## BERA FILM SERIES

### THE SUITOR

Starring Pierre Etaix

Thurs., April 1 Lecture Hall 8:30 p.m.

#### SYNOPSIS

Pierre Etaix, "The Suitor", lives immured from the world in his parents' home in Paris, snowed in by his books, charts, and impedimenta of his scientific hobbies. Papa and Mama, who have charming foibles of their own, are concerned about Pierre's bachelorhood. One day Papa is able to persuade Pierre to go out into the world to find a wife.

With characteristic abandonment to the new idea, Pierre sallies forth, dressed like a boulevardier, to try to discover and woo a mate.

He is involved in fantastic gaucheries in the park, on the street, in a nightclub. He eventually becomes enamoured of Stella, a television star, and embarks on a fantastic rampage to make her his own. After a series of wildly funny misadventures, he arrives backstage in Stella's dressing room. Result? Disillusionment! Catastrophe!!

Pierre Etaix, the writer, director and star of "The Suitor", has sky-rocketed to popularity as a comedian and has been described as the heir to the tradition of the golden age of comedy. His chain gags build and build. His story is made up of funny touches and wry social observations, with dialog reduced to a minimum. He keeps his audiences wondering what the next surprise will be. Writes the New Yorker, "Etaix has judiciously ransacked the archives of early American comedy, plucking what he fancies from the work of such founding fathers as Chaplin, Lloyd, Langdon, and Keaton, and, thanks to his being of a much later generation, to his being French, and to his own undoubted talent, he has made something wholly new and delightful out of his magpie gleanings."

"Hilarious."

"A comic delight." SATURDAY REVIEW

## TUITION REFUNDS

Those requesting tuition refunds for the 1964 fall semester are asked to submit to the Personnel Office as soon as possible their bursar's receipts and transcripts.

## MARVIN FOX DIES

Marvin Fox, former Chairman of the Reactor Department, died suddenly on March 19 of a heart attack. For the past five years he had been a senior scientist and manager of the Arms Control Programs of Hughes Aircraft Company in Culver City, California.

Dr. Fox was born February 1, 1910, in Cleveland. After obtaining a B.S. degree (1931) at Carnegie Institute of Technology, he was awarded an M.A. (1932) and a Ph.D. (1936) in Physics by Columbia University for studies on nuclear moments and atomic beams. He remained at Columbia until 1937, collaborating with Prof. Harold Urey in isotope separation studies. In 1942, he joined the Radiation Laboratory at MIT, then subsequently returned to Columbia in 1944 where he worked in the S.A.M. laboratories.

Dr. Fox joined the BNL staff as a Senior Scientist in early 1947, soon after the Laboratory was founded. As an Assistant Chairman of the Reactor Science and Engineering Department, he bore major responsibility in the design, construction and startup of the graphite reactor. From 1952 to 1957, he was Chairman of the Reactor Department. During his years at Brookhaven, Dr. Fox was a strong and outspoken advocate

## WILLIAM FLOYD PARKWAY NOTICE

The Laboratory has received from North Shirley a letter containing the following message:

We realize that your employees are in a great hurry to get to work, and the same going home, but we do have a large number of children living in the area who must use the intersections to cross William Floyd Parkway. We would appreciate it if you would advise your employees not to exceed 50 miles per hour - and to please slow down at the intersections.

While the speed limit on the Parkway is 50 mph, due caution should be exercised at its intersections. Lab employees are asked to be careful to respect the interests of our neighbors living on the Parkway between the railroad bridge and Sunrise Highway.

## TEN YEAR SERVICE PIN AWARDS March, 1965

During the month of March, the Laboratory awarded pins and certificates to five employees in recognition of their completion of ten years of service at B.N.L. The employees are as follows:

WILLIAM BORNSTEIN	Nucl. Engineering
ELIZABETH EDWARDS	Information
JOSEPH FORREST	Nucl. Engineering
ROBERT GOTTSCHALK	Cosmotron
DOMINIC GRACIA	Central Shops

## FREE TRANSPORTATION TO PATCHOGUE

By calling Ext. 585 on Mondays or Thursdays, on-site residents may request transportation to Patchogue for shopping on Tuesdays or Fridays. The car will depart from the school bus shelter in the Apartment Area at 9:00 a.m. and will leave Patchogue at noon for the return trip.

## COOKING EXCHANGE GROUP

The Cooking Exchange Group will meet on Wednesday, April 7, from 3:00 to 5:00 p.m. in the Recreation Building. June Adams and Judy Chanana will highlight the meeting by demonstrating and serving a typical English tea. Babysitting service will be available, as always, for fifty cents per mother.

## BERA SPECIAL EVENT

# PEARL BAILEY

**Saturday, April 3, 1965**

**The Brookhaven Theater**

Saturday, April 3, **this Saturday**, is the night of the big BERA Special Event – Pearl Bailey's "one-man" show – at the Brookhaven Theater starting at 8:00 p.m. The theater will open at 7:15 p.m.

A press-time check shows that 85% of the tickets have been sold, so at this writing it is anticipated that none will be available at the door – or even at the end of the week.

If you don't have your tickets yet, this is the last call. If you do, enjoy the show.

Your BERA Executive Board is interested in your reaction to this special event, as they will undoubtedly be planning more for the future. They will welcome your suggestions. Don't be bashful! If you have any ideas, drop a note to the BERA Board, c/o the Recreation Office.

### MAKE A NIGHT OF IT

The Brookhaven Center will be open on Saturday, April 3, at 5:00 p.m. Dinner will be served before the Pearl Bailey performance. Though not required, dinner reservations would insure your accommodation. Call Ext. 2302 to make them. The Tap Room at the Center will remain open until 12:30 a.m.

### BERA BASKETBALL LEAGUE

With the second half of the season coming to a close, it looks like the Old Timers are on their way to being the second half winners. On Thursday night, they defeated the second place Physics team 38 to 30. Skelly Frei had 8 points for the winners while Jerry Andritz had 12 for the losers.

In the other game last week, Nuclear Engineering, with a balanced attack, upset the Biology team 31 to 29. Tom Prach had 10 points and Bob Champagne and Steve Feldberg each had 8 for the winners. Bill Studier had 10 points for the losers.

The second half standings are:

	WON	LOST
Old Timers	6	0
Physics	4	2
Dirty Sox	4	2
Biology	2	4
Nuclear Engineering	2	6
Applied Math	1	5

### BERA OFFICERS ELECTED

At its March meeting, the BERA Executive Board held its annual election of officers. Those chosen to serve for a period of one year are:

President	BUD POLLACK
Vice President	JERE AUSTIN
Secretary	MARY KINSLEY

### MARVIN FOX – (cont'd.)

of the peaceful applications of nuclear technology, and was instrumental in achieving the sweeping declassification of the non-military aspects of atomic energy which took place in 1955. He also made important contributions towards bringing private enterprise into nuclear sciences by organizing one-week seminars for business executives in connection with the National Industrial Conference Board. In 1956, he led a U.S.A.E.C. investigation committee that surveyed nuclear research needs and capabilities in Asian countries of the Colombo Plan, a program for technical aid.

After leaving BNL in 1957, Dr. Fox became vice president of Internuclear Company and served in Rome for two years. In 1959, he directed the Sodium Reactor Department of Atomic International, a division of North American Aviation.

A memorial fund has been established to honor Dr. Fox' memory. Contributions may be sent to the Marvin Fox Memorial fund, c/o Robert Powell, B.N.L.

### 3PO (FOR MEN ONLY)

Although "3PO" is completely cast, Director Tony Nappi would like additional men to fill out chorus numbers and mob scenes on stage. Beggars all, the roles require no speaking, but a great deal of intense silent characterization.

If you sing in the shower; if anyone at any time has ever told you that you should be on the stage; if you enjoy the high-spirits of play-acting; if you are eager to wear the sumptuous rags created by our talented costume designer; and above all, if you'd like to lend a helping hand, call Tony on Ext. 2374.

### RIFLE TOURNAMENT

Riflemen, get your equipment ready! The spring tournament begins on Sunday, April 4, at 2 p.m. on the North Tract Range. New members are welcome but must join the club in advance. Any caliber rifle may be used with either a scope or iron sights. For added zest and variety, we have decided to shoot from the 200 yard line this spring. For additional information, contact A. Lukas on Ext. 7769 or J. Jacobs on Ext. 2958.

Notice! All members must pay their dues by March 31 or be dropped from the roster. The fee for new members is \$5, and renewals paid on time are \$3.

## 1965 BNL FISHING CONTEST USE YOUR GUISE AND WIN A PRIZE

**Go Fishing!** Combine sport and fun with prizes. Support your 1965 BNL Fishing Contest by entering your fish, "average" or "big." This year's new ideas include a BNL Fishing Derby, a Movie Fun Nite, and a Question and Answer Evening with noted conservation authorities. Watch for further announcements. Remember, average or great - **PARTICIPATE!**

The fishing contest caters to the **Average Fisherman**, with a bi-monthly award for the average fish caught during the two-month period. The average will be arrived at by tabulating all the points for the period and dividing by the number of entries. Anyone who enters a fish has a chance of winning a prize. Of course, there are other prizes, including awards for surf, boat and fresh water fishing.

The rules follow. Please read, cut out the entry blank, enter and win! Extra copies of entry blanks, rules and fish weights are available at the Recreation Office. See George Sabine or this year's committee chairman, John McCafferty, Ext. 482.

### 1964 BNL FISHING CONTEST RULES

1. Any fresh or salt water fish contained in the BNL 1964 List of Species is eligible for entry.
2. All entries must be caught by rod and reel.
3. All entries must be submitted within one week after the fish is caught.
4. Each entry must be weighed on a scale which is calibrated in ounces. This type of scale is available at any grocery or meat market.
5. Decisions of the contest committee are final.
6. The contest begins April 1, 1965, and ends on November 30, 1965.
7. To compute the point value of a fish, the weight of the fish will be divided by the 1965 BNL Listed Weight for that species, and multiplied by 1,000.
8. **Awards**
  - a. One award for the highest entry for every **two month** period starting April 1.
  - b. One award for the average entry for every **two month** period.
  - c. An annual award to the person who achieves the greatest accumulation of points as follows: each person's largest single entry in each species will be totaled toward his accumulation of points. - **Fisherman of the year**. An individual cannot win two consecutive years.
  - d. One annual award for each of the following:
    1. Highest saltwater entry caught trolling or bait fishing.
    2. Highest saltwater entry caught casting artificial lure.
    3. Highest freshwater entry.
  - e. Annual awards limited to one per employee.
  - f. Bi-monthly awards limited to two per employee, not both in the same two month period.
9. To be eligible for an **Average Fish** award, a total of at least three entries is required (**not by the same person**) in each two month period. The same applies to the highest entry if each of the fish entered is under 200 points. Only the largest fish per species, per person, counts toward the **Average Fish** award.
