## BERA FILM SERIES

### APARAJITO

Thursday, July 18, 8:30 p.m., Lecture Hall

In this, the second part of the Apu trilogy, director-writer Satyajit Ray carries the broken Brahmin family from the medieval village life of "Pather Panchali" to the modern streets of the holy city of Benares. He tells of Apu's encounter with the school system, and, later, of his experiences in the intellectual environment at the University of Calcutta. Like "Pather Panchali", the haunting quality of the film lies in the fascinating way it is told, the tender and loving development of characterizations, and Ray's ability to transform a commonplace incident into a moment of revelation. The Saturday Review had this to say about "Aparajito": "Although sequels are almost axiomatically inferior to the original, this one is, if anything, stronger than its predecessor . . . There is not only a firmer structural unity, but a clearer line of development, a wider canvas."

## PICNIC PARACHUTES

A limited amount of parachutes, which can be rigged to provide a sun shelter at OPERATION GET-TOGETHER, are available for departments to check out at the Recreation Office.

## TENNIS TOURNAMENT

Action will start this week in the Men's Singles, Men's Doubles and Mixed Doubles events. A schedule of the draw is now posted at the Gymnasium. Participants are requested to stop by and find out whom they are scheduled to play.

## EDWARD REYNOLDS AUI PRESIDENT

On July 10, Dr. G.F. Tape resigned as President of Associated Universities, Inc. to assume his new responsibilities as an AEC Commissioner. Pending the selection of a permanent successor to Dr. Tape, Mr. Edward Reynolds has been elected President to serve until the annual meeting of the Board of Trustees in October. Mr. Reynolds, formerly Administrative Vice President of Harvard University, has been a member of AUI's Board of Trustees since the corporation was organized in 1946. He was also its first President, serving from 1946 to 1948, and again for a brief period in 1961. He was a Vice President from 1961 to 1962.

## CAFETERIA SPECIAL

THURSDAY, JULY 18

Celery & Olives  
Iced Cantaloupe  
Braised Pot Roast of Beef  
Buttered Noodles  
Tossed Green Salad  
Strawberry Shortcake  
Beverage  
Mints & Nuts  
\$.99

## THEATER GROUP CABARET NIGHT

Since the Theater Group's previous plans to present three one-act plays has run into many snags, a simpler summer program is being arranged.

Tony Nappi is assembling a group to present a Cabaret Night. The program will consist of selections from "Little Mary Sunshine" and "Golden Apple."

Solo and choral singers, as well as musicians (e.g., pianists, guitarists, bass or drum players) are needed by the group. So jump on the bandwagon! It'll be a lot of fun and take up very little of your time. Anyone interested should telephone Tony Nappi, Ext. 2374, for details.

## BULLETIN BOARD NOTICE

For all future BULLETIN BOARD questions, please contact Janet Whitehead or Marianne Clasen at the Personnel Office, Ext. 2109 or 2513.

## SOLAR ECLIPSE WARNING

A partial solar eclipse will be observable in this area on Saturday, July 20.

Laboratory employees are reminded that the natural tendency to view the phenomena directly may result in serious, irreversible eye damage. Sunglasses, smoked glass, welding goggles and similar devices **DO NOT** provide adequate eye protection. Unless one is certain of the optical properties of the filter used for direct observation, the eclipse should be viewed on television or by an indirect method. Simple, safe indirect observation systems have recently been described in the NEW YORK TIMES, LIFE MAGAZINE and other publications.

## THE BIG FISH

Dean Campbell and catch.

It seems it never rains but it pours! Since the beginning of July, three fish worthy of note have been caught.

On July 2, George Lowe of Physics caught a 51 lb. white marlin. This is not big as marlin go, but it is the only white marlin caught off Long Island this season!

On July 5, Nick Sowiak of Plant Maintenance went cod fishing out of Montauk. He not only caught a 26 lb. cod, but also a 22 lb. pollack and an 18 lb. bluefish - all on clams. The bluefish is the largest ever entered in our contest and is worth 906 points.

## NEW POSTAL ZONE SYSTEM

A new postal zone system, entitled the Zone Improvement Program, was established by the Post Office Department on July 1, 1963. The new system indicator consists of five digits. For Upton, the ZIP code number is 11973.

Future printings of BNL letterheads, envelopes and other material bearing mailing addresses will have the Upton ZIP code number one space to the right of the last line of the address, i.e., Upton, L.I., N.Y. 11973.

The Post Office Department asks that the new code number, when known, be used in addressing mail, and, particularly, that you include your own ZIP code number whenever giving your address.

## FOLK DANCING

There will be folk dancing every Monday evening from 8:00 p.m. to 11:00 p.m. at the Recreation Hall.

## SCHERMER TEAM WINS AGAIN

For the fourth straight time, Bob Schermer's team has won the BNL team-of-four duplicate bridge championship. Bob and his wife Lennie, partnered with the United States Industrial Champs, Les Lawrence and Sandy Wagner, scored an amazing 83%. All the team members turned in excellent performances.

The runners-up, with a fine 70% score, were Skelly Frei, BNL's individual champion, partnered with Ellie Hedges, and Mr. and Mrs. Bill Conkie.

## AROUND THE BASE PADS

by BOB CARCIELLO

The second round of softball activity is quickly coming to its end, as is the softball season itself. The undefeated Chamber Chaps extended their string to nine games by defeating Kludge, 27-1. That game was probably the best game the Chaps have played thus far. Allowing only three hits, hitting four home runs, and playing errorless ball, the Chaps easily defeated Kludge. Joe Nardi, Ed Sives, and Marshall Jones (2) were the home run hitters in the game. The Chaps were quite busy that evening as they met their "father team," the Bubble Boys, and defeated them 6-5 in an exhibition game. This didn't bother the Bubblers because earlier that evening, thanks to Jerry Andritz's two run tie-breaking home run, the Bubblers defeated the National League leaders, Medical, 9-5. The pennant race in this league is getting tight just as the race for second place behind the Blue Jays is tightening up after Metallurgy handed Cosmotron a 12-10 defeat. The Blue Jays remained untouched as they picked up number nine by downing Cosmotron, 11-5. The Upton Downers won by default over E.A.O., 7-0.

The "Amazin' Mets" of our Laboratory League jumped from a last place tie up into fourth place by edging the Chasers, 19-17. After a shaky first inning, the Potsareebies tightened up their defenses but were not able to overcome the lead gained by the Odd Balls and went on to lose, 13-8.

## THE BIG FISH—Cont'd

On July 10, Dean Campbell (see picture) of Physics caught a 50 lb. striped bass. He was fishing out of Port Jefferson Harbor, using worms. This is the biggest striper we have heard of in this area in many a year!

Meanwhile, you "average" fishermen, the "average fish" award is still open for anyone who cares to enter his catch.

## CLASSIFIED ADS FOR SALE

1959 PEUGEOT SEDAN - 403, dark blue, w/w tires, sun roof, extra heater, 59,000 mi. Very good cond. Owner leaving country, avail. mid August. \$800. N. Odartchenko, Ext. 2910.
