box office.

**CLYDE BEATTY CIRCUS**

Now available at Personnel Services, 58 Brookhaven Avenue, are exchange tickets which offer our employees a discount of 25% to the Clyde Beatty-Cole Bros. 3-Ring Circus at the Long Island Arena in Commack, April 15 through April 24.

Discounts may be obtained by exchanging these tickets at the box office. DON'T be disappointed by waiting until the last minute! Exchange them early. Sale begins this week.

**ADULT SWIM CLASS BEGINS**

The first lesson of the newly formed swimming class will be held on Tuesday, April 12th at 5:15 p.m. at the pool. Lessons will be given each week for 7 weeks. Each will be approximately one hour. Registration is still being accepted. For information call Ext. 391.
