"A THURBER CARNIVAL"

by James Thurber

February 27, 28, & 29

8:30 P.M.

The Theater

Gerhart Friedlander and Dave Rahm, inebriated Christmas shoppers, enjoy the attentions of Eileen D'Arcy and Anne Hyland as a frustrated Bill Hilger looks on.

HARVARD-RADCLIFFE CONCERT

Over the next two weeks, evening visitors to the BNL Theater can feel the excitement in the air as they approach the door. Employees and their families involved in the production of "A Thurber Carnival" are busy occupants of these premises. Immediately after work, the set construction crew arrives. There are furniture and panels to build and paint, Thurber animals to draw and cut out, curtains to hem and hang, lights to position and innumerable other jobs to take care of. The musicians filter in and warm up until there is an interesting jazz session going. Later, the actors and actresses arrive, the lights dim, the musical score begins and another rehearsal is underway.

"A Thurber Carnival" is an appealing musical that was produced in 1960 at the ANTA Theater in New York. It will be performed in our theater by a company of fourteen actors and actresses and three musicians. Their aim is to provide you with an evening of music, dance, humor and wisdom. You can obtain your tickets in advance from the ticket sellers listed on page two.

Adults, \$1.00; Child., \$.50; Guests, \$1.25

BERA'S SECOND ART SHOW A SUCCESS

The second exhibition of BERA members' art work, which opened in the Exhibit Hall on Tuesday, February 11, has been very well received. The first show, held two years ago, comprised the work of 50 contributors; the current exhibit, representing the talents of 72 BERA artists, required the utmost efforts of the hard-working Art Committee in hanging the 148 separate items.

The exhibition will close on Thursday, February 20, at 4 p.m., by which time it is hoped that all interested BNL staff members and their families will have taken the opportunity to visit this stimulating and attractive show. From 4 until 5:30 p.m. on February 20, members of the Art Committee will be at the Exhibit Hall to return the art objects to their owners.

HOLIDAY NOTICE

Friday, February 21, will be observed as the Laboratory Washington's Birthday holiday.

Weekly employees' pay checks will be distributed at the bank on Thursday, February 20. The bank will be open on that day between the hours of 9:45 a.m. to 12 noon, and from 12:30 p.m. to 4:00 p.m.

The on-site bank will also be open on Friday, February 21, from 10:00 a.m. to 4:00 p.m.

BERA FILM SERIES
L'AVVENTURA

Thurs., Feb. 20, Lecture Hall, 8:30 p.m.

The plot of L'Avventura is deceptively simple: during a yachting trip off Sicily, a young woman disappears. Her lover searches for her unsuccessfully, meanwhile falling in love with her best friend. The latter, at the end of the picture, discovers him in the arms of another woman, and in the film's last lingering shot, she is seen touching him in a gesture of pity.

It is safe to say that L'Avventura is a landmark in the history of the cinema. Not only is it an acknowledged masterpiece in itself, but it has had an extraordinary influence in creating a new language of the cinema as well as in developing new film horizons through its profoundly modern technique. Since the 1960 Cannes Film Festival, L'Avventura has been recognized as one of the most important films of modern times, and in a recent survey of 110 film critics throughout the world, it was second only to Citizen Kane as the finest motion picture ever made.

During the film's shooting, Director Antonioni wrote: "I want the audience to work. I ask them to see the film from the beginning and devote their full attention to it, treating it with the same respect they would give any other work of art. The picture develops like a mosaic. Not until the last piece is in place can you see what the whole thing is about."

The rigor and complexity of L'Avventura require the closest attention on the part of the audience and should not be missed by anyone interested in the enormous future of the modern cinema.

FLYING ENTHUSIASTS

There will be a meeting of those interested in flying on Monday, February 24, at 5:30 p.m. in the Recreation Bldg.

An introductory film on required subject matter for the private pilot written exam will be shown. There will be refreshments following the meeting.

SCUBA DIVERS' CLASS MEETING ON FEBRUARY 24

On Monday, February 24, at 8:00 p.m. in the Recreation Building on York Lane, there will be an orientation meeting for all those interested in the Brookhaven Divers' Club scuba course.

The course, which will run for eight weeks, will have its first pool session on Monday, March 2. It is open to all BNL employees and members of their immediate families over sixteen years of age. Subjects in the course will include basic skin-diving, water safety, diving physics and medicine, underwater photography, and many other topics valuable for the diver.

Experience is not necessary in order to take the course, since it will be geared for the novice diver. So, if you have ever had the yen to learn the fascinating sport of skin diving, now is the time to start.

All persons who plan to take the classes must be at the orientation meeting. Equipment for the course and a detailed outline of the eight sessions will be discussed. The fee for the entire eight weeks, including admission to the pool, will be \$8.00, payable before the first pool session on March 2.

Remember the date: next Monday, February 24, at 8:00 p.m. in the Recreation Building. Come on down and join the fun!

BERA EXECUTIVE BOARD ELECTION SETS RECORD

The number of votes cast by employees in the BERA Executive Board election surpassed all previous years' figures. A grand total of 1,350 were received.

Jere Austin, George Jackson and Budd Pollock were elected to serve on the Brookhaven Employees' Recreation Association's Executive Board for a term of two years.

Budd Pollock, of Instrumentation, who is well-known in our bowling circles, has been serving BERA in one capacity or another for a good number of years. His recent contributions include membership on the Awards Committee and Master of Ceremonies for the Comedy Costume Ball.

Jere Austin, Nuclear Engineering, has also had an active career in our bowling leagues. For the past few years, he has served as League secretary and was recently elected to the same post on the Bowling Executive Board.

George Jackson of the Medical Department played with one of our championship softball teams and participated in the Basketball League. He's recently getting experience with his Department's team, which is fighting for first place in the volleyball competition.

The newly-elected members will take office on March 1, joining present members John Binnington, Leonard Baker, and Mildred O'Neill.

We would like to thank at this time the other candidates on the ballot, Jerome Weiss, Albert Prodel and Raymond Stoenner, for their active interest in the Association.

SOFTBALL EXECUTIVE BOARD

A meeting of the Softball League captains was held recently to discuss the setting up of a Softball Executive Board. After a brief discussion, a motion to establish such a board was passed by unanimous vote. The Board will function as an administrative body to determine League policy and procedure.

Bob Jones was elected Board Chairman, and the following were chosen to represent their leagues on the Board: Brookhaven League, Tom Prach and Fred Maye; National League, Tom Lee and Frank Bagamary; Laboratory League, Paul Vosganian and Bob Carciello.

The new Board will hold its first meeting in the near future to discuss plans for the coming season.

BULLETIN BOARD NOTICE

For all future BULLETIN BOARD questions, please contact Janet Whitehead or Marianne Clasen at the Personnel Office, Ext. 2109 or 2513.

RUSSIAN PHYSICISTS VISIT BNL

Seven Soviet nuclear scientists toured the Laboratory on Wednesday, February 12, and met with Brookhaven scientists working in research areas of mutual interest. The seven visitors are experts in the field of solid state physics and are in the United States as part of the overall U.S.-U.S.S.R. agreement on exchange in the scientific, technical, educational, cultural and other fields.

Ten U.S. specialists in plasma physics and controlled thermonuclear reactions are now visiting Soviet facilities. The first official exchange of scientists between the two countries took place in 1960 under the provisions of a memorandum of cooperation in the peaceful uses of atomic energy signed in Washington on November 24, 1959.

The Soviet scientists arrived in New York on February 10, and on the afternoon of the following day came to Brookhaven, where they spent the night. Following their visit here, they left to tour a number of other U.S. research facilities. At all of these, their technical discussions will be confined to unclassified research in solid state physics and related problems. They are scheduled to depart for Moscow on February 25.

Three other exchanges of scientists in the peaceful uses of atomic energy are being planned with the U.S.S.R. for later this year.

ST. PATRICK'S DANCE

The response to earlier announcements concerning the forthcoming St. Patrick's Dance has been overwhelming! Phones in the Physics Design Section have been ringing constantly! The mail sacks have been full with inquiries! Members of the dance committee are being accosted on the streets by anxious crowds!!

Please, folks, we can't sell you tickets in advance. We're very sorry, but that's the rules.

But---Here's what we can do!!!

The first one hundred guests will receive a special gift in keeping with the legend of St. Patrick: a green worm. (We tried to get snakes, but that's the way it is with a small budget.)

There will be special ethnic dances! (We have hired a group of ethnics to perform them!)

Best of all folks, we have been assured that there will be in attendance on that evening no less than three (3) genuine Irish people!!

The date again: March 13, 1964.

TABLE TENNIS TOURNAMENT

Once again it's time for our annual Table Tennis Tournament. The competition to determine our 1964 champions will begin within the next few weeks.

The contest will be of a simple elimination nature, requiring participants to play one match a week at a mutually agreed upon time. Contests will be held in both singles and doubles **if enough entries are received**. Awards will be presented by B.E.R.A.

The playing schedule will be posted in the Gymnasium on March 11, along with the tournament regulations. Competition will officially begin the week of March 16.

A fifty-cent entry fee must accompany your registration for each tournament. Entries are now being accepted at the Recreation Office, 3 Center Street. For additional information call Ext. 391.

Deadline for entries is March 6.

COOKING EXCHANGE GROUP

The next meeting of the Cooking Exchange Group will be held on Wednesday, February 19, at 3:00 p.m. in the Recreation Building. Baby sitting will be provided at a fee of fifty cents per mother. All those who are interested are welcome.
