## BNL IS TOP 1964 DONOR OF SCIENTIFIC LITERATURE TO FOREIGN COUNTRIES

We are informed by the Engineers and Scientists Committee of the People-to-People Program that Brookhaven was the largest contributor of scientific literature to foreign countries during 1964. The donations consisted of scientific and technical books and journals no longer needed by their owners. Such material is distributed to universities and libraries in developing countries. In all cases, the literature is sent selectively to only those institutions that have expressed a specific desire for material in certain fields.

We wish to take this opportunity to convey our warmest thanks to all those at the Laboratory who have donated to this worthwhile cause. The program is continuing, and those wishing to contribute further are invited to contact Dennis Puleston, Ext. 2329, or John Binnington, Ext. 2294.

## ON-SITE BANK HOURS

Starting this week, the on-site Peoples' National Bank branch will remain open during the lunch period on Fridays. Daily Bank hours will be as follows:

**Mon.-Thurs.** 10:00 a.m. to 3:00 p.m.  
**Fridays** 10:00 a.m. to 4:00 p.m.

## THE THREEPENNY OPERA CASTING THIS WEEK

The Threepenny Opera, which goes on the boards at Brookhaven this spring, is casting **now** at the Recreation Hall in the apartment area. That's **tonight** and **Thursday night** (the 14th) at 7:30. Come on over if you want to take part. (You may bring your own music for audition.) And, if not acting, maybe you'd like to work at some aspect of production — stage crew, props, lights, costumes, make-up, etc. Whatever your interest, come to the tryouts, or call Tony Nappi, Ext. 2374.

## THEATRE GROUP MEETING

There will be a meeting of the Theatre Group on Monday, January 25, at 8:30 p.m. in the Recreation Building. The program will be announced at a later date.

## FORTY-THIRD BROOKHAVEN LECTURE

By : Warren E. Winsche  
Chairman, Nuclear Engineering Department  
Title:

"The Ordered-Bed Breeder Reactor"  
Lecture Hall — Wed., Jan. 20 — 8:00 p.m.

The reactors being built today to generate electrical power are based on concepts conceived at least ten years ago. If reactors are to have a significant impact on the electrical power generating industry, they must be more efficient and they must be capable of breeding or creating more fissionable material than they consume. One of the objectives of the Nuclear Engineering Department at BNL is to conceive and develop new reactor concepts that show promise for the future generation of reactors. Dr. Winsche's talk will illustrate how an idea for a new type of breeder reactor is developed into an overall reactor concept. His lecture will explain how a reactor breeds, what an ordered bed is, and how the idea of an ordered bed has been used to arrive at a new concept for a breeder reactor. The talk will demonstrate the significantly different problems that are faced in engineering research and in basic research.

Dr. Winsche returned to BNL in 1962 as Chairman of the Nuclear Engineering Department after spending ten

## BERA EXECUTIVE BOARD ELECTION

At its January 6 meeting, the BERA Executive Board appointed a Nominating Committee which will select a slate of candidates for presentation on the ballot to all employees for the annual election of Executive Board members in February.

The members of the Nominating Committee are listed as follows and will meet to select the slate on Friday, January 15.

Blanche Laskee  
Arden Neber  
James Hallock  
George Betz  
Vincent O'Leary  
Everett Rutan  
Arnold Benson  
John Van Norman  
Grace Fales  
Edward Sayre

## PERSONNEL SERVICES

**RECREATION OFFICE — 3 CENTER STREET**  
Daily 9:00 a.m. — 1:00 p.m.

### Micromet

Micromet (chemicals designed to aid in the prevention of rusty water) will be available through January for resale to employees at a substantial savings.

### Seat Belts

We still have a small supply of seat belts at \$2.75 each.

## STILL UNDEFEATED

Once again the Lab Rifle Team went out to meet the challengers and once again came out victorious. This time it was the famous IBM and Grumman "B" teams which bit the dust. In the IBM mishap, both teams went to the range undefeated; but due to Roy Domish's 183, Al Lucas' 180, John Jacobs' 176, and Pete Fallon's 175, the Lab came out on top.

At the Grumman match, the BNL Hot Shots, Pete Colombo, 186, George Barton, 182, Roy Domish, 181, and Al Lucas, 179, grounded the Fly Boys. Another job well done by the men of the thunder sticks!

Next week's opponent will be Sperry. In the last match with them, only ONE point was the deciding factor. Hope I still have good news to report after the smoke clears!

## BERA CONCERT SERIES MIECZYSLAW HORSZOWSKI, PIANIST

**Tuesday, January 26, 1965  
Brookhaven Center — 8:30 p.m.**

The program will include Sonata in B Flat Major, K 570, Sonata in D Major, and K 576 by Mozart; and Sonata in B Flat Major Opus 106 (Hammerklavier) by Beethoven.

The admission charges are as follows: Adults, \$3; Children, \$1.50; and Non-employee Guest, \$3.50.

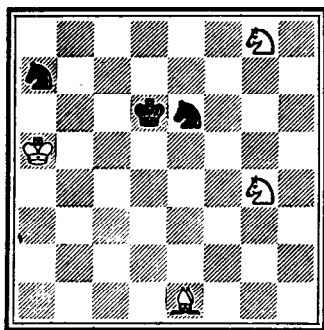

There will be a special concert on Tuesday, February 9, 1965, by Betsy Palmedo, soprano. Details will be announced at a later date.

## PICNIC

Shortly after Operation Get-Together No. 7, at discussion meetings concerning our past and future picnics, the Picnic Committee and the BERA Executive Board approved the recommendation to schedule the picnic on alternate years. High on the list of reasons for the decision was the desire of all to once again include food in the picnic menu. The plan is not to substitute the food for the entertainment highlights we have developed these past years, but to add it to our present program without increasing the cost of admission. It was felt the funds accumulated during the intervening year, 1965, put to this use would enable the committee to present the most popular picnic to date.

## CHESS PROBLEM

In this week's problem, it is White's move and win. Solution elsewhere in the BULLETIN BOARD.

## COOKING EXCHANGE GROUP

The group will meet on Wednesday, January 20, from 3 to 5 p.m. in the Recreation Building, BNL Apartment Area. Quite a few demonstrations will be given. All who are interested, on or off the site, will be most welcome. For further information, contact Joy Johnson at SH 4-5378 or Norma Chernick at GR 5-0168.

## ALIEN ADDRESS REPORTS DUE IN JANUARY

The U.S. Government requires that aliens who are in the United States on January 1 of each year shall report their addresses **during the month of January**. This is required even though the alien has not changed his address since the last report.

The parent or legal guardian of alien children under fourteen years of age must report for these children.

Any alien who is temporarily absent from the country on January 1 must report his address within ten days after his return to the U.S.A.

### What To Do

Aliens may go to any U.S. Post Office or to any Immigration and Naturalization Service Office and ask for the Address Report Card, Form I-53. When the card has been completely filled in and signed, it should be handed to an employee in any Post Office or Immigration and Naturalization Office. The card **should not** be folded or torn and **should not be mailed**.

### Information Needed

In addition to his address, an alien reports the date and place of entry into the United States, the date and place of birth, nationality, and most important—his alien registration number.

### Alien Registration Number

An alien's registration number is the number preceded by the letter "A" appearing on his alien registration receipt card.

Aliens admitted temporarily to the U.S. should write "NONIMMIGRANT" in the space provided on the report form for showing the registration number.

If the alien is a newly-arrived immigrant who has not yet received his alien registration receipt, he should write "NOT RECEIVED" in that space.

If an alien has lost his receipt, he should write "LOST" in the space and immediately apply for a new receipt at the nearest office of the Immigration and Naturalization Service.

### Penalties

Remember that severe penalties may be imposed upon those persons who willfully or inexcusably fail to report

**REGISTER DURING JANUARY!**

## FOLK DANCING

There will be folk dancing on next Monday night, January 18, at 8:00 p.m. in the Recreation Hall. The welcome mat will be out for everyone, no matter what his folk dancing experience.

## LEARN TO SWIM

Classes are now being organized to teach you to swim, or if you're struggling along, to swim a little better.

**Adult classes** are offered to employees and their wives or husbands. Lessons will be held at the pool on Wednesday evenings at 6:00 p.m. beginning February 3. Each session will be one hour long, once a week, for a period of seven weeks. The fee for the entire course will be \$4.00 per person. Please register as soon as possible. Registration fee must accompany your application. Send or bring to G. Sabine, 3 Center. (Make checks payable to B.E.R.A.)

**Registration deadline is January 22**

## SWIMMING POOL

**Hours** — 7:00 - 10:00 p.m. on Tuesday, Wednesday, Thursday, and Friday  
**Admission** — Employee (family member), \$35. Guests, \$60

**Season Tickets** — Valid to mid June. They are still a bargain. Employee, \$5. Family, \$10.

## SPECIAL BOWLING EVENT

A High Individual Gross Game Special Event is being sponsored by the BERA Bowling Board during regular BNL league bowling.

### Week of January 25

Qualifying Night: All bowlers compete; highest gross game on each team eligible for roll-off.

### Week of February 1

Roll-Off Night: All previously qualified bowlers compete; highest gross game in each league and in all BNL leagues will be determined from games rolled during this week.

### Prizes

All BNL League Champion — \$25 Savings Bond. Individual League Winners — Bottle of champagne.

**See your League secretary for details!**

**Forty-Third Brookhaven Lecture—Contd.**

years at the Savannah River Laboratory. There he made significant contributions to the chemistry and engineering of separation processes in the purification of reactor fuels and the production of special isotopes. His guiding role in developing the concept of the ordered-bed reactor makes it appropriate for him to be the spokesman for this phase of research in the Nuclear Engineering Department.

A buffet supper (\$3.00) will be served at the Brookhaven Center before the lecture, beginning at 6:00 p.m. Reservations should be made at least one day in advance by calling Ext. 2302 before 5:00 p.m. or Ext. 2453 in the evenings.

Refreshments will be available in the Research Staff Lobby following the lecture.

**JUNIOR LIFE SAVING CLASS**

Registration is now being accepted at the Recreation Office for children (ages 12 to 15) of employees interested in joining our Junior Life Saving course which will be given at the Pool on Monday evenings at 6:00 p.m. beginning on February 1.

Red Cross certificates will be presented to those who meet the necessary qualifications at the conclusion of the lessons. Each lesson will be one and one-half hour long and the class will meet once a week for a twelve-week period. Registration fee for the entire course is \$9.00 per student. An American Red Cross Junior Life Saving Manual (cost included in fee) will be distributed to each class member.

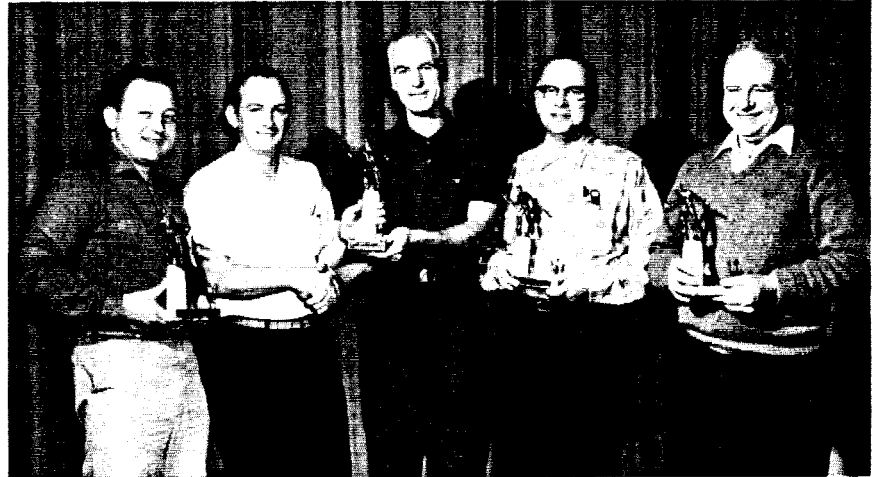

Obviously, a certain degree of swimming proficiency is required to be eligible for the course. The minimum requirement is ability to swim 75 yards in reasonably good style.

The first session on February 1 will be devoted to qualifying tests. Should a student fail to meet the necessary standards, his registration fee will be refunded.

Since the size of the class will be limited, please register early. Applications must be accompanied by the \$9.00 fee. (Make checks payable to B.E.R.A.)

**The registration deadline is January 22**

**FISHING WINNERS RECEIVE AWARDS**

1964's Fishing Contest winners receive their BERA trophies from Chairman John McCafferty (center). Left to right they are Richard Nedosik, James Gallagher, Jose Ferrer, and George Stoll.

A round of applause goes to John McCafferty from BNL's fishermen for his fine job as committee chairman.

**SET SHOTS**

Action resumed this week in the Laboratory Slo-Break Basketball League after a two-week holiday break. On Wednesday night the Dirty Sox continued their winning ways, taking Applied Math 51-16. Mike Zguris (17 points) and Tommy Lee (10 points) led the Dirty Sox. Steve Lewkowitz scored 8 for the losers.

Thursday night presented two close, well-played games. The Old Timers held off a re-vitalized Physics team by a 33-27 score. Carl Klamut again led the Old Timers with 12 points while Jimmy Brandon scored 8. When Captain John Pontieri had to leave the game with a charley horse late in the second half, Andy Cendrowski, his capable replacement who had four fouls at the time, managed to finish the game without committing another. John Capute scored 9 points for the Physics team and Jerry Andritz had 8.

Jack Van't Hof came off the bench in the second half to rally a tired Biology team which went on to defeat Nuclear Engineering 29-21. Jack and Red Carsten each had 7 points and Nick Combatti 6 points for the winners. Morse of the Nuclear Engineering club was high man for the night with 10 points.

The standings after the first third of the season are:

	WON	LOST
Dirty Sox	5	0
Biology	4	1
Old Timers	3	2
Applied Math	2	3
Nuclear Engineering	1	4
Physics	0	5
