BERA ELECTION RACE CLOSE

It was apparent from the returns that the nominating committee did an excellent job picking the slate of candidates for the BERA Board as the ballots seasawed in favor of one and then another.

Re-elected for a term of two years on the BERA Executive Board were the President, Alf Christoffersen, and Vice-President, Lawrence Fuller.

Your third selection for office was Donald David of the Bubble Chamber Group. Don is best known to all of us for his excellent Dance Committee work, Picnic Committee efforts, and as a past Chairman of Operation Get-Together.

Our congratulations go to all three elected Board members and our appreciation is offered to the other candidates for their expression of interest.

BERA FILM GROUP

On Thursday, February 15, the film "Lucky Jim" was cancelled due to the weather. Cancellation signs were posted at the Main Gate, at the Lecture Hall, and announcements were made on the local Patchogue radio station. Evidently the information was not received by all, and we wish to apologize. "Lucky Jim" will be re-scheduled for some later date.

In the future, cancellations will be advertised in the following ways:

1. Large signs stating "No Movie Tonight" will be posted at the Main Gate, the North Gate, the Lecture Hall and the Cafeteria.

2. Announcements will be made on the local radio stations, WPAC, WALK and WRIV.

3. A memo will be distributed when possible.

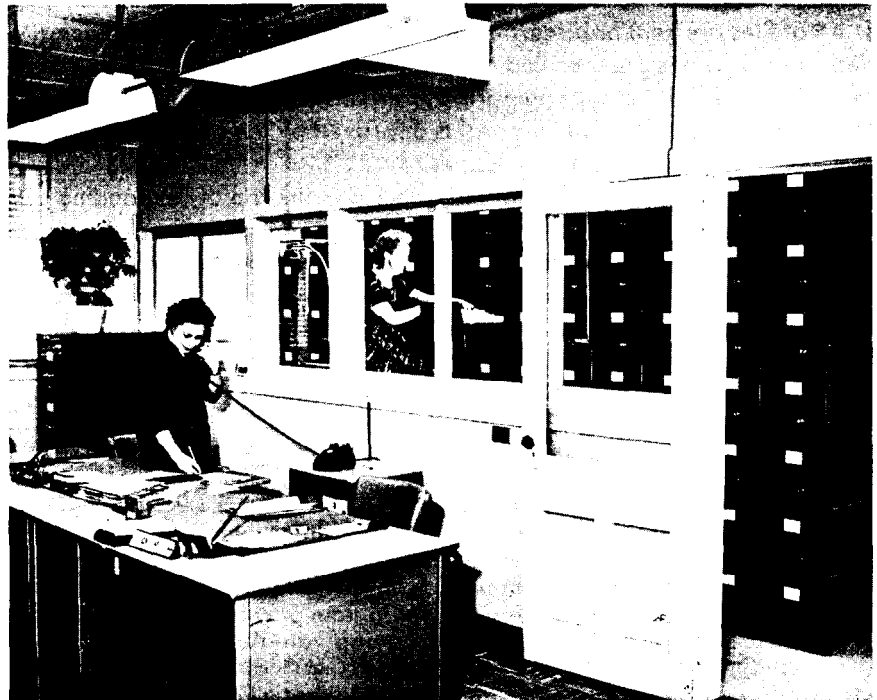

The next film will be "Othello" starring Orson Welles on Thursday, March 1, in the Lecture Hall at 8:30 p.m.

BNL VISITORS

Paul De Groote, Belgian member of Euratom Commission, Federico Consolo, Special Advisor and Joint U.S.-Euratom Program Coordinator, Bruno F. Defreyn, Scientific Advisor, and Carson Dalzell, Division of Reactor Development, visited the Laboratory on Monday.

Today, about 30 engineers from Western Electric are touring the site.

THE BROOKHAVEN RECORDS CENTER

Mrs. Ruth Gardenier (left), supervisor of the Records Center, and Mrs. Joan Simecek, at work.

The preservation of permanently valuable records – as well as the disposition of other records once they reach the end of their usefulness – is a big task at an institution of Brookhaven's size and nature. This service, for the unclassified and declassified records of the Laboratory, is the responsibility of the Brookhaven Records Center, located at 68 Bell Avenue. The Center provides storage space for the records of all departments at Brookhaven, services the records, and sees that they are retained and disposed of in accordance with regulations. On its shelves can be found records of many different kinds from every department at the Laboratory including photographic negatives, inventory records and ledgers, Health Physics film badges, personnel records, purchase orders, scientists' research notebooks, engineering records – the list is a long one.

Any department finding its files overcrowded with material which must be kept but not often referred to may easily have the material removed to the Center. The transfer procedure is a simple one: the department simply telephones the Center, stating the number and size (letter or legal) of the material to be stored. Special transfer files are then sent to the department to insure the safe transport of the records. A records inventory form describing the material is made up by the department and accompanies the material to the Center. There, it is removed from the transfer file and stored, usually in metal

(Continued on following page)

BNL Records Center - continued

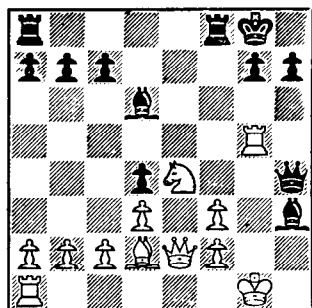

file drawers or heavy cardboard boxes. The filing system the department has used for the records is retained by the Center. The Record Center location of the material is recorded on the records inventory sheet and one copy of the form is then returned to the department. This facilitates quick access to the information in the future. A telephone request, specifying any information wanted from the records, is handled quickly by Center personnel. Only personnel authorized by the department from which the material has come are given access to the records.

All official records of the Laboratory – whether housed in the Record Center or located within departments – are subject to specific Records Retention and Disposition Schedules. It is the responsibility of the Records Center to see that files are kept or discarded in accordance with these schedules. If a department wishes the specified retention period modified for certain of its records, it must fill out a special form for approval by the proper authorities. In all cases a Certificate of Disposal is approved by the department before any records are discarded by the Center.

The growth of the Laboratory is reflected in the rapidly expanding size of the Records Center. Since 1951, storage has grown from 614 cubic feet to the 3,295 cubic feet now presently occupied. In 1960, the Center was moved from its crowded quarters in the bank building on Technology Street to the Bell Avenue location. The present building was chosen for the Center partly because of its cement floor, which is needed to support the extremely heavy weight of the stored material.

CHESS PROBLEM

This week's game was played way back in 1896 in Budapest between Hermann (playing with White) and Charousek (playing with Black). It is Black's move, and his to win. How? Answer elsewhere in this week's BULLETIN BOARD.

**FAS MEETING**

There will be a luncheon meeting of the Brookhaven Chapter of the Federation of American Scientists in the East Room of the Cafeteria on Tuesday, February 27, at 12:30 p.m. The program will consist of a report on the recent meeting of the FAS Council and the reading of an "answer" to the recent articles of Edward Teller concerning security by weapons in the atomic age. The paper was prepared by Philip Morrison, Jay Orear, and Edwin Salpeter of Cornell.

All present and former members, as well as any other interested people, are urged to attend.

CERAMICS CLUB

Attention former users of Ceramics Club facilities! Numerous unclaimed works of art and other materials have been left in the Recreation Hall ceramics room from previous years and are occupying valuable space. The newly formed Ceramics Club hereby gives fair warning that all items not claimed by February 28 will be duly disposed of.

A beginners' class in ceramics has been organized and classes will begin the first week in March. Instructions will be given by Warren Chamberlain and the fee is \$10 for a 10-week course. If interested, please contact Barbara Goolnick, Ext. 367, for further information.

SKI CLUB

The next meeting of the Ski Club will take place on Monday, March 5, at 8:00 p.m. in the Recreation Hall. Our next bus trip is planned for March 10 and 11, rather than March 3 and 4, as previously announced. For details, call E. Raka, Ext. 310, or N. Ashton, Ext. 2532.

DON'T GET LEFT BEHIND

Persons wishing to take the 3:55 p.m. Laboratory vehicle to the Yaphank train station are requested to notify the receptionist in the Administration Building, Ext. 2131, BEFORE 3:30 p.m., in order that sufficient space is available.

JL & H SOCIAL GROUP

The janitors and the Hot Laundry employees at the Laboratory have formed a club temporarily known as the JL & H Social Group. It now has 57 members. Janitors and other employees who are interested in learning more about this group are invited to call Cyril Woodburn, Chairman, Ext. 2120.

**THE JOHN PLAZIN
MEMORIAL FUND**

In memory of John Plazin, veteran Technical Specialist, who died December 10, 1961, a Memorial Fund has been established to provide, for patients in the hospital, items of comfort and entertainment which are not provided by the hospital. Contributions may be sent to Mrs. Marie B. Follenius, Secretary of the Biochemistry Division of the Medical Research Center. Checks may be made payable to the John Plazin Memorial Fund. Contributions are tax exempt.

DONALD D. VAN SLYKE

THEATER GROUP

Start the 1962 season with a good attendance at the first meeting of the Theater Group on Wednesday, February 21, at 8:30 p.m. in the Recreation Building. Plans for the casting, production and incidental chores of a spring production will be discussed.

All employees are invited to attend the meeting. Bring a friend and come on out!

BERA BOWLING

PINK LEAGUE

M. Tingen's reverse action brought the Twinkletoes to a 4-0 defeat with the Dipions. For the Dipions J. Reidl rolled 155, 177/457, E. Norton rolled 163, 152/433, C. Gelhaus rolled 158, 158, 161/477, M. Hall rolled a 414 series, and G. Austen rolled a 155 game. E. Norton also converted the 5-7 split.

The Allthumbs and the Contacts broke even. High for the Allthumbs were A. Woodbury with 165/419 and G. Fales with 167, 164, 178/509. M. Doherty for the Contacts spared the 1-5-7 and C. Lydecker rolled 172/467.

GREEN LEAGUE

The Electrons lost to the Fire Department 3-1. For the winners, Rhodes and Newham rolled 175/501 and 176/496 respectively. For the losers Levy rolled 179/500.

The Old Timers I took the Reefers 3-1. Ratyca's 211/514 and Lucas' 179/508 just wasn't enough for three men to take the Old Timers.

The Gnats beat the Black Birds 3-1. High men for the Gnats were Van Norman 188/494 and Kalinowski 187. Green tried for the Birds rolling 197/509.

The Old Timers III swamped their country cousins 4-0. Keating rolled 189/526 for the winners.

BASKETBALL

In the theatre, "The Play's The Thing", and in basketball the same axiom applies. The play in last week's Phoubar - Old Timer game was hampered considerably by the absence of the designated scorer. With participants paying more attention to the scorebook than to the court, the resulting score was low for two such high-flying teams. Suffice it to say that the Phoubars finally eked out a 33-31 victory. This victory put the Phoubars in the second-half lead, thereby setting the stage for a playoff with the Old Timers, winners of the first half.

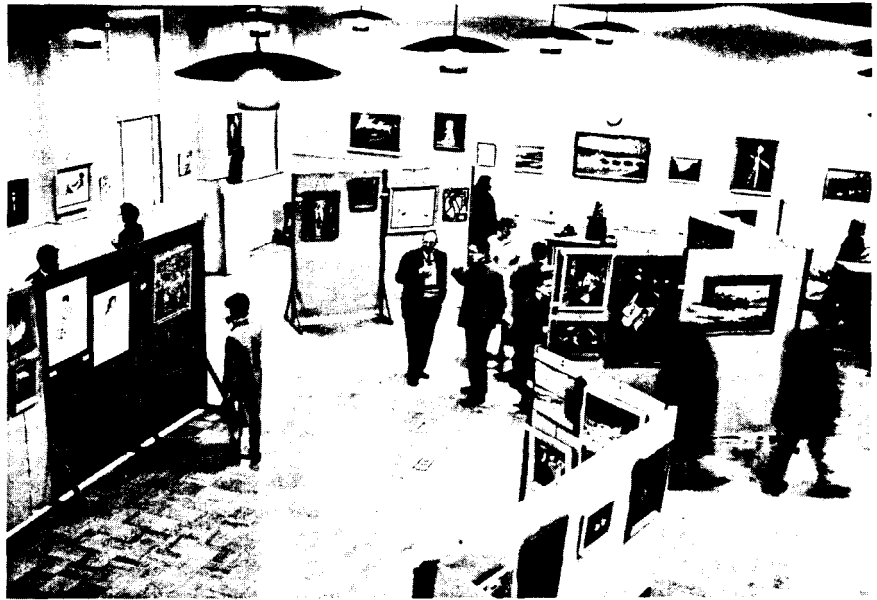

In other games, Biology put forth their best effort to date and registered their year's high scoring total of 26 points before going down to defeat 34-26 at the hands of the Untouchables.

Metallurgy showed lots of hustle, defeating the Chuckers, 36-16.

REC FACILITIES CLOSED

The Gymnasium, the Pool, and the Recreation Building will be closed on Thursday, February 22.

BERA ART SHOW HELD OVER!

The Exhibition of BERA members' art work which opened in the Exhibit Hall last Wednesday evening has been very well received. It has excited the admiration of all who have been able to attend and, surely, served as an inspiration for similar shows in the future.

The Committee has had numerous requests to extend the viewing hours of the current Exhibition, since last week's poor weather prevented many families from evening attendance. Accordingly, the Show will be open during the day all this week (with the exception of Thursday, a Laboratory holiday), and will also be open on Friday evening, February 23, from 5:00 p.m. on. In view of the Exhibition's success it seems appropriate to have a closing night party, and we hope all those who have not been able to attend and those who would like to see the contributions a second time will find Friday evening convenient.

ORCHIDS FOR VALENTINERS

We knew last year that our Valentine Dance was a success when we heard that one of our employees eloped with his date. This time we didn't have to wait that long. All you had to do was look around the Gym at about midnight and see three-hundred people, all on the dance floor, enjoying the evening with Herman Stenzler's Band.

Our Supply and Materiel Division, which provided the committee manpower and ideas on behalf of BERA, was applauded enthusiastically for their successful efforts. A special thanks goes to the Chairman who works so hard to insure a good time for all. Take a bow - Duke Worthington.

The BERA Executive Board was on hand to hear the announcement of the election results and was recruited to help judge the Twist Contest. They narrowed the one-hundred contestants down to three couples. The audiences' cheers selected Carmen Spirio and Beth Saunders as the couple with the most fluid drive and presented them with some additional lubricant - Champagne.

John Binnington (BERA Board Member) was disappointed when he was informed his lucky door prize number did not entitle him to the spotlighted lovely who approached him with outstretched arms to make the presentation of a Bottle of Cheer.

Janice Lowe's vocal rendition of "The Lady Is A Tramp" and a ten minute Twist Show by the "Deltrons" provided the entertainment highlights of the evening. Once again we heard nothing but cheers for Herman Stenzler and his wife as they provided vocal and musical entertainment all night. And again the question most asked was, "When are we going to have that band back again?"

Who's next? The Bubble Chamber was the first in our new method of having departments present dances for BERA. The S&M Division did a great job as the second committee! Who's going to put on the next dance?

CLASSIFIED ADS

FOR SALE

JEEP STATION WAGON - 2 wheel drive, 1950. \$175. AT 6-8975.

1957 FORD RANCH WAGON - 2 dr., standard, 6 cyl., 4 new tires, incl. 2 snow tires. In good cond. JU 1-1853.

1957 BUICK STATION WAGON - Power steering & brakes. Good cond. Ext. 423.

1957 FORD CHASSIS F-600 - 272 h.p., V8 engine, 29,000 orig. miles, 4 speed Synchromesh Transmission with 2 speed rear end. Six very good 825x20 10 ply heavy duty tires. Two of these tires purchased new last Oct. Body & upholstery in excell. cond. Good heater, rear view mirrors, 5 ICC Cab. lights, directionals. Could best be used for a dump truck or a small tractor & trailer rig. Reason for selling: too small for my use at this time. Will be sold to the highest offer. E. Amos, Ext. 327 or AT 1-6788.

1956 FORD V8 - 4 dr., hardtop, blue & white, auto. trans., power steering, power brakes, good tires, new battery, new brakes. Steal at \$395. SE 2-8830 after 5:30 p.m.

1959 FORD GALAXIE - R&h, automatic, \$1050. C. Ruege, Ext. 451.

1961 FORD GALAXIE - 4 dr., auto. trans., deluxe r&h. AT 6-8990.

1957 OLDS - Gray, 2 dr., H/T, 43,000 miles. \$800. LT 9-3498.

1953 STUDEBAKER - Auto. shift, 8 cyl. Excell. cond. Reason for selling: leaving the Lab. \$100. Ext. 613.

DUTCH COLONIAL HOUSE - Patchogue, 6 rooms, 3 bedrms., 20 ft. living rm., cypress paneled sunken din. rm., 2 baths, oil/hw heat. 60x183 ft. plot with beautiful shade trees, 2 car garage. Close to village, low taxes. L. Van Kollem, Ext. 445.

1958 FLYING FINN SKIFF - Cox trandom trailer, 1961. 75 h.p. Evinrude 1961, about 25 hours, head, electric bilge, wind shield, tachometer & full canvas cover. \$1750. Ext. 464.

15 FT. 5 IN. LYMAN RUNABOUT - Complete with full length boat cover, navy top with side curtains and compass. Navy top, steering wheel and compass, new last year. \$350. Lucas, Ext. 2193.

HALDA SPEED PILOT - Sports special, excell. aid for rallyists, has a 1/100's adometer. Sue, Ext. 442.

TYPEWRITER - Underwood, standard, delicately aged by experienced typist only, available immediately, \$35. Amanda Harrison, Ext. 301 or 2280.

OIL FILTERS - 2 brand new, fan belt & service manual for 1960-1 Corvair. \$5. G. Meyer, Ext. 2389 or LT 9-5075.

ELECTRIC CARPET SWEEPER - Excell. cond. \$9. Mahogany wall mirror. \$8. R.M. Brown, Ext. 455 or AT 6-1214.

AUTOMATIC WASHER - Hotpoint, about 4 years old. \$20. or best offer. Ext. 2449.

SPEAKERS - 2 Lafayette SK 128, 8 in. speakers in mahogany satellite enclosures. (Size: 14 in. w, 10½ in. h, 7½ in. d). Great for wall of party room. G. Black, Ext. 628.

PUPPIES - Only a few left of these genuine dogs. Give one to your Mother-in-law for Easter. No unreasonable offer refused. Will deliver. Ext. 423 or AT 6-0626.

WANTED

PIANO - Preferably small. J. Smolski, Ext. 651.

16MM SOUND PROJECTOR - Sue, Ext. 442. SHALLOW WELL WATER PUMP - Small-size with motor. Must be in good working cond. Torre, Ext. 423.
