DR. V.P. BOND HONORED BY I.I.U.

Dr. Victor P. Bond, Chairman of the Medical Department at the Laboratory, was awarded an honorary Doctor of Science degree by Long Island University at its commencement exercises on June 14. The degree was presented to Dr. Bond as a "tribute to his outstanding accomplishments in the fields of radiobiology and the application of isotopes for medical purposes."

Dr. Bond received his M.D. degree from the University of California in 1945. Following graduate studies at the University's Donner Laboratory of Medical Physics, he received his Ph.D. in Medical Physics in 1952. He joined the staff of the U.S. Naval Radiological Defense Laboratory in 1948, where he served as Head of the Experimental Pathology group until 1954. During his stay at NRDL, Dr. Bond's studies were concerned with the effects of ionizing radiations in the mammal, and involved investigations at the Weapons Testing Areas in Nevada and the Pacific.

In 1955, Dr. Bond joined the staff of Brookhaven's Medical Department, and became Head of its Division of Microbiology in 1957, where he continued his work in radiobiology and the kinetics of cell proliferation. He was named Assistant Chairman of the Department in 1960, and became Chairman of the Department and Acting Head of its Division of Microbiology in July, 1962.

HAWORTH INSTALLED

AS N.S.F. DIRECTOR

Dr. Leland J. Haworth, who served as Director of the Laboratory from 1948 until 1961, was sworn in as director of the National Science Foundation in a Washington ceremony on Friday, June 28. The oath of office was administered by his predecessor, Dr. Alan T. Waterman, who had headed the Foundation since its creation in 1951.

Dr. Haworth left the Laboratory in 1961, when he was appointed an Atomic Energy Commissioner. He resigned his post on the Commission in order to accept the N.S.F. appointment.

BNL VISITORS

A group of high energy physicists from the U.S.S.R. toured the Laboratory on Monday, July 1.

Members of a special elective science course for high school students from Glenrock, New Jersey, toured the Laboratory on Tuesday, July 2.

4TH + 4 = 8TH (MAYBE)

July Fourth starts the second long holiday of the season. Many vacationers will take to the roads in a ton of steel that killed over 40,000 people and maimed over 3,000,000 men, women and children in the U.S. last year.

Drive carefully! We'd like to see you on July 8th.

FOLK DANCING

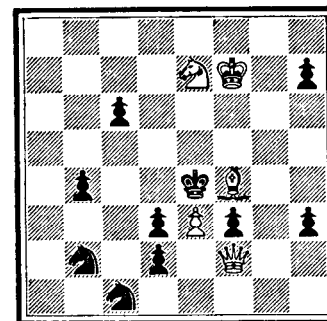

Don't miss out! There is folk dancing every Monday evening from 8:00 p.m. to 11:00 p.m. at the Recreation Hall.

PICNIC VOLUNTEERS

Get ready! A member of the BERA Executive Board will be up to see you at your department to recruit the necessary help to run the picnic. No hot stove work this year - just goody jobs like manning a carnival booth, safety watching, ushering, serving beer or escorting beauty contestants. We still need you and your enthusiasm to make Number 6 "the greatest yet."

This week's problem appeared in the American Chess Bulletin in November. It looks like a sure win for Black, but White is to mate in three moves. How? Answer elsewhere in this week's BULLETIN BOARD.

**CHILDREN'S
SWIMMING INSTRUCTIONS**

Beginning next week, eight classes of non-swimmers, beginners, intermediates, and swimmers are scheduled to take part in our seven-week instruction program. Postings of dates, times and regulations are in the Swimming Pool and Gymnasium as of July 1. To date, approximately 200 children have been registered.

Children should bring bathing suits, towels and thirty-five cent admission fee. Girls are required to wear bathing caps. Children should not bring watches, rings or other valuables which might be misplaced. If they do bring these items, they should be checked with the lifeguards.

It is suggested that a light lunch be eaten by children no later than noon and that they arrive at the pool no sooner than 12:50 p.m. The lesson should begin at 1:00 p.m., and children will be dismissed at 2:30 p.m. Off-site children must remain in the pool area until picked up by parents. On-site

children must remain in the pool area or proceed directly to the apartment area.

It should be remembered that the pool is reserved for swimming classes only until 2:30. After that, it is open for general use.

Parents may like to know that a coke machine is available in the pool and children should bring the proper change, if possible.
